

PASADENA.

A Portland Cement Base and Asphaltum Overlay Adopted.

PASADENA, May 22.—The city council met in regular session at 2 o'clock this afternoon, all members present. There was a good-sized audience of interested property owners present, and the proceedings, so far as the paving specifications were concerned, were watched with much interest.

The specifications as adopted were practically the same as were agreed upon at the special meeting of Tuesday last. They call for a Portland cement base with an asphaltum covering, with granite block gutters, the whole to be laid at a cost not to exceed \$2 per lineal foot.

The city clerk was instructed to advertise for bids, to be opened at noon on the 19th day of June, bids to give prices on the asphaltum paving by the square foot, the granite gutter by the square foot and the curb by the lineal foot.

This closes the paving question until the time for opening bids, unless another protest is raised by the property owners against the one of material specifications.

Taking up the regular order of business, a resolution of intention, ordering Waterley drive graded and curbed from Fair Oaks avenue to Pasadena avenue, was passed.

An ordinance establishing the grade of Bellfontaine, from Orange Grove to Grand avenue, was heard for the first time.

An ordinance granting side track privileges to the Terminal company passed the last reading.

A petition from Dr. C. A. Davis, asking permission to erect an oil tank near the Terminal station, was referred to the committee to report at the next meeting.

The auditing and finance committee found bills correct to the amount of \$14.15.

Professor Keyes addressed the board asking that an alley through the university grounds be declared vacant. A resolution of intention was passed in accordance with the request.

A protest was received against the Concord and Arcadia street sewer, and the time for hearing set for Monday next at 2 p. m.

A similar protest was received against the Summit avenue sewer, and Monday, May 29, was set to hear the objections.

Bids for laying cement walk and curb on Grand avenue between Ellis and Colorado were received as follows: Ward & Roberts, 10 1/2 cents per square foot for sidewalk and 32 1/2 cents per lineal foot for curb; Vanderburg & Newcomb, 11 cents per square foot for sidewalk and 32 cents per running foot for curb; Pattiolo & McCombs, 16.49 cents per square foot for sidewalk and 31 cents for curb.

The contract to curb, grade and gutter Colorado street, from Vernon to Orange Grove, was awarded to Hogan Bros. at 75 cents per lineal foot, while Charles Kuhnert was awarded the contract for similar work on Los Robles avenue, between Villa street and the Santa Fe tracks, at 81 cents per lineal foot.

A petition was received asking that Marengo avenue, from Villa to Pearl, be entered and curbed, and the city attorney was instructed to draw up resolutions of intention.

A petition to have the grade of Hill street established, from Moline to Lake avenue, was received and the engineer instructed to do the work.

A protest was received against the proposed cement walk on the east side of Marengo from Colorado to Walnut, and action was deferred six months.

The report of the city engineer establishing the grade of DeLacy street from Colorado to Mary street was adopted, as were specifications for sidewalk, curb and gutter on Madison square.

A serious accident occurred on North Raymond avenue about 2 o'clock this afternoon. Mr. Joseph Lewis was driving along with a horse and cart, when the horse became frightened near the corner of Union and Raymond and suddenly bolted into the vacant lot on that corner, throwing Mr. Lewis out, but unfortunately his foot caught under a sack of grain he was carrying and held him with his head dragging. The horse ran across the lot and in back of the Baptist church, where he stopped, after tearing the cart to pieces and releasing the frightened man, who was found to be badly injured, his left ear being torn almost entirely off and besides several severe scalp wounds.

He was at once removed to his home on Cypress avenue, and Dr. McAllister called upon, who dressed the wounds and made the patient as comfortable as possible. Up to the time of the closing of this report, however, he had not recovered consciousness.

NOTES.
Frank Kason, at one time city editor of the Star, this city, is now editor and part owner of Redlands' new paper, the Leader.

Mrs. John B. Hill is quite sick at the family residence on Kansas street.

Joseph Wolf and family are now en route to the coast.

Should He Arrested?
THE POLICE DEMAND.—Who? What should be arrested? An excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous prostration, etc. They should be arrested or stopped before they develop into a condition that can't be cured. For this purpose no remedy equals Dr. Miles' Restorative Nervine, the discovery of the renowned specialist, whose remedies are the wonder of the civilized world. Nervine is sold by C. H. Hance, 777 N. Spring, on a positive guarantee for his book free.

POMONA.

A Destructive Wreck of a Freight Train in That Town.
POMONA, May 21.—A disastrous wreck happened to overland freight train 22, west bound, Story conductor, in passing through Pomona last evening at 8:40. No one was hurt. A rim of one of the wheels of a box-car broke, throwing a greater portion of the train upon the ties and tearing up things and piling up cars generally. The track for a distance of several blocks is badly demoralized. The accident occurred within three blocks of the depot and inside of the sidetracks, so travel has not been delayed in the least.

