IN A FURNACE OF DEATH.

A Terrible Disaster Near Eagle Pass, Tex.

Twenty-six Men in a Burning Coal Mine.

Every One of Them Killed by the Heat and Smoke.

The Unfortunates Were All Mexicans. Families and Friends of the Victims Gathered Around the Smoking Pit.

By the Associated Press.
EAGLE PASS, TEX., June 4.—Fire started last night in the Feunte coal mines, operated by the Mexican International railway, four miles from here. At 4 o'clock yesterday evening, shortly after a locomotive with a train of loaded cars left the mine entrance, the mine was discovered to be on fire and smoke and flames were seen issuing out of the air shafts. About one-half of the miners were working near the main tunnel and these made their escape, leaving 26 of their number to perish from the heat and smoke and poisonous gases which spread rapidly to every portion of the mines.

When it was seen that all efforts to rescue the imprisoned miners were useless, every energy was directed to saving the property from destruction. Water was poured on to the burning timbers and in three hours the fire was under control. At 12 o'clock today one body was recovered and shortly after another, fearfully scorched and blackened, was brought to the surface. It is believed by tomorrow the mine will be cleared of the heat and smoke which at present it is impossible to cope with. All the bodies will be recovered. All the miners employed were Mexicans, and most of them leave detritate families.

It is reported that all parties responsible for the management of the mines have been placed under arrest pending an investigation of the cause of the disaster. A large number of friends and relatives of the unfortunate miners have gathered at the mouth of the mine mutely awaiting the recovery of the bodies. When a body is brought out there is no shout of grief, but look of quiet resignation, and deep grief appears upon every countenance.

A Chance for American Millers.

WASHINGTON, June 4.—The department of agricultural is informed that an exhibit of milled products, to be held at Mainz, Germany, in August next, is a matter that will be of interest to millers in this country. It is expected to bring together thousands of bakers from all parts of Germany and continental Europe. An excellent opportunity will be afforded to exhibit American cereals, in view of the recent modifications by Germany of the discriminating tariff imposed upon millers as compared with unmilled products, which was almost an effectual barrier to the introduction of American materials, etc., in that country.

Four Young People Drowned.

NEWARK, N. J., June 4.—Peter McGovern, a young gasfitter, and an unknown girl, were drowned in the Passaic river tonight, by their boat capsizing.

Detroit, Mich., June 4.—Lottie Dingsman, aged 13, and Clara Wagner, aged 5, fell into the river this afternoon and were drowned.

A Postoffice Investigation.

KANSAS CITY, June 4.—Government officials arrived here last week and have been pushing an investigation into the affairs of the postoffice daily since. Eight postoffice clerks and five carriers have already been discharged for duplicating and hypothecating their salaries with money lenders, and other discharges are expected to follow.

The Next Execution.

DAVENPORT, N. Y., June 4.—Scolopene Martella, who has been confined in Clinton prison since November 22, 1892, awaiting the execution of his death sentence for the brutal murder of a fellow countryman, will be executed about Tuesday noon. A test of the death-dealing apparatus has been made, and everything was found to work satisfactorily.

Miss Manchester's Murderer.

FALL RIVER, Mass., June 4.—Jose Carreire, suspected of the horrible murder of Bertha May Manchester, is under arrest in central police station charged with the crime. That he really committed the murder there appears to be little room to doubt, in view of the developments made in the investigation which ended this morning.

Standard Oil Strikers.

CHICAGO, June 4.—There is every probability that by tomorrow morning the Standard Oil company will have a big strike on its hands. The entire working force of 2500 men at Whiting, Ind., decided to strike unless the company accedes to their demands for nine hours a day, with ten hours' pay. The men submitted their demands two weeks ago, and yesterday received a refusal. The men held a mass meeting today and decided to walk out tomorrow unless the company gives in.

The Kansas Miners' Strike.

LEAVENWORTH, Kan., June 4.—The status of the miners strike here remains unchanged, except a notice posted by the operators of the Home mine that the men must return to work by next Tuesday morning in order to receive the same pay they were getting at the time they quit. The miners have not yet intimated what position they will take in the premises. Four mines in Leavenworth are now closed.

A TERRIBLE CYCLONE.

Great Destruction of Property and Loss of Life in Texas.

