

THE NEW YORK STRIKE.

Several Conflicts Between the Mob and Police.

TRACKS BLOCKED AND TORN UP.

Park Avenue Hotel Waiters Side with the Strikers and Boycott the Policemen.

Associated Press Dispatches to the HERALD.

New York, January 30.—The street-car tie-up continues. This morning the strikers overturned a wagon on the Grand street tracks. A portion of the police reserves were called out and dispersed the mob. Trouble is feared. Only a few cars will be run to-day. A car on Sixth avenue started at 9 o'clock, guarded by three policemen. At Bleeker and Carmine streets they were overpowered by a mob and the car was overturned. Police headquarters has been asked to send assistance.

Large crowds of strikers and sympathizers began to assemble early at the stables of the belt line. Additional police arrived and cleared the sidewalk. The excitement is at fever heat. It was said that if the cars started there would be bloodshed, because the strikers are getting desperate. Two thousand five hundred police are on duty. The Broadway line will start cars at noon. At 11 o'clock the strikers gathered at Bedford and Carmine streets and overturned half a dozen wagons on Sixth avenue tracks, and compelled ashmen to dump loads on the track. Milk cans and paving stones were scattered along the entire block. Policemen on duty were roughly handled till a relief squad arrived and dispersed the crowds.

At noon a Belt Line car left the stables, escorted by 250 policemen. At Fifty-ninth street the tracks were found obstructed. The car returned to the barn and no more will be sent out.

Forty trips have been made on the Grand-street line. The cars were followed by jeers, yells and sometimes showers of stones. Many of the strikers are drunk and declare that the cars must stop, even if lives are lost in doing it. Serious trouble is feared. It is rumored that the horse-shoers of the Sixth-avenue line have been called out.

The strikers this afternoon obstructed the Broadway tracks and tore up the rails at Forty-fifth street, and escaped before the police arrived. The tracks at Sixth avenue and Forty-eighth street were also obstructed. The State Board of Arbitration is here, but has taken no action. The State Railroad Commissioners are hearing the grievances of the strikers.

BROOKLYN, January 30.—The street-car tie-up continues. Minor assaults are frequent, but there is no serious trouble.

New York, January 30.—The determined efforts of the strikers to check the running of the Third avenue cars has been entirely unsuccessful, and this is a very disquieting feature to the strikers. Many of them are getting weak-kneed. The car Company to-day secured a large number of new men, and additional efforts to start cars will be made in the morning.

The waiters in the Park Avenue Hotel this evening refused to serve food to the policemen who were sent in there, and the officers had to get food elsewhere. Judge Hilton, who controls the hotel, declared to-night that he would close up his house sooner than have a repetition of such work.

At Third avenue and Ninety-Eighth street, at 4 o'clock this afternoon, three cars manned by "scabs" were attacked and overturned. Stones and other missiles flew in volleys at the drivers and conductors, but a determined charge by the police dispersed the crowd, and the ringleaders were arrested.

A Fourth-avenue car was attacked on Seventy-seventh street by a crowd hidden behind a brick pile. They pelted the car with stones and bricks, breaking all the windows but not injuring the occupants.

Many of the strikers were paid off to-day and there is a great deal of drunkenness to-night, which is disquieting to the police.

A BIG LAW SUIT.

The Sanity of the Seller Clearly Established.

FRESNO, January 30.—In the celebrated land case, in which the wife of Jeremiah Clarke, now insane, sought to have set aside a contract given to Heilbron et al., in May, 1880, to purchase Laguna de Tache grant, 54,000 acres at \$3 per acre, any time before 1894, on the ground that Clarke was insane when the contract was made, the defense to-day practically settled the question of Clarke's sanity by producing thirty-three letters written by him at short intervals from July, 1879, to October, 1881. One letter was dated April 26, 1880, four days before the contract was made. All the letters show that Clarke was perfectly sane at the time. The grant is now worth \$3,000,000.

