

PASADENA.

The Paving Question Again—Local.

PASADENA, Oct. 27.—At last the long threatened suit of the Perine Paving and Contracting company vs. the City of Pasadena, to recover \$3000 which was put up by the company for the faithful performance of their paving contract with the city of Pasadena, and which the council declared forfeited into the city treasury, upon their refusing to go on with the work.

The complaint, which is issued from the superior court, was served on Judge Weed, as president of the council this morning. It sets forth that the Paving company entered into a contract with the city of Pasadena to pave certain streets, namely, Fair Oaks and Raymond avenues, in accordance with specifications adopted by the city council and alleged to be, in compliance with the state law; that a certified check for \$3000 was put up by the company as a guarantee of good faith and the laying of the pavement in accordance with the specifications as adopted.

After this had been done the company became aware, for the first time, that the proceedings of the council were irregular and invalid, through a notice served on them by property owners on the streets affected, setting forth this fact, and further stating that if the work was done payment would be contested. Upon investigation of the matter the company became convinced that such irregularities existed as to render it impossible for them to collect their money after the work was completed, and for this reason they refused to carry out the contract, and asked that their check be returned to them.

This the council refused to do and ordered that the money be declared forfeited, all of which is claimed to be contrary to law and justice, and it is to compel the return of this money together with costs, etc., that judgment is asked for.

This, in brief, is a statement of the case and its details as narrated in the columns of the HERALD at the time of its occurrence, are well known to need further comment.

At that time and ever since the HERALD has maintained that the council had no right to confiscate the \$3000 put up by the paving company for the contract, and that the proceedings were irregular and their money could not be collected. Now the matter has at last got into the courts, where a final settlement will be had and the proceedings will either be declared regular or the city be compelled to pay back the money appropriated, together with costs in a suit which promises to be decidedly expensive.

PREBYTERIAN SOCIAL. The social given by the Young People's society of the Presbyterian church in the lecture room last evening called out a large crowd, and a very pleasant evening was spent in the program, which was short but very much enjoyed, consisted of a violin solo by Mr. Ed. Hutchins; vocal solo, Mr. Frank Cates, and piano selections by Misses Dane and Parker. A series of amateur blackboard drawings furnished much amusement for the audience. Refreshments were served late in the evening.

who prey upon them by beating bills, either advertising or subscription. Then the rascal who has "jumped" a bill at Los Angeles will not be able to come to Pasadena and do the same thing. One bit of rascality will end his usefulness in Southern California, or as far as the operation of the union extends. We second the motion; and we know of several dead beats whose wings should have been clipped long ago by a similar protection.

SANTA ANA.

A Landmark Gone—Grimes Captured. The Walnut Crop.

SANTA ANA, Oct. 27.—A landmark in the early history of Santa Ana is being moved out of town. Every old resident of this city remembers the long wooden structure with a mammoth-sized eavespot perched upon the awning. This building was situated on Main street and occupied by R. H. Dibble. It was placed on wheels today and carted out of town.

RETURNED.

J. C. Nichols returned from Bakersfield on the 11 a. m. Southern Pacific train. He was accompanied by Grimes, the burglar and all-around hard case, who was captured at Bakersfield. Grimes made a desperate effort to elude capture, and it was only after he had been shot at several times by the pursuing officials before he stopped running, and then he dropped to the ground and crawled through the high weeds to where he thought he was safely hidden away. He was taken before Justice Freeman and his examination was set for tomorrow. Marshal Nichols did not give the sprinter an opportunity to escape.

PLACENTIA WALNUTS.

Arthur Staley of Placentia went up to Los Angeles yesterday to collect the money due on the first two carloads of walnuts shipped from that place by the Fullerton English Walnut Growers' association. These walnuts were soft-shells and brought 7 1/2 cents per pound. The association has orders for nine carloads of walnuts at 7 1/2 cents for hard-shells and 8 1/2 cents for soft-shells. They will probably make another shipment this week.