Eight or ten cars were wholly wrecked or nearly so, and a large box-car was thrown across the track, demolishing the cargo of freight, which consisted of iron pipe and steel cables for the telephone and cable railway companies of Los Angeles and San Francisco. The train was running at the rate of 15 miles per hour. An assistant agent in charge of the train was signalled for and was kept busy forwarding dispatches relating to the order of clearing up the wreck all night. At midnight the wrecking train arrived and the men have not finished the work at this hour.

The Hillsdale house, owned and conducted by Mr. Bequette, is well filled with guests. The following are among the late arrivals: Wm. Warner, Arg. Berger, P. Phillips, San Francisco; J. M. Roland, Seattle; H. Williams, S. Gardet, San Jose; G. Forsyth, Oakland; C. Bradley, Fresno; Mr. and Mrs. McCowan, Los Angeles; William M. Hall, Portland.

The Lyman villa has been leased for three years by Mrs. S. C. Louder of Los Angeles, and the villa is already well filled. Among those now registered are Mr. and Mrs. Byson, Mr. and Mrs. Ferguson, Mr. and Mrs. Fast, Los Angeles; Mrs. Kelly, Massachusetts; Mr. and Mrs. J. Woodard of Los Angeles; Mrs. Walker, Los Angeles.

Arrivals yesterday at Martin villa were Frank M. McAuley, George Starr, David Katz, O. M. Ralph, J. A. Gorman, Joseph Matfield, J. Ganan, Geo. Brookmire, Los Angeles.

Arrivals at Hotel Redondo this morning: Rev. Mr. J. Osborne and two sons, Toronto, Canada; William C. Furrey, W. B. Furrey, Mr. and Mrs. F. G. Ryan, Miss Brooks, Mrs. Dwight Whitney and party, Los Angeles; Mr. Deyon, Santa Fe railway; D. L. Livingston, U. S. A.; Mrs. H. L. Pitcock, Miss Kate T. Pitcock, Portland.

PHOENIX.
Governor Hughes' Appointments—Local Agents of State.
PHOENIX, A. T., May 19.—Governor Hughes' appointments seem to suit the party and the people generally. He seems to be the man for the place, and promises a fair and prudent administration. The appointment of Mr. Baker to the office of chief justice is received with general favor. Why should we go outside the territory to fill the office. McKinney's case is generally regarded here as a case of carelessness on his part and persecution on the part of the prosecution.

The reservoir on the Agua Fria is a grand scheme, and seems to be assured of the necessary funds for its speedy completion. Appraisals are in the market in small quantities, and the promise of a large and healthy crop is evident throughout the valley.

The reasonable rain of about one and one-half inches caught the haymakers with a large acreage ready for baling, but the loss is compensated by the great promise further in the season.

Building will proceed on some of our largest blocks will be completed during the summer, to open for the fall trade.

A pleasant feature is the erecting of residences by the heads of families and the beautifying of homes.

Our new brick building is progressing and is contracted to be ready for the fall term.

We are having a very interesting course of lectures, by Rev. Braden, on the Bible and Christianity. The reverend gentleman seems to have made bold and profound study for long years.

The scarlet and typhoid fevers have left us, after warning to better sanitary measures.

Our new city council is full of business in fulfilling the promise of better government for our growing town.

Frenchmen Talk to Rowing.
The unexpected defeat of a London rowing club eight on the Seine last autumn by a French crew has put fresh spirits into Gallic oarsmen, and as a consequence we shall in all probability see some French crews at Henley regatta this year.

The Parisian rowing club for the grand challenge cup (eight), Stewards' challenge cup (four), and the silver goblets (pairs). M. Bouché of the same club will probably start in the Diamond sculls.

A Canadian sculler has also entered in an entry for the last named event, so that the regatta, which is fixed for the first Wednesday, Thursday and Friday in July, promises this year to be particularly interesting. No doubt the English clubs will do their best to avenge the disaster on the Seine last October.

A Big Blaine Monument.
It is proposed to set up the big monolith quarried at Crooked Wis., a monument to James G. Blaine, in the biggest stone ever quarried. It is 116 feet long, 10 feet square at the base and 4 feet square at the top, and it cost \$12,000 to cut it out of its bed, and it would cost \$32,000 to transport it to the World's fair. There is some doubt, however, about its ever getting to Chicago, as the expense of transportation would be too great.

The Latest Style of Kip.
Here is a kip, described upon feminine authority as the latest, which the Ohio board of health or any other aggregation of sanitary wiseacres can prohibit in the interest of the general health. It is executed by laying the left cheeks together and letting the snout go uninterfered into space.

