

PASADENA. The Bank Officials—The Electric Railway—Notes.

PASADENA, June 27.—The officials of the three banks of Pasadena, desiring to express their feelings towards their patrons for the many ways they stood by them in the late financial difficulty, met this morning and passed the following:

Whereas, At the outset of a financial flurry that through carelessness had resulted in closing several of the largest banks in our neighboring city of Los Angeles, and those of other towns in this vicinity, the business men of Pasadena voluntarily signed an agreement expressing full faith in the financial institutions of this city, and pledging themselves to maintain their deposits therein intact so far as possible; and

Whereas, Those who came forward and thus pledged their faith, aided by the press and by the nearly unanimous voice of the community, succeeded thereby in allaying public apprehension, and in inspiring confidence;

Resolved, That in this prompt, generous and public-spirited action the people of Pasadena not only rendered a service to the banks but merited the sincerest thanks of their officers, directors and stockholders, but they saved the entire business interests of the community from serious injury and disarrangement, preserved its credit unimpaired and conferred lasting honor upon our beloved city.

Resolved, That in expressing our sense of obligation to the citizens of Pasadena for thus lending their powerful support to the maintenance of confidence in a time of unfeeling and unreasoning distrust, when business is generally prosperous and when, as we confidently believe, depositors in our banks were never more secure, we repeat our firm conviction that in the course pursued by the highest and best interests of the city as a whole were subserved.

Resolved, That these resolutions be spread upon the director's records of the First National, Pasadena National and San Gabriel Valley banks, and that a copy thereof be furnished to the press for publication.

THE ELECTRIC ROAD GOES. The county board of supervisors has at last ordered the electric railway franchise between Pasadena and Los Angeles advertised for sale over the route asked for by the Consolidated company. The franchise calls for the operation of a double track electric railway.

THE BOARD OF TRADE IS TO BE CONGRATULATED upon the success which has attended their efforts to have the supervisors act upon this franchise, for had it not been for the vigorous action taken by the board in one hundred, the matter would probably have dragged along for several months yet. As it is now the electric company can begin work as soon as the legal form has been gone through with, giving them plenty of time to complete the work before next winter.

THAT SWITCHING CASE. As appears from today's Los Angeles court reports, a decision has at last been rendered by Judge Smith in the case of the City of Pasadena vs. Dibble, a Santa Fe engineer who was arrested for switching across Colorado street in violation of a city ordinance, in which the court holds that the council exceeded its power in passing the prohibitory ordinance.

Considerable interest has been taken in this case from the fact that the question of the legality of the authority of the city recorder to try the case was raised by the defense. It is not a matter of justice of the peace as is required by the state law. It seems, however, that the Judge refused to pass upon the question, holding it could not properly be raised in this manner.

THE WOMAN'S INDIAN ASSOCIATION will hold a meeting in the Baptist church tomorrow afternoon at 3 o'clock.

MISS INA GOODWIN entertained the class of '93 at her home on North Marlingo last evening.

SANTA ANA. The Season Opening—Methodist Conference—Club Room Case.

SANTA ANA, June 27.—The season's gaiety and social life of the City by the Sea will be inaugurated by Mr. S. Reinhardt of the Arcadia, by giving a grand ball in honor of the opening of the popular houses. It will be an event to be long remembered by all present, and society is agog to be present.

On Monday Mr. and Mrs. W. L. Corson will follow up mine host Reinhardt's lead and give a ball at the Casino, and from that on all night, as merry as the marriage ball of last fall.

At the Jackson there are whist and other parties galore, and the season of 1893 thus promises to outrival any of its sister seasons of the past.

In athletic sporting circles there is also great activity, and polo, cricket, tennis and racing will be better represented than ever before, and add their charms to pleasure votaries who summer here beside the sea.

SANTA ANA. Banks Resuming—About Silkwood—Morris in Chicago.

SANTA ANA, June 27.—The Commercial bank will resume business tomorrow, and with its opening the Bank of Orange will also commence. This announcement will be heard with pleasure, for the closing of our banks is having a damaging effect on business and making money very hard to get.

What is interesting horsemen hereabouts greatly is whether or not Silkwood will go east. It is understood that Mr. Keating of San Francisco, the man who drove our Dick last season, has offered Willits, the owner of Silkwood, \$12,000 for the use of the stallion for the racing season.

There will be no races here on the Fourth of July, as the fair directors have concluded it would not be a profitable venture. All their energy will be turned into the fall meeting, which will undoubtedly be a great event.