OUR NEW ROAD.

The Contract is Let and the Work

SAN FRANCISCO, January 30.—It is announced that the contract has been let for building the Salt Lake and Los Angeles line, and work has been commenced on the grade. Donald McLean, of Salt Lake City, is the contractor. He says that the Wyoming and Pacific Improvement Company, made up of New York capitalists, is behind the enterprise, and that the road, 930 miles long, will be finished in two years.

Higgins Visits Harrison.

INDIANAPOLIS, January 30.—General Harrison had a number of prominent visitors to-day, the chief of whom was Hon. Anthony Higgins, Senator-elect from Delaware. Higgins spent over an hour in consultation with the President-elect. He suggested the name of General James H. Wilson, of Wilmington, Del., for Secretary of War. Louis Altbeimer, of Pine Bluff, Ark., a wealthy planter, came to endorse and urge the recognition of General Powell Clayton for a place in the Cabinet. A sad accident marred his visit, for he is next-door neighbor and bosom friend of the Hon. John B. Clayton, who was assassinated last night at Plummerville, Ark. The news reached him early this morning. General Harrison was profoundly affected.

A Plea for Our Shipping.

WASHINGTON, January 30.—The American Shipping and Industrial League began its annual session to-day. General Pitkin, of Louisiana, made the opening address, which was a strong argument in favor of government aid to American

shipping by subsidy and by discrimination in its favor. He regarded the re-establishment of American shipping as of the utmost importance to our national prosperity.

THE STATE LEGISLATURE.

Work Said to Be Done by the Senate at Sacramento.

SACRAMENTO, January 30.—The Senate met at 11 o'clock. The Committee on Attaches and Contingent Expenses recommended the appointment of additional clerks for the Judiciary and Corporation Committees, also appointed a janitress, and recommended the abolition of the office of assistant postmistress.

The following bills were introduced: By Bowers, providing for assessment of all real property in the name of the owner as shown by deeds and transfers in the several counties; also a bill fixing the salary of the Governor's secretary at \$2,000 a year; by Goucher, fixing the mode of appointment to fill vacancies in the irrigation districts and assessment of real property; by White, to amend the penal code, abolishing fees of the Supreme Court Clerk in appeals; by Sinshaw, increasing the salary of the Assessor of counties of the fifth class to \$4,500 per year; by Langford, providing improvements at the Stockton Asylum.

Bills passed as follows: To amend the Penal Code by adding a clause requiring the evidence of a female seduced be corroborated.

To repeal the act to punish seduction. To amend the Penal Code relating to inauguration of criminal prosecution before a magistrate.

To amend the Civil Code relating to the question of fraudulent intent as affecting conveyances of realty and relating to transfers of property without consideration.

To amend the Civil Code by adding a new section relating to corporations.

THE ASSEMBLY.

SACRAMENTO, January 30.—In the Assembly this morning, Hyde, of Alameda, objected to placing the resolution, approving the Oakland charter, on special file. He said it had been placed there without authority and he moved it take its regular place on the general list. The Speaker pro tem ruled that the resolution was in its proper place and Hyde appealed from the decision of the Chair. The Chair was sustained by a vote of 64 to 13.

The Assembly joint resolution providing for the election of United States Senators by direct vote of the people, was next considered. The Committee on Federal Relations had presented two reports thereon, the majority against and the minority favoring the passage of the resolution. A long discussion ensued, and the minority report was substituted for the majority report, by a vote of 55 to 23. Before a vote was taken on the passage of the resolution, a recess was taken.

When the Assembly re-convened the resolution relative to the election of United States Senators was adopted.

Briefly presented a petition from the citizens of Los Angeles county protesting against the passage of the bill creating the county of Orange.

The Committee on Ways and Means reported against the passage of the bill appropriating \$250,000 for an exhibit in London of the products of California.

