PASADENA NEWS BUDGET

Entertainment of a Stanford University Professor

NO COVERED RESERVOIRS

The W. C. T. U. and Flower Mission Work

Loyal Temperance Legion Work—Symphony Club Party—Wilson School Entertainment—News Items

PASADENA, June 21.—One of the directors of the Lake Vineyard Water company, which supplies the major portion of the water used in Pasadena, said this morning, in speaking of the agitation in favor of having the reservoirs covered, that the directors did not feel justified in going to such an expense, even if the work could be done at this season, when the demand for water is so great that the reservoirs could not be emptied for the purpose of doing the work. He says that out of fifty-three water companies in various cities of the state, the reports of which are in the office of the company here, very few of them have covered reservoirs, and that the water furnished to Pasadena citizens is far better than the average.

However that may be, if the water would be improved by covering the reservoirs—and this all will admit—it would be the part of wisdom to roof them over and use every precaution to maintain the water as nearly in its original purity as possible. There is not a better or purer water supply in the state than that which comes to Pasadena from the pure, sparkling springs of the Sierra Madre range, and as it never sees the light of day until it reaches the large reservoir which supplies the city, if this were properly covered to keep it from the direct rays of the sun, no city could boast of purer water than that served to Pasadena citizens. One of the directors of the company says if the stockholders (who are the water consumers) want the reservoir covered, let them call a meeting and assess over the stock, and thus raise the money to cover them; for the directors have no money with which to do the work.

Flower Mission Work PASADENA, June 21.—At yesterday's meeting of the W. C. T. U., the subject for the day was Flower Mission Work. A programme had been prepared for the occasion, and besides the musical numbers, Mrs. Newton and Miss Longfellow water papers relating to the lower mission work and concerning Miss Jennie Cassaday's life and work in this line of missionary effort. These were followed by a discussion of the work of the W. C. T. U.

Party in Honor of the Symphony Club PASADENA, June 21.—A very pleasant luncheon party was given yesterday afternoon by Miss Green to the Pasadena Symphony club in honor of Miss Coleman, which brought about a dozen young lady guests to Miss Green's home on Lumbia street, where they enjoyed a delightful reunion. The rooms were beautifully decorated with flowers, and at the table each plate bore a pretty little souvenir in the shape of a card containing a bar from Beethoven's Fifth Sym-

phony and an appropriate selection from the writings of some great composer. Misses Foy and Ferris favored the young ladies with a dinner on the veranda, accompanied by Miss Lillie Dodworth, and Miss Foy also played a violin solo, while piano numbers were given by Miss Hall, Mrs. Hall and Miss Coleman. Miss Green's All-wool Cheviot, come in brown only; very stylish suit; sizes 12 to 19; regular price \$8; go today at \$3.55. Look for this one, blue mixed cassimere, all-wool; sizes 12 to 19; regular price \$8.50; go today at \$4.85. All-wool, plain gray or brown Cheviot; nobby suit; sizes 12 to 19; regular price \$7.50; go today at \$5.85.

Loyal Temperance Legion Entertainment PASADENA, June 21.—Last evening at the M. E. church the Loyal Temperance Legion gave an entertainment that was listened to by an appreciative audience, most of the performers being children. Mrs. Lucy S. Blanchard superintended the programme. Master Nelson Story, the little violinist, captured the audience completely in his violin solos. He is a bright little fellow, and though only 8 years old, handles his violin with quite a professional air. His little sister, Jessie Ray Story, very credibly, in a very manner, indeed, for one so young. The recitation entitled Daisy's Faith was especially well received. Two dialogues were given by a number of little ones in the course of the evening, and recitations by Ella May White and Bonnie Lynn.

Brevities PASADENA, June 21.—The pupils of the ninth year of the Wilson school very pleasantly entertained their teachers last evening at the Carlton. This class is one of the largest that has ever been in the school, numbering nearly eighty boys and girls, and they seemed to be all present last evening. Principal Graham, Mrs. Coleman, vice-principal, Mr. Evans, Misses Brundage, White and Tinkham of the high school, were the guests of the class. In addition to social conversation, music and games, the pupils were entertained by astronomical observations from the roof of the Carlton. Dr. Edward Swift of the Echo mountain observatory kindly coming down from the mountain to assist in the instrument and explain the constellations.

