REPEAL MEN ARE HOPEFUL

They Expect to Take a Vote
at an Early Date.

Both Sides Agree to Extend
the Daily Sessions.

The Silver Men Believe It Will In-
jure to Their Benefit.

They Will Endeavor to Displace the Re-
peal Bill With the Elections Bill.
Senate and House Pro-
ceedings.

By the Associated Press.
WASHINGTON, Sept. 22.—The repeal
men in the senate are still hopeful of
reaching a vote at a comparatively early
date, and none of them place the time
beyond the first week in October. It
will be observed that this will be in
time to get the bill out of the way for
the federal elections bill, if that bill
should come over from the house of rep-
resentatives on the 9th of October, as it
probably will. They say, however,
even in case the federal elections bill
should reach the senate before the finan-
cial bill is out of the way, there would
be no danger of displacing the latter
measure.

The silver senators believe an agree-
ment was reached today, which will in-
jure to their benefit, and are very much
pleased with it. They are determined
to hold on until it can be ascertained
whether the elections bill can be taken
up in the senate to the displacement of
the silver bill. It is understood that
the agreement is for only one week, but
it is presumed, if necessary, it will be
renewed at the expiration of that time.

SENATE PROCEEDINGS.

The Cloture Resolution and the Repeal
Bill Discussed.
WASHINGTON, Sept. 22.—In the senate
today Allen (Pop.) of Nebraska intro-
duced a bill making the dollar which
may be coined of 42.5 grains silver or
25.8 grains gold the unit of value. The
bill also repeals the Sherman act and
provides that owners of silver may de-
posit it in the mint, which (less 20 per
cent for seigniorage) to be coined and put
in the treasury shall be coined into
standard dollars for his benefit.

Mitchell of Oregon introduced a bill
appropriating \$375,000 for the construc-
tion of two steam revenue cutters for the
Pacific coast.
The resolution of Platt of Connecticut
for a cloture rule was then taken up.
Wolcott of Colorado spoke in favor of
bringing the question to a vote, though
opposed to the cloture, as the only way
of determining whether or not the sen-
ate wanted to stifle debate. He said
if it failed to pass criticism on the op-
ponents of repeal must cease.

Teller of Colorado occupied the bal-
ance of the time until 2 o'clock in a
speech against the proposed change in
rules.
The repeal bill was then taken up and
George (Dem.) of Mississippi concluded
his speech begun on Wednesday against
the bill.

Hansbrough (Rep.) of North Dakota
then addressed the senate in opposition
to repeal.
Stewart (Rep.) of Nevada followed,
and proceeded to argue that gold had
risen in value while silver had remained
a staple measure of value.

When Stewart sat down, Voorhes
said: "I may say that a consultation has
taken place this afternoon between the
friends and opponents of the pending
measure, which resulted in an agree-
ment as to the hours which we will
occupy in debate. Without going into
details I am warranted in moving that
next Monday and after the hour of
meeting shall be 11 o'clock and adjourn-
ment take place at 6."

HOUSE PROCEEDINGS.

Both of Representative Loud's Chinese
Resolutions Adopted.
WASHINGTON, Sept. 22.—In the house
today the report of the committee on ac-
counts, abolishing clerks to unimportant
committees, was agreed to.

Loud of California, rising to a ques-
tion of privilege, called the attention of
the house to the fact that two resolu-
tions of inquiry, which he introduced
over a week ago, had not been reported
to the house. The first was a resolution
calling upon the attorney-general for the
instructions given United States district
judges and United States marshals re-
lating to the Gary Chinese exclusion
act. Loud explained that he pursued
the unusual course of calling up this
resolution as a privileged question, be-
cause of the near approach of possible
legislation on the subject (the Everett
bill) and the house had a right to know
what steps had been taken to enforce
the present exclusion act.
[Resolutions of inquiry addressed to the
heads of departments, under the
rules, must be reported to the house
within a week.]

After some discussion, participated in
by Oates, Springer and McCreary, the
chair held that Loud's question was
privileged and the previous question on
the resolution was ordered. Agreed to.

The other resolution, calling on the
secretary of the treasury for the instruc-
tions forwarded to collectors of customs
and other officials of the department,
with reference to the enforcement of the
Gary law; also information as to the
number of Chinese in the country, the
number deported, and the number
registered under the act, was also
agreed to.
Adjourned.

THE PENSION ROLL.

Commissioner Lochren Submits His First
Annual Report.
WASHINGTON, Sept. 22.—Pension Com-
missioner Lochren submitted his annual
report to the secretary of the interior
today. It shows: Pensioners on the
rolls, 966,012, a net increase of 89,944
during the year; claims for increase of
pensions allowed, 24,715. For addi-
tional pensions under the act of June
27, 1890, there were allowed 31,900
claims. Under both heads, 115,221
claims were rejected. Claims pending,
771,150; paid for pensions during the
year, \$156,740,467; balance at the close
of the year, \$2,437,371.