The Senate joint resolution approving the charter of the city of Oakland was adopted; yeas 61, noes 19.

The Assembly bill to create the county of Glenn came up, and there was a long siege of filibustering on the part of those opposed to the measure. Finally, the bill was made the special order for tomorrow morning.

SACRAMENTO, January 30.—The Committee on Claims to-night considered favorably the deficiency salary claims of the secretaries of the Supreme Court Commission for three years; also the deficiency in the State Engineer's salary, amounting to \$3,200.

John B. Clayton's Remains.

LITTLE ROCK, Ark., January 30.—The remains of John M. Clayton were brought to this city to-night, and were met at the depot by the Knights Templar Commandery and a vast concourse of people, and escorted to the commandery asylum, where they will lie in state until to-morrow, when they will be taken to Pine Bluff for interment.

PINE BLUFF, Ark., January 30.—A public meeting was held at the Court House this afternoon to consider the matter of the assassination of John M. Clayton. There was an immense attendance and appropriate resolutions were adopted. The Court House is draped in mourning.

Terry's Credits.

SAN FRANCISCO, January 30.—Judge David S. Terry will on Friday make a demand on Sheriff Hale to be released from the Alameda County Jail. District Attorney Reed having decided that he is entitled to thirty days' credits for good behavior. The Sheriff is in a quandary, as United States District Attorney Carey's advice is to the contrary. The Sheriff will probably, however, allow the prisoner his freedom. It is stated that when this is done, Terry will immediately be re-arrested on criminal indictments pending against him in San Francisco.

A Stabbing Affray.

SAN DIEGO, January 30.—George Minoli was stabbed this evening while eating dinner at the Garibaldi Hotel. He was attacked by Manuel Campi and Louis Tonini for a remark made about a 9-year-old girl. The witnesses say Tonini struck Minoli with a hammer and knocked him down, when Campi stabbed him twice. Minoli is not expected to live.

The Oarsmen Sign Articles.

SAN FRANCISCO, January 30.—Articles of agreement between Jake Gaudaur and Win. O'Connor, for a three-mile scull race, in the waters of San Francisco Bay, for the American championship, were formally signed to-day, and the time fixed at March 3d.

Creature Comforts.

Los Angeles people no longer need be at a loss as to where to go for the refreshment of the inner man. Mr. Thos. J. Cuddy, the whilom Chief of Police of this gay burg, has opened a place of refreshment on First street, just west of Spring, which answer all demands fully. It is one of the most costly artistic resorts in the land, and it is presided over by a prince of good fellows. Here is a little acoustic some literary friend of royal Tom wrote for the opening last night:

Tell me where's the snugest bar— Here or elsewhere? 'Tis not far, On First street, just from Spring street west, But you'll find it if you drink the best. Aid swear such wine was never poured Since Noah got as full's a Lord. Just one sample will convince. Cuddy treats you like a prince. Unto all the "Chief" does give. Drink, "by which a man may live;" Drink from grape and drink from grain; You cannot help but call again.

BASTING BISMARCK.

A Sharp Criticism of His Manners and Methods.

HE A CYNIC, HIS SON A RAKE.

Prince Bismarck Wanted the Cancer in Kaiser Frederick's Throat to Hurry Up.

Associated Press Dispatches to the HERALD.

LONDON, January 30.—The Contemporary Review has a long anonymous article on "The Bismarck Dynasty," in which a disagreeable attack is made on the methods of the Chancellor, and Count Herbert is given a severe scolding. His youthful brawls, intrigues with women, etc., are gone over and commented on. The article affects to dismiss, as an uncalled-for insinuation, the idea that Prince Bismarck wished for the death of the Emperor Frederick, but lays stress on the fact that the idea that his ascendancy might be replaced by that of the Empress Frederick was a nightmare to the Chancellor. He furthermore knew, from Frederick's refusal to discuss State matters with Herbert, that the latter would never succeed his father. "Who could, therefore, be surprised," asks the writer, "had Bismarck wished the cancer to make haste?" The article also severely criticizes the present Emperor, and calls him an apt pupil of a cynical master, who found no difficulty in treating his mother in a manner after Count Herbert's own heart. The article is generally attributed to Sir Morell McKenzie, and it is supposed to have been inspired by the Empress Frederick.