Dr. A. G. Warner, professor of applied economics and social science at Stanford university, who, with his estimable wife, has been spending several weeks in Pasadena for the benefit of his health, expects to leave for Denver next Monday. Both Dr. and Mrs. Warner are old college friends of The Herald correspondent. After graduating with high honors from the university of Nebraska Dr. Warner took a post-graduate course at Johns Hopkins university Baltimore, where he distinguished himself greatly, afterwards accepting the chair of political economy at his old alma mater, and from there being called to Leland Stanford university. Dr. Warner has improved considerably in health since coming to Pasadena, and goes to Denver with the expectation of realizing a continuance of the improvement this begun.

Prof. A. J. McClatchie, professor of biology at the University of California, and other graduate of the University of Nebraska who is earning a deserved reputation as a thorough scholar and close student of his adopted work. The degree M. A. has just been conferred upon him by Olivet college, in recognition of his recent work, as well as that performed while at this institution. Last evening Mr. Charles H. Richards and Miss Jessie A. Fisher were united in marriage at the residence of the bride's mother, on South Wilson avenue. The ceremony was performed in the presence of a large company of friends by Rev. A. W. Bunker at 4 p. m. The house was beautifully decorated with flowers and a nice wedding supper was served. A dispatch from Chicago says that Senator George L. Anthony is on his way to Pasadena, where he will be married on June 23 to Miss Emma Niblock. Owing to the call of the extra session of the legislature Senator Anthony will hasten back to Chicago with his bride, and be at home after July 10th, at No. 217 North

State street. Miss Niblock was formerly a resident of Chicago, and conspicuous in social circles on the North side. Her father died here three years ago. Last evening at the special meeting of the parish of the Universalist church, Rev. W. M. Jones was elected pastor of the church for the coming year, beginning September 1st.

Fred Hyde was arraigned before the recorder this morning on the charge of passing a \$10 bill that had been raised from \$2. He was taken down to jail in default of \$2000 bail. The defendant was represented by Hugh Crawford, a lawyer of Los Angeles, and the examination was set for Wednesday next.

The pastor will move his interesting family to Pasadena at once. The baccalaureate address to the graduating class of the high school at the Presbyterian church next Sunday evening. A quartette composed of Misses Peck and Stoutenburgh, Messrs. Smith and Jones will furnish the music for the occasion.

One family on Marengo solved the water question a year ago. They had a large cistern built and furnished with a pump. This they filled with snow water direct from the mountains during the winter. Through the company's pipe and tank they have a summer's supply of pure and cool water always on tap.

Judge Udey will address the Sociological society Saturday evening in G. A. R. hall on Values and the Relations of the Different Metals as Money. The public is invited. Free seats.

Figure No. Death, will be the subject of Dr. Taylor's conversational next Sunday evening in G. A. R. hall. The gas will be scientifically treated by Dr. Gasque of Boston. The public is invited. Seats free.

Welding announcements, engraved or printed, mail orders carefully filled; samples free. H. M. Lee & Bro., 140 N. Spring.

SANTA MONICA Joy Over the Pacific Mail Rumors—Personal Notes

SANTA MONICA, June 21.—The Associated Press news of the fact that the Pacific Mail oriental steamers will make their future landing at Port Los Angeles is welcome news to many, while a number of others have understood for some time that such would be the case ultimately. It means far more than many suppose at first glance. It means such a business in the vast tea and other trade of the orient for the seaport here, and of course for the benefit of Los Angeles, Southern California's metropolis. The wharf is exceedingly busy these days with vessels coming and going. The Peter Jensen cleared today, the stevedores having worked hard all night to empty her hold of the black diamond cargo. The Eliza Miller also sailed today for the north, having got rid of her cargo. The Santa Cruz is due tonight with considerable freight. The Santa Rosa is due tomorrow morning with 200 tons of freight and a great-sized passenger list. The Minnesota is due on the 23rd inst. and the Santa Mateo on the 30th. The Alcazar arrived last night with a cargo of tea. The ladies of Santa Monica expect to appear en masse tomorrow at the reception to be tendered to Susan B. Anthony and Rev. Anna Shaw at Hotel Arcadia between the hours of 1 and 4 o'clock. The gentlemen of the town are also not only invited but expected to pay their respects, and if they wish to keep peace in the family they will obey their better halves in this respect. Sunday evening at the Congregational church, Rev. George H. De Kay will speak on The Duty of the Church in the Present Political Crisis. Those who know the speaker will expect a good address. The story of Ben Hur at the Congregational church Saturday evening bids fair to be very interesting, the views promised being large and fine. H. Roland Lee has accepted the position of assistant teacher at the Arcadia

Mrs. J. T. Stevman of Chicago, sister of Mrs. C. S. Dale, arrived today, accompanied by two of Mrs. G. W. Felt's little nieces, Mrs. Felt and Miss Kittie Shoup will follow them later, it being the intention of all to winter here.

