The Santa Anita stable made 18 entries for the spring races yesterday and will probably send a number of winners here to compete with the stables from abroad. Next Friday and Saturday will witness a general regatta of horses from the Oakland track, which is as deserving of indictment as a thieves' cellar on the Barbary coast.

W. F. Mansfield, a rip-roaring drunk, who wanted to annihilate the officers who arrested him, particularly Officer Ditewig, was brought into the central station last night from East First street. He gave considerable trouble before he could be locked up, and wanted it distinctly understood that every body was here to compete with the stables from abroad. Next Friday and Saturday will witness a general regatta of horses from the Oakland track, which is as deserving of indictment as a thieves' cellar on the Barbary coast.

Cunningham's Australian boomerang throwers will exhibit today at Santa Monica. The blacks have recovered from the hardships they underwent at San Diego. Manager Frank Frost wears on his wrist chain a peculiar mascot. It is the ear of the San Diego tailor which was cut off by a boomerang. The tailor stepped unexpectedly out of his door as a boomerang came around the corner, and it cut off one of his ears as neat as if done with a razor.

"Say, judge, I didn't steal that horse; I bought him for \$100 and six bits," said a middle-aged colored man to Clerk Cottle of the central police station last night. Nevertheless a charge of suspicion was booked against the darky, and he was locked up under the name of John Obelton. Officer Fry saw him down on Commercial street trying to dispose of a lot of garden hose at a second-hand store. There was 50 feet of the hose, and upon examination it proved to have a nozzle on it, and there was water still in it.

The various senate and house committees from the legislature have concluded their labors in Southern California and will leave for Sacramento this afternoon. REAL ESTATE STILL JUMPING.

The Market Still in a Lively Condition.

A Number of More or Less Large Transactions Under Way.

Victor Ponet Said to Have Purchased the French Chilly Block.—Mr. Stimson Still Looking for Good Purchases.

That confidence is restored in the real estate market, and that the tone is healthier all the way through, is the universal verdict of property owners as well as the real estate agents. This condition has developed definitely during the last month or two. Sales of all descriptions of desirable property are being made every day.

Probably the largest sale reported this week is one which Mr. Victor Ponet now has under consideration, for the sum of \$20,400. The property is on the east side of Main street, near Third street, and is bounded on the north by the new McLain & Lehman block, and on the south by the Desmond property, on which a building is now being erected. The property under negotiation is owned by a number of heirs, the children of Jose Mascarel. It is known as the French Chilly block. There is a frontage of 61 feet on Main street, 43 feet of the frontage having a depth of 297 feet and the remaining 18 feet extending 145 feet toward Los Angeles street. A single-story brick structure is on the most of the lot. A 20-foot alleyway serves as an outlet to the livery stables in the rear of the stores. This property was examined Saturday by a member of the Turnverein Germania as a possible future home for that organization. Twenty-seven thousand four hundred dollars was asked for the place, but as the gentlemen could take no action in regard to it until after the meeting of the society tonight, nothing definite was done. In the meantime Mr. Ponet comes along and offers the property at the above figures. The sale was made through Sabich & McCannachie.

Mr. Mascarel, who looks after the interests of the heirs, told a HERALD reporter last night that if Mr. Ponet did not buy the property the first option on it would be given to the Turnverein.

The following instance is but one in many that illustrates the efficiency of the HERALD as an advertising medium. The sale in question is about the quickest on record. Last week Norton & Kennedy had the following advertisement in the classified court property column on the sixth page of the HERALD:

\$6,000 BUYS A CHOICE 12-ACRE FOOT-DRILL ORANGE GROVE, with good house and barn; double water; in heavy orchard, oranges, very fine, 1 acre in 10-year-old walnuts, including walnuts; 2 acres in alfalfa. Look this up!

Monday morning a gentleman who introduced himself as Charles Stafford, formerly of Oakland, Cal., entered the office of the above firm. Pointing to the advertisement he asked if they were had that property for sale. Mr. Kennedy replied in the affirmative, and added that the property would be shown to him that afternoon. "No," said Mr. Stafford, "if you want to do business with me you will have to do it at once."

A team was procured and Mr. Stafford was driven to the ranch, which is at Glendale, adjoining Captain Thom's property. Mr. Stafford spent about 15 minutes looking at the place, and returned to the real estate office, where he at once bought the place, paying \$500 in addition for the fruit on the trees.

A well known firm stated yesterday that their sales on Monday had aggregated from \$15,000 to \$18,000. The property sold consisted of a number of residences, lots and outside ranches. "It's these 10-acre ranches that catch the easterner's eye," they continued. "Land in oranges is the most sought after. The strong point in favor of this country, and the one from which the greatest good will accrue, is in the fact that these investors are people who wish homes and at once settle upon the lands and begin improving them."

Another dealer remarked that formerly he was compelled to erect houses and sell them in installments to get rid of the lots, but since the real estate market had improved so much lately he was going to build no more houses, as the lots would sell upon their own merits.

