FLORA REIGNED SUPREME

Santa Barbara's Grand Fete Reproduced.

The Sunset City a Mass of Fragrant Blossoms.

A Scene of Bewildering Beauty and Enchantment.

The Greatest Day of the Midwinter Fair. Elaborate Decorations on Every Hand—The Air Redolent of Perfume.

By the Associated Press. SAN FRANCISCO, May 19.—The goddess Flora reigned supreme at Sunset City today. She came with her train, gorgeously arrayed and garlanded with a wealth of fragrant blossoms, to preside over the floral festival given by the management of the exposition, and as a result of her brief reign thousands of San Franciscans can be hereafter numbered among her most willing subjects. The name of Santa Barbara is almost synonymous with floral festivals, and when the suggestion was made to have a floral carnival Santa Barbara was called upon to reproduce at Sunset City the pageant which has made her world-famous.

Generously preferring to rest on her laurels, Santa Barbara offered to assist San Francisco in giving the festival which took place today, and she did her part well. The festival surpasses in beauty even the highest expectations, and considering that it was the first attempt made by San Francisco to give a carnival of this nature, nothing but a favorable comparison can be made between it and similar events which are yearly held in communities more familiar with such celebrations.

Although there was but a week in which to prepare, there was not a single hitch in the entire programme. It was a SCENE OF BEWILDERING BEAUTY that greeted even the earliest of today's visitors. The decorations of the grand court were carried out on a most elaborate scale. From the tall and graceful electric tower depended long streamers of flowers, which were festooned to opposite sides of the court.

Four large arches covered with flowers, cypress and bamboo plants marked each corner of the court, and between two lofty poles in front of the administration building were strung garlands of flowers. The crowd began to arrive early in the day and by noon the department of admissions announced that 30,000 people had passed through the turnstiles, and the route over which the procession was announced to pass was literally jammed with sightseers. Everything else was neglected to secure a place to watch the procession. At 1 o'clock the Knights of Pythia arrived in a body and paraded around the court prior to holding their exercises in festival hall.

The Santa Barbara building was the main attraction on the grounds except during the procession. It was Santa Barbara day, and in honor of the occasion the quaint pyramidal structure which houses the Santa Barbara exhibit was elaborately decorated. The perfume of the roses was the only guide necessary to bring visitors to the building. The gardens of Santa Barbara gave up their choicest blossoms for use in decorating the buildings and the carriages for the procession and their sweet perfume pervaded every corner of the exposition grounds. The roadway leading to the entrance of the building was strewn deep with flowers.

A large crowd looked on while box after box of choice blossoms was brought from the building and poured on the avenue, only to be trampled under foot. The Santa Barbara exhibit was a masterpiece of art and to many it seemed almost profane to cross the rose-covered path, even to view the beauty of the building which lay beyond. In the interior of the building the same lavishness had been displayed. Everything was covered with flowers. Visitors entered beneath a canopy of roses and breathed an atmosphere heavy with their perfume.

The County Commissioners' Association visited the building in a body early in the afternoon. Commissioner Curry of San Joaquin county made an address on behalf of the commissioners, complimenting Santa Barbara on the splendid success she has scored by the exhibit, and especially through the floral carnival.

Mr. Lloyd, in a short address, thanked the commissioners for their kind expressions and introduced Mayor Holloway of Santa Barbara, who also tendered the thanks of the people he represents for the demonstration in honor of his city.

THE PROCESSION. The procession, however, was the event of the day. Promptly at the appointed hour the escort of park guards, which headed the pageant, appeared to the view of the waiting thousands about the court. Men and horses were decorated with flowers, and behind them came an array of floats and elaborately decorated carriages, bicycles and jinnickishes. Among the most elaborate of the floats were those of the exposition executive committee, representing a monitor, whose guns bombarded the spectators with flowers; two by the Knights of Pythias and one from Standard Parlor, N. S. G. W. Several courts were represented by floats.

The height of the excitement was reached when a large wagon loaded with bouquets and loose blossoms drove round the court and a number of Santa Barbara people, who accompanied it, threw flowers high in the air so they could settle on the ground.

Santa Barbara graciously declined to enter in the procession, and contented herself with furnishing the bulk of the

THE MARCHING 'WEALERS

Several Trains Have Been Captured.

More Federal Troops Called to Protect Property.

Large Meeting of the Unemployed at Minneapolis.

An Industrial Shot by a Deputy Marshal—Actions of Detachments of the Army in Various Parts of the Country.

