## SANTA MONICA.

The Swimming Contests Today—Notes.

SANTA MONICA, Sept. 16.—Sunday at 1 p.m. the third contest in the second series of swimming matches takes place in front of the North Beach bathhouse. I. E. Scheckels has won twice and will do his level best to win tomorrow, there by holding the prize. The other entries are in hopes of stopping his triumphant course, and the contest will therefore be one worth witnessing.

## THE ARCADIA BALL.

The Arcadia ballroom was the scene of another merry concourse of dancers last night, who enjoyed the festivities of the occasion as the guests of mine host Rinehart. There has been no more enjoyable affairs this year than the balls at the Arcadia, and to the unstinted hospitality of Mr. Rinehart much of the season's gaiety is due. Those attending last night declare, if anything, it was the best of the season, and one and all voted the management the prince of good fellows.

## NOTES.

The theater train was a great accommodation last night, which many of our people appreciated.

The camp meeting has closed and is a thing of the past.

There will also be evening service at the Soldiers' Home, 3 o'clock. Miss Grace Remington Davis, in addition to the usual choir, will sing.

At the Congregational church Dormant Power in Our Churches will be the morning subject. In the evening, Pen Pictures of God in the Destiny of Nations.

A colt belonging to E. E. Hotchkiss, which was hitched to a cart and tied, on Second street, broke loose yesterday morning and started on a rampage, running down Second street to Oregon avenue and then to Third street, where he collided with the team of Mr. C. Freeman, the transfer man, which was standing in front of the post office, smashing the cart and running the shaft into the thigh of one of Freeman's horses, which will lay him up for several months. No other damage was done.

## TERMINAL ISLAND.

Many Attractions for Pleasure-Seekers.

TERMINAL ISLAND, Sept. 16.—The melancholy days that are bothering the other seaside resorts by already having come, are unknown here at this cozy little resort, and there is more good social fun to the square inch, and more ways than you can shake a stick at to find enjoyment, and more people coming and taking advantage of all its possibilities than the average attendance at all the other places combined.

The damage caused by the fire in the coal of the Crescent Coal company's pile will not be large, as men were kept busy removing the pile of land near from the burning pile to other places. Some 25 or 30 tons will cover the amount lost.

The three-masted schooner Little Bonnie is at the Ganahl Lumber company's wharf unloading 330,000 feet of redwood lumber.

Select parties from Los Angeles and interior towns come here frequently for the express purpose of enjoying the fish dinners served at the pavilion.

Shells in multitudes are strewn up and down the beach for a long way, and are eagerly sought for by shell lovers and conchologists. Low tide is the time to get them, and many valuable specimens are secured and borne away in triumph by the lucky ones.

The new railroad that is headed this way (the San Francisco & Atlantic rail) will be completed in a few days, and from my information will be pushed along as soon as the government makes the appropriation that soon will be asked for. A delay on the appropriation for the harbor recommended by the United States engineers will retard the growth of not only all of Los Angeles county, but of every other county in Southern California as well. The road will have another name when it reaches here.

An unearthly crowing startled the peaceful denizens of this beautiful island of the sea from their pious meditations last Thursday, which upon being investigated turned out to emanate from Billy Edwards, Dick McKnight and Joe Burnill of the Rooster baseball club, Los Angeles, who were down working off a perfect game.

SAN BERNARDINO.

Reed's Big Nugget—A Joke Worth Sixty Days.

SAN BERNARDINO, Sept. 16.—John S. Reed, a miner of 34 years experience, exhibited on the streets today a gold nugget of pure gold weighing 56½ ounces and valued at \$984.50.

The metal was found in Kern county, near the boundary line of San Bernardino county, on Mr. Reed's San Tullio mine of the Galer district. He says it is the largest nugget found in the state the past 20 years. He has been taking out about \$25 per day by the dry-wash process, which is used altogether, as water is very scarce in that section. He owns 20 acres in that locality and has two men working for him. His visit to this city is for the purpose of securing additional machinery and more men. He is a very quiet and unassuming man, and is fully aware of the value of his find and is not at all anxious to part with it.

A JOKE WORTH SIXTY DAYS.

Some time ago Harry Stevens, a 17-year-old boy, was committed to the county jail in this city for a misdemeanor. His term would have expired today but he could not resist the temptation to have some fun while in the county bastle. He cut the leather straps which hold the bunks in place till they would scarcely hold the weight of the bedding. When the prisoners would go to turn in at night they would fall to the floor. He was taken before Justice Felton today and tried for malicious mischief. After hearing the evidence he was sentenced to 60 days in jail for the joke. Quite amusing but rather expensive.

