Forecast. Forecast for Southern California: Fair weather; cooler; northerly winds.

Undelivered telegrams at the Western Union Telegraph company's office, corner Main and Court streets, February 26th, for Nashville, Tenn., G. W. Lynch, and Mr. Theodore Savage, "Stock" (cable), Jesse Stom.

Michael Brophy died at Newhall on Saturday. He was 70 years of age, a native of Ireland and a Mexican war veteran. He resided at Newhall for the past 20 years and leaves three sons—John, William and M. E. Brophy.

James Cahill, a San Francisco hoodlum, was brought up from Whittier last evening on his return to San Francisco, where he had been convicted of petit larceny. It was found that he was 17 years of age and not eligible to the reform school, hence his return.

The completeness of the service at the chamber of commerce banquet at the Redondo hotel Saturday night demonstrated for the hundredth time how admirably equipped that famous resort is for giving satisfaction to its patrons.

General McCook remarked to the writer that, in his opinion, it is the best hotel on the Pacific coast. Its manager, Mr. G. W. Lynch, is a caterer of great judgment and resources and under his management the Redondo has attained a great reputation. Its guests all speak in commendation of the business efficiency and general manager of Mr. Lynch, and the success of this admirably appointed and beautiful resort is ascertained.

Where comfort and a perfect cuisine are desired, together with the many and stirring attractions of an incomparable watering place, the Redondo cannot be improved upon. From the manager to its competent steward, Walsh, its staff is notably thorough.

SOCIETY. The Los Angeles division of the Order of Railroad Conductors gave their first annual ball at Armory hall last Wednesday evening. The affair was largely attended and was a creditable success.

The hall was handsomely decorated with lines of Japanese lanterns and along the sides of the room were suspended lines of the conductors' railway lamps, which were lighted. Over the music stand were the words formed in evergreens, "Justice, Charity, Fidelity," the motto of the division. A banquet was served during the evening. Dancing was continued until a late hour. Among the prominent railroad people present were Robert Garber of Chicago, first vice-general master and wife and A. H. Watson, the organizer of the order and present third vice-conductor.

The committees were: Reception, Mr. and Mrs. J. F. Finn, Mr. and Mrs. H. G. Drake, Mr. and Mrs. W. A. Osgood, Mr. and Mrs. C. B. Leonard, Mr. and Mrs. W. A. Dunn, Mr. and Mrs. A. W. Martin, Mr. and Mrs. J. E. Harris, C. D. Plank, C. L. Humphrey, A. D. Renfro, C. F. W. Benjamin in box office; Colonel Miller, door keeper; arrangements, E. T. Hagan, J. E. Logan, F. L. Harris, H. L. Myers, B. F. Gardner, G. F. McCullough, G. B. Wanding, C. W. Johnson.

Miss Nellie Pickett, the accomplished daughter of Prof. Joseph Desha Pickett, superintendent of public instruction of Kentucky, will arrive in this city on Wednesday, to spend the spring and summer, the guests of the family of Hon. J. Marion Brooks. Prof. Pickett was president of the university of Kentucky at Lexington, at the time Mr. Brooks was attending as a student.

Mr. and Mrs. Fred H. Henshaw of Waban, Mass., who are making a tour through this state, having come via New Orleans, are now in this city, guests of Mr. and Mrs. Thos. G. Barnard, 921 South Hill street, of whom Mr. Henshaw is an old time Boston friend of 45 years' standing.

How to Save Doctor Bills. (Chicago Daily Calumet.) Many a doctor's bill has been saved by the use of Chamberlain's Cough Remedy. The name is a household word in many parts of the country. Chamberlain's medicines have an extensive sale in the world's fair city and many people testify to the merits of their different remedies. For sale by C. F. Heinzmann, 222 North Main street, drugist.

SOME LOCAL BASEBALL TALK.

Progress of the Managers in Signing Teams.

Comparative Strength of the Various California Clubs.

The Schedule for the Coming Season—Proposed Changes in the Playing Rules—Some Amateur Baseball.

The date of the opening of the league baseball season in California is now but a little over three weeks hence, and approaching warm weather has the same effect upon the fans as is ascribed to the war-horse when he smells the battle from afar. The fan does not exactly emit a "horse laugh," but gets up a progressive enthusiasm that only culminates with the ability to gratify his desire to sit on the bleachers and diamonds, or roast the nights of the diamond, according as their playing is approved or otherwise.

The retention of Captain Genalvin in the Los Angeles club, as a starter, was a sure indication of the line of policy to be adopted and followed by Manager Lindley, for every baseball patron knows that Gen plays ball hard and all the time.

In selecting his team for this season, short as the time was in which to do so, Captain Genalvin has been exercising the skill of a field marshal and the finesse of a diplomat. Judging from the men already signed, reflecting fan (if such a thing exists) will see that the changes in the playing rules have been anticipated and met more than half way. The great cry from the eastern cranks lately has been: "Give us more batting."

Well, the national league, which sets the standard, is going to make such changes as will produce this effect. It is safe to say that the individual records for the season of 1893 will not be governed so much by the work of one man as they were in 1891 and 1892. The pitcher this year will not be the sole arbiter of the field, and hence the scores will be larger and the play more rapid and robust. In anticipation of all this, Genalvin has signed a team of not heavy but scientific batters and fast fielders. Baseball patrons already know what Lytle, "Rasty," Hulse, and Genalvin can do, and Sneiback, at shortstop, is a crackerjack. Nicol, the new left-handed pitcher, is also a star fielder and is above the average at the bat for his position. With Park Wilson behind the bat, it will be seen that the full average of strength has been maintained.

