## REDLANDS UNDER ARMS.

### Excitement in the Infant Wonder City.

### Whites Trying to Drive Out the Chinese.

The National Guard Ordered Out to Preserve Order.

Many Special Officers on Guard—A Similar Condition in San Bernardino—Serious Trouble Anticipated.

By the Associated Press.  
REDLANDS, Sept. 1.—The past week San Bernardino county has been disturbed over several attempts made to expel the Chinese from several small towns. Last Sunday night the citizens of the town of Mentone were startled by a large crowd making its appearance in Chinatown and ordering the celestials to pack up their personal effects and leave at once, a thing which they were not slow in doing. Since that time the Chinese make through the town on the train but were not permitted to stop. Several bands of Chinamen working on ranches in this vicinity have also been ordered to leave immediately, and some have complied with the request, while others have refused.

Wednesday night a committee appointed by a mass meeting held the same evening went to Chinatown in this city and informed the following of Confucius to leave town before Friday night or they would be expelled by force. When their action was known on the streets it was laughed at by citizens, but later developments proved that the committee was sincere in its action, and the town was thrown into a state of suppressed excitement that threatened to break out at any moment. Sheriff Booth was telegraphed, and immediately took steps to suppress any uprising. Tonight he arrived in Redland with a number of deputies, and at once assumed charge of affairs.

City Marshal Kendall had sworn in 70 deputies and armed them with double-barreled shotguns, with instructions to suppress any attack that might be made upon the Chinese quarters. The force was divided, 50 men being placed on duty in Chinatown, while the remainder were mounted and distributed throughout the city. A number of scouts were appointed to ride around the city, and to report to the sheriff of any gathering or unusual congregation of men. Some of these were mounted on bicycles and did splendid work.

At an early hour a four-horse wagon load of men was discovered coming towards the city on the Mentone wagon road, but they did not make their appearance in the city, but are supposed to have driven through to San Bernardino to which place the mob seems to have changed its base of operations.

This afternoon the Chinese consul-general of San Francisco called upon Governor Markham to issue orders to hold the National Guard in Southern California, and particularly the companies in the vicinity of the trouble, to be in readiness to be called out at a moment's notice to protect the lives and property of his people. The governor issued an order to the captains of companies G, E and F, and to have their armories tonight and be ready to be transferred to the scene of trouble should anything occur. Company G of this city, company C of Riverside, and company E of San Diego are equipped with their arms and have a good supply of ammunition on hand.

Major Frank C. Prescott, commanding the second battalion of the Ninth regiment; Lieut. Col. L. S. Butler, chief of staff and brigade commander of Los Angeles; and Lieut. H. H. Sinclair, ordnance officer of the Ninth regiment, have headquarters in the city and are directing the actions of the national guard. Should the mob, which is reported to consist of 100 armed men, conclude to make an attack, they will receive a warm reception.

Sheriff Booth has announced that he will do all in his power to protect them, while the militia are fully determined to render all the assistance possible.

The streets were crowded all the evening with a good-natured throng, discussing the affair, but there did not seem to be any agitation among them. All were of the opinion that it was best to let the law take its course. Several citizens say that the address made by Sheriff Booth before the meeting last evening had a soothing effect, and that the precaution taken by the civil and military authorities has dampened the ardor of the men, and that they will probably not make any attack till the officers relax their watchfulness.

The Herald correspondent strolled through the Chinese quarters at midnight and found everything quiet. The doors were closed with all the heathens inside. Very few were sleeping, and the steady tread of the patrolmen accompanied by the click of dragoon's, was all that could be heard. Lieutenant Butler was seen by the Herald correspondent, and expressed the opinion that the attack had probably been postponed when the men saw the precautionary measures taken by the militia and the civil authorities. Should they decide to make an attempt to expel the celestials he could place three companies on the scene in a comparatively short time, all of which would be well-equipped. During the early part of the evening he kept the telephone wires hot arranging for the necessary transportation, while Maj. F. C. Prescott, who is practical telegrapher, has been kept busy with an instrument arranging details in case the militia should be called into action.

At 12:15 a. m. a rain storm, accompanied by thunder and lightning, com-

mened and it is safe to say no attempt at expulsion will be made tonight.

