THE VOICE OF LABOR.

(CONTRIBUTED.) The Los Angeles County Council of Labor held its regular session last Wednesday evening. A full delegation was present from all the unions and considerable business was transacted.

An invitation from the Turners to assist in the laying of the corner stone of their new building was accepted. A large delegation from the labor unions will be present.

Resolutions of regret on the death of W. H. Mitchell was adopted and the sympathy of the council was extended to his family.

Reports from the unions showed that business was improving in the city. Resolutions from the carpenters' union were indorsed asking that no city charter be amended so that no more work be done by contract.

Invitations to send speakers to the county convention of the Farmers' Alliance at Gardena, October 9th and 7th was accepted, and Messrs. Randolph, Fisk, Severance and Matthews were elected as the council's representatives.

Delegate Knight reported that Eugene Debs, president of the Firemen's Brotherhood, would be in the city soon, and if possible a mass meeting would be held.

The secretary was instructed to communicate with all industrial organizations in the county asking their co-operation in labor's struggle against its enemies.

The White Waiters' union will give a ball in Armory hall next Thursday evening.

The picnic of the Butchers' union last Sunday was very largely attended and was a success financially.

The Cooks' union is now in a very prosperous condition and since the deportation of the Chinese cooks all the members are at work. Many of the men present to this were out of work and actually suffering. Now they are happy and contented and enjoying some of the comforts of life.

This city is rapidly receiving a large influx of unemployed laboring men from the east, but so far the labor bureau has been able to supply the majority with work in the country. But that work is falling off, and if many more in their care will be quite a problem.

But few of the men coming in are skilled laborers, the majority being men who have been accustomed to doing rough work. A large number are reported as being in Mojave at the gold claims in that place. Few of the men are making a living and the majority are unemployed. An engineer who left here to go there has returned and reports the men as desperate characters. While returning home he was held up and robbed.

Just as soon as the calendar in the federal court is closed in this city an active campaign will be begun against the Chinese in Los Angeles. The federated trades have no intention of allowing the law to become a dead letter if they can prevent it. They have no desire to hamper the officials in their work and for that reason have not vigorously pushed matters. The chief of police in San Francisco has notified the labor council that he will assist them in locating Chinamen in that city. The courts in that place require the real name of the Chinese, a difficult matter to ascertain.

LABOR NOTES. The San Diego federation reports business very dull in that city except with the longshoremen. Resolutions were adopted indorsing Congressman Geary's position on the Chinese extension matter and his anti-immigration bill. The labor day celebration in that city was a great success.

Toledo, O., street car men initiated 200 men in one evening at one meeting. Cleveland, O., has been finding out how many unemployed men there are in that city, and puts the number at 50,000.

President Perkins of the International Cigar-makers' union, has issued an address requesting all local cigar-makers' unions to take legal proceedings against persons detaining their employees in boxes bearing counterfeit union labels.

Joe Spinkton, the veteran labor advocate, speaking upon the labor movement, the hopes and aspirations of its workers, says: "Seek for the best. Seek it through organization, in unity, in harmony, in brotherhood; with picket, petition, energy and judgment, for your own sake, for the sake of mankind and for the right's sake. If the present generation of workmen will do this we shall see the dawn of a brighter day than the world has ever yet seen."

Chauncey M. Depeud advised everybody to go to the "hard" air, even if he had to borrow the money to go there. A Texas preacher took Chauncey on the wing, as it were, and wrote to him asking the loan of \$200 for that purpose.

Dr. Warner, a large coast manufacturer of Bridgeport, Conn., has done an unusual thing. His business became so slack that he felt compelled to reduce the working time of his factory to three days a week and to lay off many of the women and girls in his employ. But recognizing a moral obligation, which is so generally ignored, he refused to throw upon the helpless workers the whole burden of bad business. He has provided free board for all girls who are thrown out of work by the curtailment of operating in his factory and announces his purpose to continue the benevolent while the stagnation lasts. He is thus sharing with his employees in time of distress the profits of better times.

A new Italian union in Brooklyn provides that only American citizens are eligible for membership.

The New York Journal of Commerce and Commercial Bulletin has been unionized.

The shoe workers' strike in England has been settled by arbitration.

P. J. Maguire, general secretary of the carpenters, says nearly one-half of his men are idle.

The immigration commissioner reports that the emigration at New York now

Royal Baking Powder ABSOLUTELY PURE Highest of all in Leavening Power.—Latest U. S. Gov't Report.

exceeds the immigration. During August there was a decrease of 4000 in the number of immigrants from that of August, 1892. The other day the steamer Burgundia arrived in New York with one immigrant on board, while the Sprea sailed on the same day with 300 steerage passengers. On September 3d a vessel arrived at that port with 200 Italians. "Hard times," consequent on the financial situation here, has become known throughout Europe.

During the year the brewers gained 25 new unions and 2760 members, making a total membership of 10,000.

Theatrical employees in the United States are going to strike on every traveling troupe that hires non-union help.

Reports from all over the United States in shipping circles show that shipping is very dull. This is especially true of this coast.

The carpenters' union will give another one of its interesting open meetings on Thursday evening, October 12th, at Council of Labor hall. All non-union carpenters and other organizations invited.

FOR FLAVOR AND PURITY Drink the Celebrated Mair & Z. belein Beer. An enormous quantity of beer drunk in Los Angeles and vicinity, and it is a pleasant thing to note that the well known and favorite beverage brewed by Mair & Zobelein and you will always have a kind word for its excellence in every particular.