There are still two places on the team to be filled. The initial bag is still vacant and one outfielder is yet to be signed. It is more than possible that McCauley will return, although he has not signed yet, and in the outfield it would not be at all surprising if a member of last season's St. Louis Browns would be wearing a Los Angeles uniform. At any rate it is morally certain that the team which will represent this city in the California league this season will be just a trifle stronger than it was last year, and in like proportion superior to any of the northern teams.

These latter teams are making haste slowly in completing their personnel. Even Colonel Robinson, who some weeks ago announced his team as completed, has been obliged to let some of his men go to the National league and their successors have not been announced. However, from the material already signed it does not appear that this city is getting in much to fear.

The schedule has been practically completed and now only awaits official announcement. The first games in this city will be played Saturday and Sunday, March 25th and 26th, with Stockton as the visiting team. On the following Wednesday Oakland will be here for a five-game series and San Francisco the week after. Leaving here the Los Angeles club will play at Stockton first and then at the bay for two weeks. The rest of the season will be home and three away.

A new departure will be made in the woman question by the local management. To the ordinary observer it would seem hard to discover the application of the woman question to baseball, but this town is full of cranks and the general term "fair" is not used in this connection for obvious reasons. Friday will still be ladies' day at the park, but upon all other days ladies will be admitted for half price excepting upon holidays and Sundays.

Genalvin expects to be back about the 6th of March, and will soon have his men under training at San Diego. The new uniforms promise to be neat and attractive, and it is a safe venture that the wearers will do credit to themselves and the town.

AMATEUR BASEBALL. At the First-street baseball grounds the Jacoby Bros. baseball team defeated the Boyle Heights Stars by a score of 24 to 14. Owing to the heavy winds it was impossible to keep down the score. The features of the game were the fielding by Smith of the Jacobys and the batting of the same team, Thomas, the Compton pitcher, being batted out of the box in the fourth inning. The

score and positions of players will be found below:

HORTICULTURAL MATTERS. Proceedings of the State Board in San Francisco.

The State Horticultural society held its monthly meeting yesterday afternoon at 220 Sutter street. Edgar J. Depeu was elected a member, says the San Francisco Chronicle.

B. M. Lejong, president of the society, gave a brief statement of the state legislation pending which had a bearing on horticultural matters. A bill appropriating \$10,000 to send an expert to foreign countries to collect and import parasitical and predaceous insects had passed the senate and was on second reading in the assembly. Prof. Albert Koehle, who was sent to Australia two years ago, discovered a species of lady-bug which has preyed upon the cottony cushion scale with good results. An act to regulate the sale of imitation olive oil is on second reading in both houses. Mr. Lejong thought that the olive oil industry would suffer unless laws to prevent adulteration were made.

In a paper by A. L. Bancroft upon Wayside and Ornamental Trees, considerable indignation was expressed at the general appearance of country roads, farms, homes and school houses. The latter especially were bare and barren in appearance, and the improving influences of trimly kept gardens, shrubbery and the like were sorely needed. Handsome shade and ornamental trees should line the wayside of country roads. The California road laws make provision for tree planting, and there is a penalty for injuring roadside trees. The fact was cited that in Germany prune trees are greatly used for this purpose, and the profits from the crops accrue to the benefit of road funds. A number of trees suitable for road ornamentation were mentioned, among them the olive, palm, walnut, chestnut and fig. The only places in California where some kind of an ornamental tree cannot be made to grow are either all rock or all water, or where the soil is impregnated with salt or strong alkali.

A general discussion of the paper followed its reading, and the sentiment was that it was most desirable that the highways should be beautified, and especially that more attention should be given to botany in the school room, in order to encourage the planting of children for plants, trees and flowers.

A long paper by E. F. Adams outlining the work of the Santa Clara county fruit exchange, a co-operative fruit growers' association for the sale of dried fruits, was read, and attention was laid over until another meeting.

WANTED, A WIFE!

BEAUTIFUL, AND WITH A Clear, Healthy Complexion.

OF COURSE EVERY woman wants her wife to be beautiful, but how can she be beautiful if her face and hands are disfigured by rough skin, freckles, tan or eruptions? Nothing will lessen the ardor of love like a disheveled face.

BY THE USE OF

LOLA MONTEZ CREME, THE SKIN FOOD AND TISSUE BUILDER, all roughness and dryness of the skin is overcome, restoring the complexion in a short time to its former youthful condition; cures the skin to action, prevents wrinkles, feeds the impoverished skin and prevents it. Without less gradually the freckles and the skin loses its youthfulness and becomes furrowed with the wrinkles of age's devastating waste. It prevents the skin from becoming tanned, freckled or rough by exposure to wind and weather. ONE APPLICATION ACRES LIKE A CHARM. At the mountains or seaside it is indispensable, as a free application before going out will protect the complexion. It is not a cosmetic or beautifier, but a skin restorative and preservative. 75c a pot—lasts 3 months. Sold everywhere. I WILL PAY \$500 to any chemist who will analyze Lola Montez Creme and find any element therein not beneficial to the human skin.
