POINTERS FOR TODAY.
PARK THEATRE—Cinderella.
CITY HALL—Council, 2 p. m.

THE OUTSIDE WORLD AND OUR LATE BANK HUNTS.
Naturally the late banking disturbances in Los Angeles have attracted wide attention.

But if we have had a flurry amongst our banks the situation has by no means been altogether unpleasant.

Perhaps there has never been a pardon issued by a state executive in which that high officer justified his exercise of clemency by making the broad charge that the court, the jury and the officers of the law had brought about the conviction of the men pardoned by unfair, corrupt and illegal means.

It is pleasant to know that we are rapidly rehabilitating our financial affairs. For the reason so clearly stated in the foregoing, this city and section will suffer no serious drawback from a financial cyclone whose fury was confined to a few hours.

It is pleasant to know that we are rapidly rehabilitating our financial affairs. For the reason so clearly stated in the foregoing, this city and section will suffer no serious drawback from a financial cyclone whose fury was confined to a few hours.

there, a few years since, at the period of the bursting of the greatest real estate boom almost in history, and when hundreds of individual business men failed, all the banks went successfully through that crisis.

As our Chicago contemporary says, we went through the crisis following the collapse of the great real estate boom of 1886-87 without a single bank failure.

The editorial writer in the Chicago journal has been at great pains to post himself thoroughly on the condition of things here.

All that is known at this distance of the condition of general business in Los Angeles is justification for saying that these suspensions were entirely forced or wholly unnecessary.

One of our importers has practically solved the silver question for himself by paying the duty on a cargo of coal in silver dollars.

Special Notice to Subscribers.
Subscribers to the DAILY HERALD on the routes between Vernon and Compton, Nadeau park, Florence and other points near those places;

Preparing for the Fourth.
To take advantage of the Southern Pacific company's half rates, tickets on sale July 3d and 4th, good to return 3d, 4th or 5th.

Half Price.
In Kohler & Frothing sold 65 lots, \$550, \$600 and \$650. Sold in 1887 at \$1100 to \$1300.

Harmless, the High Diver.
At Port Los Angeles next Sunday, at 2:15 p. m. Fishing from Mammoth wharf best on the coast.

For the round trip on the Terminal railway to all points July 3d and 4th, good returning July 3d, 4th and 5th.

was manifest, however, from the way in which the judge introduced his paper, that there was a strong undercurrent of adverse criticism which he felt called upon to meet, and in the light of the pardons just granted and the reasons given for them by the executive, we are disposed to believe that Judge Gary had received some intimation of the action that was impending and the attack that would be made upon his judicial integrity.

NoBODY will be astonished if another tragedy should grow out of the Heath trial for the murder of McWhirter in Fresno. There is more bad blood exhibited in that trial than in any other we can call to mind.

As to the performance of the electric road, nothing but praise can be said. The cars were loaded to the rail, but not a hitch occurred anywhere, everything moving as if the line had been in operation for years instead of one day.

An elaborate dinner was served at 6 o'clock in the small dining room, after which the party visited the falls, where the lights were burned, producing a charming effect upon the water.

The road will be open to the general public on Saturday next, as far as the pavilion and the cable section will be put in operation a few days later.

They Wear Diamonds.
Superintendent Friesner and Miss Packard and Executive Sparks.

La Grippe.
During the prevalence of the gripe the past seasons it was a noticeable fact that those who were attacked by the New Discovery not only had a speedy recovery, but escaped all the troublesome after-effects of the malady.

IF YOU HAVE DEFECTIVE EYES
And value them, don't use. No case of defective vision where glasses are required is too complicated for it. The correct adjustment of frames is quite as important as the perfect fitting of lenses, and the scientific fitting and making of glasses and frames is our only business (specialty). Eyes examined and tested free of charge. We use electric power, and are the only home here that grinds glasses to order. Established 1856.

A RAILROAD TO FAIRY LAND.
The Final Inspection of Prof. Lowe's Mountain Road.

A Gala Occasion Yesterday for the Guests of the Company.

The Electric Part of the Line in Full Operation—The Party Which Made the Trip—The Line to Be Opened on Saturday.

The Pasadena and Mount Wilson railway underwent its first official inspection yesterday afternoon, when a party of about 100 made a trip over the electric line to the pavilion located in Rubio cañon, at the foot of the great cable incline.

To say that the party was delighted with the road and scenery is but putting it mildly. On every hand were heard expressions of astonishment and delight at the wonderful work which has been accomplished in the very heart of the mountains.

