How a Smoothy Did Up Some Orange County Farmers.

Pasadena's Trustees Transact Considerable Public Business.

Alhambra Orange Growers Arizona Glainings-Redondo Shipping Notes.

SANTA ANA, Jan. 23.—The board of supervisors met in regular session this morning, all the members being present, with Supervisor Yoch in the chair.

Chairman Yoch, as one of the committee appointed to look into the Bolsa drainage ditch, reported that the work was completed, and according to contract. On motion warrants were ordered drawn in favor of the contractors.

The district attorney gave his opinion in regard to the request of Assessor Ross, asking for deputies to do the assessing for the present year. He said the board had no right to pay for the deputies, and acting on his advice the request was denied. This means that the county assessor must do his own work.

Assessor Ross asked the board to furnish him a corrected map of the transfers of real estate for the year ending March 1, 1893. No action was taken.

J. Crosswhite appeared before the board and asked aid for an unknown girl. The matter was referred to Supervisor Hawkins.

A request from Mr. Costline, asking aid for his nephew, who was accidentally shot a few days ago, was on motion denied.

A communication was received from the county clerk of Los Angeles county, in which he stated that the supervisors had decided not to pay the demand of Orange county for money due from the indigent fund. The matter was referred to the district attorney.

Roman Wisner was granted a liquor license to run a saloon in Anaheim.

Supervisor Shorn reported that the Yorba bridge was completed in a satisfactory manner, and on motion the bridge was accepted.

D. H. Thomas requested permission to cut some trees around his property, and on motion the matter was referred to Supervisor Tedford.

A petition from the Olive Mill company and others, asking that the board appropriate part of the money necessary to gravel the county road from the Olive bridge to Anaheim, petitioners to pay \$250. On motion of Shorn, \$800 was transferred from the general road fund for graveling the road. The sandy spots between Anaheim and Santa Ana are also to be repaired.

The bills of the Newport Wharf and Lumber company, for \$2475 for the Yorba bridge were allowed and ordered paid.

E. H. Spencer appeared before the board on a matter that was of great interest to him. A bony horse had come to his place, and for three weeks he had been trying to get rid of him. He wanted the board to relieve him of the horse, but as no law covered this matter he had to go, taking with him the horse.

It was decided that the clerk be instructed to advise the owner of the horse.

A FAVORITE AT ANAHEIM.

The Anaheim Journal has the following kind words to say of the HERALD: The Los Angeles Herald on January 1st printed a very fine New Year edition, and followed that up with an enlargement last Monday morning. It is now printed on a new perfecting press, and its facilities are equal to those of any daily in the west. It is with pleasure we note these evidences of prosperity and enterprise. The HERALD is one of the best papers in Southern California, and is a favorite in this section.

AT THE CHURCHES.

Sunday was a delightful day in this city and the various churches were largely attended yesterday.

At the Methodist Episcopal in the morning a very able sermon was preached by the pastor, Rev. McIntire, and an announcement was made that an after meeting would be held to see what could be done with the church debt of \$5000 that has for a long time hung over the church. In just 20 minutes \$4200 was subscribed towards raising the debt. At the meeting held at the same church last night \$102 more was subscribed to the debt-paying fund, and it seems more than likely that before the week is over the remaining \$700 will be raised, and ere another Sunday service is held the Methodist Episcopal church of this city will be free from debt.

The services of the Unity society at G. A. R. hall were well attended yesterday morning, and Rev. E. B. Watson preached a very able sermon on Whole-some Human Nature as a Soul Cure. The reverend gentleman was highly interesting in a masterly way, and made himself more popular with his people than ever.

Even the Salvation army came to the front yesterday. Two new recruits have been added during the past week, one of whom plays the tambourine, so that the army's band now consists of two drums and a tambourine.

A SLICK ONE.

The unsophisticated farmers living in the classic regions of Westminster, and what is more popularly known as Gospel swamps, have been suffering from a sick individual who is a sharper from away back. About two weeks ago a well-dressed individual made his appearance in the rural districts west of the river. He proceeded to buy an 80-acre ranch from Henry Pankey, and came to terms, telling the gentleman that he would pay the purchase price in a few days, and asking permission to remain at the house. The request was of course granted, and Mr. Pankey entertained his guest royally. One ranch was not enough for the smooth man, and he went to Mr. Hickock's and proceeded to purchase his property. A trade was made, no money being paid, and the stranger requested Mr. Hickock to give him a reception, saying he wished to become acquainted with the neighbors. So a grand reception was held, the supper costing \$25, and an orchestra was employed for the occasion. Mr. Hickock even went so far as to purchase the buyer an elegant suit of clothes, for he wanted to look nobby, and was a little short of money, waiting for his cash to come from the east. It never came and the smart man left the hills.