PRINCE RUDOLPH'S DEATH Believed to Have Resulted From a Fall.

VIENNA, January 30.—The official announcement that apoplexy was the cause of the death of the Crown Prince of Austria, has modified the alarm at the populace arising from a rumor that the Prince had been killed while out shooting, as he went on a shooting excursion to Meyerling on Monday, accompanied by several guests. On the announcement of his death, the Reichsrath adjourned amid great excitement. The Court theaters and all places of amusement are closed this evening.

Many persons here still refuse to believe that his death resulted from apoplexy. All kinds of rumors of his being shot, by accident or design, are current. The Crown Prince always ate and slept with his bedroom door ajar, but on the morning of his death his door was found locked. This fact is the subject of much comment. Archduke Charles Louis, the Emperor's brother, is now heir presumptive to the throne. He has three sons, Archdukes Francis, Otho and Ferdinand. It is stated that Archduke Francis resigned his rights to the succession upon inheriting the Duke of Modena's property and that, consequently, the Archduke Otho is the next heir. It is thought, however, that Francis' resignation is only conditional.

Floquet to Appeal to the Chamber.

PARIS, January 30.—Floquet, in re-ceiving the bureau of the extreme Right, said he had considered the advisability of resigning, but had abandoned the idea of deciding, in the face of the intrigues and attacks of his opponents, and would ask the Chamber for a vote of confidence.

The bill re-establishing the scrutin d'arrondissement system of election, he announced, would be introduced upon the opening of the Chamber to-morrow.

Big Bertha Again On Trial.

SAN FRANCISCO, January 30.—The second trial of Mrs. Bertha Stanley, the "Confidence Queen," on a charge of obtaining money and jewelry under false pretenses from William Gruhn, a jeweler, began to-day.

In the Stone Jug.

DUBLIN, January 30.—O'Brien was incarcerated in Clonmel prison this afternoon.

Italian Method of Singing.

It is an acknowledged fact that the greatest singers the world has produced have been those who have been taught in the old Italian school, and very few really eminent singers now before the public, such as Mme. Trebelli, Mr. Sims Reeves, Mme. Adelina Patti and one or two others, are all of them proficient in this method. It is lamented that whereas, at the present time, there are naturally as many fine voices in the world as ever, there are very few really great singers. Passing over many of the causes of the present deterioration of the vocal art, such as the influence of the Wagnerian school and the decline of Italian opera, which are more or less irrelevant to our object, we will give the foremost place to that which is certainly the chief among them—namely, the want of an obligatory course of thorough training in the mechanism of singing before the higher part is reached, and the almost total extinction of the long line of great vocalists in this country, but in Italy itself. The Italian maestri of the past considered that it was absolutely necessary for a singer, if he or she intended to become eminent, to devote at least from five to six years' study to this great art. As a rule, the first two or three years were employed in forming the voice and in teaching the elementary exercises and softening, after which the pupil was allowed to sing songs, ballads and operatic pieces. The highest aim, it would seem, of the majority of our young singers, in their earnest desire to begin to earn a livelihood for themselves, is to acquire at the end of six months' study under an indifferent teacher a knowledge how to sing half a dozen ballads tolerably well, after which they usually consider themselves accomplished artists. The public, which is no longer in touch with really great singing, applauds them, and they go the rounds of England and America with their limited repertoire, and, fortunately for themselves, but unfortunately for true art, are able to make a fair living. Greatness they can never achieve, because greatness in singing, as in every other art, can only come with patience, time and hard work.—[Saturday Review.]