REDLANDS, Sept. 1.—By the Associated Press.—The town is under arms. One hundred and fifty police are on duty. The local National guard company is now at the armory under orders. The 48 hours given the Chinese to leave town expires tonight. A law and order meeting held last night condemned the action of the agitators and the town is so thoroughly guarded that trouble is not anticipated. The laborers are holding a meeting tonight and it is reported 150 Mexicans will arrive late from the surrounding country and San Bernardino to help to drive out the Chinese. There is much excitement.

Everything is quiet at midnight and the town is thoroughly guarded. No trouble is probable. Lieut. Col. Butler is here and in communication with four companies of the Seventh regiment. Excitement continues. Many people are on the streets, but no demonstration has been made.

### AT SAN BERNARDINO.

### Expulsion of the Chinese Expected.

### Troops Sleeping on Their Arms.

SAN BERNARDINO, Sept. 1.—[Special.]—The streets have been crowded all the evening by citizens discussing the probable expulsion of the Chinese from town. The action of the mass meeting held last evening had leaked out and all were of the opinion that some steps would be taken tonight towards carrying out their plans. About 10 o'clock a large number of strange men were noticed on the streets and a few minutes later the electric light wires from E street east were out, leaving Chinatown in total darkness. Several shots were fired on Waterman avenue, but their object could not be learned. Deputy Sheriff William Reeser, who is in charge of the sheriff's office during the absence of Sheriff Booth, has taken every precaution possible and will do all in his power to preserve peace. Company E, N. G. O., are sleeping on their arms and will be called upon for assistance, if necessary. A rain was falling at 1 o'clock and an attack will probably not be made tonight.

SAN BERNARDINO, Sept. 1.—[By the Associated Press.]—Sheriff Booth has gone to Redlands, having been called upon by the citizens of that city to aid in suppressing rioters who threaten to drive out Chinese by force of arms this evening. A large force of deputies has gone with him, and will act in connection with the police force of Redlands. Sheriff Booth also telegraphed to Governor Markham asking him to order out the national guard. The Chinese consul-general of San Francisco sent a note to the sheriff asking him to protect the Chinese.

Governor Markham, in response to Sheriff Booth's telegram, has ordered Gen. E. P. Johnson, at Los Angeles, to take the necessary steps to have the national guard companies at San Bernardino and Redlands in readiness for immediate action, if absolutely necessary. The San Bernardino national guards have been ordered to report at their quarters tonight, and will go to Redlands on the evening train to assist in quelling mob violence.

The Chinese of this city and Redlands for a number of days have been arming themselves with shotguns and revolvers in anticipation of trouble. Last night the Chinese of this city barricaded themselves in their houses in Chinatown and prepared with fire arms to resist attack. A mass meeting was held tonight or tomorrow night to notify about 200 Chinese living in the city to leave at once.

The Waterman rifles of this city are at their quarters under orders, but up to 9 o'clock no command has been given to go to Redlands.

Word has been received here that a raid will be made by the rioters on the Chinese tonight, either in Riverside, Redlands or this city. It is not yet decided which. There are three electric light plants in this city, two of which are now mysteriously out of order, leaving the city in darkness. The streets are crowded with laboring men but so far nothing has been done. The police have information that an open air meeting will be held about midnight.

### NO EXCITEMENT AT RIVERSIDE.

RIVERSIDE, Cal., Sept. 1.—The national guard located in this city received orders this evening to hold itself in readiness to go to Redlands. At a late hour no orders to march had been received. Thus far there is little excitement in this city over the Chinese question.

### WORLD'S FAIR NOTES.

### The First of a Series of Grand Water Fests.

CHICAGO, Sept. 1.—The weather was bright and cool today. Attendance at the world's fair was large.

Morgan horses and Devon cattle were judged in the live stock ring.

The water pagant tonight was the beginning of a series on a scale of grandeur never before approached in this country. Among the floats tonight was a floating island, surrounded by the war canoes Aztec and America, and towed by Indian war canoes. The next float bore a band of Pueblo Indians; then came Columbus before the court of Spain; then the American independence; then Washington crossing the Delaware.

This afternoon the session of the national commission was, as usual, taken up with a motion to adjourn sine die. It finally ended with a recess until tomorrow. The majority of those present favored adjournment until October, should a quorum put in an appearance by Monday. The investigation of the Beeson matter still continues, and further sensational developments are looked for.

