

the queen without a thorough understanding with all the foreign powers, and it is said the government received assurances that no objection would be raised to its plan. Great Britain will unquestionably welcome the restoration of Queen Liliuokalani and the prospect of the early accession of Princess Kaiulani is the best hope of a government distinctively in line with British interests.

The restoration of the queen affects the United States' interests in the Pearl River harbor. The exclusive right of the United States to use this harbor was a reciprocal consideration granted for free entry of sugar under the McKinley law worked an abrogation of the advantages enjoyed by the Hawaiians, and they hold that the right of the United States in Pearl River was terminated by it.

BLOUNT'S REPORT.

It is said to make some sensational disclosures. CHICAGO, Nov. 14.—A special to a local paper from Washington says the cabinet is considering the advisability of giving Commissioner Blount's report to the press. Yesterday it was thought best to say nothing more officially about the Hawaiian sensation till the next steamer arrived from Honolulu.

Blount's evidence covers about 5000 pages of typewritten matter. The testimony was taken in shorthand and verified. A very large number of people were examined. They comprised nearly every prominent name connected with the Hawaiian case, including royalists and annexationists. The trend of the testimony is all one way, to-wit: The queen would not have been overthrown but for the intervention of the American minister.

The evidence contains the original letters of Stevens and Dole. Dole's letter is particularly interesting. It shows by its date and text that it was written and sent to Stevens before the provisional government had read his proclamation. In it Dole says he has received several important buildings, and asks that American naval officers, with marines, be placed in charge of the provisional troops.

There is also Stevens' original letter, asking for the use of a hall in which to house the troops, and there is also Stevens' letter recognizing the provisional government before there was a government de facto. Stevens claims the troops were landed to protect American interests. If so, one might suppose he would have stationed troops near American interests.

A CAUSE CELEBRE.

The Hawaiian Incident Attracting Much Attention. WASHINGTON, Nov. 14.—The Hawaiian incident is attracting much attention in commercial circles, and the congressmen still in the city enjoy a lively interest in it. It is already accepted as inevitable that the matter will come up in congress as soon as the session opens.

The Republicans take Cleveland's position to be a reflection on Harrison's action in the premises, and will doubtless attack him therefor; the Democrats expect this and are preparing to be put on the defensive. CHICAGO, Nov. 14.—A special from Washington declares Cleveland never goes out without a body guard. The name of the man is said to be Samuel Brick, a man of powerful physique and determined mind.

Removed from Office. WASHINGTON, Nov. 14.—The president has removed from office Thomas V. Cooper, collector of customs for the port of Philadelphia.

KNIGHTS OF LABOR IN SESSION.

The General Assembly Meets at Philadelphia. Master Workman Powderly's Annual Address.

He Denounces the National Guard and Advocates Silver Coinage at the Established Ratio of 16 to 1.

By the Associated Press. PHILADELPHIA, Nov. 14.—Prior to the opening of the general assembly of the Knights of Labor this morning General Master Workman Powderly emphatically denied the published story that this would be the last convention of the order, and that he and some other members of the executive committee were in a conspiracy to disrupt it in order to get possession of its property, valued at \$400,000.

After the meeting between Gresham and Minister Thurston on the Hawaiian government this afternoon, both gentlemen declined to state the result, but it is learned from Mr. Thurston that the meeting was a friendly one.

ACTIVITY AT MARE ISLAND.

The Ranger and Marines Getting Ready to Go to Honolulu. VALLEJO, Cal., Nov. 14.—It is said on good naval authority that the United States ships Ranger and Mohican, now at Mare island, are being made ready for sea and will be ordered by the secretary of the navy to proceed direct to Honolulu, report to Admiral Irwin and relieve the Philadelphia, which will return to Mare island.

A rumor is current here tonight that Minister Willis, in going to Honolulu, is directing that in the event of the rejection of President Cleveland's ultimatum to the provisional government, or any uprising, Admiral Irwin was to dispatch the United States ship Adams to the United States with any special communication Minister Willis might require to send for the information of the Washington authorities.

Admiral Skerritt, who was seen on the matter, smiled and said while such a course was probable he had no knowledge of it. NO FREIGHT FOR HONOLULU. San Francisco Merchants Afraid to Make Commitments.

SAN FRANCISCO, Nov. 14.—There will be little or no freight shipped for Hawaii by the Monowai. The steamer sails next Thursday. Consul Wilder was seen regarding this. He said that so far no bills of lading had been presented to him for his office. As no freight can be shipped to Honolulu without this formality, it is apparent that there will practically be no shipments made to Hawaii by this steamer.

"It may be," said Mr. Wilder, "that the merchants do not care to risk their goods by sending them to a country where there is a chance for a revolution." President Winston, of the Southern Banking company, with which the provisional government has connections, said that no drafts on the Hawaiian provisional government had been presented to him. If such were presented he would have cashed them.

MERELY SPECTATORS.

American Marines Did Not Depose the Hawaiian Queen. ANN ARBOR, Mich., Nov. 14.—H. U. Castle, formerly editor of the Advertiser of Honolulu, Hawaii, who is visiting relatives here, says it is not true that the queen was deposed by the American minister or American forces. The American forces were passive spectators of the conflict from the beginning to the end. Speaking of the proposal to reinstate the queen by this government, Castle says it can not be done without the grossest injustice to hundreds of persons who have relied upon the good faith of the United States. The queen's government at best would be simply a paper government, unless supported by American bayonets. Putting it back means simply using the full force of the United States government to destroy the party of progress and ability in Hawaii.