HOUSTON, TEX., June 4.—Spanish Camp, in Wharton county, 20 miles from the railroad, was struck by a terrible cyclone on Friday night. A number of houses were unroofed and destroyed. Josh Wilkins' house was blown down and two children killed. For three miles square everything was wrecked and ruined. Three miles from town Mrs. Simmons was killed and Wash Jenkins, a negro, over 100 years old, was caught beneath the ruins of his cabin and crushed to death. All the residences and outhouses on the Montgomery plantation were blown away and several persons hurt, but none killed. On G. Duncan's farm houses were unroofed and two families of colored tenants badly injured, two fatally.

FIVE BLACKENED CORPSES.

The Result of Saturday Night's Holocaust in Gotham.

NEW YORK, June 4.—Lying in an undetected establishment on East Twenty-eighth street are five blackened and burned bodies of persons who perished in the fire last night in a flat house at 136 East Forty-third street. Four of the persons who were killed, investigation showed, were burned in their beds. It is generally believed the fire was caused by hot ashes which were sent down a dump. Streams of water had scarcely begun to play on the flames before there was a loud explosion from the Bente flat, where most of the fire was. Until after the fire was extinguished it was thought no one had perished; then the bodies were discovered through the place and found five bodies. The loss by the fire is about \$7000.

Did Schaffner Suicide?

CHICAGO, June 4.—The impression is growing that the man who committed suicide by jumping into the lake from Lake View, Friday, was Herman Schaffner, the missing banker. The principal reason for the belief is that a note found in a boat has been identified as one written by Schaffner previous to his sudden disappearance.

USED THEIR BAYONETS.

TROUBLE AT AN ITALIAN PIONEER AT SACRAMENTO.

Members of the Bersaglieri Guard Attack American Intruders—One Man Badly Wounded—Police Interference.

SACRAMENTO, June 4.—At a picnic of the Bersaglieri Guard today trouble broke out between the members of the guard and some Americans. One of the guard ran a sword bayonet into a man's leg and tried to stick it into another's neck. Officer Carroll wrenched the weapon away and arrested him. Several others pursued a man with bayonets and cornered him. An officer protected him with a revolver, when some Italians struck the officer. The Italians became wild and challenged the Americans to fight. A riot seemed imminent, but the captain finally called a halt. Afterward the men drove Officer Talbot from the grounds.

MAN AND WIFE DROWNED.

The Sad Fate of a Former Los Angeles Couple at Bakersfield.

BAKERSFIELD, Cal., June 4.—James M. Reed, 43 years of age, and his wife Mary, aged 29 years, were drowned this afternoon in an irrigation canal close to town. The weather was very hot and she went into the canal to bathe, got in a deep place and disappeared in a few minutes. Their children noticed the accident and ran to tell their father, who was writing a letter in a tent close by. He jumped in to save her, but both were drowned. They came here last week from Los Angeles. He was employed on the race track. They were married in the United States 8 years and the youngest 18 months.

BACK TO WASHINGTON.

The President Returned from His Short Fishing Trip.

WASHINGTON, June 4.—President Cleveland returned to Washington, this morning, from his short fishing trip at Cape Charles, Va., and was met at the station by Private Secretary Thurber, with the president's carriage and two men, and driven to the White House. Cleveland stayed at the White House half an hour, and was then driven to his hotel, his summer villa in the suburbs, where he had breakfast with Mrs. Cleveland.

Troublesome Strikers.

JOLIET, Ill., June 4.—No disturbance occurred along the drainage canal today, but tomorrow's developments are awaited. The men have decided to meet in Lemont and they will march along the canal, forcing the men to quit where they are at work. The contractors say that men desiring to work will be given full protection. The strikers threaten trouble if "scabs" are put to work or if militia or deputy sheriffs are employed.

The Venezuelan Presidency.

CARACAS, June 4.—The constitutional assembly has completed the draft of a new constitution for Venezuela. It authorizes General Crespo to continue at the head of the provisional government until the presidential election is held in the coming autumn to fill the unexpired term, and also declares that he is eligible, if elected then, to serve the succeeding constitutional term of four years.

A Dynamite Outrage.

PARIS, June 4.—A dynamite cartridge was exploded today in a cafe in Calais. Two persons were severely injured. The contents of the cafe were shattered.

The world's fair will cause a rush. Order early. Full stock, good fit, moderate prices. Get, fine tailoring, 112 West Third street.

VALUABLE PLATE STOLEN.

A Church in the Kremlin at Moscow Plundered.