By the Associated Press. BOISE, Idaho, May 19.—Sixty Coxyites boarded a train at Nampa this afternoon. The train is held. Marshal Pinkham has been advised by Governor Otis that troops have been ordered from Walla Walla to Nampa and are now on the road. He is also advised that troops have been started to Wallace in the Coeur d'Alene. A dispatch from Deputy Charles Sweeney says 275 Coxyites captured a train near the Idaho line and are speeding east through Montana. One hundred and fifty-two Coxyites arrived here today from Green River on a special, guarded by Company F, Twenty-seventh United States infantry, and Company C, Fourth infantry; also four citizens of Montpelier, charged with inciting 'Wealers to violate the injunction of the court. These and General Schellor were placed in the county jail, while the others are guarded in the roundhouse and in cars. Judge Beattie was in Moscow and may not get back until the 28th. The men cannot have a hearing until he comes.

FRATERNAL GREETINGS. AN EFFORT TO UNITE THE PRESBYTERIAN CHURCHES.

The Southern Presbyterians Do Not Favor the Plan of Tarring Over the Evangelization of Negroes to Freedmen's Bureau.

SACRAMENTO, May 19.—In the Presbyterian general assembly today a resolution was adopted by a rising vote with applause, providing for the appointment of a committee to consider the question of organization with the southern church on a basis of common standards of doctrine and discipline. The committee was authorized to send fraternal greetings to the Southern Presbyterian church at Nashville; Cumberland church, Eugene, Or., and United Presbyterian church, Albany, Or. Elder John J. McGook of New York was appointed vice moderator.

The subject of the Theological Seminary at Nashville was also discussed by the chairman of the committee, explaining the provision of the majority report, which, he claimed, gave the widest liberty to seminaries and still secured the right of the assembly to direct and control them.

Further questions involved were discussed by Thomas McDougal of Cincinnati. He said there is no reason why the church may not prescribe the terms upon which seminaries may be received.

Dr. William E. Moore explained the report of the minority. The previous decision of the assembly, he said, had been quite opposite that now proposed. The minority did not wish to bring in the civil power when their own power was sufficient to meet the requirements. Further consideration of the subject was postponed until Monday.

SOUTHERN PRESBYTERIANS. NASHVILLE, Tenn., May 19.—The general assembly of the Southern Presbyterian church today received the report of the committee on the Birmingham conference, which recently reached an agreement to practically turn over the work of negro evangelists to the Freedmen's board. The committee stated that it had considered so much of the report of the executive committee of colored evangelization as relates to co-operation of the Presbyterian church in the United States of America with the Presbyterian church in the south, and also overtures from the Presbyterians of Louisiana, Georgia, the Eastern Texas conference on the matter and was persuaded that the church does favor the plan but that it meets with large and influential opposition and cannot be put into effective operation. They therefore recommend that the assembly decline to adopt it but that the diligence of the committee and its desire to acquiesce in the will of the church be commended. After some discussion the report was adopted and the agreement reached by the joint committee at Birmingham was rejected. The general assembly is now in session from the presbytery of North Alabama, one asking the appointment of a committee on Presbyterian unity and the other requesting that a standing committee be appointed on co-operation in home mission work to confer with a like committee of the Northern Presbyterian church at Saratoga. The powers of the committee to be simply advisory.

MYSTERY SHOOTING. SALT LAKE, May 19.—A special from Great Falls, Mont., to the Tribune says: Cashier D. L. Tracey of the Great Falls national bank was at the bank earlier than usual today. A few minutes before 8 a. m., people on the street heard a shot within the bank. The cashier was summoned and, opening the street door, Tracey was found near the teller's window, insensible. A bullet had passed below his heart, straight through his body. He has been unconscious, but the doctor thinks he may survive. The prevailing opinion is it was an accident. If not, the cause is unknown, as the bank examiner, Wilson, went over the books of the bank today and found everything all right.

INDUSTRY RHEUMATISM, sciatica, swollen or enlarged, hardened or stiffened joints, chronic or acute rheumatism or neuralgia. Dr. St. John's Ole-Line, 50c a bottle. O'F & Vaughn, Fourth and Spring.

TOOTH BRUSHES. A complete line, and we sell them at 10, 15, 20, 25, 35, 40 and 50 cts., and guarantee every brush. Little's tooth brush, 311 S. Spring st.

