

PASADENA.

The Council and the Electric Railway. K. of P. Installation. PASADENA, July 12.—The council met in adjourned session this afternoon to consider the electric street railway franchise. Judge Weed presided, Willcox, McQuilling and Clarke present.

Attorney MacLachlan, representing the Consolidated Electric company of Los Angeles, was present and went over the ordinance with the council, section by section, suggesting the changes asked for by the company.

Previous to taking up the franchise matter, specifications for a gutter on the west side of Los Robles avenue between Colorado street and Center were adopted.

The first change made in the electric franchise was the cutting out of the provision allowing the use of horse or mule power, leaving the line to be operated by cable or electricity.

A proviso granting the council the right to require the road to be operated by the best and latest improved appliances, was decidedly objected to by the electric people, they claiming that it would be difficult to float their bonds with this condition in the franchise for the reason that some future council might demand changes that would bankrupt them.

According to the reading of the original franchise the railway company was compelled to pave between all tracks. This was modified to apply only to streets which are paved.

A provision granting the city the power to levy a license upon all cars in use upon the lines was stricken out, it being held that the ground was covered by another section.

The same action was taken regarding one section defining the manner in which the road should be constructed and operated upon the same grounds, and in its place a clause inserted granting the city the power to be exercised in a manner not inconsistent with the vested rights of the corporation.

SANTA ANA.

What the Wealth of the County Consists Of.—Notes. SANTA ANA, July 12.—The assessor's report for the year ending July 1, 1893, shows some interesting facts. From it, we find that the value of real estate and improvements in this county amount to \$8,127,825, while the personal property is valued at \$1,175,880. Of this the property affected by mortgage amounts to \$387,095, or less than one-tenth of the total value.

There are 2530 bee hives in the county, valued at \$230, from which every year over \$30,000 worth of honey is extracted.

There are 200 bicycles on the list, assessed at \$120, and next year this will be largely increased.

Only 60 gallons of brandy was reported in the county, valued at \$70. Evidently all the brandy has been sent to Riverside county.

Seventy hundred and seventy calves make noise here and are valued at \$8550.

Only 52 beef cattle are found, worth \$1040, but we have 4320 of stock cattle, worth \$64,800, and from them we sell over \$100,000 worth of butter every year.

There are 1910 calves, assessed at \$28,650, and 3835 American cows worth \$66,700. It must be that the fact that they are American which makes them so valuable.

The farming utensils are assessed at \$27,320, and our firearms \$3200.

There are 3215 hogs in the county, worth \$10,145; and our American horses, including the great and only Silkwood, and 2109 others total up \$84,400.

We have 2826 ordinary, every day moustaches, which are assessed for \$70,650.

SANTA MONICA.

Visitors at the Beach.—School Teachers appointed. SANTA MONICA, July 12.—A merry crowd of picnickers drove down from Los Angeles yesterday in a trolley-ho. After putting up their rig at one of the lively stables in town, they proceeded to North Beach, where the fun commenced.

After lunching the party formed themselves into a sort of Sazarac club and one after another was called upon by the president of the day to tell a fish story connected with Santa Monica, the prize being that he or she who told the biggest yarn was to have the privilege of cutting an immense watermelon.

An elderly gentleman, whom all called papa, won by telling how he landed a 300-pound jew fish from the old wharf. After lunch was over everyone either enjoyed the surf bath or bath, returning homeward at eventide.

SAN BERNARDINO.

The Suicide of Robert T. White.—Notes and Reminiscences. SAN BERNARDINO, July 12.—The dead body of Robert T. White, one of the best known citizens of this city, was found this morning dead in bed at his residence on E street, near Mill. The body was discovered by two neighbors. A bullet hole through his head clearly demonstrated the cause of his death, while on the floor at his feet lay an old army cap and ball pistol, the instrument with which the deed was committed. He had not been seen for several days, and two women in the neighborhood having a message for him, called at the house at 8:30 o'clock this morning. There was no sign of life about the house. They looked in a window of the apartment which White occupied and were surprised to find the room deserted and the lifeless form of that gentleman stretched across the bed. A lamp was burning in the room, casting a sickly glare in the daylight. The ladies at once gave the alarm, and Mr. P. Sullinger, the janitor of the court house, and another man proceeded to the house and broke in the door. A glance showed that White had been dead some time. An ugly bullet wound was in the right side of the head near the temple, the ball had emerged at the left side near the ear.

From the position of the body it was evidently a case of suicide. There is but little doubt that the cause which led to the rash act was melancholy caused by the death of his wife, whom he was devotedly attached to. He was dependent at intervals, and during the past few months had been heard to express the opinion that life was not worth living. Judging from a note left behind, ill health had also influenced him. There is no trouble in finding the most enthusiastic Pomonians could not more highly or justly compliment this city and valley than the HERALD has done. The HERALD is, and always has been, a broad-gauged journal. It has good words for all good things, and is second to none as a newspaper.

J. L. Howland of Howland Bros. is in attendance at the State Convention of Olive Growers, which meets in San Francisco tomorrow. He carries several samples of olive oil, from different varieties, made by them in Pomona, and will exhibit them at the convention.

The streets of our little city have looked more lively this afternoon than for several days past—there being a great number of vehicles passing hither and thither.