Priests Believed to Have Aided the Burglars.

A Thief Confesses the Theft of the Flanders Jewels.

Ambassador Runyon Received by the German Emperor—Cholera Spreading in the South of France. General Foreign News.

By the Associated Press.
ST. PETERSBURG, June 4.—It transpired yesterday that while the czar was in Moscow, recently, the church of the Chudov monastery, within the Kremlin, was plundered of a vast amount of plate and money. The plate had just been used in the ceremonies attendant upon the reception of the czar, and had not yet been returned to the vaults where it was usually kept. The total loss is estimated at between 2,500,000 and 3,000,000 roubles. The burglars are supposed to have entered the monastery through the roof. They are believed to have been coached previously by some of the priests. No arrests have been made.

UNREST IN PERU.

Grave Fears of a Revolution in That Republic.

WASHINGTON, June 4.—Semi-official reports continue to reach Washington from Peru, indicating a threatening revolution in that country. A private letter received from Lima today represents an extremely critical political situation and grave danger is apprehended of a revolution before the day of the presidential election. The unpopularity of the candidate for the presidency and the old controversy about the nitrate beds, which Chili assumed control of at the close of the war with Peru, are given as the cause of the unrest. At the coming election it is to be decided by ballot whether Chili is to be paid a certain portion of the revenues obtained from these beds. The agitation of this question, it is said, has aroused much of the unrest. And further complications between the countries are feared. Nothing can be learned at the state department on the subject, but both the state and navy departments are manifesting intense interest in the developments of the Pacific of the U. S. S. Charleston and the Philadelphia. It is probable that the Philadelphia will sail from New York on the 16th inst. for Callao.

CLOSED WITH THE KAISER.

Ambassador Runyon Graciously Received by Emperor William.

BERLIN, June 4.—William Walter Phelps, the retiring United States minister, was present at the castle this noon. Immediately afterwards Freiherr Marshall von Bieherstein, minister of foreign affairs, introduced to the emperor Theodore Runyon, the new United States ambassador. Runyon wore the uniform of a general. In presenting his credentials he made a felicitous speech commenting on the amity between Germany and the United States. In reply the emperor said he recognized with pleasure the friendliness of the relations between Germany and the United States, and was pleased to receive such a conspicuous American citizen as Mr. Runyon. Afterward the emperor and Mr. Runyon conversed privately on American topics for 15 minutes.

A Thief's Confession.

VIENNA, June 4.—A Belgian named Fuller, who was arrested last night, confessed that he helped to steal the jewels of the countess of Flanders last February. His confession implicates a London aristocrat and several of the countess's servants. Fuller also told where the treasure was hidden. The stolen jewels are valued at 4,000,000 francs. They were stolen from their palace while the count and countess of Flanders were attending a court ball.

Cholera Spreading in France.

MADRID, June 4.—Despite the denials of the French local authorities, the Spanish consuls in France continue to report the spread of cholera epidemic at several points. Four fresh cases, they say, developed yesterday in Marseilles, two in Cette and one case in Toulouse. Between May 23 and June 1st there were 14 cases and 11 deaths in Marseilles.

Death of a Labor Agitator.

LONDON, June 4.—George Potter died today. In all the notable movements of organized labor in England during the last 30 years he had been more or less conspicuous for sympathy or co-operation with the working people. He wrote much for current periodicals on subjects related to social reform.

A Spark from a Pipe.

BERLIN, June 4.—A cart load of gunpowder was exploded this afternoon on a street of Kirm, in Rhenish Prussia, by a spark from a pipe. Two men on the cart were killed and 13 other persons injured, several so severely that they will not recover. Thirty houses were damaged by the explosion.

Spanish Revolutionists.

MADRID, June 4.—A company of revolutionists who made a demonstration near Puerta la Reina, Navarre, on Friday, were dispersed by the military. Ten revolutionists were killed and two others wounded severely.

Siamese Withdrawn.

PARIS, June 4.—In obedience to the orders of the French minister resident, the Siamese have withdrawn from Cammon, the principal military post of Northern Annam.

For bargains in millinery go to Thurston's, 264 South Main street, opposite Third.

JAPS AND CHINESE.

Supplanting Whites and Indians in the Fraser River Fisheries.