The total attendance today was 157,224, of which 127,072 paid.

The world's fair will cause a rush. Order early. Full stock, good fit, moderate prices. Get, fine tailoring, 112 West Third street.

## GLADSTONE'S FIGHT OVER.

### Irish Home Rule Passes the Commons.

### Intense Excitement Over the Final Vote.

The Bill Given First Reading in the House of Lords.

Chamberlain Expresses His Admiration of the Premier—The Grand Old Man Given a Tremendous Ovation.

By the Associated Press.  
LONDON, Sept. 2.—Gladstone's long home rule fight in the commons is ended. The bill passed at 1 o'clock this (Saturday) morning, 301 to 267. It was hurried to the house of lords, which gave it first reading and adjourned.

There was unusual animation along the route from Gladstone's residence to the commons this afternoon. The streets were crowded with people who wished to catch a glimpse of the great champion of home rule, and though there was no organized demonstration, he was cheered all along the route. He was accompanied by his wife and evidently was much pleased with the heartiness of the greeting he received from the populace, bowing constantly to the crowds.

The galleries of the house were filled long before the sitting opened. Many ladies were present. The premier was loudly cheered by his followers as he walked to his seat. The galleries also gave him a warm greeting.

Justin McCarthy opened the debate, speaking on the same lines as Dillon last night.

Chamberlain followed. He said he had broken a deadly blow at the honor and interests of the country, but he could not avoid being filled with admiration at the courage, resolution, resources and eloquence of the prime minister.

Chamberlain spoke over an hour, and his address was a brilliant one. He was frequently applauded, and he utilized the opportunity to pay off many old scores against Irish and Liberal members.

When Balfour rose to speak the house was filled with cheering. He spoke for an hour. He said the government's insane action had done more than 100 Tory governments had done to demonstrate the necessity for the house of lords as a bulwark of the greatness and interests of the empire.

John Morley, chief secretary for Ireland, spoke bitterly of the tactics of the opposition. He said there was a great party in Great Britain determined that Ireland should no longer be the cockpit of England's factions.

The full import of the occasion was felt by all, and the culmination was accompanied by rounds of frantic cheers from the galleries and upon the floor. Gladstone received a fresh ovation as he left the house.

The scenes in front of the house after midnight were exciting. The knowledge that the vote was to be taken attracted a large crowd. Many Irishmen were in the throng, and the sentiment of the crowd generally was for home rule and Gladstone. This was expressed in many ways—by singing "The Green Flag" and "The Star of Erin," cheering for Gladstone and hooting Balfour.

When the announcement that the house had passed the bill was received, the crowd went wild. The police were alarmed at the antics and a cordon was drawn before the main "exit." The crowd surged around the cabs and carriages, and as each member of any distinction was recognized he was given a cheer. When Gladstone's carriage came out, a number of mounted police instantly surrounded it, but the crowd, when they learned who was in the carriage, became beyond control, and breaking through the cordon stopped the carriage and held it while they cheered the premier more than five minutes.

Mr. Gladstone handed Mrs. Gladstone out, and after bowing again to the crowd, disappeared. The crowd indulged in more cheering and then dispersed.

Gladstone intends to move in the commons Monday a resolution, the effect of which will be to give the government control of the whole time of the house the remainder of the session. It also provides for the suspension of the mid-night rule, and for Saturday sittings without previous formality. It is understood the Liberal-Unionists will move an amendment to the resolution, limiting its operation to the present session.

When the first reading of the home rule bill was moved in the lords by Earl Spencer there were only six Liberal and one opposition peers present. The proceedings occupied less than five minutes.

The Daily News is jubilant over the passing of the home rule bill. It says the bill has now acquired the fullest sanction possible from those representatives of the people who are qualified to confer moral validity upon the legislative proposition.

The Times endorses Redmond's recent statement regarding the scope of the bill and insists that the passing of the bill was a clerical triumph from which the priests will reap the first benefits.

## RECEIVERS APPOINTED.

### The Equitable Mortgage Company of Missouri Fails.

NEW YORK, Sept. 1.—Receivers were appointed today for the Equitable Mortgage company of Missouri, with offices in this city. It has a capital of \$20,000,000. The failure is owing to the stringency in the money market. The appointment of a receiver was on the application of the New York Security and Trust company. The failed company has interest payments to meet between now and December of nearly \$850,000. It dealt largely in municipal bonds and real estate mortgages.

