

ham and Burns' are in for a continual roasting from now on.

The governor is severely criticized for allowing Burns to use him as a tool in dismissing Brown from the registrarship in San Francisco, and even Brown's enemies say that Burns is an ingrate. He is said to have supported him for a long time after his disgraceful trial for maladministration of the secretary of state's office, and even furnished him with money to go to Mexico, where Dan made his state. But gratitude is not one of Burns' virtues, and in order to make a place for a relative poor Brown, who has been a willing tool in office, and a faithful friend outside, must be thrown on the mercy of a cold world.

seemments; also relating to the duties of auditors. The Senate is providing for the restoration and preservation of fish in the waters of the state. By Chipman—Relating to the election of trustees of reclamation districts. By Godchaux—Authorizing the erection and furnishing of armories for the national guard, and for the issuing of bonds for the payment of the same. By Johnson—Providing that the national guard shall not exceed 67 companies. The bill removing the limit on the mortgages on household goods was read a second time. Adjourned at 4:15, after a lively tilt between Shanahan and Bledsoe on a question of privilege, in which the Senate member referred to a statement by Bledsoe as an "unqualified lie."

SENATE PROCEEDINGS.

Several Bills Passed and Many New Ones Introduced. SACRAMENTO, Jan. 16.—In the senate today the Nicaragua canal resolution reported from the assembly was passed. Ostrom's resolution to deprive it of the government aid feature was lost. The senate bill to create a board of funeral directors was passed to second reading. A number of bills were introduced, among them the following: By Mathews—To amend the act relative to the formation of agricultural districts. By Mahoney—To prohibit the employment of persons related by affinity or consanguinity to the chief or other officers of any department of the government of the state of California. By Seawall—To create Kings county. By McGowan—To provide for the incorporation of mutual fire insurance companies and define their powers and duties. Lafferty for supplies furnished in fitting out company A, first battalion of mountaineers. By Whitehurst—To pay claim of Santa Clara county for tax collector's commissions on taxes paid to the state. By Seymour—A mandatory of the section of the code relating to eminent domain. After the transaction of some other business the senate adjourned.

THE ASSEMBLY. A Lively Debate on Shanahan's Railroad Tax Bill. SACRAMENTO, Jan. 16.—The assembly convened today at 11:30 a.m. Bulla presented a petition from 250 citizens of Los Angeles, asking that the "scalper" bill be repealed. The committee on attaches reported against the appointment of a dozen miners attaches, and in favor of a number of others. The discussion of the report lasted until recess, the time therefor being extended. Mathews, Dem., said the roll of attaches already amounted to more than the pay of the members. Price, Dem., of Butte, moved to throw the whole matter "out of the window." He objected to political discussions on such matters. Kahn, Rep., of San Francisco, said the discussion of the report alone had cost the state \$20, at the morning session was wasted. After recess the committee's report was disposed of, the majority of the appointments being rejected. Shanahan's bill for the re-assessment of taxes was then taken up, the question being on Anderson's amendment making the state and local taxes become invalid the year 1889 instead of 1882.