As to the performance of the electric road, nothing but praise can be said. The cars were loaded to the rail, but not a hitch occurred anywhere, everything moving as if the line had been in operation for years instead of one day.

An elaborate dinner was served at 6 o'clock in the small dining room, after which the party visited the falls, where the lights were burned, producing a charming effect upon the water.

THE RAILROADS.

Superintendent Muir Returns from the East—Notes.

Superintendent Muir of the Southern Pacific company at this place, returned yesterday from a prolonged trip through the east, his old home in Nova Scotia, and the world's fair. He was accompanied by Miss Muir, whose many friends will be charmed to learn her return, fully restored to health by her journey.

Mr. Muir's account of the world's fair is most flattering to the local and state exhibit, he says, are all good, save the state exhibit in agricultural hall, which is disgraceful.

A few corn stalks are tied together forming a sort of wigwam in the center, and inside of a barrier are ranged on shelves a few bottles containing wheat. The whole affair is absurd.

Superintendent Muir yesterday received instructions from headquarters, regarding the recent restrictions put in force concerning the issuance of passes. Employees will be charged one cent a mile hereafter, and passes generally will be harder to get than money out of some banks.

Judge Richard Egan, the railroad king of San Juan, was in the city yesterday.

The Santa Fe's tall sycamore of the Santa Barbara channel, John L. Trusler, was in town yesterday.

General Superintendent Van Vleet of the Atlantic system of the Southern Pacific company is in the city.

Mr. Henderson, the clerk in General Manager Wade's office of the Southern California road, left last night for a trip to the east, when he will visit his old home at Peoria and other points. Mr. Henderson is one of the ablest young railroad men in the state and often has conducted the affairs of the company when his chief was absent. He has a warm friend in every one who knows him, and all will wish him a happy trip. Mr. W. M. Catton will fill his place while he is away.

The Reason Why.
There is no denying the fact. People were badly frightened a few days since over the little flurry in money matters. It is now over and seems as a dream, or rather a terrible nightmare. They didn't have to get frightened, but they did, all the same.

No reasons exist at the present time why any one should carry their money around in their stockings or hid under the bed, as now is just the time to look around for cheap bargains, and the wise one will take advantage of it and profit accordingly.

Appreciating the fact that people will buy bargains, we decided to sell at auction 40 choice lots in the Knob Hill tract, adjoining Westlake park on the north. This tract overlooks the park, Cahuanga valley and the ocean, and being within a few minutes' ride of the center of the city, and in the acknowledged choice residence part of the city.

This tract, when fully improved, will be the very cream of the locality in which it is situated.

We want everyone to get a bargain as long as the lots hold out, and those who don't visit the sale will be the only ones who will be sorry. Our price is your price. Auction sale will commence at 2 p. m., Saturday, July 1st, under the large tent on the tract, corner Sixth and Alvarado streets; electric cars to the spot. Maps and further particulars can be had from Thos. B. Clark, auctioneer, 232 W. First street.

WASHINGTON, June 29.—The Star says Naval Paymaster John C. Sullivan will be tried by court-martial at San Francisco next week, and the detail for the court will soon be announced.

LOOK OVER
these symptoms: Headache, obstruction of nose, discharges falling into throat—sometimes profuse, watery, and acid, at others, thick, tenacious, mucous, purulent, bloody, putrid and offensive; eyes weak, ringing in ears, deafness; offensive breath; small and taste impaired, and general debility. You won't have all of them at once; probably only a few of them; but they mean Catarrh.

And the proprietors of Dr. Sage's Catarrh Remedy mean to cure it, if you'll let them, no matter how bad or how long standing.

If they can't they'll pay you \$500 in cash. They mean that, too, just as it's printed.

They offer you the money—or a certain cure, if you'll take their medicine. But if they weren't certain of the cure, they'd never offer you the money.

The seat of sick headache is not in the brain. Regulate the stomach and you cure it. Dr. Pierce's Pellets are the Little Regulators.

Simply—Soak, boil and rinse.
Then it's easy enough—and safe enough too. Millions of women are washing in this way. Are you?
Soak your clothes in Pearline and water (over night is best); boil them in Pearline and water twenty minutes; rinse them—and they will be clean.
Yes, you can wash them without the boiling, but ask your doctor to explain the difference between clothes that are boiled, and clothes that are not boiled—he knows. When you think what you save by doing away with the rubbing, the saving of health, the saving of clothes, the saving of hard work, time and money—then isn't it time to think about washing with Pearline?

Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—send it back.

SANTA CATALINA ISLAND'S Hotel Metropole.