ANAHEIM IRRIGATORS ASSESSED.

The sale of the Anaheim irrigation district bonds for \$170,000 was accomplished some time since to Chicago parties. There has been some technical point raised as to the validity of the bonded indebtedness of the district. The legal counsel for the district, however, hold that the indebtedness is legal and that a levy should be made in the usual way, in order that the interest on the bonds might be paid. After considerable deliberation and much discussion, a resolution, which reads as follows, was presented:

Resolved, That the sum of 81 cents on each \$100 of the assessed valuation of the property in the Anaheim irrigation district is hereby levied as an assessment for the purpose of raising a fund for paying the annual interest for the fiscal year ending July 1, 1894, on the bonds amounting to \$170,000 outstanding and sold to N. W. Harris & Co., and that the secretary of this board do compute and enter in the assessment book the proper sums to be paid as assessments on the property enumerated in said assessment book according to law. It is thought that the 81 cents levy will be resisted in a legal way.

ANAHEIM MATTERS.

The Anaheim Gazette of the 26th says that Charley Baner had the misfortune to get a barley beard in the gutter last week while working on the Dunn boys' hay baler to get a barley beard in his eye, which has necessitated his going to Los Angeles to consult an oculist about it and has since incapacitated him from work. Although the sight was for a time almost destroyed it is hoped that it will soon be all right again.

Inasmuch as Frank Porter had 18 acres of peanuts and 1200 pounds of walnuts out in the rain the downtown is not an unmitigated blessing to him. He reckons his loss at a couple of hundred.

Alan Melrose of Anaheim had his arm broken a few days ago, while playing with some children at school.

MORE MIDWINTER TALK.

The chamber of commerce will hold another meeting tonight, in order to come to a final understanding as to what will be done towards taking part in the midwinter exposition. Mr. Peabody, who went to Los Angeles yesterday for the purpose of finding out what could be done to secure a desirable site, will report tonight in effect that it can be secured, and that the other southern counties are pushing forward in the matter.

Heinzeman's drug store. Large bottles, 90c and \$1.

POMONA.

The Fruit Exchange Ships Six Cars of Prunes.

POMONA, Oct. 27.—The first shipment to be made by the fruit exchange from Pomona will be tomorrow, and goes over the Santa Fe route, and will be six carloads—something to feel proud of at least—of dried prunes. They are being loaded today, and will be ready by tomorrow. If there is such a thing as getting better margins in freight by train shipments, our managers of the fruit exchange will no doubt use every exertion to get the advantage of any such concession on the part of public carriers. Another point in favor of this shipment will be the fact that the bulk of prunes dried in this valley is of a good quality, being good green fruit, and the drying season being exceptionally good, at least the greater portion of the time.

The ladies of St. Paul's Episcopal church announce that the management will have everything in readiness to open their annual bazaar on November 16th, and that it is their intention to make it, if possible, more attractive than any heretofore.

The whole of the Times force are head and ears into it today moving their plant to new quarters.

It is a noticeable fact that the trains now passing through our city are using every precaution to avert accident of any kind. Either the ordinance, Col. Muir's orders or the narrow escape on the Main-street crossing a few weeks since, or better perhaps all three combined have worked magic, for the sub-officers and employees are evidently acquitting themselves very creditably in the matter.

The southwest corner of Second and Main streets was pretty well blocked for a time this afternoon by a religious discussion between two parties and their listeners.

REDLANDS.

City Hall Needed—A New Railroad.

Redlands, Oct. 27.—This city is in need of a city hall or some building where all the city offices can be concentrated. A report has been circulated that Mr. Meade is willing to construct a two-story building on his lot on State street, west of A. Ford's store, for the use of the city entirely. The first to be handsomely arranged for the fire department, and the upper floors to be divided for the various city offices, the whole to be lighted with electricity and furnished with all the modern improvements. The combination of all these advantages would certainly be of great convenience and desirable.

