INTERNATIONAL COMPLICATIONS

It is by no means certain that the treaty made between China and Japan will be permitted to stand without modifications enforced by European powers. It is probable that the demands of Japan were abated from fear of Russian intervention.

Great Britain, France and Germany are all covetous of Asiatic trade, and hence they are all watching the course of events over there and stand ready to do what they may deem necessary to protect and promote their interests.

The tendency of the great nations of Europe to combine to control so much of the world may be regarded with some apprehension. If not checked in their supervisory practices there is danger that they will assume the right to regulate the affairs of the whole world.

Washington strongly advised against entangling alliances. It is best that we should avoid complications. Yet we are as much interested in commerce with China and Japan as any other nation.

be out of joint with modern tendencies, which are towards combination in all things.

For nearly four centuries Europe has been drawing wealth from the Americas, firstly through governmental domination, and lastly through commercial agencies. European wealth has not been produced wholly or to the larger extent in Europe.

It would seem, as the London Chronicle intimates, that Nicaragua in tendering Corn Island instead of the \$75,000 cash indemnity demanded by England, is playing a game of bluff.

The fact that Nicaragua is willing to consent to any form of indemnity instead of first insisting upon the arbitration of the dispute, is an admission of the substantial justice of England's demands.

and wealth in the last five years. With the fine situation and unusually fertile soil of the Redlands district it is bound to become a populous center, and both the hotel and electric railway should soon be classed with the most profitable enterprises of that promising section.

"NOT FOR BILL" The Evening Express is a trifle too sanguine in expecting the Chicago Times-Herald under the Kohlsaat regime to be a McKinley organ.

The marriage of Miss Leiter of Washington and Mr. Curzon of Lancashire, England, is a notable exception to the usual run of international matches, in which American heiresses and prominent foreigners have been the contracting persons.

The price at which Los Angeles city bonds have been recently sold, and the eagerness of the multitude of buyers, would indicate that there is no lack of money in the country for those who have the collateral.

LANDING OF THE MARINES

New Phase in the Little Affair at Nicaragua

IS IT AN ARISH BLUFF? The Red Shirted Boys Landed Under Cover of Guns

The American War Vessel Is Nearly a Thousand Miles Away, but Foreign Interests Will Be Looked After

WASHINGTON, April 24.—Exact official information has been received as to Great Britain's belligerent steps in Nicaragua. British troops are to be landed at Corinto. The custom houses are to be occupied and British officers are to exercise the function of collectors of customs.

As to the landing of British marines at Corinto, it is stated by officials that this will not menace or endanger the interests of the United States or other foreign powers. The case of the British bombardment of Corinto and landing of British troops is a policy toward foreigners at a threatened point.

Corinto is the best port of the Central American states on the Pacific coast. It is important to Nicaragua as it is the terminus of the line of the Central railroad, the port of San Juan del Sur has a harbor of average size and is in communication with Lake Nicaragua by a macadam road built by the New York and California Transit company.

As the Corinto imports average about \$500,000 monthly, it would not take long for Great Britain to appropriate the \$75,000 demanded. The tariff rates of Nicaragua are such that the \$6,000,000 of imports in 1891 yielded \$1,658,413 in customs duties.

We have had a constant struggle for our independence. An unholy alliance was formed to crush out our institutions. The gates have been closed. Men have destroyed Poland, but her women have stood guard at the gates of their country.

La Fiesta headquarters were deserted yesterday, except for stacks of bills that were being rapidly and silently filed in their proper order by the faithful secretary. The Merchants' association which met on Tuesday, audited such bills as had been sent in, but all the committees have not yet been heard from.

to elapse in order that Nicaragua may emerge from the controversy without prejudice to the national dignity. It is understood Secretary Gresham communicates with Sir Julian on this subject tonight.

WASHINGTON, April 24.—Sir Julian Pauncefote, the British ambassador, was at the state department this morning and had an interview with Secretary Gresham presumably on the subject of the British programme to be pursued at Corinto, Nicaragua.

GARLANDED WITH FLOWERS

Queen Victoria's Portrait Given a Place of Honor in New York

NEW YORK, April 24.—The placid features of Queen Victoria, framed and garlanded with flowers, the Union Jack and Stars and Stripes looked down from the wall of the blue room last night upon a merry scene. It was the occasion of the 100th anniversary of the St. George society of New York.

EXPULSION FROM WARSAW

Revenge Taken Upon Mme. Modjeska by the Russians

A Speech the Actress Made in Chicago Cause of All the Trouble—What the Lady Said

LONDON, April 24.—A dispatch to the Chronicle from Vienna says the Russian government has expelled Mme. Modjeska, the well known actress, from Warsaw owing to a violent speech she made against Russia in Chicago.

On February 27 an order issued by the Russian government forbade Mme. Modjeska to fulfill an engagement at the Warsaw theater in consequence of a speech she had delivered before the Chicago Art Institute on the subject of Polish women.

THE OUTLOOK FOR 1896

Hon. C. L. Weller of San Francisco Gives His Views

Remonetization of Silver the Only Issue, Adlai E. Stevenson the Man—No New Yorker Need Apply

Hon. C. L. Weller of San Francisco, son of Governor John B. Weller, who was twice governor of California and minister to Mexico, is visiting in the city. Mr. Weller is one of the best informed and most favorably known Democratic politicians of the state.

"The nominee of the next national Democratic convention, to have any hope of success, must not only be a man in whom the masses trust as an exponent of the bimetallic standard, but he must also be one who has by his political career shown that he is in favor of the silver dollar as an equivalent of the gold dollar as a medium of exchange all over the United States."

"In these times of financial depression and commercial vicissitudes it is absolutely necessary for the people of this country to have a fair and free standard of exchange that is recognized by all as a standard of currency."

"The Democratic party, by its platform adopted in 1892 at the Chicago convention, promised and pledged itself that it would secure to the people of this country an interchangeable dollar that would be worth its face value wherever it might be presented. By various subterfuges, unnecessary at this time to detail, these promises have not been carried out."