The committee on platform presented a long series of resolutions embodying the principles of the national reform movement. The report was adopted and the convention adjourned until tomorrow.

UNION PACIFIC DEBT.

Some Talk About the Government Foreclosing its Mortgage. OMAHA, Neb., Nov. 14.—Judge Kelly of the Union Pacific speaking of the rumors from Washington that the government intended to commence foreclosure proceedings against the Union Pacific, said: "It will require many conditions before a plan of reorganization is agreed upon. Whether that plan contemplates foreclosure or some other scheme is pretty hard to fathom.

Whether the receivers will hold 30 days, six months or 20 years are problems that no man can tell. Undoubtedly the government can foreclose without a bill in congress to that effect, should the road default on interest to the government, but whether this is the best course wise heads must decide."

Gen. C. Cowin, counsel for the government in the receivership, said: "On my own volition Monday I presented what we lawyers call January rules to the court, which gives the right to file a cross bill to amend the pleadings or bring suit in foreclosure, as may be decided upon. Undoubtedly, if the Union Pacific defaults in interest, suit in foreclosure may be brought without a bill being introduced in congress. I cannot speak as to the action of the committee nor the attorney-general, for I am not informed as to that."

WASHINGTON, Nov. 14.—One of the most important topics which it is believed will be touched upon by the attorney-general in his forthcoming annual report is that relating to the protection of the interest of the government in the Pacific railroads, particularly the Union Pacific. The attorney-general has had frequent conferences on the subject with the Pacific railroads committee of the senate, but so far it is believed no definite action on the matter have been reached. One report has it that Chairman Morgan of the committee has prepared a bill for foreclosure against the Union Pacific.

Faulkner, the only member of the committee in the city, says, however, that he has not yet prepared the bill. It is said the bonds issued by the road are a first lien on its property, and the government, except by special legislation, could not foreclose, unless it first took up and paid the bonds.

IN THE WRONG ROOM.

REDDY SAYS HE WAS DRUNK AND MEANT NO HARM. He Entered the Room of Two Young Ladies on South Olive Street Early Yesterday Morning and is Arrested.

John Reddy had a large detective force on his trail yesterday for having entered the room of two young girls at 715 South Olive street early yesterday morning. The residence occupied by Mrs. Ella Berry and family. In the southeast end of the house Misses Ada and Jennie, aged 12 and 14 years respectively, occupy a ground floor apartment.

About 2 o'clock yesterday morning one of the girls was awakened by some person near the door, whose warm breath was felt on her cheek. Suddenly finding that the intruder was a man instead of her mother, the girls screamed aloud, arousing the household.

The man at once took to his heels, leaving his coat and shoes in this room. Mrs. Berry removed the garments to the hall, and an effort was made to quiet the stir caused by the nocturnal intruder. Mrs. Martin, who resides next door, was so badly disturbed that she could not sleep.

Slightly before 5 o'clock Mrs. Martin, who had caught a glimpse of the man as he fled, was started to see him return. He probably came back to get his coat and shoes. She positively identified the fellow as John Reddy.

Mr. Berry called on the district attorney and swore to a complaint charging Reddy with having entered the room with the intent to commit an assault.

John Reddy, however, went to the police station at 11 o'clock last night and gave himself up. He tells a very straight story of his visit to the room of the young girls, claiming that he was drunk. In his attempt to reach his home near 4th he accidentally went into the wrong room.

Finding that such was the case, and that his mistake had arisen from carelessness in the place, he fled, going back later to get his coat and shoes. It is claimed that the hard name given for the Chinese trade and placing Chinese agencies in all the large cities, Mark Ten Sine says the company will start a line of steamers between Hong Kong and Seattle on January 1st.

The Sutter Street Fight.

SAN FRANCISCO, Nov. 14.—A complaint was filed this afternoon on behalf of the Sutter-street Railroad company against Manager Ellert and Superintendent of Streets Ackerson in both their official and individual capacities, asking for \$25,000 damages for injuries done the company's railroad on Bush street the 11th inst. when disused tracks were torn up at the mayor's order.

The Canadian Pacific's Cheap Rates.

CHICAGO, Nov. 14.—The rates put on the east-bound California traffic by the Canadian Pacific are not proving a source of much revenue to that line. MITCHELL REFUSES TO SIGN.

The British Pugilist at His Old Tricks. He Tries to Evade His Engagement With Corbett.

All Attempts to Induce Him to Enter into Definite Arrangements for the Fight Fall—Brady Loses His Temper.

By the Associated Press. NEW YORK, Nov. 14.—It was thought matters would be settled for the Corbett-Mitchell fight at the Gedy house to-night, where Col. Bill Harding, Charley Mitchell, Bill Thompson, Bill Brady and Manager Edwards of Romney Rye were guests. Harry Mason of Florida was at the dinner. It is denied by Mitchell and Brady that articles have been signed, saying if signed in New York, Mitchell would be arrested. It was significant that Mitchell said: "I won't leave New York to sign them either." Mitchell insisted on the fight taking place January 25th instead of January 4th, during an argument with Brady later at the Hoffman, and Brady assented. There seems to be an impression that Mitchell is throwing obstacles in the way of the fight.

Being urged to sign articles at once, Mitchell said: "I'm willing to fight. I'm only going into the theatrical business to get some money, as I've spent all I had. I'll bet you \$1000 you'll never appear in the ring," said Brady. Mitchell made a sneering remark with reference to Brady, which made the latter very angry. It looked as if some person was going to get hurt, but no blows were struck. The friends of both parties tried to have the match settled on the spot. Brady was willing, but Mitchell doggedly refused to sign.