An Old Building Burned.—Local Happenings. RIVERSIDE, July 12.—Last evening about 7 o'clock the old building recently occupied by F. Retchner as a saloon was found to be on fire. The first was discovered by Officer Westfield, who promptly turned in an alarm. Upon the arrival of the firemen the second story of the structure was found enveloped in flames. The water was turned on, and in a few minutes an end was put to what promised to be a big fire.

County Tax Collector Richardson had Patrick Kennedy of Mentone arrested yesterday for selling liquor without a license. The case was called before Justice Knox yesterday and was set for trial Thursday.

Greening and Jenkinson and others will go down.

POMONA.

A Newspaper War.—The Fruit-Drying Industry. POMONA, July 12.—There promises to be a regular picnic here in local newspaper affairs, so it appears from a two column exposé on the part of the Pomona Weekly Times of the manner or modus operandi by which the Progress advertises itself to the reading public. We have seen only one side of the question as yet, but it seems evident from that that the Progress believes strongly in the trite old saying, Nothing Succeeds Like Success.

The Progress is in the neighborhood of 600 men, women, boys and girls now at work in the different departments of the various fruit-drying yards now in operation in Pomona.

Mrs. O'Neil has gone to the beach with her son William, who has been declining in health for some weeks past. Contractor W. P. Dean is constructing a very nice dwelling on the corner of Center street and White avenue for Mr. Frank Raines of Kerckhoff, Cuzner Mill and Lumber company.

The team attached to the bakery wagon of J. F. McIntook broke loose from its hitching post in the rear of the bakery this morning and ran away, smashing things generally, scattering pies, bread, etc., in every direction. Mr. McIntook, who endeavored to catch them, fell, the wheels running over his arm and across his body, breaking one of his ribs.

Mr. James Allen is now nearly 82 years of age. His wife is still left him, and should they live until November next, it will be the 60th anniversary of their marriage.

Don't forget the Universalist entertainment tomorrow evening (13th) at Odd Fellows' hall. Besides those already mentioned, there will be a vocal solo by Miss Padgham.

Our city council will meet no more until the regular meeting in August. Quite a rest compared to the past several weeks.

The following neat little notice we clip from the Pomona Weekly Times of the 12th inst., and as we regard it as nothing but truth, we heartily agree with it: "The Los Angeles HERALD Monday devoted nearly a column of leading editorial to Pomona and its tributary territory. The most enthusiastic Pomonians could not more highly or justly compliment this city and valley than the HERALD has done. The HERALD is, and always has been, a broad-gauged journal. It has good words for all good things, and is second to none as a newspaper."

The commissioners appointed to adjust affairs between this and San Bernardino county have had no session for almost two weeks, and the representative of Elbert county are becoming impatient at the delay. They have sent a written request to the San Bernardino commissioners calling their attention to the fact that the statute provides for a fine of \$500 and removal from office in case of public officers who neglect or refuse to perform the duties for which they are chosen, and urge that they meet and perform the necessary work of effecting a financial settlement. The board will probably meet the last of the present week.

W. E. Keith will depart for Arch Beach tomorrow.

F. M. Heath left today for Seven Oaks to remain 10 days.

The big cargo of lumber on the schooner Governor Ames is being rapidly discharged over Redondo wharf. Mr. J. P. Hirschler is on hand representing the Stinson Mill company, taking tally of the discharge. Mr. Hirschler is pleased to resume his old trade, and gladly leaves his book trade on Broadway in the city for a few weeks healthy vacation, working on the wharf, where he breathes the fresh air of the Pacific, impregnated with the invigorating aroma of the pine lumber just landing from the north.

DOMINGUEZ IN TROUBLE. A Former Los Angeleno in an Affray. The San Francisco Report of Tuesday contains the following item, the Dominguez mentioned being, it is said, Robert Dominguez, formerly of this city: When the Pacific Mail steamship Colon arrived at the wharf this morning two of her officers were under arrest and in irons. The two men were Robert Dominguez, the freight clerk, and Third Officer A. J. Moore. The two men had been arrested for an assault upon the first officer, J. G. Doran. Both the prisoners were turned over to the United States marshal, when it appeared that Moore had a misunderstanding with the first officer and struck him over the head with a revolver. Dominguez, the freight clerk, took a hand in the proceeding, too, and the third officer and he were then placed under arrest. The revolver was not loaded and it does not appear whose property it is. Both of the men were held upon the charge of committing an assault with a deadly weapon. Bail was fixed at \$500 each.

EVIDENCE CONCLUSIVE

Of the New Method of Treating Catarrh. Note What Mr. J. F. Crowder Has to Say—Remember Their Mail Treatment.

Drs. De Monco and Sapp are the only physicians in Los Angeles who are treating all patients and all diseases for \$5 a month. The offer is a special one, and is not for "Catarrh Alone," but for "All Diseases."

I had been troubled more or less with catarrh for the past fifteen years, and about a year ago it became so aggravated as to cause me considerable suffering. I had a constant dropping of mucus in back of the throat, frequently causing sickness of the stomach; had a slight cough, throat was very painful, at times some pain in chest, and I really believed my lungs would soon become affected. After trying many different remedies without deriving the slightest benefit, I concluded to try Drs. De Monco and Sapp. Under their scientific treatment I have improved in a remarkable and entirely satisfactory way. I feel first rate now. No more pain in chest, and in a short time expect to be entirely cured. My improvement has been so remarkable that I have no hesitancy in recommending Drs. De Monco and Sapp as thoroughly competent specialists.