RIVERSIDE.

First-Class Wheat—The Prohibition Ordinance.

RIVERSIDE, Sept. 16.—That this county can raise first-class wheat goes without saying. The section near Perris has a large output and sells very readily. The Orange news has the following to say of Perris wheat:

The Olive Milling company will buy all the good milling wheat raised in Southern California at a good price if they can get it, but the quantity yet raised is not sufficient to keep the mill going more than one-third the time. The flour made from Perris valley wheat, grown from seed brought from Australia, has proved to be a first-class article and the company would be glad to keep their machinery at work on it constantly. The mill is now grinding 100 tons of wheat every week, and a great deal of it must necessarily be brought from the north. It has been successfully demonstrated that an excellent article of milling wheat can be raised in Southern California when care is used in selecting the seed, and we have no doubt it will soon be raised in such quantities that the necessity for shipping in northern wheat will cease.

WILL SOON BE DRY.

At a recent meeting of the supervisors an ordinance was passed prohibiting the sale of liquors of all kinds in this county. On and after October 1st this section will be as dry as the Mojave desert, as far as spirituous drinks are concerned. Liquor will be brought in the country in large quantities. Those who are accustomed to take one drink now will take several when prohibition goes into effect.

## MISERIES OF CATARRH.

Complete Relief and Quick Cure

By the New Method of Treatment.

Mr. Walter Greenwood, who lives at 420 South Fremont avenue, is another enthusiast who cannot speak too highly of the success of the new method of treatment. He makes the following statement:

MR. WALTER GREENWOOD.

"I know what it is to suffer the miseries of catarrh. I did for about three years. The least exposure gave me a cold, changing from heavy to light-weight clothing I would suffer with a severe cold for weeks. In fact I believe these frequent colds caused all my trouble. I had a watery discharge from the nostrils. My throat was most always sore. I had a very severe cough and a constant hacking and spitting. This led to pains in my chest and across over the lungs. My stomach became affected, and I could not eat in the morning without nausea. "My friends advised me to try Dr. De Monco and associates. After a time I concluded I would do it. I put myself under their treatment. "Now after a partial course of their treatment, I feel first-class. I am perfectly satisfied with the results, and cannot recommend Dr. De Monco and associates to all sufferers highly enough."

## PASADENA.

Got His Head Smashed—Something About the Churches.

PASADENA, Sept. 16.—A Mexican, apparently dead, was picked up by this afternoon train from Altadena at Russell street station. He was lying by the side of the track when the engineer saw him and stopped the train. The Mexican presented a horrible appearance, his face and clothes being covered with blood from several ugly wounds in the head, which had evidently been made with a club and possibly some of them with a rock.

When picked up the man was unconscious and did not regain his senses until after he had been brought to this city and his wounds dressed by Dr. Harry Macomber. The man goes by the name of Joe and lives some where on Kansas street.

It is thought that he got into a fight with another drunken Mexican and was pounded into insensibility. His wounds were painful and serious but not fatal.

BOARD OF TRADE MEETING.

The board of trade held a special meeting this afternoon with a large attendance.

The by-laws of the association were adopted and the members present indulged in a general discussion of the electric franchise proposition.

Mr. E. C. Webster was present and stated that it would be necessary, in order to float the bonds, that the franchise be granted with as few restrictions as possible.

Prof. Keyes spoke in favor of the half rate applying to all school pupils.

A resolution recommending this to the city council was passed.

AN EARLY BLAZE.

The tooth factory on Waverly drive, belonging to Dr. Davis, came near going up in smoke this morning.

An alarm was turned in about 1:30 a. m. and the company promptly responded, the fire proving to be located in the rear of the factory, which is a two-story frame building. It would have burned very quickly had the fire once got a good headway. The company, however, succeeded in putting the fire out before it had done any great damage. The blaze started from a furnace, which is used in the manufacture of teeth.

Only one man was sleeping in the building, his room being in the front on the second floor. When he was awakened by the crackle of the flames he commenced firing his personal effects out of the window, including a trunk, which carried the fire down and near along with it. It is not known whether or not he jumped out after his worldly belongings, but the last the firemen saw of him was out hunting for one of his shoes, which obstinately refused to be discovered.

THE CHURCHES.

At the M. E. church Rev. J. W. Phelps, the present pastor, will deliver his farewell sermons, preaching both morning and evening. Mr. Phelps resigns on account of his health and his departure from the pulpit will be sincerely regretted by his congregation.
