

THE CAUSE OF SILVER. An Appeal to the People to Take It Up.

Populist Congressmen Issue an Address. Senators Jones and Stewart Among the Signers.

It Appears That Both Have Gone Into the Populist Camp—Coinage and Currency Matters—Washington Gossip.

By the Associated Press. WASHINGTON, Nov. 4.—The Populist members of congress today issued an address appealing to the people to take up the silver cause. It is significant that the name of Senator Jones of Nevada appears among the signers of the document. The address calls attention to the fact that the arts require almost the total gold production, and says the decrease in the volume of this metal, caused by hoarding, has caused it to appreciate 40 to 50 per cent. The address continues:

"The repeal of the purchasing clause of the Sherman act destroys silver as money of ultimate redemption, and has reduced the metal to credit money for sale only by redemption in gold. The \$1,100,000,000 of paper and silver now in circulation is based upon less than \$100,000,000 of gold in the treasury as available for redemption. The only reason for demonetizing silver was to enhance the value of gold and obligations payable in money. It is further proposed to sell bonds of the United States and buy gold to strengthen the reserve in the treasury. The national banks will use the bonds for banking, and increase their notes, upon which the people must pay interest, as well as on the bonds."

It is asserted that the secretary of the treasury surrendered the option to pay silver to exporters, without consideration, and then proclaimed that the Sherman act was driving gold out of the country. The address asserts that the Sherman act interfered with the establishment of a gold standard, and the New York and London bankers and the present administration in the United States and in the Gladstone government in England, conspired to force its repeal. Referring to the content of the repeal bill in the senate the address says: "It continued until the gold power and federal patronage could induce a majority of that body to submit to executive dictation. The gold press in every commercial center teamed with misrepresentation, insinuation and abuse of the purchasable defenders of the people. Banks, boards of trade and the commercial press demanded a vote without debate. The power of money was felt on every hand. Intimidation and threats of personal violence loaded the mails of senators. Unusual and cruel hours were resorted to exhaust the advocates of silver and deprive them of opportunities of spreading upon the records their reasons why the people should not be robbed for the benefit of the money-changers."

The document ends with an appeal to the people to study the question and with this: "Trust no man who once betrayed you, put no faith in any president who assumed dictatorial power. Do not be overawed or intimidated by Wall street and the power of the national banks. When the people rise in their might, intrigue, cunning, usurpation, bribery and corruption will vanish before them." The paper is signed by Senators Puffer, Jones of Nevada, Stewart, Kyle and Allen, and Representatives Davis, Baker, Bonn, Bell, Harris, Hudson, Simpson, Pence, Kern and McKeighan.

DOLLARS OF THE DADDIES.

The Actual Resumption of Silver Coinage Not Yet Ordered. WASHINGTON, Nov. 4.—In reply to inquiries it is stated at the treasury department that the actual resumption of the coinage of silver dollars has not as yet been ordered, but the mints have been directed to manufacture ingots and blanks so as to be prepared to resume coinage at short notice in case it should be decided to do so. The mints at New Orleans and San Francisco can, if worked to the full capacity of the forces now at those places, coin about two million silver dollars a month, said an official of the treasury department today. There will not be any coinage of silver dollars at the Philadelphia mint for some time to come, he continued, as all the efforts of the force now there are concentrated in turning out gold coin. The seigniorage on silver will approximate \$750,000 per month, the department having paid for the silver purchased under the Sherman act at the average rate of 92 1/2 cents per ounce.

In view of the expected coinage of silver dollars, the question is already asked whether the treasury department can issue treasury notes against the seigniorage, which, if the whole amount of the bullion were coined, would amount to about \$50,000,000. An official of the department to whom the question was put, replied that such notes could not be issued against the seigniorage, and in support of this assertion he quoted the following clause from the Sherman law: "But no greater or lesser amount of such (treasury) notes shall be outstanding at any time than the cost of the silver bullion and standard silver dollars coined therefrom then held in the treasury, purchased by such notes."

He said, however, that seigniorage could be deposited in the treasury and silver certificates issued against it, which would bring about the same result as the issuance of treasury notes would do, so far as increasing the circulating medium is concerned, but they would be redeemable only in silver, and not in gold and silver as treasury notes are. It is said the treasury notes issued under the Sherman act which were redeemed in gold from time to time amounted to \$52,000,000.

Some question has also arisen as to whether any bullion might be coined into subsidiary silver, but the law on this subject is also explicit, as it requires that the secretary should coin month coin two million ounces of silver bullion, purchased under the provisions of the act, into standard silver dollars.

SAM'L OF POSEN'S FLIGHT.

Curtis Escaped from California Disguised as a Tramp. CHICAGO, Nov. 4.—A report was received this morning that M. B. Curtis, the actor, who disappeared from his ranch in California, is flying toward New York as fast as steam can carry him. The report says he left San Francisco Wednesday afternoon in disguise until he should cross the California state line. It is further reported that he passed through Colorado Springs yesterday afternoon, and should have reached the Missouri river this morning, over the Rock Island road. He appears to be avoiding the large cities. The agents of the Associated Press at the points likely to be touched by him have been instructed to look out for him, but thus far have been unable to locate him. A local paper has a special from Colorado Springs giving the following purported interview with him: "I am on my way east," was all he would say. "I did not skip from California, but left there to go to New York to make arrangements about my new play. If you want to talk about that, all right." "It is said, Mr. Curtis, you fled from California in the disguise of a tramp?" "I did nothing of the kind. My lawyers said I could come away if I wanted to, and I guess they know what they are talking about."