Anderson said the purpose of the amendment was to bring the bill within the provisions of the statute of limitations. The bill, he said, applied to every individual in the state, and the worth of property in the state, and required careful attention, and he claimed the bill as presented was wholly hasty and unconstitutional. Shanahan said Anderson offered no authority in support of his contention. Two and a half million dollars in taxes had been held back by the railroad, due to the state, and unjust discrimination had been made in their favor. The people were burdened with 15 per cent penalty on delinquent taxes, and the railroad only 5 per cent. The amendment, he said, strikes to the very heart of the measure. The measure was not the work of a day, of an hour or a year, but of a number of years, and had been prepared with a view to meet constitutional objections. He then quoted a number of authorities on the matter of limitation. There is no provision in the assessment books that deny the people of California their rights. Shanahan's speech was frequently punctuated with applause. Bledsoe followed, and his statement that a class of legislation of the last session had been left at home, snowed under by popular disapproval, was also applauded. Alford followed. The Democratic platform, he said, pronounced in favor of economy. No greater measure in behalf of economy could be passed. Dodge of Alameda said the bill provided nothing new, and nothing unfair. He asked the legislators to put themselves on record at this, the beginning of the thirtieth session. Bretz said the Populists were "all right" on this measure. Anderson, replying to the opposition, said if the measure was amended so as to make it constitutional, he would receive his support. He offered, however, to withdraw his amendment. Bledsoe objected to its withdrawal, and demanded the yeas and nays. The amendment was rejected—77 to 1. Anderson alone voted aye. Anderson then changed the subject from no yeas to make it unanimous. Shanahan's bill was ordered engrossed for third reading, and with the "scalper" bill was made the special order for 2 p.m. tomorrow. Committee reports were then read. The committee on ways and means reported that the aggregate of appropriations so far received to the committee is about \$6000. This includes only such appropriations as are made by bills in the hands of the committee. Other deficiency bills are still in the hands of the printer. The committee on municipal corporations reported favorably the railroad franchise bill. The irrigation committee favorably reported Carlson's bill providing that the tax for the payment of irrigation districts' bonds and interest be levied only on land in the district and not on improvements. Bills were introduced as follows: By Anderson—Amending the political code relative to costs of suits taxed and collected in delinquent land suits. By Johnson—Appropriating \$41,000 to pay the claim of Santa Clara county for the tax collector's commissions on tax collected from 1876 to 1891, inclusive. By Bulla—Constitutional amendment 17, proposing three appellate courts, intermediate between the superior and supreme courts. By Drew—Concurrent resolution for an inquiry into the condition of the state printer's office. By Anderson—To change the boundary line between the counties of Yolo and Sacramento. Alford's bill, making intimidation, corruption or defrauding of electors (delony) instead of misdemeanor, was passed by unanimous vote, being the first bill to pass the assembly. A bill was introduced by Gately directing the board of harbor commissioners to construct a certain portion of the San Francisco sea wall. By Bretz—Relative to the payment of official reporters. By Gould—Relative to creating a board of bank commissioners. By Penleton—Relative to the construction of sewers within municipal cities. By Ray—Concerning the right of eminent domain. By Wade—Relative to duplicate ad-

HARD TO MAKE BIG REVENUE MEET.

No Actual Deficit as Yet in the National Treasury, But Secretary Foster Has Had a Difficult Task to Perform. He Will Leave a Sorry Inheritance for His Successor—The Tax on Whiskey Will Have to Be Raised. Washington Notes. By the Associated Press. WASHINGTON, Jan. 16.—The subcommittee of ways and means committee on investigation of the condition of the treasury expects to receive the latter part of this week a large amount of information for treasury experts. The treasury officials have been at work steadily for three weeks on a report. It can be said on good authority that the treasury statement will not show a deficit in the treasury or the probability of one during the present fiscal year. But a close analysis is expected to show that Secretary Foster has at times had a hard task "making both ends meet," and his successor will be likely to find legislation at this session raising additional revenue, to have even a harder task with pensions steadily increasing. Secretary Foster has informed the members of congress that there will be a creditable balance in the treasury of \$200,000,000, and he says no administration can fully and satisfactorily carry its policies into execution if a large portion of the subordinate officers are hostile to such policies. The house committee adopted the report of the subcommittee on the bill to allow pooling by railroads under the supervision of the interstate commerce commission.

SEVERE WEATHER IN THE EAST.

Transportation Stopped by Rail and Water. Scarcely Any Boats Moving in the Delaware River. The Cold Wave Extends Far South and Causes a Water Famine at Chattanooga—Many People Frozen. By the Associated Press. PHILADELPHIA, Jan. 16.—The effect of the severe weather seems to be felt in every channel of communication, as well by rail as water. River navigation is almost at a standstill. No boats are moving in the Delaware except ferry boats, ice boats and tugs. Vessels ready to put to sea are ice-bound. The cold wave extends far south and causes a water famine at Chattanooga—Many People Frozen.

PACIFIC COAST FIELD TRIALS.

