

YESTERDAY IN THE PULPITS

Mrs. Laura Ormiston Chant Preaches at Unity Church.

Rev. Clarke Attacks Sensational Preachers in a Strong Sermon.

An English Philanthropist Preaches on the Fraternal Son-A Preacher Attacks Pulpit Orators-Rev. Bowen Also Preaches.

The large auditorium of Unity church was densely packed yesterday morning, the occasion being the presence of Mrs. Laura Ormiston Chant of London, England, who delivered the sermon.

She is of medium height, dark complexion, expressive face, large eyes and a very effective, full-toned voice, which she used with great skill, and without any apparent effort she filled the large auditorium.

There is a great amount of magnetism in her address, and her voice is very persuasive. She used but very few gestures, and those which she used were apparently used when she became unusually interested in her remarks.

A marked impression was made by her sermon. Her language is plain and simple almost to homeliness.

After the opening hymn had been sung Mrs. Chant prayed most expressively and also read the parable of the prodigal son.

The pastor, Rev. Thompson, next introduced her as the one who would deliver the sermon. She was introduced by her work in London and referred to her as being one of the leading women in philanthropic labors, particularly in the respect of helping women.

Mrs. Chant selected the parable of the prodigal son as her text, and she more particularly dwelt on the verses which describe the father seeing his son while he was yet a great way off.

The speaker also addressed those who were not prodigals, and spoke eloquently upon the home virtue, closing with a strong, pathetic appeal to the men and women to recognize their own experience and impart reparation for any wrong they might have done, and to extend the hand of charity to those who had fallen, and to help as far as lay within their power to raise up the degraded and the outcast.

The offertory solo was rendered by Miss Katherine Kimball of the new choir, the other members of which are: Mrs. Wiseman, contralto; Mr. Foley Parker, tenor, and Mr. B. H. Maybin, basso.

At the close of the service Mrs. Chant received a large number of the congregation in front of the pulpit.

Rev. A. S. Clark, rector of Christ Episcopal church, delivered a sermon yesterday morning upon sensational preaching. This subject was one that he treated recently before the convocation at Santa Barbara.

In looking around for the causes which have operated to produce this direful result we find among many others three principal causes: First, the natural perversity of the human heart; second, a craving for high-spirited intellectual food; and third, the lack of accountability on the part of swarms of self-constituted preachers.

Human nature is ever restless in its desire apart from God. There is a craving for novelty and excitement not only in physical things, but in things of the spirit as well.

Again: modern fiction especially of the realistic school has created a feverish and libidinous desire for highly spiced intellectual food. Works are presented to our notice not on the strength of competent critics, but on the score of editions.

mount to the belief in creeds. This places the man in the position of one inflexible. If a church can be planted on the plea of necessity other men will do the like to promulgate some fanciful theory of their own.

They flourish in the religious house of their own holding, with none to molest or make them afraid. Not amenable to rules of a church, and despising the traditions of the fathers, they foster a spirit inimical to true religion.

What, then, is our duty in the matter? Is it not to cling to the old gospel of Christ, pure and unadulterated, as this church has received the same.

Gains and losses alternate. The promise is sure, having this ministry of reconciliation transmitted to the posterity. It is the duty of the church to hold forth the gospel of our salvation. What more can you ask? What more can you need?

There was an unusually large attendance at the morning service of this church, the subject being, What Shall We Do With Our Unemployed Men? After a lively discussion a committee was appointed by the chair to draft resolutions and circulate petitions asking the city council to employ them on public works.

Rev. W. C. Bowen was greeted by a large and enthusiastic audience in the evening, his subject being National Cooperation or Nationalism. He began by reading a beautiful poem. He then said: "We take this subject because we believe it is the only way to solve the present reform movement which is at present agitating the minds of the people."

Co-operation in its true sense means working together, which is the great law of all organic action throughout the universe. It is the only way to solve the present reform movement which is at present agitating the minds of the people.