The Affection of Skopticism.
Cardinal Gibbons recently expressed himself in this way, "Young men who have received an imperfect and superficial education want to appear wise and learned and think in order to do so they must affect a degree of skopticism and infidelity which frequently results in an entire loss of faith."

Miles' Nerve and Liver Pills.
Act on a new principle—regulating the liver, stomach and bowels, curing the nervous system. Dr. Miles' pills speedily cure biliousness, bad taste, torpid liver, constipation, indigestion, etc. for men, women and children. Smallest, mildest, surest. Fifty doses 25 cents. Sample free. C. H. Hance, 117 North Spring.

Long Beach Notes.
FOR GOODS at Los Angeles prices go to Wm. Schilling's corner of Pine and Second streets. Ocean front stock of groceries, dry goods, boots and shoes, etc.

POMONA.

A Destructive Wreck of a Freight Train in That Town.
POMONA, May 21.—A disastrous wreck happened to overland freight train 22, west bound, Story conductor, in passing through Pomona last evening at 8:40. No one was hurt. REDONDO.

Shipping Arrivals and Departures—Local Affairs.
REDONDO BEACH, May 22.—The steamer Corona, Captain Hall, reached her moorings, alongside Redondo wharf, at 3 o'clock a. m. today, landing 100 tons of merchandise and 35 passengers. She got on her course for southern ports at 6:30 a. m., schedule time.

The schooner William Ronton, Captain Hansen, having discharged her cargo at this port, will sail this evening, in ballast, for Seattle.

J. C. Woolley, one of the deep-sea fishermen of this section, came in at 2 o'clock this afternoon, after a three-hour run, landing another Jew fish, weighing 345 pounds, and a fine lot of halibut, weight 200 pounds.

The big Jew fish had scarcely been hung up when the kodak flasher now represented by Mr. Woodard of Los Angeles, of Pittsburg, guests at Hotel Redondo, were on hand taking snap shots at the monster.

The Hillsdale house, owned and conducted by Mr. Bequette, is well filled with guests. The following are among the late arrivals: Wm. Warner, Arg. Berger, P. Phillips, San Francisco; J. M. MARRIAGE IN THE EAST.

Wives in Turkey, in Persia and in Tibet. Plurality of Spouses.
In Persia it is an almost invariable custom to choose a wife from among one's relations, such as cousins, in a near or remote degree, and only among acquaintances when failures has occurred in following the old habit. The Hebrews, especially, sanctioned a plurality of wives according to the law of Moses, and that shows how thoughtful they were of the future of their race—so much so that sterility in a wife was considered a sufficient reason for contracting another marriage.

The of a Turk who has to bear the whims and caprices of his numerous wives is anything but an enviable one. The harem is not, as many persons suppose it is, a delightful abode in which a Turk's wife lives together. Each legitimate wife of a pasha has a separate dwelling, her own cook, her own coachman—in a word, her own separate household. True it is that all the dwellings are enclosed within one surrounding wall, and frequently they are beneath one roof, as is the case in our modern flats; but nevertheless the isolation is complete among the wives.

The etiquette among Turkish ladies is somewhat complicated and the system is hierarchical, the favorite exercising an undisputed authority over the others. In the sultan's harem the supreme authority is vested in his mother, who takes the title of sultana palide, and she alone is entitled to go to and from the harem unveiled. It is only when she goes out that she wears the yashmak. At the present time the yashmak used by Turkish ladies is no longer what it was. Its transparency admits of a pretty face being easily outlined. When the yashmak is very thick one may conclude that the face it hides is not very attractive. In spite of the progress of civilization and the consequent transformation of habits and customs in many countries, the position of women in Turkey has only slightly changed; it is only in exceptional cases that those belonging to the higher classes are unaccompanied out of doors by eunuchs. There are the cadines, who have adopted and follow the Paris and London fashions; and it has even been whispered that there are mysterious assignations in the shops of the grand bazaar at Constantinople, where some ladies spend a good deal of time on the plea that they have numerous purchases to make.

In Tibet they reverse the order of things, for in that country it is not unusual to see a woman married to a plurality of husbands, sometimes two or more chosen from among her cousins.

Arizona's Wondrous Gold Fields.
On yesterday we published an account of marvelous fields of gold placers in various parts of Arizona, says the Tucson Star of the 20th instant. Today there comes the news through the Phoenix Herald of still more wondrous and startling discoveries, which we place before our readers as follows:

The directors of the Volcanic company at a meeting held today decided to send out to the mines a force of 18 to 20 men to assist the present force in blocking out as large a piece of gold as the largest wagon will hold up. The block will be about 15 feet long and six feet square, weighing about 60 tons. The vein from which this ore is taken is 45 feet wide, with an unknown depth, and crops out on the surface for over a mile; hence a block 45 feet square by one mile in length could be had if there was any way of transporting it to railroad. This one vein assays \$125,000 gold, \$81.40 silver and \$25 copper per ton.