The bill of complaint states that the business of the company under ordinary circumstances was prosperous, but by reason of the present financial conditions it was unable to collect on mortgages, loans and securities which have matured. Credit has been impaired, and renewal of mortgages can only be negotiated at a sacrifice. The principal property of the company is in the state of New York, but it has no value in Kansas, Missouri, Pennsylvania, Kansas, Arkansas, Texas, Louisiana, Mississippi, Nebraska, Colorado, North and South Dakota, Minnesota, Georgia and Alabama.

In his answer President Flower admits the allegations and joins in the application for receivers as a measure of protection of the interests of the company. Ultimately he believes all the creditors will be paid in full.

The surplus is \$800,000 and the revised liabilities \$11,115,000.

## A NEW BASEBALL SCHEME.

### The California League May Yet Be Resurrected.

SAN FRANCISCO, Sept. 1.—There seems to be a new prospect of resurrecting the California baseball league, and this time the towns on the list are San Francisco, Oakland, Sacramento and San Jose. Los Angeles is left out principally on account of the distance from this city. It is thought that a team conducted on a co-operative plan would command good crowds in San Jose. There are about enough idle ball-players yet in the state to fill out the teams for Sacramento and San Jose.

To get San Jose fully interested and to determine the amount of patronage that may be expected, the San Francisco and Oakland teams will suspend their local schedules tomorrow and Sunday and give exhibitions at the Garden city. If the prospects are favorable, it is said a team may be formed in that city next week.

## BLEW OFF HIS HEAD.

### The Murderer of Fillmore Found in the Brush Dead.

SAN BERNARDINO, Sept. 1.—Word was received at the sheriff's office this afternoon that the body of Thomas Stevens, the man who killed Fillmore at Vandenberg, has been found a short distance from that place, in the brush, with the top of his head blown off. An inquest was held on the body, which was buried today. The jury found that he came to his death by his own hand.

## RIOT AT SAN PEDRO.

### Union Seaman Stole the Crew of a Non-Union Ship.

SAN PEDRO, Sept. 1.—About half-past 1 o'clock today, as the schooner Lucie was casting off her lines to sail, a mob of about 50 men began pelting the crew with stones, some of them weighing over three pounds. Several stones struck the captain, one crashed through the cabin window, and one grazed the face of the agent.

## Failures at Denver.

DENVER, Sept. 1.—The Denver Savings bank, with a capital of \$200,000, assigned today, and will liquidate. Its liabilities are \$670,000; assets, \$320,000, of which \$800,000 is in paper which is perfectly good but cannot be realized upon on account of the present depression. Since the banking troubles began there has been a steady withdrawal of deposits. The depositors will be paid in full.

The Green-Smith Watch and Jewelry company was attached today by four creditors for \$163,000. The house is now in the hands of the sheriff.

A Smelting Company Sued.  
ASPEN, Colo., Sept. 1.—N. D. Todd and others, of Denver, have sued the Holden Smelting company to foreclose a mortgage for \$142,000; the total indebtedness is \$500,000.

### Senator Vance Argues for Free Coinage.

### Voorhees Springs a Surprise on the Senate.

### An Attempt to Force His Finance Bill to a Vote.

### The House Still Considering the New Rules—The President's Return to Washington—Treasury Statements.

By the Associated Press.  
WASHINGTON, Sept. 1.—The senate today took up the house bill to repeal the silver-purchase clause of the Sherman act, with the Voorhees bill as a substitute.

Vance of North Carolina, one of the minority members of the finance committee, spoke in opposition to the bill and in favor of free coinage. A large part of his speech was devoted to showing the inconsistencies of the friends of repeal of both parties in view of the bimetallic declarations of both national platforms. He quoted from those beginning in an ironical strain with the way in which the pledges are being fulfilled. He said they seem to think the only way to maintain a parity between gold and silver is to first strike silver a death blow. Unconditional repeal would be a death blow, for it was well known that Cleveland would veto any silver coinage bill. The effect on the condition of mankind following the destruction of half the currency, aggregating \$7,500,000,000, it would be impossible to accurately describe.