NEW RAILROAD.

The Santa Fe will probably extend its line into the Lake View country, the new townsite near Moreno, at an early date, an agreement having been reached between the railroad company and land company. The road will double its extent from Alessandro to San Jacinto via Moreno, and enter into the assessment book the proper sums to be paid as assessments on the property enumerated in said assessment book according to law. It is thought that the 81 cents levy will be resisted in a legal way.

SAN BERNARDINO.

Two Days Racing—An Insane Patient Killed.

SAN BERNARDINO, Oct. 27.—The racing fever has struck this city and will continue to linger until next week, when two days' racing will be held at Cole's track southeast of town. The track is being worked, and competent judges say it will be very fast on the day the races open. The rain has assisted in placing it in condition. A number of horses are quartered at the course, and more will arrive in a few days.

The management is arranging a pacing race between five of the fastest pacers in Southern California, Nutford, 2:15; Nellie L., 2:15; Reta, 2:15; Fred Mason, 2:16 1/2; and Jingle, 2:17. Five 2-year-olds will start in the Fashion stakes, as follows: J. S. Purdy's Star Gird, Richard Gird's Nellie W., Al Condes's G. W., J. H. Kelley's Prince Inca and Ben Davis's 2-year-old filly.

RIVERSIDE.

Suits Against a Bear Valley Magnate.

RIVERSIDE, Oct. 27.—Several suits have been filed of late by the creditors of Charles W. Greene the Bear valley magnate, whose farming ventures in the Alessandro district have not proved very remunerative. Yesterday Mr. Greene filed a suit for damages against G. A. Carter, who had sued him for \$3000 as compensation for threshing Mr. Greene's barley.

Greene alleges in his complaint that Carter had not concluded his contract before he went to law over the matter, thereby causing him (Greene) considerable loss, as other creditors also entered suit.

In his complaint Mr. Greene asks for \$5000 damages as a consequent loss sustained. Crows & Anderson, who appeared for Carter, interposed a demurrer to Mr. Greene's cross-complaint.

On Eminent's Top.

The first party to reach the top of Mount Rainier this year made the trip about five weeks ago. It has been generally thought that it would be impossible to reach the summit this year, because of the immense amount of snow that fell last winter. Dr. Joseph Felix, professor of geology in the university at Leipzig, who climbed Rainier three weeks ago, pronounces it far more interesting than any of the mountains of Europe or of Mexico. Mount Rainier has 17 glaciers, 3 large volcano craters at its summit and several other craters along its sides.

Found a Nugget Worth \$983.50.

One of the handsomest nuggets of gold ever brought into Los Angeles was shown the other day by John S. Reed, a well known California miner, who has lately been prospecting in the gold district 40 miles northeast of Mojave. The nugget weighs exactly 56 1/2 ounces and is worth \$983.50. It is in appearance like a medium sized cobblestone and has evidently been twice as big as it now is, for there is a mark showing where half of it has been broken off. Mr. Reed unfortunately could not find the missing half.—San Francisco Examiner.

To Suppress Peculiar Industries.

The French government has determined to suppress two new and peculiar industries. One is a process for turning old playing cards into new in order to escape the heavy tax. The authorities have seized three such factories. The treasury has already lost \$600,000 through their operations. The other trade is in renovated secondhand grave-diggers' ornaments, which the French use extensively. The object of the latter reform is to stop the wholesale despoiling of the dead.

Decorated by the Sultan.

Mrs. Cookesley, late of San Francisco, has been traveling in the east with her husband, Captain E. A. Cookesley. While visiting Constantinople Mrs. Cookesley received a command from the sultan to paint a portrait of his son, a little fellow of 7 years. The American artist executed the commission so much to the sultan's satisfaction that he conferred the order of Chekikat upon her and presented her with the appropriate emblem, a large star studded with diamonds. Mrs. Cookesley had to decline an order to paint the portraits of several of the sultan's wives and daughters.—Constantinople Letter.