The commissioner thinks the appropria-
tions for the next fiscal year are am-
ple.
The estimates for the fiscal year 1895
amount to \$122,331,550. He thinks from
1895 the pension list will decrease. It
is thought that the number of applica-
tions will decrease, owing to the lapse of
time since the war. A tendency in this
direction is already manifest.
The commissioner also defends his course
in suspending certain pensions granted
by former commissioners under the
act of June 27, 1890, saying he sought
honestly and fairly to carry out the pro-
visions of the law, citing instances, de-
claring they and others such were granted
in evident violation of the law.

AMBASSADOR VAN ALLEN.

Opposition Developing to the Confirma-
tion of His Appointment.
WASHINGTON, Sept. 22.—There is con-
siderable talk on the floor of the senate
regarding the appointment of J. Van
Allen to be ambassador to Italy, and
while the appointment has not been be-
fore the senate a sufficient length of
time to permit a thorough canvass of its
fitness, the sentiment so far developed
is certainly adverse to Van Allen, and it
has become evident that his confirma-
tion will be strongly opposed.

NOT A MONOMETALLIST.

PRESIDENT CLEVELAND DENIES
THE SOFT IMPEACHMENT.

He Declares that He Favors the Use of
Silver as Money Under Certain
Restrictions—How Will Con-
gress Vote?

New York, Sept. 22.—President
Cleveland has taken occasion to deny
that he is a mono-metallist, and to de-
clare that he is in favor of the utiliza-
tion of silver, so far as it can possibly be
done with safety to sound currency.
This statement regarding the president's
position was made by Governor Thomas
J. Jones of Alabama. Although Gov-
ernor Jones admitted that the president
had said much beside on the silver
question, he said he did not feel at
liberty to make any statement pub-
licly. Governor Jones said he did not think
the president or anyone else could tell
just how congress is going to vote on
the silver matter.

PULLMAN OUT ON BAIL.

The Charge Against Him Tramped Up
by Gambler.

SAN DIEGO, Sept. 22.—A. M. Pullman,
living at Valley of the Palms, who was
arrested at Escondido last Friday, for
complicity in the abduction of Whit-
man, has been released on bail, United
States Vice-Consul Godbe signing his
bonds. Pullman was advised by
his friends here to demand an imme-
diate trial, as it is claimed there is no
evidence whatever against him. It is
said the whole story of the kidnaping
emanated from a few gamblers who
were disappointed by Whitman's sur-
render, as they had formed a plan to
relieve Whitman of his money.

THE CENTRALIA ROBBERS.

Only Two of Them in Custody—They
Waive Preliminary Hearing.

CENTRALIA, Sept. 22.—The report that
Harter, one of the three robbers who
held up an Illinois Wednesday evening
train in this city Wednesday evening,
had been caught, was incorrect. Harter
is supposed to be hiding in St. Louis.
The two captured bandits, Jones and
O'Dwyer, have waived a preliminary
examination and will be tried at the Janu-
ary term of the circuit court.

HAZARDS IN THE AIR.

A Colored Barber Fatally Carves His
Brother-in-Law.

SAN FRANCISCO, Sept. 22.—William
Harris, a colored barber, fatally cut his
brother-in-law, William Daws (colored)
during a quarrel on Sutter street. Har-
ris used a razor and gashed Daws in a
frightful manner.

Outwitted Loses His Mare.

FROCKTON, Sept. 22.—The trotting
mare Mary Caldwell, owned by J. H.
Outwitted of Sierra Madre, died tonight
of inflammation of the bowels. She was
taken sick Tuesday. She was by
Wilkes Boy, and made a record of 2:20
at Sacramento in her first race.

Thrown Out of His Wagon.

BAKERSFIELD, Cal., Sept. 22.—Alfred
Polkenborne, a farmer, was thrown out
of his wagon in town today and seriously
injured. Three of his ribs were broken.
It is supposed they penetrated his lungs.
His recovery is doubtful.

It is important to know that a correct
fit in fine tailoring can be had at moder-
ate prices from H. A. Getz, 113 West
Third street.

A sea bath at home with Turk's Island
sea salt is exhilarating. Recommended
by all physicians. For sale by all drug-
stores; 15c a package.
For sunburn and freckles use only
Perfecta Face Cream; safe and sure.
For sale by A. E. Littleboy, druggist,
311 South Spring street.
Buffalo Lithia. Woollocot, agent.

SWALLOWED BY THE OCEAN

The Mysterious Sinking of a
Haytian Warship.

Went to the Bottom Without a
Moment's Warning.

The Sea Was Calm and There Was
No Sign of Danger.

Of More Than Four Score Souls Aboard
Only One Escaped to Tell the
Tale—A Party of Diplomats
Among the Victims.

