DIAMONDS IN WESTLAKE MUD.

Divers Vainly Try to Recover the Gems Yesterday.

Mrs. S. E. Booker Dropped a Cluster Ring in the Lake.

A Number of Attempts Made to Find the Jewels, But Grabber Appears to Be Hiding His Time.

What a time there was at Westlake park yesterday afternoon, and how its peaceful waters were upheaved and the mud agitated below them!

About noon a number of young men jumped off a Seventh-street car, and strolling down to the boat landing in the park, hired three or four boats and struck for a point on the eastern shore rather more than half way up the lake's length.

Suddenly one of the occupants of the foremost boat stood up, and just as suddenly did he divest himself of clothes and stand revealed in the bright sunlight encased in a suit of close fitting tight. One second more and a heave, followed by a wild splash, hid him from view.

As the other boats reached the same locality, they also paid tribute to the limped waters of the lake by submerging one of their occupants. The boatmen at the landing looked on aghast, and then, strength nerveing their arms, they pulled for that portion of the Court street or one of the other streets having an easy grade to the western portions of the city.

A tunnel at Franklin street need not be over 800 feet in length, and the cost of the same would be comparatively small. Trusting that you will give this your immediate attention, I remain, etc.

Ignorant Celebration of the Fourth of July. Julia Ward Howe, in the July Forum: The fact that our heroes fought for freedom against almost hopeless odds should be brought to mind, and their names should be hallowed in perpetual remembrance.

Knowledge. Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co., whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

An Improvement in Glass Globes. It is well known that opaque globes absorb a very large amount of the light of arc lamps, and whatever present style of globe if used a dark shadow is cast directly below the lamp. To avoid these difficulties a new style of globe has been brought out in France made of transparent glass with circular depressions, having such faces as to form lenses (similar to the well known highhouse lenses), the curvature of which are calculated so that they refract and reflect so as to diffuse the light. Such globes may be made of pressed glass and although more expensive they diffuse light much more economically than absorbing opal or ground glass globes.—New York World.

A Foolish Proceeding. "A man tried to commit suicide the other day by swallowing a paper of tacks."

"How foolish! The object of suicide is dissolution. I should think the tacks would have fastened him together more firmly."—Harper's Bazar.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder. ABSOLUTELY PURE. THE BANKS. WHISKY AND MORPHINE.

THE BANKS. Their Statements Indicate Their Healthy Condition. The HERALD in its advertising columns this morning prints a number of bank statements, which are well worth the scrutiny of the public, for they all show the solidity of Southern California financial institutions, and are eloquent comments on the idiosyncrasy of the recent flurry.

The State Loan and Trust company, the California bank, the University bank, the Citizens' bank and the National Building and Loan association all make a most reassuring showing and prove that commerce and finance in this part of the world are in a healthy condition.

Another Tunnel. Franklin Street to be Carried Under the Hill. The project of the tunneling of Third street has evidently excited those residents of the city who occupy the hills, and its result found an expression yesterday in the following petition from James Fox and others: "Petition your body to extend Franklin street by a tunnel from Broadway to Court street or one of the other streets having an easy grade to the western portions of the city. A tunnel at Franklin street need not be over 800 feet in length, and the cost of the same would be comparatively small. Trusting that you will give this your immediate attention, I remain, etc."