Tenth Annual Meet of the Club at Bakersfield. BAKERSFIELD, Cal., Jan. 16.—The tenth annual trial of the Pacific Coast Field Trial club opened today and a good beginning was made toward the running of the Derby. When the special car arrived containing the officers of the club and a number of prominent members, a drenching rain was falling. The race was postponed until tomorrow. As the weather cleared, however, it was decided to start about noon. A meeting of the executive committee of the club was held at which the program was arranged as follows: The Derby stake for dogs whelped in '91, to be run first, the cage stake to follow, and the membership stake to come last. The Derby stake this year amounts to \$600, and will be the most hotly contested one of the meet. The entries more than double those of any previous year. The dogs were taken to the grounds, four miles from town, early this afternoon. The judges were A. F. Vandervort, D. M. Boyle and William Dorner. P. D. Lindville acted as marshal. The first brace-down was Sporty Boy and Johanna. The bitch started with the better range and speed, but as the pointer ran, she hid better. Bitches were found after a few minutes hunting. Both dogs ran over birds repeatedly. Johanna made a beautiful stanch point, winning the heat after being out in the cold. The dog kept in more, but quartered the ground carefully. Countess found game first, closely backed by the pointer. The pointer was awarded the contest after being down 37 minutes. She is looked upon as the probable winner of the Derby. The third brace-down was Tramp and Carmel. Tramp was awarded the heat, down 50 minutes. Brown Betty and Javelin were down next, but darkness brought the sport to a close. The race will be finished tomorrow. A Fatal Collapse. PHILADELPHIA, Jan. 16.—About 5:45 this afternoon a four-story brick building at 515 Commerce street, occupied as a saleroom and warehouse by the Nixon Bros' Paper company, collapsed. Seven men were in the building at the time. Three were buried in the ruins and killed, and one badly hurt and three escaped uninjured. Denver, Del., Jan. 16.—The Democratic members of the legislature went into caucus at 9:30 this evening and nominated George Gray for United States senator by acclamation. Both houses will meet in joint session tomorrow and cast a vote. There will be no Republican nominee. Chinese Minister Recalled. WASHINGTON, Jan. 16.—The Chinese minister has been recalled. From Newberg. C. F. Moore & Co., prominent druggists of Newberg, Ore., say: "Since our customers have become acquainted with the good qualities of Chamberlain's Cough Remedy, we sell but little of any other kind. Chamberlain's medicine all give good satisfaction. For sale by C. F. Heintzeman, 222 N. Main, druggist. New Jersey's Next Senator. TRENTON, N. J., Jan. 16.—James Smith, Jr., was nominated for United States senator at a joint caucus of the Democratic legislature here tonight. Governor Abbott withdrew from the race as soon as the caucus convened. This left Smith without an opponent. Once lost, it is difficult to restore the hair. Therefore be warned in time, lest you become bald. Skookum root hair grower stops falling hair. Sold by druggists. Household Goods. Of every description at the W. C. Farrey company, 150 to 165 North Spring street. Hair in Arizona. TUCSON, Ariz., Jan. 16.—The first rain of importance of this season is falling. Cattlemen are much pleased. A Landlide. VERY MARKED. The term landslide usually conveys the idea of disaster, but when it is used in connection with the restoration of a man, it is a happy omen. The term is used in connection with the restoration of a man, it is a happy omen. The term is used in connection with the restoration of a man, it is a happy omen.

A great many Dyspeptics,

According to the testimony of the celebrated Prof. DIDAY (in La France Medicale), "owe to Apollinaris Water a repast the more every day and an indigestion the less at every repast."

The healthy drink it (according to the London Times) to remain well: invalids to recover health.

SEE THAT YOU GET THE REAL ARTICLE.

The passage of the bill heretofore agreed upon by the commerce committee which gives the interstate commerce commission power to keep down freight rates.

Dearmond (Dem.) of Missouri introduced in the house today a bill to suspend during the first year of each presidential term all civil service laws, in so far as they restrict or interfere with the free exercise by the president on the heads of the departments to remove or appoint officers or employees of the government.

By the Associated Press. PHILADELPHIA, Jan. 16.—The effect of the severe weather seems to be felt in every channel of communication, as well by rail as water. River navigation is almost at a standstill. No boats are moving in the Delaware except ferry boats, ice boats and tugs. Vessels ready to put to sea are ice-bound.

"FIVE DOLLARS A MONTH" EXAMINATION FREE

Dr. De Monco and Associates Make Another Notable Offer. All Patients Applying Before February 1st Will Be Treated and Supplied With Medicines Until Cured at Five Dollars a Month.

The Record of Two Weeks—A Few Words Regarding the Publishing of Names.