By the Associated Press.
NEW YORK, Sept. 22.—The steamship
Prince Wilhelm, from Port-au-Prince,
brings news of the foundering of Cape
Tiberon, of the Haytian war ship Ales-
andre Petion, with a crew of 80 men
and the following diplomats, en route to
Santo Domingo to negotiate a treaty:
General Molini, M. Cohen, Haytian ex-
minister to Mexico, and M. de Jeans,
Haytian consul-general. One sailor was
saved.

The disaster occurred September 6th,
about 50 miles south from Cape Tiberon.
The cruiser had just been put into com-
mission. She left Port-au-Prince Sep-
tember 4th, bound for Santo Domingo.
The suddenness and completeness of
the disaster, only one sailor escaping,
makes the affair most mysterious. It is
probable the real cause of the wrecking
of the ship will never be known.

SUDDENNESS OF THE DISASTER.

According to the testimony of the
sole survivor there was absolutely no
warning. Neither collision with another
vessel, a submerged coral reef nor a
storm can account for the occurrence.
The day was fair and the passengers
were enjoying themselves in the cabin.
Suddenly the vessel began to sink. The
officers of the watch ordered men to pass
the word in the cabins and fore-castle to
reach the deck quickly and jump over-
board. It was already too late. There
was terrible confusion in the cabin as
the panic-stricken passengers struggled
to reach the deck. In a minute from
the time she began to sink the vessel
was entirely under water.

THE ONE SURVIVOR.

One of the sailors, as the ship began
to sink under him, snatched a pair of
oars from a lieboard and threw himself
into the water. He caught a plank on
which he drifted for 36 hours with noth-
ing to eat or drink. He was picked up
about 50 miles southeast of Port-au-
Prince. For a long time the castaway
was unconscious and could not speak.

THE SON OF A JUDGE.

A Young American Entangled in the
Affairs of Haiti.

LONDON, Sept. 22.—George Atherton
Perkins, claiming to be a son of Judge
Perkins of Buffalo, N. Y., was again in
the Bow street police court today,
charged with obtaining goods under
false pretences. The charge was dis-
missed. Perkins was then arrested again,
charged with stealing the deeds of some
land in California. The property is said
to have been stolen from a man
named Thompson, who came to London
in order to sell the land referred to.
Thompson, it is claimed, was at one
time confined in an asylum for the in-
sane, in California. On the second charge
the prisoner was remanded.

A FATAL RUNAWAY.

Harry Smith Thrown From a Wagon
and Killed at Ontario.

SAN BERNARDINO, Cal., Sept. 22.—[Spe-
cial.]—A runaway at Ontario, attended
with a fatal result, occurred today.
Henry Smith, a highly respected citizen
of that town, was driving a spirited team
hitched to a large wagon, when the
horses became frightened and ran away.
Smith was thrown from the wagon and
instantly killed. Coroner Thompson of
this city was notified and repaired to the
scene and held a post mortem examina-
tion, and found that the wagon had
passed over his body, cutting his liver
almost in two.
The body was brought to this city and
will be buried tomorrow.

Gold Will Again Flow Out.

NEW YORK, Sept. 22.—The foreign
banking houses will not admit that
there is any chance of immediate export
of gold, but other persons say if the rate
of exchange continues to advance, the
possibility of exportations will very
quickly become a certainty. According
to well-informed bank presidents, the
bank statement tomorrow will be a very
favorable one.

Quiet Restored at Roanoke.

ROANOKE, Va., Sept. 22.—The intense
excitement of the citizens over the un-
fortunate occurrences of the past few
days has subsided and the city is now
quiet. The last victim of the bloody at-
tack has been buried and the wounded,
with the exception of two, are doing well
and will recover.

Parliament Adjourned.

LONDON, Sept. 22.—The house of com-
mons and the house of lords adjourned
today until November.

WORLD'S FAIR NOTES.

A Notable Excursion to Be Given the
Foreign Commissioners.

CHICAGO, Sept. 22.—After last night's
storm the weather this morning was
bright and bracing. It was expected
that today's attendance at the fair would
be the largest of the week.
This was state commissioners' day.
The general officials of the fair visited
the various buildings and congratulated
the commissioners on their part in mak-
ing the fair a success.

The fishermen concluded their exer-
cises today. The principal event was
the long-distance fly casting, which was
won by A. C. Leonard of New York,
who cast a line 99 1/2 feet.
Another excursion to the far west for
the foreign commissioners is being
planned by Mrs. Houghton, one of the
lady managers from the state of Wash-
ington. A great many foreign com-
missioners have signified a wish to see
more of the country, and an excursion
will be organized to give them a chance.
The excursion will travel through Mont-
ana, Idaho and Washington, returning
via Salt Lake.
The attendance at the fair today was
200,763, of which 169,090 paid.

