

SANTA ANA.

The River Bed to Be Straightened. Vineyards Doing Well. SANTA ANA, Sept. 12.—Orange county has never been in a more prosperous condition than at the present time.

The action of the supervisors yesterday in regard to the river matter was a wise one, and is heartily approved by all. Fifteen thousand dollars will be spent in cleaning and straightening the channel and preventing overflows.

The territory which has heretofore been overflowed is the richest part of the county, and the money spent in completing the work will come back in increased productions the first year.

The work will give employment to a large force of men, and the money will be circulated at home.

Crops of all kinds have been large this season—the largest in the history of the county. A million dollars will be received from the barley crop alone.

Sugar beets have proven a success here, and from \$60,000 to \$90,000 will be received from this source. Next year Orange county will have a sugar beet factory of her own.

Despite the fact that croakers say the vine disease is still here, it is a fact that the vineyard industry never looked better. Many wineries are at work making wine this year.

While every part of Orange county is moving ahead in the right direction, Santa Ana is experiencing prosperous times, only equalled by the boom days. At least a dozen new residences are in course of erection. A pickle factory will soon be started, and many other improvements are being made.

Next month will be one long to be remembered here, as during that month the fair and races will be held here, and hundreds of visitors will be in the city. Our people should prepare to receive them royally. The streets should be cleaned up, and the attractive city should be made to look more so.

The fair directors have arranged for a great race meeting. The agricultural display will show what the soil will do.

TEN DAYS IN JAIL. Juan Dios, a festive Mexican, got 10 days in the county jail today for disturbing the peace of a comely young Mexican girl in this city. Dios used insulting language to the girl, and Judge Freeman properly gave him 10 days for so doing.

DEATHS THIS MORNING. Mrs. Morris says that her husband, Tom Morris, the peat land runner, has not been arrested and is up in the northern part of the state doing the races. Although he had a hard fight in Bloomington, the story that the man is dead, cannot be verified.

TRIAL JURY. The following term trial jury was drawn today by the superior court; W. H. Jasper, Joseph H. Garrett, Tobias Billings, H. C. Waterman, G. W. Freeman, C. F. Foster, J. L. Goodman, W. F. Abbott, John L. Bowen, J. W. More, G. M. Helvie, Jonathan Watson, J. C. Franklin, William H. Hubbard, Seth J. Arkell, Samuel Wilson, Charles L. Williams, L. W. Taylor, Isaac A. Williams, Thomas Walker, Orland H. Cone, Thomas Fraser, C. A. Westgate, Sr., Edwin Barr, A. S. Pendleton, H. O. Gade, S. Holeman, Albert J. Chaffee and C. B. Smith.

A NARROW ESCAPE. Miss Bingham of Fairview narrowly escaped serious injury yesterday in a runaway near the race track. Her horse became unmanageable and ran away throwing the lady against the fence and badly bruising her.

THE LAGUNA FIRE. The destruction of the Laguna Beach hotel fire Sunday morning has removed one of the most popular seaside resorts. Everything in the building was destroyed, and the loss will be very heavy on Mr. Brooks. It is understood that the hotel will be rebuilt.

SANTA ANA NOTES. C. P. Dryas and family will leave for the east about the 15th. Joseph Yoch and family left today for an eastern trip. R. M. A teachers' meeting will be held in the high school room Saturday at 9:30 a. m. R. Arbom and family and Geo. Bissett and family are off on a camping trip. The Santa Ana Gun club is off on a hunt, and today spent in three fine all day shoots, and the deer will suffer at their hands. J. Always Jones is with the hunters. Orria Welsh, the handsome driver of the transfer wagon, had his hand severely injured today. Silkwood worked two slow miles yesterday, going one in 2:19 and the other in 2:16. Public school opened yesterday with over a thousand pupils in attendance. Miss Clara McPherson will teach the West Orange school this year. Miss Mabel Foster has returned from an extended eastern trip. There are five criminal cases on the court calendar, and five prisoners in the county jail. Speaking of the Anaheim bank closing, the Blade says: "W. S. Bartlett of

the Orange County Abstract company, who has been appointed liquidator of the Bank of Anaheim, is busily engaged in winding up the affairs of that institution. A large number of deeds to real estate, made by President James to the bank, are being recorded here and in other counties where the property happens to be situated. In fact, it would seem that the depositors must look very largely to this property to get back their money. In the present condition of the market it is impossible to say whether the amount due will be realized and in any case it must be a slow business, because it will not do to rush the property on the market at forced sale. The deposits amount to nearly \$100,000. James Fullerton, a native of Canada, was today admitted to citizenship.

ORANGE. Miss Clara McPherson not having returned from the east, Mrs. Dr. Bradshaw will teach the West Orange school this week.

Mrs. Dr. Wood and two sons started for Leavenworth, Kan., on Saturday morning. The doctor accompanied them as far as San Bernardino.

PASADENA. A Notable Piano Recital—Local Events. PASADENA, Sept. 12.—The piano recital and concert to be given in the tabernacle by Miss Neely Stevens on Thursday evening next, promises to prove a rare treat for our music-loving people.