A rumor was in circulation on Tuesday that Mr. T. D. Stimson had purchased the property known as the Woolcott block on Spring street, but at 7 o'clock Mr. Woolcott's employees denied that any sale had taken place. The price put on the property on Monday was \$100,000. Negotiations were pending yesterday looking to the purchase of the Neal property adjoining the Woolcott block by Mr. Stimson. The price is said to be \$50,000.

BASEBALL.

Men Who Will Play in the Los Angeles Nine.

League baseball has made another step to the front in the last few days. Manager Lindley announces that Glen-alvin has signed Jack Roach again to pitch for the Angels. The "blond Adonis" is already well known to the local patrons of the game, and he is up to the top notch in local esteem.

Another left-handed pitcher has been signed for the Los Angeles club in the person of George Nicol. Last year Glen-alvin was after him, but he was on the Rockford, Ill., team, with a string on him in the nature of a reserve by Chicago, with which team he played in 1891. He is said to be a brilliant fielder in his position and an exceptionally good hitter for a pitcher.

In the same connection it may as well be mentioned that Fanning, who occupied the box last year for Uncle Harris, has signed with Duke Finn to pitch for the Stockton club this summer. Fanning's name was attached to a contract the early part of the present month, but it was not until yesterday that the final arrangements were completed.

We sold on the Pacific Coast over 70,000 cans of Cleveland's baking powder, that means Cleveland's baking powder has tens of thousands of friends where a year ago it was hardly known, and to-day no baking powder is growing so rapidly in public favor.

This has been done not by attacking others in the same business or by publishing scurrilous notices in the newspapers at so much a line or by mere advertising (for competitors have spent money lavishly in advertising against us), but by the true merit and value of the article itself.

We believe that our present business is simply an earnest of good things to come, for every thrifty housewife who once uses Cleveland's baking powder is sure to keep on using it, and sooner or later will recommend it to her friends.

Cleveland Baking Powder Co., New York.

P. S. In using Cleveland's baking powder, be sure to remember that it is stronger than others and less of it is required for the same baking. For the best results, a rounded teaspoonful does as much as a heaping teaspoonful of others.

framed in their interest, prohibiting persons from going from one county to another to hunt, would seem to be a little presumptuous.

It seems to me that it would be an infringement of the right of liberty to prevent any one from hunting or taking game, under such restrictions as are absolutely necessary, from the public domain, or any land not cultivated or enclosed.

The law now under consideration at Sacramento is only calculated to produce a vast amount of litigation, by which county treasuries will be plundered for the benefit of sheriffs, constables, witnesses and railroad companies, to an amount 50 times greater than the value of the game killed.

If hunters kill more game than they need, they will sell it in the cities and the public will be benefited.

KID BURGLARS. Two Youngsters Arrested Yesterday by the Police.

Police detectives Benson and Able made a capture yesterday of a couple of kid burglars, who have kept the people in the vicinity of Westlake park, and that section of the city, worked up for several months past.

The names of the boys, who are neither over 10 years of age, are Harry Guthrie and Howard Jordan, and they were brought to the police station late yesterday afternoon.

Monday night A. N. Francisco's grocery store, at No. 1500 West Pico street, was burglarized and about \$50 worth of goods were taken away, including canned goods, tobacco, cigars and other articles.

The burglary was reported to the police, and they received information which led to the arrest of the boys referred to. After they were brought to the police station they gave information themselves as to the hiding place of some of the goods, and one of them accompanied the officers to the place, where nearly all the stolen stuff was recovered.

The boys live in the section of the city where the burglary was committed and a gentleman who called at the police station last night, said that it is believed they are the culprits who have kept that end of town in a frightened condition for six months past. He said that there has been much small pilfering going on there. Suspicion has attached to the boys who have been arrested, but until the burglary of Mr. Francisco's store no special crime could be fastened on them.

ITCHING AND BURNING. Sores All Over Her Body—Suffering Endless—Doctors Useless—Cured in 4 Weeks by CUTICURA.

Your most valuable CUTICURA REMEDIES have done my little girl so much good that I feel like writing to you to let me know if those who are troubled with skin diseases, such as itching, burning, sores, when I took her to the doctor, he called it the Italian itch, and said she would cure her in two weeks. When the two weeks were up, he said it was not cured, and in the time she was worse than before. He said she had it for three months, and she was so bad that we did not know what to do. He did not do her any good.

I saw the advertisement of CUTICURA REMEDIES in the paper, and I went to my wife, "I am going to try them." Mind what I say, she was so thick with sores, and she had to wear clothes to take them off. "Hitch" there was no end to it. She had it all over her body, back, legs, arms, in between her fingers, she did not have it on her head. But after taking your CUTICURA REMEDIES for two weeks the itch stopped, and in four weeks the sores were all gone. I enclose her picture. I am more than pleased with your CUTICURA REMEDIES, as they speedily cured my daughter, and my body feels as well as when you remedied. I will uphold them where I can.