INDUSTRIAL MELANGE. MOSCOW, Idaho, May 19.—Judge Beatty of the United States court today sentenced three of four Commonwealers to 60 days in the county jail, and the fourth to 30 days. In passing sentence the judge expressed his condemnation of the Coxy movement. FORT WAYNE, Ind., May 19.—Randall and his followers encountered winter today. Snow fell and the thermometer registered between 40 and 50 degrees above zero. DENVER, May 19.—Judge Knowles today dismissed all the remaining captives of Hogan's army. WASHINGTON, May 19.—The war department has received information from Coeur d'Alene, Idaho, the rendezvous of industrialists, that there threatens trouble. The seizure of a train is imminent, and General Scofield had ordered the troops stationed at the post near Coeur d'Alene to assist the United States marshal in protecting railroad property in the hands of the receiver. DENVER, May 10.—General Hewger of the Coxy Home Reserve has addressed a letter to Cleveland beseeching him in the name of common humanity and good government to ask congress for legislation to secure work to the unemployed. PHILADELPHIA, May 19.—Michael Fitzgerald, leader of the New England industrial army, has secured bail and will meet his followers at Baltimore today. MINNEAPOLIS, May 19.—A special from Spokane to the Journal says: "Lumbo" Castella, commander of the Tacoma Coxyites, ordered his contingent to rendezvous at Great Falls, Mont. The men are stealing rides in small squads. KROOK, Ia., May 19.—Kelly's army landed three miles below the city on the Missouri shore today, where provisions were delivered. The next objective point is Quincy. The boats will be rafted there and towed.

FROM THE FATHERLAND.

Defense of the Trotting Horse Owner.

Indication That Kneebles Will Be Released.

The Internment of Consul-General Wm. H. Edwards.

The King of Wurttemberg Opposed to the Return of the Jesuits—A Sensational Article in the Paris Figaro.

By the Associated Press. BRILLIN, May 19.—[Copyright, 1894, by the Associated Press.]—The affair of Robert F. Kneebles, the American trotting horse owner, who is accused of fraud, has assumed a new phase. His friends are fetching from Scotland a man named Dawson, an old trainer who, in a great number of American races, ran against Kneebles' horses. Dawson, it is said, will testify that Nellie Kneebles is indeed the name of the mare, and not the mare Bethel, as claimed by the opponents of Kneebles. Should this turn out to be the case, Kneebles may be released from jail.

Another point in favor of Kneebles is the fact that the chief witness against him, an American named Heffner, who is well known in the western part of the United States and who accompanied the prisoner here as his partner in the trotting business, has suddenly disappeared from this city without leaving any trace of his whereabouts.

Finally Dr. Hall of Wakefield, who, in answer to a cable message sent to the United States, replied that Bethel is now on a farm in Minnesota, came here from America to swear out a warrant for Heffner's arrest on the charge of embezzling the proceeds of the sale of one of Dr. Hall's horses.

CYLONE AFTERMATH.

LAKE MICHIGAN IS STREWN WITH WRECKAGE.

Lives Lost in Attempting to Rescue the Crew of a Stranded Steamer.

Notes of the Storm Elsewhere.

CHICAGO, May 19.—Thousands of spectators watched from the lake shore today the destruction of craft beached during the storm. At Twenty-seventh street the McLaren is being pounded to pieces 50 yards from shore. Three wrecks are rolling in the breakers at Sixty-fifth street. Half a mile from shore, off Twenty-second street, two vessels were in the sea. On one, thought to be the D. S. Austin, four men were seen in the rigging. Twenty-seven men on the north crib and the men at the other crib are all safe.

A three-masted lumber schooner went ashore at Thirteenth street and began breaking up. She is supposed to be the Goodman. The life saving crew at daylight began efforts to rescue the crew of several boats.

TWO BODIES FOUND. Two bodies of sailors were recovered from the lake this afternoon, near Fifty-fifth street. One was identified as E. Thompson.

A WRECKED SCHOONER. PORT HURON, Mich., May 19.—The schooner William Shupe drifted helplessly all night and grounded eight miles north of the city. The tug C. D. Thompson, with a rescue party, attempted to reach the schooner Shupe on Sand reef. A painter from the yawl was taken by the crew aboard the Shupe. The yawl capsized. William Lewis, Captain Henry Little, Captain Baoney Mills and Angus King were drowned. The Thompson left here at 2 p. m. with the Sand Beach life saving crew in tow. The dropped the boat about two miles above the Shupe. The life savers finally reached the wrecked schooner and took off the crew and landed them on shore at about 5 o'clock. They were all alive, but in a greatly exhausted condition, having been drifted at the mercy of the waves for 48 hours. The bodies of the brave men who attempted the rescue this morning have not yet been found. Great praise is due to Captain Coxy of the life saving crew. The Thompson had made four trips out into the lake in the attempt to rescue the crew of the Shupe. The waves were running mountain high, driven by a gale. The Thompson, which is a powerful tug, could only make five miles an hour in the gale.