The two weeks during which Dr. De Monco and associates offered to treat and furnish medicine free to all who applied have expired, and that which many declared impossible has been accomplished. Out of the many hundreds who have applied, none have been turned away, and not a cent of money was accepted on any pretext whatever. The strength of the physicians and the resources of the laboratory were taxed to their utmost, but the work was accomplished. Many of the patients who have applied have said: "Doctor, I should like to continue under your care. I have received great benefit during these two weeks, but I suppose your charges are very high." Dr. De Monco and associates make the following public offer: In order to give all an opportunity of availing themselves of their skill in this season, Dr. De Monco and associates will, until February 1st, make a uniform charge for medicine and treatment of \$5 a month. This is to all patients and for all cases. All patients attending for treatment before February 1st will be treated for \$5 a month, and all medicines furnished free, each month cost. Treatment including medicine, to cost \$5 UNTIL CURED.

A word of remark may not be out of place regarding the publishing of names of patients treated and cured by Dr. De Monco and associates. While such publication is made each week in the daily papers, and the same are by any one, should be said that all statements are entirely voluntary. Dr. De Monco and associates never publish a name or statement until the full and free consent of the patient, nor do they publish a name or statement without testimonials, letters and statements received from grateful patients. As observed, the statements are published only if they are given by the patients for publication. Dr. De Monco and associates would never publish the most valuable testimonials unless the patient giving it understood it was to be printed, and gave willing consent.

A HOME WITNESS.

Mr. A. C. Black, a Former Resident and Well-Known Contractor and Builder of Salt Lake City, Utah, Now Resident at No. 345 South Hill Street, Los Angeles, Cal., Writes a Straightforward Personal Statement Concerning a Case of sixteen years standing conquered by Dr. De Monco and associates. "I have been constantly afflicted by catarrh, and all the annoying symptoms of the disease seemed to be present," said Mr. A. C. Black. "I was a well-known contractor in Los Angeles, a contractor and builder, and resides at 145 South Hill street, this city, and was obliged to have any one suffering from catarrh call on him and learn what he has to say in regard to his case."

PETERSBURG, Va., Jan. 16.—The thermometer registered 10 degrees below zero this morning, the coldest ever known here.

CINCINNATI, Jan. 16.—This afternoon special represented the steamer Guiding Star and 24 passengers in great peril, hemmed in by ice on the Mississippi river near New Madrid, Mo. Private telegrams tonight, however, say all the passengers were landed safely and the steamer struck a sand bar and sprung a leak. The electric lights went out at midnight the water company's supply gave out, owing to the freezing of the river, and the water in the suction pipes. Every business house, factory, newspaper and residence is consequently shut off. The electric lights went out last night and the city is in total darkness. The situation is critical. In case of fire not a drop of water could be got to put it out. The indications are for warmer weather.

LET IN PHASE.

The Rival Legislatures Trying Hard to Settle Their Differences. TOPEKA, Kan., Jan. 16.—The rival organizations of the lower house met in peace today. Both houses met at 4 p.m. and simultaneously took action providing for the holding of a joint session with the senate tomorrow for election of a state printer. Then each house adopted a resolution providing for an immediate joint session of both branches of the lower house for the purpose of discussion in a friendly and amicable manner of the differences which kept them apart. The two houses then went into committee of the whole and at the suggestion of the Republican side, A. N. Whittington, Populist, was made chairman. A committee was then appointed to devise means of settling the differences between the houses, and an adjournment had until 8 o'clock p.m. Upon reassembling the committee reported not ready to report, and the house adjourned till tomorrow.

Dr. De Monco and associates' treatment is mild and soothing, and a little child can take their treatment and medicines with ease. I can say that I feel like a younger person—they have made such a change in me. My stomach has assumed its normal state, and I feel like a younger person. Dr. De Monco and associates very highly, and advise all sufferers to call on these specialists and place their case under their skillful care."

REMEMBER, Honesty, Education and Skill Is the Foundation on Which They Build. THEIR MAIL TREATMENT. In addition to their office treatment, and for the benefit of those who cannot visit them, they have "question banks" which they will send you upon application. Be sure to answer each question carefully, for upon this depends the success of their treatment. Medicines will be promptly shipped to your address. Enclose 4 cents with application for blanks.

No burning, no cautery, no caustic, no nitrate of silver used. A new, successful and painless system of treatment formulated from years of experience. The old, painful and unsuccessful methods must give place to the new.