NEW WESTMINSTER, B. C., June 4.—A monster meeting of the Fishermen's association was held here to discuss the wholesale naturalization of Japanese and Chinese for the purpose of getting fishing license. Several speeches were made. It was pointed out that white fishermen are gradually being crowded out by Japs and Chinese. There are 31 canneries on the Fraser river, and although the biggest sack on record is expected to be made this season, not one white fisherman has been employed so far by the canneries. Japs and Chinese are taking their places. The native Indians also are being supplanted by Japs. Resolutions were passed asking the dominion government to refuse to grant licenses to Japs and Chinese, and to issue the same only to whites and Indians. The meeting was enthusiastic; public sentiment is strongly with the fishermen.

EDWIN BOOTH SINKING.

The Great Actor's Death Momentarily Expected.

NEW YORK, June 4.—Edwin Booth is worse this evening. The following bulletin is posted at the Players' club:

In regard to Mr. Booth's condition it may be stated he has gradually grown weaker during the past twenty-four hours, and there is now very little hope of even a partial recovery.

SIR CLARENCE SMITH, M. D.

At 11:30 o'clock a bulletin was posted to the effect that there was no change in Mr. Booth's state. No other information was vouchsafed at the club when inquiries were made late tonight, other than that Dr. Smith was still with Mr. Booth and would remain all night.

At 4 a. m. there is no change in Booth's condition.

The Chautauque Tragedy.

CHAUTAUQUE, N. Y., June 4.—Another account is given of the death of Mrs. Colton and the suicide of Dr. Elderkin yesterday. It is to the effect that the woman died while undergoing a criminal operation at the hands of Dr. Elderkin, who then suicided in consequence. Both have families.

AN AWKWARD POSITION.

REFLEX EFFECT OF THE GEARY LAW DECISION.

It Places the Judicial and Executive Branches of the Government at Variance With Each Other.

WASHINGTON, June 4.—The decision of the supreme court upon the Chinese exclusion act recently delivered may possibly have a much wider scope and affect a greater variety of persons than was probably foreseen by the associate justices who joined with Mr. Gray in declaring it to be a law of the land. A volume of foreign relations for 1892, just published, contains a case in point wherein arguments are used by a foreign government in a suggestive parallel with those outlined by Justice Gray in announcing the judgment of the supreme court of the United States. The circumstance of the case are as follows:

Leon Spitzzen, born in Vienna, Austria, emigrated to the United States, was naturalized in New York, and returned to Vienna in 1890. In March, 1892, Spitzzen was notified by the authorities that he was expelled from Austria. Minister Grant brought the case to the attention of Count Kalnoky, protesting that the treatment of Spitzzen was a violation of the treaty of 1870 between Austria-Hungary and the United States, guaranteeing certain rights and the protection thereof to citizens of the respective countries.

Replying to Minister Grant's complaint, the Austrian minister of foreign affairs said Spitzzen's immigration to the United States was manifestly for the purpose of evading military duty; that the expulsion of such individuals was based upon considerations of public order, and that every state has a right to expel foreigners from its territory for reasons as above stated, and the question whether and when reasons for such expulsion exist can be judged only from the internal point of view.

This sentiment accords with the views expressed by Justice Gray, and the language is quite similar. Minister Grant notified Count Kalnoky that this government could not accept that interpretation of the treaty, a position in which he was supported by Secretary of State Foster, who, in a dispatch dated July 23, 1892, said so long as the treaty remains in force the United States government will insist upon strict compliance with its terms, and after a careful examination of the case in point it was reluctantly obliged to dissent from the views expressed by the Austro-Hungarian government.

In view, however, of the apparent inconsistency between the views of the executive and judicial branches of the government, as disclosed by this correspondence, and the decision on the Geary law, the attitude of this government upon the next case of alleged violation of treaty rights by an European government will be watched with interest.

Dropped Dead at a Wedding.

NEW YORK, June 4.—Henry Vedder of Jersey City, while in attendance upon the marriage of his niece last night, dropped to the floor dead. Vedder was in the Southern navy during the civil war and on board the Alabama in her encounter with the Kearsage. The coroner viewed the body today and decided that death was caused by heart disease.

Death of Horatio Peters.

ROCHESTER, N. Y., July 4.—Horatio Peters, one of the principal stockholders in the New York Clipper, died at his home in this city this evening.

For Sunburn and Freckles use only Perfecta Face Cream; safe and sure.

For sale by A. E. Littleboy, druggist, 511 South Spring street.

THE SECOND OPEN SUNDAY

Yesterday's Attendance at the World's Fair.

