

NEWS FROM NEIGHBORING CITIES.

Orange County Embarrassed by Its Numerous Tramps.

Proceedings of the Board of Trustees of Pomona.

A National Guard Competitive Drill at Pasadena—Shipping Notes from Redondo—Anaheim Notes.

SANTA ANA, Jan. 24.—Six tramps were arrested last night and received the usual sentence today, and there are now 21 prisoners in the county jail. One fellow was brought over from Westminster yesterday morning and landed in the county jail at 8:30. He said: "There are no files on them people out at Westminster. I was arrested in the morning, taken before a justice of the peace, tried, and was convicted, traveled eight miles with a constable, and was thrown in jail by 8:30 in the morning, and before many people had their breakfast. I call that rushing business."

What to do with the tramp is the question. The county jail is crowded now, and 20 men are crowded into a place where only eight should be. The supply continues to increase, and the character of the tramps does not improve. If they are not arrested they endeavor to run the town, and so the jail continues to fill up.

POMONA.

Proceedings of the City Council—Local Happenings. POMONA, Jan. 24.—Last night's city council meeting didn't settle the electric light franchise matter as it was expected it would.

Upon motion of Trustee Marshall the matter was laid over to next meeting.

Matters of import to the general welfare of our city were acted upon, as the following goes to show:

Before passing over the electric light question it was Chairman Ralph's estimation that a proviso should be added in respect to the franchise that the poles erected should be painted.

The franchise granted to the San Antonio Light and Power company had a clause that poles would be painted upon the request of city trustees.

Upon motion of Marshall the city clerk was instructed to notify the San Antonio company to paint all poles owned by them in the following described limits: Between Towne and White avenues, and between Alvarado street and Fifth avenue.

Upon Marshall's motion the franchise asked by Packard was laid over to next meeting.

The request of the building committee of the I. O. O. F. temple, being erected, to be allowed to lay a cement walk not in strict conformity with the present grade of the street, but which will be better adapted for the use of their building, was granted.

The question whether the city should deed back a piece of land to James Armond, which he claimed was not made use of within three years or refer back to him, was referred to City Attorney Bell.

City Clerk Garthside announced he had been requested by Irving before the council the matter of removing the fence surrounding City Railroad park. The railroad company desired its removal upon the grounds that the hedge would be a sufficient protection.

The Southern Pacific company would remove the fence if they were allowed the fence material, but if the city claimed the material they should remove it.

This raised the question of allowing herders to drive sheep and cattle upon First street, which runs parallel with the park in question. An ordinance was ordered drawn up prohibiting the driving of stock of any kind along First, Second or Third streets, between Towne and White avenues.

The council then adjourned to next regular meeting, first Tuesday in February.

Quite a number of grape cuttings are being planted in this portion of the city this season, and it seems to be the impression among many that all danger from the old vine disease is past.

SOUTH PASADENA, Jan. 23.—Work on the children's home is progressing finely. This building was used during boom times as a saloon and the beautiful grounds as a beer garden. The grounds are surrounded by tall eucalyptus trees inside of which is a hedge of cypress; at the left of the entrance is a miniature lake circular in shape surrounded by a row of palm trees. Rose border the driveways, and the porch which runs around three sides of the house is one of the "Beauty of Jazewood." A large play ground is given by the local organization, and it is expected that Mrs. T. E. Bailey, Mrs. Governor St. John and Mrs. Governor Beveridge will be present.

The Palms—Plowing continues for grain, of which a large acreage will be put in. The weather has been fair with cool nights. Vegetation is not suffering for rain.

Vermontdale—Vegetables are moving rapidly at good prices. Oranges are not moving yet, as growers do not favor the commission policy of the buyers; some sales, however, are reported.

San Diego city—Crops are looking fairly well but rain would help them; the soil is becoming dry in some localities.

ARIZONA.

News Notes From the Sun-Kissed Territory, January 23.

[Prescott Gazette, January 23.] George Berry and J. R. Slack have just discovered a new ledge between the latter's old claim and the Black cañon road, which is from six inches to one foot wide. Ore goes by horsepower tests about \$200 per ton. Mr. Berry traced the ledge along the top of the ground for 3000 feet. Mr. Berry has also located a silver claim in the same district which goes over 100 ounces of silver per ton. He walked in from his claims yesterday and left some of the ore with the Courier. Says Mr. Slack recently had run nine tons of ore from the Slack & Mayer mine, with a yield of over \$500 from the nine tons. About 15 men were working in the mine from which the ore was taken. Packard's and Wright's camps are looking like young twigs.