The company owns five other similar veins adjoining and a variable gold hill one mile north of it. The value of this ore block will be \$30,000. It will be a glittering beauty, showing silver and copper since and the gold is intermingled with a blend of brown and green and oxide. The large block of ore will be hauled to Sentinel on wagons, a town on the Southern Pacific railroad 35 miles south from the mines, and shipped within this month to the managers of the Arizona mineral exhibit at the world's Columbian exposition at Chicago. This work will be under the immediate supervision of the president of the Volcanic company and Captain Samuel L. Sanders, the manager and assayer of the company.

These are the mines recently discovered in the Eagle tail mountains about 90 miles west of Phoenix, near the extinct volcano crater, and the company of the Orange Belt Land and Canal company, being Phoenix and Decatur, Ill., parties.

THE HIGHEST PLACE,
among all blood-medicines, belongs to Doctor Pierce's Golden Medical Discovery. See if you don't think so, when you consider how it's sold to you. It's guaranteed—and no other medicine of the kind is. If it ever fails to benefit or cure, you have your money back. Wouldn't every medicine make the same terms if it could do as much good?

But the "Discovery" acts differently, just as it's not sold differently. It's not like the sarsaparillas, which claim to do good in March, April, and May. All the year round, with equal benefit, it cleanses, purifies and invigorates the whole system. All Blood, Skin, and Scalp Diseases, from a common blotch or eruption to the worst Scrofula, are cured by it. For Salt-rheum, Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goiter or Thick Neck, and Enlarged Glands, Tumors, and Swellings, it's a remedy that nothing can equal.

The "Discovery" is a concentrated vegetable extract, and equally good for adults or children.

It's the cheapest one too. With this, you pay only for the good you get. Refuse worthless substitutes.

MEDICAL DEPARTMENT,
UNIVERSITY OF CALIFORNIA.
The regular COURSE OF LECTURES will be given at the University of California, College building, Stockton, Cal., near Chestnut, San Francisco, by R. A. McLEAN, M.D., Dean, 1098 Market st., cor. Montgomery, San Francisco.

The College Catalogue may be had on application at the office of this paper. 5-10 144—wily 24

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The man, who lives better than others and enjoys life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

DR. STEINHART'S
Essence of Life
RESTORES MANHOOD,
Cures Seminal Weakness,
Cures Nervous Debility,
Stops Involuntary Losses.

And all troubles caused by youthful indiscretions and excesses. This medicine is infallible and purely vegetable.

Price \$2 Per Bottle, or 6 for \$10
Can be had in pill form at same price, if preferred. Consultation and advice free, verbally or by letter. All communications strictly confidential. Address:

DR. P. STEINHART,
Rooms 12 and 13, 321 1/2 South Spring st., Los Angeles, Cal.
Office hours from 9 a. m. to 2 p. m. Evening 6 to 7 p. m. Sundays 10 a. m. to 12 m.

THE CELEBRATED FRENCH CURE,
Warranted "APHRODITE" or "MORPHINE" to cure
Is Sold at a POSITIVE GUARANTEE
to cure any form of chronic disease or any disorder of the generative organs of either sex, whether arising from excesses or otherwise.

BEFORE TOBACCO OR OPIUM, or through youthful indiscretions, over-indulgence, etc., such as Eranth Power, Wakefulness, Boasting down Pains in the back, Seminal Weakness, Hysteria, Nervous Prostration, Neuritic Entailment, Leucorrhoea, Discharges, Weak Memory, Loss of Power and Impotency, which if neglected often lead to premature old age and insanity. Price \$1.00 a box, 4 boxes for \$5.00. Sent by mail on receipt of price.

A WRITTEN GUARANTEE is given for every \$5.00 received, to refund the money if a permanent cure is not effected. We have thousands of testimonials from old and young of both sexes, who have been permanently cured by the use of Aphrodite. Circulars free. Address THE APHRODITE MEDICINE CO., Sold by H. M. SALL & SON, 220 South Spring street, Los Angeles, Cal.

UNIVERSITY OF CALIFORNIA,
Entrance Examinations.
Entrance examinations for the College of Letters, Science, and of Law, will be held at the University in Berkeley, also at Los Angeles, in Room 14 of the High School building, on May 18th, 19th and 20th, between the hours of 8 a. m. and 12 m.

The second examination for the same colleges will be held at the University in Berkeley on August 14th, 19th and 20th. The Academic year 1893-94 will commence August 14, 1893. For information address the Secretary of the University of California.

I WILL GIVE \$500 TO CURE EXTERNAL CANCER IF I cannot cure it by my PAINLESS PLASTER. Best remedy on earth. No matter how long it has been on you, it will cure you. Book sent free with address of 300 curers in Southern California—most in