Miss Stevens has made her home in Pasadena for several years past, when elsewhere, and she needs no introduction to a Pasadena audience. As a pianist Miss Stevens has deservedly taken a high rank among the musicians of this country, and in the coming concert she will have the advantage of the programme covering some of the most difficult selections ever written. Miss Stevens will be assisted by Miss Elizabeth Jones and Mrs. Jennie Chickens, the Starr quartette and a chorus of sixty voices, under the direction of Prof. G. M. ...

A HARD CASE. A hard looking citizen giving the name of Carl Aeternum, who was arrested last evening by Marshal Buchanan, charged with vagrancy, was before Recorder Rossiter this morning for trial. The fellow has been frequently complained of for hanging around buildings at night and has on divers occasions frightened women by his actions. When arraigned he pled not guilty and raised a great row, but the court sentenced him to spend 30 days at the county's expense in the jail on the hill. The marshal had considerable difficulty in getting him out of the court room as he declined to move and jerked away when taken to the lockup.

Finally he decided that the only way out was to behave himself and serenely submitted to being taken down to the lockup from where he was afterwards removed to the county jail.

NOTES. The Catholic Sunday school will enjoy a day's outing at Rubio this week.

Work continues brisk in this city and there are but few idle men who are willing to work. The Green is fast nearing completion and Contractor McNally has a large force of men at work.

SAN BERNARDINO. Insane Asylum Affairs—The Chinese Matter. SAN BERNARDINO, Sept. 12.—The building of the new wing on the insane asylum at Highlands was postponed by the board of trustees at their regular monthly meeting yesterday at the asylum. The committee on construction recommended the rejection of all bids for work on the new wing. Their report had been endorsed by Governor Markham, Secretary of State Waite and State Treasurer McDonald. The board adopted the report as read, without a dissenting vote, and the secretary was instructed to advertise for proposals. This will require about four weeks and then it will require the usual time to consider the same and make reports.

The board decided to not only continue the main driveway to the Santa Fe road, but to also construct the road ditches to protect the ground immediately surrounding the building.

The medical superintendent's report was read and filed. A series of settling tanks, to be placed for the disposal of sewage, was ordered. The usual monthly

bills were allowed and the board adjourned.

WARRANTS SERVED. United States Deputy Marshal James D. Paris returned from Los Angeles last evening with 10 warrants for the arrest of Chinamen to be taken before Judge Ross and sentenced for deportation. The warrants are returnable next Friday and as he has 5 out of the 10 under arrest it is more than likely that he will be able to report the whole of the list to the court. One of the warrants is for Moch Chuek, who rifled a safe in Chinatown of \$1500 in money and about \$600 in jewelry and made good his escape to San Diego, where he was arrested today by Constable West. A serious question arises in this case. Which would be the best, for the state to bring the thief back to this city and have the county stand the expense of a trial and then a term in state prison, or to turn him over to the federal authorities and have him deported? The Chinese are seriously disturbed in this city as the question is brought home to them. Many are leaving for the south, probably Mexico.

BREVITIES. Mrs. C. Jensen left today for her old home in Atchison, Kas.

A large party of pioneers left today for a two days' stay at Redondo Beach.

PRUNES ARE NOW BEING HANDLED IN A LIVELY MANNER. The meeting for reorganizing the pomares club will be held at the Hotel Palmares tomorrow (Wednesday) evening at 7:30 o'clock.

RIVERSIDE. The Chinese to Go—Work for the Unemployed. RIVERSIDE, Sept. 12.—A subscription paper was circulated yesterday for the purpose of raising the necessary fund to defray the expenses which will result from the arrest and deportation of the Chinese from this section. The committee appointed at a recent meeting will probably visit Los Angeles today and have warrants issued from the United States court. Another paper was also circulated asking for the names of citizens who are willing to contribute. It received a large number of signatures, the majority of whom were business men.

The Chinese are becoming uneasy, as they expect arrest at any time. The cooks have quit work and the vegetable peddlers and laundrymen are expected to do so soon. The Chinese deny that the six companies ordered them to quit work. So far not a single contract has been made with the Mongolians to pick grapes in this valley, and none are likely to be made as long as white help can be secured.

ALHAMBRA. Orange Growers to Organize—Local Affairs. ALHAMBRA, Sept. 12.—A meeting of the orange growers has been called for Wednesday evening, September 13th at Adam's hall. The meeting will be called to order by Mr. T. H. B. Chamblin of Riverside.

The public schools opened Monday with large attendance and a full corps of teachers.

Last Friday evening the residence of Wm. Hall was totally destroyed by fire. It is impossible to say how the fire originated, as there was no one at the place at the time. The Methodist church gave a most enjoyable picnic to the Sunday school class

Cathart at the sum of \$6000 that, he bought at the price of \$46,000.

City Clerk J. R. Gartheide was unanimously elected secretary and took his seat at the desk.