THE FLOATING HEAD

Positively Identified as Addie Gilmore's.
Dr. West's Defense.

SAN FRANCISCO, Sept. 22.—Dr. Stewart,
a Colusa dentist, who filled Addie Gil-
more's teeth, today positively identified
the head floating in the bay as hers.
Dr. West, who is accused of the murder,
denies that he made a confession to Miss
Gilmore's father that the girl died and
that her body had been cut up. West
now says that he told Gilmore that
story to get rid of him. West's defense
will be that the girl is still alive and
that the prosecution cannot prove that
she is dead. West appeared for his pre-
liminary examination in the police
court this morning. He asked for a con-
tinuance on the ground that his evi-
dence was not prepared, and the case
was accordingly set for next Tuesday.

BISMARCK IS BETTER.

THE IRON PRINCE REGAINING HIS
WONTED STRENGTH.

William Struck the Popular Chord When
He Telegraphed Him His Sympa-
thy—The Aged Statesman
Greatly Pleased.

BERLIN, Sept. 22.—According to the
reports of his physician, Prince Bismarck
is regaining strength. Intimate
friends of Prince Bismarck say the old
statesman was greatly pleased and
touched at receiving the emperor's mes-
sage of sympathy and offer of residence
in the imperial castle. The emperor's
telegram to the ex-chancellor is still
largely discussed, not only by the news-
papers in every part of the empire, but
at public gatherings everywhere. Noth-
ing that the emperor has done since his
accession to the throne has contributed
so much to his popularity as has this
recognition of the man who did so much
for the building up of the empire. The
reconciliation between the kaiser and
the ex-chancellor has produced an es-
pecially excellent impression in South
Germany.

RIOT IN KANSAS CITY.

Members of the American Protective As-
sociation Mobbled.

KANSAS CITY, Sept. 22.—A meeting of
the American Protective association
anti-Catholic society, tonight terminated
in a riot in which several persons were
injured. Many members carried re-
volvers and some marched to the hall
with shotguns and rifles on their shoul-
ders. Twenty patrolmen were sent to
preserve the peace. When the meeting
was ended, a mob attacked the members
as they filed out of the hall, throwing
rocks and bricks. The police ar-
rested a man, a railroad detective named
Brown. He showed his badge to the
police and was let go. The mob stoned
Brown, and drawing a revolver, he pre-
pared to defend himself. One of the
mob, named O'Connor, also drew a re-
volver. He told Brown, "Stand firm,"
simultaneously and each fired two shots.
O'Connor received one bullet in the
thumb. Brown escaped unhurt. Mean-
time the police made many arrests.

THE STORY OF THE WRECK.

The story of the wreck is as follows:
Vestibule train No. 55, from Detroit
to Chicago, was running in two sec-
tions, and was due to pass this station
at 4:40 a. m. Fast freight No. 92 was
on the siding here, waiting to allow No.
55 to pass. The first section of No. 55
passed at 5:15, and by its whistle called
the attention of the freight crew to the
second section. The engineer replied,
but it seems Brakeman Thompson did
not notice the signal and went ahead to
open the switch for No. 92 to leave. He
had hardly done this before the second
section of No. 55 was seen bearing down.
Thompson seemed to be paralyzed.
Swerving to the left, the ponderous
mass of steel, drawing its precious load,
lunged heavily into the waiting freight
train with a horrible crash.

THE RESULT OF THE CRASH.

The result of the crash was fearful
and the scene that ensued was awful.
Nearly all the passengers were asleep,
and the suddenness of the crash so dazed
the unfortunate that for a few minutes
all was still, save for the escaping steam,
but soon the agonized screams of the
wounded and dying rent the air. The
few uninjured had not the presence of
mind to make an effort to rescue the
imprisoned victims, but with the arrival
of a number of residents the work of
releasing the hapless victims was soon
under way.

THE WORK OF RESCUE.

Owing to the huge mass into which
the wreck was piled it was a perilous
undertaking, and some hours elapsed
before the last living victim was re-
moved, and the dead were finally extri-
cated only after the arrival of a crew
with apparatus.
The dead, as fast as taken from the

BY WIND AND WATER.

A Perilous Balloon Ascention Made
from the White City.

CHICAGO, Sept. 22.—Prof. King of
Philadelphia, an acrobat, and Miss
Josie Morris of Ames, Iowa, went up in
a balloon this afternoon from the world's
fair ground. The air ship blew out over
the lake and began to come down. The
revenue cutter Johnson went to the res-
cue and on overtaking the balloon, some
20 miles north of the city, found it dan-
gerously along the water. By the aid of a boat
loaned from the Johnson, King managed
to steer the balloon ashore, where he
and Miss Morris climbed out, none the
worse for their perilous journey.
Ladies' hats cleaned, dyed, reshaped
and trimmed. California Straw Works,