Work will commence at once on the raising of the Catholic church about two and a half feet, and building under the house of worship a brick foundation, which will make an improvement to the structure very much needed. The work will be done by H. X. Goetz, our popular contractor.

Mr. and Mrs. Williams have made extensive improvements in the Jackson House tonorial parlors which are exceedingly artistic and in good taste. S. Heinsman of Tehachapi spent the day enjoying the fine view from the Santa Monica Amateur Dramatic company has become so proficient in his rehearsals of The Idiot that it will shortly give it for the benefit of St. Augustine by the Sea parish.

Mr. and Mrs. William S. Tavis and family of the City of the Golden Gate have their summer rooms at the Arcadia for the season. Captain Thom has taken possession of his south side residence.

Mr. and Mrs. Richard, formerly Pacific coast manager of the Associated Press, spent the day here.

LONG BEACH Fresh Arrivals—Fishing, Bathing and Other Matters

LONG BEACH, June 21.—Terminal trains today brought down scores of visitors to this popular resort, many coming to remain some time. As usual there was a good deal of fishing from the wharf, with results that amply compensated the people who indulged in that pastime. The bath house also came in for a good share of patronage, as the condition of the atmosphere and the surf was all that bathers could desire.

Manager Aikman expects to have his life line and buoys placed in position by Sunday morning. Shell gathering on the beach is now very popular here, as the tides are daily bringing in thousands of beautiful shells which are eagerly picked up by delighted visitors.

Rev. Mr. Ashman and family of New Mexico have rented a cottage here for the season. Mrs. Dr. Sanborn of Los Angeles and Mrs. Dr. Newkirk as her guest are occupying the former lady's house here.

Samuel Evans of Los Angeles has bought several lots in this place and will build on them and become a resident of Long Beach.

RIVERSIDE Killed While Asteep on the Railroad Track

RIVERSIDE, June 21.—D. A. Andrews of this city received a dispatch from the Needles today conveying the intelligence that his son, Frank Andrews, had been killed by being run over by a freight train at that place. Frank Andrews, who was 17 years old, left this city to go to South Dakota. The report is that Andrews was asleep on the track and did not hear the approaching train.

NEWS FROM SANTA ANA

An Eloping Couple in a Very Bad Situation

Commercial Bank Loses Its Cashier—Fruit Packing Live—Militia Inspection. Well Attended Tea—Other Notes

SANTA ANA, June 21.—B. G. Balcorn has resigned his position as cashier of the Commercial bank to take charge of a newly organized bank in the prosperous town of Fullerton, in this county. Mr. Balcorn's resignation will take effect, it is said, the 1st of July. The Commercial bank has enjoyed a fine trade under Cashier Balcorn's administration and his position will be hard to fill. The bank has just declared its usual semi-annual dividend of 5 per cent to its stockholders, which shows the bank in a No. 1 condition and enjoying a prosperous trade.

A runaway couple from Chicago came to grief in this city when their money gave out. They were too proud at first to ask for help from home, but after a week or so for both of them and no comfort of life save their own company the young man concluded to telegraph for help which came in the shape of just enough money for a second-class fare for one person. The young husband took the trip home alone, leaving his young 17-year-old wife alone in this city. Shortly after the money came for another fare and she too is with her parents and hubby. They are a much wiser couple than when they eloped to get married.

John Beaty has gone to Marysville for a week or so with his family, who are visiting there.

Mr. Baker of the Standard will start tomorrow for the hot springs where he will sojourn for a week or so.

Charles Rowan and Bill Fine went to Riverside today to take charge of a job office.

The big grain warehouse just about completed on the San Joaquin ranch requires 4000 feet of 15-inch galvanized iron gutter.

An ex-Catholic will speak in the Y. M. C. A. meeting next Sunday, June 23d, at 3 p. m.

Major C. S. McKelvey is in San Diego inspecting company A and company B, N. G. C.

West, Prude & Co. have put in a corn drier in their mill, which will facilitate the unloading of corn quite materially and save the farmer a great deal of shoveling.

The German packing house is a lively place just now. Fruit packing is being pushed to the extent of their ability. A few cars of oranges have been shipped and more are to follow at once.