THE STORM ELSEWHERE. MILWAUKEE, May 19.—The wind is still blowing strongly from the north, but no new disasters are reported. The life saving crew was condemned on all sides for inefficiency yesterday. The belief is universal that every one of the Cummings' crew could have been saved. MINNEAPOLIS, May 19.—A special to the Journal from Northern Iowa, Northern and Central Minnesota and Western Wisconsin says heavy frosts last night cut corn and garden truck to the ground. DETROIT, May 19.—The schooner Warrington is aground at St. Clair flats. The tug Saginaw was sent to her aid. BAY CITY, Mich., May 19.—The schooner Monticello, due from Suezboy yesterday, has not been heard from. It is feared she has gone ashore. DENISON, Tex., May 19.—Nothing like the weather of the past 24 hours has been experienced here for 20 years. The thermometer ranged below 50 and there was a heavy frost. Crops are badly damaged.

Think They Have Afloat. REDWOOD CITY, Cal., May 19.—A man answering the description of Asaf, the Russian robber who shot Detective Harris at Boulder Creek, was arrested on the road between Mayfield and Palo Alto tonight by Under Sheriff Mansfield. Three lumbermen of Boulder Creek have identified the prisoner as Asaf and the man admits knowing one of them. He denies that his name is Asaf, however, and has given his name at different times as Peterson and Jones. When captured he was armed with a 44 calibre revolver, the same size weapon as the one with which Harris was shot.

INTERMENT OF GENERAL EDWARDS. The remains of the late United States consul general, William Hayden Edwards, were buried this afternoon in the old cemetery at Potomac in the presence of a number of friends and relatives. Among those present were: Dr. Rising, former German consul at New York, who represented the German government; also present at the funeral were the secretary of the United States embassy, Mr. Chapman Coleman, the entire staff of the embassy and many of the United States consuls from North German districts. The mourners included the widow and the relatives of the deceased. The Rev. Dr. Ranke, son of the renowned historian, performed the funeral rites.

AGAINST THE JESUITS. The king of Wurttemberg, William II, has caused a sensation in many circles by coming out with a declaration against the policy of re-accepting the members of the society of Jesus into Germany. In receiving deputations from various synods, the king expressed the opinion that the banded shirt could not confirm the repeal of the anti-Jesuit law. "This," he said, "is not only my personal attitude, but it is that of my government toward the question." A SENSATIONAL ARTICLE published by the Paris Figaro is attracting much attention here. The article stated that Emperor William and his chief officers had agreed on the selection of the officers to be sent to France as spies. This statement is much commented upon in the newspapers here and elsewhere, not as to the allegation against the emperor, which is treated as beneath contempt, but as a warning to German travelers visiting or intending to visit France, and as indicating what might be expected from the alleged "spy cadetery" of Frenchmen on the "spy question," to use a phrase adopted of a certain paper in discussing the matter.

BULLET PROOF. An expert here professes to have discovered the secret of the manufacture of Herr Dowe's bullet-proof coat. He declares it consists of a Krupp's steel plate, probably two centimeters in thickness, protected by an oakum stuffing to deaden the impact of the bullet. Such a plate, it is said, would resist the most improved of the latest style of rifles. Herr Dowe was taxed with this alleged discovery of his secret, and in reply he gave an evasive answer. The distinguished Mannheim tailor has just gone to London in order to exhibit his invention in a music hall. On the other hand, dispatches received here from London say a young lady, who is an expert in the use of rifles, has accidentally discovered the secret of Herr Dowe. In any case she is being tried at night at a music hall, while clothed in a so-called bullet-proof coat.

LATIN AMERICA. Affairs in the Republics Near the Equator. NEW YORK, May 19.—A Herald dispatch from Buenos Ayres says advice received from Rio Grande do Sul state that the various divisions of Zarsivas' rebel army have effected a union at Guimaraes. The united forces number 6000, and they have two Krupp guns and six Gatling guns.

The Herald says: The following official dispatch has been received by the Salvadorian consul-general, who is in the city, denying the reports that Gen. Antonio Estela died from wounds received in a recent battle:

"SAN SALVADOR, May 18. "Consul General, Salvador, New York. It is false that General Estela is dead. He is at Coatepeque, directing plans of war."

Secretary H. Abbott. PORTLAND, May 19.—Secretary of the Navy H. Abbott arrived here this morning in a special car. The secretary immediately left for Puget sound over the Northern Pacific.