Co-operation in its true sense means working together, which is the great law of all organic action throughout the universe. It is the only way to solve the present reform movement which is at present agitating the minds of the people.

subject. Professor D. related some of his personal experiences. Capt. W. Wignett gave a few exhibits of hypnotic and healing power. Mrs. Bowen, Mrs. McCreey and Mrs. Baldrige gave exhibits of spirit control. A preliminary organization was effected. Prof. Frank Renaud gave a sample of his fine skill with the violin.

AT ST. PAUL'S. The Rev. John Gray preached at matins and delivered a very interesting address at evensong at St. Paul's church yesterday. The church was filled in the evening, when the very efficient choir under the masterly direction of Mr. Orme, M. B., the organist, intoned and chanted the entire service.

THE AMICK CURE. Its Fame Spread to the Ends of the Earth. CINCINNATI, Oct. 7.—The fame of this city as a center of medical researches has gone to the ends of the earth.

Dr. C. C. Howard Strong, of Cape Town, South Africa, has been here a week investigating the Amick cure for consumption, and takes back with him sufficient medicines for sixty patients. He sails from New York October 11.

An Alleged Murderer's Narrow Escape from Lynching. SAN FRANCISCO, Oct. 8.—The city papers print a story of exciting scenes in Lincoln, Placer county, on Saturday.

HANGED IN EFFIGY. A mass meeting of citizens and Gray was held at the hall of the Odd Fellows' hall. The crowd threatened to lynch Gray.

OLYMPIA AND OREGON. Armor Plate for the Two New Pacific Coast Warships. NEW YORK, Oct. 8.—Irving M. Scott of San Francisco informed an Associated Press representative today that during the past week he visited Pittsburg and Bethlehem with reference to the armor for the new cruiser Olympia and the line-of-battle ship Oregon.

Eastern Fruit sales. CHICAGO, Oct. 7.—The Earl Fruit company sold California fruit at auction today as follows: Tokay grapes, \$1.60@2.25; Tokay grapes, \$1.60@2.25; Tokay grapes, \$1.60@2.25.

Lack of Business. NASHVILLE, Tenn., Oct. 7.—The Safe deposit, trust and building company of this city has made an assignment for the benefit of its creditors.

Death of General Von Versen. ST. LOUIS, Oct. 8.—A cablegram to Gen. D. M. Frost from Berlin, Germany, today announced the death there of General Maximilian Von Versen of the Sixth corps of the German cavalry.

A \$7,000,000 Hotel. NEW YORK, Oct. 8.—It is currently rumored among investors that William Waldorf Astor is about to build in London the largest and most costly hotel in the world, which it is estimated will cost more than \$7,000,000.

A New Religious Order. CLEVELAND, O., Oct. 8.—Yesterday the supreme grand commandery of the Knights of Father Mathew of the United States and Canada was formed, with Captain Ignatius Longtin of this city as supreme president.

Blondie Released from Prison. LONDON, Oct. 8.—A dispatch to the Times from Paris says Blondie of Panama canal scandal fame, has been released from prison on account of ill health.

Miles' Nerve and Liver Pills. Act on a new principle—regulating the liver stomach and bowels through the nerves. A new discovery. Dr. Miles' pills speedily cure biliousness, bad tastes, torpid liver, piles, constipation, unequalities for men, women and children. Males, 25c; females, 15c. Fifty doses 25c. Samples free. C. H. Hanco, 177 South Spring.

Dr. D. S. Diffebaugh, Dentist, 110 1/2 S. Spring street, rooms 4 and 5. Duffy's pure Malt at Woolcott's.

GLIMPSES IN A MINT.

THE PROCESSES OF GOING THE PRECIOUS METALS.

"Making Money Is Just Like Making Cakes," Says a Mint Officer—Mixed, Rolled Out and Cut—The Work Women Do in the Philadelphia Money Factory.

It is rather difficult to attempt a description of how money is made. Even encyclopedias, which are supposed to be equal to any and all emergencies, object to that. In a measure they are right.

A day or two ago Officer Brown, standing beside a visitor who had watched with all the fascination of a novice the great iron mounds opening and closing, betrayed himself into a neat little explanation of the process of minting money.