Harry Richter has almost completed his cigar factory, and will commence operations in about a week. He has a fine stock of material on hand and expects to put out first-class goods.

CHINO

The Beet Sugar Company Ready for Business

CHINO, June 21.—The Chino Valley Beet Sugar company has steam up preparatory to beginning operations on the 8th of July next. The chemist is kept busy with samples of beets from various districts. Yesterday samples from Merced Co. were analyzed, showing 8.0 per cent sugar, with 66 purity. There were also analyzed beets from some new land on the Chino ranch, in beets for the first time this year, which show 16 and 17 per cent sugar with 92 purity. The contrast is too great to require comment.

The outlook for farmers is the most flattering of any season since the factory began operations. It is believed, according to the United States, has stated that it would be necessary for them to either add to their present gigantic plant at Chino or to construct a new factory near the east end of the Chino ranch. Buildings are at a premium in the town of Chino; no vacant places can be had for love or money.

REDLANDS

A Shooting Range Objectionable—The Apricot Crop

REDLANDS, June 21.—The people residing on Redlands Heights are making a fight against company G, N. G. C., being allowed permission to establish a shooting range on their territory. The company has asked for a permit of the trustees to locate the range on the shophouse leading to Yucalpa valley, south of Redlands reservoir. It is expected the matter will be decided at the meeting of the city board Wednesday evening, June 26th.

The apricot crop in Redlands is reported not to be as large as last year, but the quality is said to be superior. Cutting and drying has already commenced in earnest.

George B. Ellis is absent from the city on a San Francisco trip.

Redlands has decided not to celebrate on the Fourth of July, but will rest content to join in the celebrations of neighboring cities.

W. W. Williams returned to Columbus, Ohio.

F. E. Estes and family have removed to Long Beach for the summer.

There is talk that the stage line between Redlands and Moreno may be discontinued.

Killed by Lightning

A PAUPER IS MADE RICH

Mr. Sykes of Pomona Falls Heir to Plenty of Money

Six Weeks Ago He Was an Inmate of the County Poor Farm—Cannon Read or Write

POMONA, June 21.—The age of 73 finds "Jimmie" E. Sykes, a Pomonan, a rich man. Six weeks ago he was an inmate of the county poor farm and previously had worked for his board at the Goodrich lodging house in this city for more than a year, and had "bummed" his way east and back again. Micaewber like, Sykes has been waiting all these years "for something to turn up," and now that he has fallen heir to \$50,000, left him by an uncle who recently died in England, he has good reason to believe that a good deal of truth is contained in the maxim that all things come to him who waits.

He arrived in this place about two weeks ago and said that he didn't own anything to his name, as he had been robbed of all his possessions a few evenings before. He found employment for a time on the Chino ranch and went by the name of Johnson. He was seemingly content with the name of Johnson given him by his fellow workers, for he has stated to friends in this place that "that was all right," as he expected one of these days to be rich, and would surprise them all.

It is said that he can neither read nor write, more's the pity, as the parties he was apprenticed to in his early days never allowed him the advantages of an education. Attorney Knapp of Illinois, who has known Sykes from his boyhood, ascertained the latter's whereabouts and came out to California to identify him with his great fortune, arriving in Pomona a day or two ago in his quest of the man.

FREIGHT RATES ON ROCK

Important Question Discussed by the Highway Commission

SAN FRANCISCO, June 21.—The state commission on public highways held a conference today with Southern Pacific railway officials regarding freight on broken rock to all parts of California. It is the intention of the commission to erect at Folsom a huge rock-crushing plant to be operated by water power, and if satisfactory arrangement with regard to freight charges can be made crushed rock will be shipped to all parts of the state at a nominal cost, to be used in making good roads. The railroad company presented a long schedule of rates which appeared to be satisfactory to the commissioners. The commissioners hope to secure orders from the various counties for 500,000 cubic yards of crushed rock and if these orders are received the plant at Folsom will be erected as soon as possible. The rates quoted by the railroad will not be made public until Governor Budd has passed upon them.

Kregelo & Bresse, funeral directors, Broadway and Sixth street. Tel. 243.

The wall paper dealer of the city is Eckstrom 324 S. Spring st.

People in Los Angeles

The unequalled demand for Faine's Celery compound among the people of this city is, but one index of the great good it is doing. There are many in Los Angeles whom it has cured of serious illness. Faine's Celery compound makes people well who suffer from weak nerves or impure blood.