Ex-Supervisor W. T. Martin then arose and said that in order to get the matter squarely before the house he would move that it be the sense of this meeting of Pomona citizens that the city trustees be authorized or requested to order an election to ascertain whether or not water bonds be issued to the amount of \$46,000 to purchase the plant of the Citizens' Water company, in case a clear and satisfactory abstract of title and a bargain value be found in said options, after full inquiry and investigation by our board of trustees, through their city attorney, W. A. Bell.

He started the ball to rolling, and various were the opinions expressed by the different speakers.

Messrs. Fred J. Smith, Robert Cathcart, John E. Packard and J. B. Camp very kindly, and in a plain, easily understood manner, gave what they considered to be the real status of the "plant," its rights, privileges in answer to a request on the part of Mr. George P. Robinson and others; while Messrs. P. H. Dreher, J. E. McComas, Len Claiborne and perhaps one or two more more spoke in unmeasured terms against the modus operandi, some wanting a sewer system first, others water, so that they might then have a sewer system, while still others thought it impracticable, at least now, to tussle with the question of water.

Finally it was thrown back into the hands of the "board of trustees" and their attorney to fully investigate as to all the various points, and then report to an adjourned meeting of the citizens to be called at some future time, and in the meantime the option Robert and Augustus Cathcart will be recalled, if not that of the incorporation.

W. W. Brim leaves for Topeka, Kan., via the Southern Pacific.

SANTA MONICA. Drunken Veterans Make Themselves a Local States.

SANTA MONICA, Sept. 12.—For some time, it might be said years, a gang of drunken soldiers from the home have made the lives of a number of our citizens a burden with their drunken and obscene language, until forbearance ceases to be a virtue, and a number of our citizens have determined to rid the town of their presence or have them deported from their filthy language. They are only a few compared with the large number of inmates of the home, and it seems to your correspondent it would be a good thing for the governor to keep them perpetually in the guard house instead of letting them contaminate their filthy talk the Santa Monica air. One of these men, whose name is well known to your correspondent, is the worst of the gang, and on Monday afternoon, after calling a respectable young lady a name too filthy to print, howled forth for at least a half hour a series of coarse and filthy talk, until even for the inmates of houses of shame.

Something should be done immediately by the officers here, or there will be a few drunken brutes (who think they are heroes) as they please because they are quarantined under the blue which they deny honor, go home with broken heads, for gentlemen living here are determined that their wives and children will not be subjected to such insults.

LETTER BAG. Editor of the Labor Question.

SOLUTIONS HERALD: Through your kindness I am enabled to give your readers a few of my crude ideas as to a means to help out the present serious condition of the army of unemployed workmen in your city. I think it would be well to establish a people's free employment bureau, a sort of headquarters for the workmen, the object of which would be as follows:

To furnish employment for those out of work and relieve suffering.

To give any statistics or information of value to the workmen.

Also to add many other beneficial features from time to time after the institution became self-supporting. It is not intended as a charitable institution in any sense of the word.

A board of examiners, of prominent men, to be appointed, whose duty shall be to examine into the finances and workings of the institution, at any time desired or required, that no question may arise as to the honest disposition of all funds; also to act as an advisory board. This work to be given free.

The bureau could be run for some time at least by two men. One, say, secretary and treasurer, and the other president and general manager.

Subscriptions to be solicited by authorized canvassers principally for work; also for some money to meet the few expenses accruing for office fixtures and salaries. This work to be given free if possible. A certain amount subscribed each month in work or funds entitles the donor to one or more votes, according to the amount, on all measures coming up for decision during said month, a majority to rule.

Not being published the same should be reported at once to the manager.

All matters pertaining to the bureau presented and discussed either by person or by letter shall be considered as public and open to publication and kept on record. Records of applications for work and all employment given, as well as receipts and expenses, shall be published from time to time. Work also to be solicited for idle men through the press.

The aim will always be to obtain good wages, when possible, but severely any offer will be refused, for their means of means or credit, for their meals and lodging. Two dollars (\$2), if possible, will be obtained for ten (10) hours work for all unemployed labor, and the wages now ruling for work in the trades. It is not the intention to have trade unions control the bureau in any sense, though I believe the unions do good work in certain directions. Boycotts, strikes and all impediments to business and work to be discouraged, and settlement by arbitration advised instead.

Public work to be furnished by the city, county, state and the United States to be encouraged by every honorable means; and work to be let out by day's work, in lieu of contract, in charge of a superintendent appointed by the head of each department. In this way we believe the workman will be better able to obtain his just dues.

ABOUT SILVER. EDITORS HERALD:—The other day at San Francisco I asked Frank S. Dooty, one of the best men in that city, why he would suggest to handle silver so as to bring order out of the present financial chaos. Dooty said substantially: "I would retire from circulation and cease to issue all gold coins and paper money for all imports up to \$10. Then let that make silver a subsidiary coinage to supply this void using coins of the denomination now issued, let congress make this subsidiary coinage a legal tender for all debts public and private, including duties on exports and imports up to \$10. Then let a heavy import duty on silver so we could not be overrun from abroad. It is estimated that this would require from seven to eight hundred millions of silver currency."

I can't see why this is not just what we want. Would like to hear from thinkers on this. A. B. HOTCHKISS.