"Making money," said he, with one of those eloquent waves of the hands he keeps by him to use on explanatory occasions such as these, "is just like making cakes. You mix the dough, you mix the metal. You roll out the dough into sheets; you roll out the metal into bars. You cut the dough into cakes; you cut the metal into coins. Then we stamp them. The metal left over is melted up and used again, just as the cook gathers up the left overs, rolls them again and cuts more cakes."

In other words, an amount of metal, say the equivalent of \$90,000 in gold, which chemically is made up of 90 per cent gold and 10 per cent copper, is put into a black lead crucible about the size of a peck measure. It is kept in the furnace 1 hour and 15 minutes.

The largest mammoth skeleton in the world is on exhibition at the Washington State building at the Chicago fair. It is the skeleton of a mammoth which died in the spring of 1878.

A Contagion of Epilepsy. A curious, well authenticated case of contagious epilepsy occurred among the Northamptonshire rifle volunteers, who returned home on Saturday after a week's camping out at Wakefield Lawn.

Cost of Superstition. "Don't you know this haunted house idea has a tremendous hold on people's minds?" said a dealer in residence property. "I have several houses on my hands for either rent or sale that somehow seem slow to take, and I now know at least one of the reasons. There was a murder committed in one, and several suicides have occurred in another, and when a buyer or renter goes to look at these houses some galeot of a neighbor will stick his head into other people's business and sneal about the happenings in those houses, and no matter what the prospective customer thought of the property that settles it. People don't want houses where murders and suicides have been committed."—Cincinnati Times-Star.

A Feminine Postscript. Tommy—There's a girl at our school, mamma, they call Postscript. Can you guess why? Mamma—No, dear. Tommy—Because her name is Adaline Moore.—London Tit-Bits.

The British Crown Plate. The British crown plate includes a peacock of precious stones, valued at \$35,000, which came from India; a tiger's head with a solid ingot of gold for a tongue and crystal teeth, and a magnificent gold shield, valued at nearly \$10,000, which was made from emu feathers by order of George IV.—London Tit-Bits.

THE CUP CONTESTANTS.

Twenty-five Thousand Patriots Visit the Vigilant and Valkyrie.

New York, Oct. 8.—The Vigilant and Valkyrie were resting within a couple of yards of each other in front of the Atlantic yacht club house at Bay Ridge today. Things were being put in shipshape order for tomorrow's race in the most peaceful manner, but the army patriots who were close by raised a rumpus that should go down into yachting race history.

There is a man in New Hampshire named William C. Todd who holds to the theory that he is benefiting his fellow creatures when he puts abundant supplies of newspapers within their reach. He lately provided for an expenditure of \$2,000 a year for newspapers for the Boston public library, and it has since been discovered that he recently made a similar provision for the public library of Newburyport.

A Woman Writer's Summer Work. Mrs. Kate Upson Clark, the well known writer and editor of Romance, spends her summers among the Franklin county hills, in the little village of Charlemont, where her childhood was passed.

It is interesting to notice that he seems not to have suffered from the newspaper publicity about which there is so much complaint, and that even his neighbors in Addison, where he lives, were found to possess scarcely any reliable information about his past career or the size of his fortune.

The speaker also addressed those who were not prodigals, and spoke eloquently upon the home virtue, closing with a strong, pathetic appeal to the men and women to recognize their own experience and impart reparation for any wrong they might have done, and to extend the hand of charity to those who had fallen, and to help as far as lay within their power to raise up the degraded and the outcast.

A Word of Warning. This is the time of year when cold creeps are lavishly recommended for the complexion tampered with by wind and sun. A note of warning must be sounded to those who are inclined to follow this freely given advice.

New York's New Diana.

The new Diana for the tower of the Madison Square Garden will be of aluminum. Copper was the material of the original chaste goddess, who pointed with her bow to the wind's eye from that lofty pinnacle awhile ago.

Inasmuch as there is plenty of it to be had, every clay bank being a mine of it, it may reasonably be expected that processes will eventually be discovered for separating it in unlimited quantities at a comparatively cheap rate from the materials with which it is found combined in nature. One important advantage that it has for statuary and monumental purposes is the fact that it does not corrode and is as unmarishable as gold.