THE FAMILY MEDICINE OF THE WORLD—TUTT'S PILLS.

next morning after the party, having lived on the fat of the land for 10 days at the expense of the farmers of Westminster and wearing off a new suit of clothes. No real estate transfers are recorded.

BREVITIES.

Thomas Warner's new residence near Newport is completed.

John Killenberger and family left this morning for Durango, Colo., where they will in future reside.

The newly elected officers of the First National bank are: W. H. Sprague, president; S. W. Peble, vice-president; J. A. Turner, cashier; R. F. Chilton, assistant cashier.

Five tramps were before Judge Freeman this morning, and were to the court for eight days each.

In the Brenot divorce case this morning Mrs. Brenot was allowed \$20 per month alimony and attorney's fees.

Mr. and Mrs. Ed Mulligan of Denver are visiting friends in this city.

During 1892 there were 60,000 fruit trees planted in this county.

B. Mitchell, a missionary from India, lectures at the Christian church Wednesday night on The Religions of India.

PASADENA.

The City Trustees Transact Considerable Business.

PASADENA, Jan. 23.—The usual weekly meeting of the city council convened promptly at 2 p. m. today; all members were present and Judge Weed in the chair.

All bills were referred.

Mr. Wright addressed the board in behalf of Mr. Williams, asking that the board use its best judgment in releasing Mr. Williams' building, corner Fair Oaks and Colorado, of the two immense poles recently erected in front of it by the telephone company.

E. H. Finney presented a complaint against farmers selling hay on the streets, claiming that the dealers were willing to pay a license in order to keep out competition.

Mr. M. E. Wood presented a petition signed by Los Robles avenue property owners, asking that a former petition be withdrawn and that a new survey and grade be established at once. On motion the petition was granted and the city engineer instructed to make a survey of Los Robles avenue from the Santa Fe railroad to Villa street, if in his opinion a proper flow of water could be obtained.

A report of City Engineer Sedwick, showing the amount of sidewalk laid on west side of Marengo avenue, from Colorado street to Glendale street, stated that a walk was laid the entire distance with the exception of 294 feet.

The report was accepted and specifications for completing the walk were read and adopted.

The bids for curbing and grading Los Robles avenue were returned to bidders unopened.

Figures & Phrases.

"Figures," says the London Times, "are more eloquent than phrases."

"The annual sale of Apollinaris is now 18 millions."

The whole world judges well; and the great American physician (Marion Sims) was right in prophetically declaring Apollinaris "not only a luxury but a necessity."

THEY HUNT GREENHORNS

CONFIDENCE OPERATORS WHO ARE REAPING A HARVEST.

A Couple of Cases of Their Successful Work Recently Reported to the Police by the Victims.

Two additional confidence games have been reported to Chief of Police Glass.

Two smooth operators who for some time had been hanging round the principal street corners, found a verdant Swede and unfolded to him a plan whereby all three could soon make a fortune. Experience was not necessary. That would come later. Only the small matter of \$150 was wanted; and the Swede had that.

An office was rented on Broadway by the sharpers—perhaps only for a week. The Swede paid his \$150 and was a full-fledged partner in the scheme to promote a new invention. The Swede was to remain in the office and answer questions, while the sharpers were to do the outside work. He kept shop one day, and as his partners did not return for two days he reported his experience to Chief Glass. The fellows were known to the police, but when they called at a hotel where the bunco men generally held out, it was learned that they had left.

Another scheme is that of a German who had been bunced out of \$70 at Westlake park. He does not speak very good English, but when he came to the chief's office he was so mad that he had almost forgotten his own language. He managed to explain that he met a man at Westlake park, and while walking along his new found friend picked up a small lock. He opened it and it contained a "purty" woman's picture. They met another man and he wanted to open it, and could not. Then the two took a bet of \$100 that the lock could not be opened. His friend had only \$30, so he shut loaned him \$70, chief, and when he lost, the man said I had lost too; and they went away. Now, how is that, chief?

THE JUSTICES' COURTS.

The Ex-Employment Agents Join the Chain Gang.

In Justice Seaman's court yesterday the case of the irrepressible Frank Deane was submitted on argument.

Blacking the dark eyes of a woman of ill-repute. Hon. J. Marion Brooks appears as counsel for Powelson and will file an exhaustive brief on the constitutionality of the points involved, which will be submitted to the court tomorrow morning.

THE PEOPLE'S CHOICE.

Some Interesting Statements From Responsible Citizens.

WONDERFUL CURES MADE BY THE DOCTORS OF THE EUROPEAN STAFF.

IGNACIO I. PEREZ, with Ocho Brothers, says: "I have suffered from catarrh and nervous debility for several years, and have continually been treated by different doctors without benefit. I commenced treatment two weeks ago with the European Staff and am happy to say that I am better than I have been for years. To any person calling upon me I will be glad to prove this statement."