It Was Light on Account of Bad Weather.

Rain Fell in Torrents and the Wind Blew a Gale.

The Big Krupp Gun Pat Through.

MIMIC DRILL—WESTERN PEOPLE VISITING THE EXHIBITION IN GREAT NUMBERS.

By the Associated Press.
CHICAGO, June 4.—The second open Sunday at the fair dawned bright and clear, and uncomfortably warm. The transportation companies had prepared all their facilities in anticipation of an immense business. Up to 1 o'clock they carried upwards of 35,000 people to the white city. About that time clouds came up and shortly rain was falling in torrents; the wind blew a gale, and thunder and lightning played in a most uncomfortable manner. Very few braved such weather, and the consequence was that less than 60,000 paid admission for the day. The visitors were largely of the working class, accompanied by their families, and nearly all brought lunch baskets. Machinery hall was crowded pretty much all day, as was the fine arts building and the manufactures building. Nearly all the eastern state buildings were closed to the public, while a majority of the western and middle states kept open.

Krupp's big guns were put through a mimic drill this morning, being handled exactly as in active service, except that they were not fired. According to the registers in nearly every state building, western people are coming to the fair in much greater numbers than those living in the east. The result of the investigation shows the following number of people registered at the following state buildings, among others: Illinois, of course, leads the list and Michigan is second with 9000; Montana, 3000; Arizona, 65; New Mexico, 50; Utah, 300; Idaho, 200; Washington, 1000. Some states keep no registers.

His excellency, the Marquis Enrico Ungaro and the Italian commissioners to the world's fair, gave a banquet tonight in honor of Italy's national fête. Over 100 guests were present, representing all the distinguished foreigners in official attendance upon the fair.

INFANTA EULALIA.

How the Princess Spent Her Last Day in Gotham.

NEW YORK, June 4.—Infanta Eulalia and party attended mass at St. Francis Xavier church, in West Sixteenth street, this morning. After returning to the hotel the princess breakfasted, and then at her request about 20 children, whom she had noticed about the halls of the hotel, were presented to her. The princess received a committee from the Circulo Colon Cervantes. Dr. Juan N. Navarro, president of the society, presented her a memorial of all the children of an album bound with white kid and lined with white moire silk. This afternoon the princess took a farewell excursion on the river and bay. She went incognito and salutes and other ceremonies were omitted. The party were out for two hours and a half, and then returned to the hotel. The princess remained in the hotel this evening with her party. She will leave by a special train over the Pennsylvania railroad at 12:30 p. m. tomorrow, and go through to Chicago without stop, except to change engines at the necessary points.

The Montana Sheep Law.

HELENA, Mont., June 4.—No sheep can be imported into this state from Oregon, California, Nevada, Washington, Idaho, Utah, Colorado or New Mexico except upon the certificate of the state veterinarian that the sheep have been inspected and found free of any infectious or contagious disease. Such is the purport of a proclamation just issued by Governor Rickards.

A Presbyterian Seceder.

AARON, N. Y., June 4.—Rev. Dr. James Esob of the Second Presbyterian church of this city in his morning sermon today, renounced allegiance to the Presbyterian denomination, because of the decision of the general assembly in the Briggs case. It is probable that the church will support his action and leave the denomination with him.

Columbian Prize Shooting.

CHICAGO, June 4.—The international Columbian prize shooting contest began this afternoon. The firing today was at a 200-yard range. F. Tognenberger of Chicago won the gold medal, scoring the greatest number of bulls-eyes and points. The contest is to continue each Sunday and Monday till September.

Made an Assignment.

JACKSON CITY, Tenn., June 4.—Yesterday the Carnegie Land company and the Carnegie Iron company made an assignment to J. W. Ours. The liabilities, due largely to eastern and northern parties, are placed at \$125,000, and the assets, consisting of a new blast furnace, hotel, lands and town lots and notes are estimated at \$600,000.

A San Francisco Man Suicides.

PHILADELPHIA, June 4.—John McQuaid, aged 52, who came here from San Francisco in December last, blew out his brains at the home of his sister today. He had been brooding over the death of his wife and the disappearance of his son. In the dead man's trunk was found \$5000 in cash.

The Columbus Caravels.
NEW YORK, June 4.—The Columbus caravels will start tomorrow on the long journey up the coast to the mouth of the St. Lawrence river and through the lakes to Chicago.