THE NEW CHINESE LAW.

LATEST INSTRUCTIONS OF THE ATTORNEY-GENERAL.

Only Chinese Heretofore Convicted of Felony Shall Be Deported—All the Heathen Expected to Register.

WASHINGTON, Nov. 4.—Attorney-General Olney today sent the following order to United States Attorney Denis at Los Angeles, Cal., regarding the deportation of Chinese: "Excepting Chinese felons heretofore convicted, the act just passed by congress discontinues all pending proceedings taken under the sixth section of the Geary act as originally enacted. Chinese felons heretofore convicted and not subjected to deportation for non-compliance with the sixth section of the Geary act, as originally enacted, by the act just passed, upon any appropriate proceedings now pending or to be hereafter instituted. Yourself and marshal should immediately act under the law in both classes of cases there-by covered."

A similar order was also sent to the district attorney for the northern district of California. The state department has, it is said, received assurance from the Chinese minister that he will induce his countrymen now in the United States to comply with the Geary act, as amended, and it is believed the law will receive the moral support of the Six companies.

SAN FRANCISCO, Nov. 4.—The Chinese who are confined in jail pending deportation for failing to comply with the Geary registration law are to be released, and will enjoy the same privilege to register under the McCrea bill as their countrymen who are still at liberty. In compliance with a dispatch received today by District Attorney Garter from Attorney General Olney, Chinese convicted of felony will be deported; the others released.

THE STRIKE WILL GO ON.

British Mine Owners and Strikers Unable to Compromise.

LONDON, Nov. 4.—The conference between the mine owners and striking miners' representatives here failed to reach an agreement, and the great strike will be continued. The result will be great suffering, not only among the miners' families but the poor of the large cities on account of the very high price of coal. The mine owners, after the conference had ended, passed a resolution to the effect that they are willing to submit to arbitration, and would open the pits on Monday on a 15-per cent reduction, such 15-per cent reduction to be placed in bank until a final settlement of the troubles, when the money would be handed to the mine owners or to the employees as decided by the arbitrators. The miners decided to submit the new proposal to a vote.

By the Associated Press. SAN FRANCISCO, Nov. 4.—The Stanford university football team played its first game of the season today, against the Olympic athletic club. Stanford won by a score of 46 to 0. The Olympics put up a good game, but could do nothing with the college boys, who were their superiors at every point. While playing a quick, snappy game, similar to last year's style, the Stanford men are having this year and will be able to play more of a rushing game. Intense interest is already manifested in the big game between Stanford and the university of California, which occurs Thanksgiving day. Last year the team played a tie game, and the question of superiority is yet to be settled.

THE TIGERS REVENGED.

PHILADELPHIA, Nov. 4.—On Manheim field, in the presence of 20,000 people, Princeton this afternoon secured revenge on Pennsylvania for the latter's victory at football a year ago. It was unquestionably the hardest fought battle ever witnessed in this city, and while the tigers prevented Pennsylvania from scoring, they were only able to secure a single touchdown. A heavy rain in the early morning made the field wet and slippery. Princeton opened with a flying wedge and gained 20 yards. A few moments later the ball was secured by Pennsylvania, and the red and blue carried it 15 yards into the Princeton territory. Princeton secured it. The score at the end of the first half hour was 4 to 0 in favor of Princeton.

At the end of the first half Harvard had 28, Cornell nothing. After the intermission there were several lively scrimmages and the ball was carried back and forth. Harvard finally kicked a goal and time was called with the score 34 to 0, in favor of the Cambridge men.

A Pleasant Serenade.

On the evening of November 1st Judge Seaman was serenaded at his residence by his many warm friends, the same being the event of his return from the Chicago world's fair. The famous Museo orchestra rendered the music of the evening, which was very select. The Misses Lewis and other ladies entertained the judge's many friends with songs, recitations, etc. The ever genial Ralph Dominguez sang some very beautiful Spanish songs. The entire party were then escorted to the lovely dining room, where a most bountiful spread awaited them. Many fine speeches and toasts were tendered to Judge Seaman, and many grand responses were made by the genial judge. Hobbs, Judge H. P. Krumminge, Judge Robert Lewis, R. J. Dominguez, Deputy District Attorney Rash, F. R. Cummings, N. M. Quirab, Cal. Fay and A. Bamish. Miss Lida Armstrong's Ambitions.

Pittsburg has a woman coal dealer in the person of Miss Lida Armstrong, who has made a fortune in the business. She has not allowed the hard and dry nature of her employment, however, to overcome the philanthropic feelings popularly supposed to reside in the feminine heart. Ever since a visit to the World's fair she has been revolving in her mind plans by which the model "working-man's home" shown there may become a Pittsburg reality. And when she has started as many workmen as possible on the road to ownership of those cozy little \$1,000 cottages she wants to devise some way by which the housekeepers may learn to provide three meals a day for families of five on 55 cents, as it was demonstrated at the fair might be done. —Pittsburg Letter.
