

HE IS WELCOMED BY COUNTLESS THOUSANDS

He is welcomed by countless thousands...

IDOL OF THE PEOPLE OF CALIFORNIA

Shares Honors With United States Senator White

HE MAKES SEVEN SPEECHES

A Plea for Government Independent of Corporation Dictation

Ten-Thousand Enthusiastic People at the Wigwam

Reception Given by the Union Veteran Bryan Club to the Chief Executive of the State—The Wigwam Speech.

The popular idol of the people of California is James H. Budd.

He is one of the great champions of Democracy, of the rights of the people, and of William J. Bryan.

The governor arrived in the city yesterday afternoon at 2:10, and his first stay in the metropolis was one continuous ovation...

The journey was made, the message delivered, and today the advice will be followed by more than 20,000 voters in this county.

The meeting Gov. Budd addressed at the wigwam last evening was simply a wonderful feature of a wonderful campaign.

It was beyond all bounds. Everything was Bryan! Bryan! Bryan! This is all that can be said.

Overflow meetings were held back on Hill street, where local speakers entertained a number of people until the governor came back and talked to them briefly.

He made his principal address in the wigwam. It was a characteristic Jim Budd talk—plain, forceful, honest, convincing, eloquent, and a vote-making speech all the way through.

After the meetings were over Gov. Budd had a complete victory in the electoral vote of California to William J. Bryan.

THE GOVERNOR'S ARRIVAL. When the governor arrived at 2:10 p. m., accompanied by Hon. John W. Mitchell of this city, Gen. W. Barrett and others, he was greeted at the depot by a reception committee...

THE GOVERNOR APPEARS. Then Governor Budd came upon the scene, wending with difficulty his way through the crowd on the platform.

THE GOVERNOR'S SPEECH. "My friends," he began, "I have already been compelled to make three more speeches today and have two more yet to make outside, and I must be brief."

GOV. JAMES H. BUDD

Democratic party committee. They were the members of the Ladies' Bryan club with their president, Mrs. Annie B. Andrews.

At the reception the governor proceeded to the headquarters of the Silver Republican club where he made an address to 500 enthusiastic Bryan advocates who had formerly been Republicans.

The governor's remarks here created a wild wave of enthusiasm and the distinguished guest was given another ovation.

Then he was driven to the residence of John W. Mitchell, where Mr. and Mrs. Mitchell entertained the governor and Mrs. Budd and a party of friends at dinner.

THE EVENING RECEPTION. At 6 o'clock a vast crowd commenced to congregate in front of the Hollenbeck hotel.

At 8:30 the Union Veteran Bryan club marched to the hotel 142 strong to pay their compliments to the chief executive.

Governor Budd appeared on the portico and made a brief speech, advising all veterans to vote for Bryan and a free government independent of corporation dictation.

Then came the Wigwam meeting and the two overflow meetings.

When Governor Budd took his carriage to catch the night train, which was held an hour for him, so he could get back to Stockton in time to vote today, he was followed in the depot by a crowd of more than a thousand cheering, cheering men and women.

Then it was with difficulty that he made his way to the car, and there he found another great crowd that demanded another speech, which was his seventh and then he made one of the most impressive speeches of the night, short, sharp and pithy, and lasting until the train pulled out.

ropolis, but I did not know it contained as many people as I see here before me.

"We're all for Bryan," called a voice in the crowd.

"If you are," said the governor, "the state is sold enough for Bryan."

The governor then alluded to his having kept his promise given before his election to the governor that if elected he would give the state an economical government, and he has done it. Then he said:

"California seemed at one time to so strongly favor silver that I never thought it would be necessary for me to go on the stump to champion it. The Republican and Democratic conventions at Sacramento both passed resolutions favoring free coinage at the ratio of 16 to 1. The last legislature of this state passed resolutions favoring the demonetization of silver, and instructed representatives in congress to favor the demonetization of silver at a ratio of 16 to 1. There were only three dissenting votes to that resolution. These legislators represented all portions of the state, and they pledged California as a state and people to favor silver, and now here they are. California has pledged itself to the world that silver would be demonetized, and that demonetization was a crime, and in view of that fact, both the Republican and Democratic parties have taken a similar stand. If California does not give Bryan a big majority it will be a disgrace. The state favors the free coinage of silver at the ratio of 16 to 1, and there is only one way for us to redeem ourselves, and that is to go to the polls and vote for William J. Bryan of Nebraska."

The cheering that followed this was something indescribable, but the tumult was timely, for as soon as he could get a chance to speak he did so. He gave all other race horses on a mighty course, he was compelled to speak in heats and take a rest between.

"Look at this Republican national platform, and considering the duty I owe to my state for its honor, I am, and behold, I find because of it I am an anarchist. I am an anarchist because every man, woman and child in California was an anarchist six months ago."

The speaker then read from the Republican platform that section reading:

"All our silver and paper currency must be maintained at parity with gold, and we favor all measures designed to maintain inviolably the obligations of the United States, and all our money, whether in gold or silver, shall be of equal value, the standard of the most enlightened nations of the earth."

"That plank," said the governor, "is a plank that will take out of 400,000,000 Tom Reed."

At the mention of this name the audience howled and hissed.

"Let Tom alone, he's all right," said the speaker, "but some one cried out 'Nip,' 'Well, anyway,' the governor continued, 'he was the greatest man in mind and body they could get, and the Republican party is sorry he came. He said out here that the word 'coin' in the United States bonds meant gold. Reed knew that these bonds were not payable in gold, because in 1878 he was a member of congress and at that time the question came before that body to determine whether the bonds really were payable in gold or silver, and a resolution was passed that the principal and interest, at the option of the government, are payable in silver dollars of the standard weight, 42 1/2 grains."

"That resolution passed the United States senate January 25, 1878, by a vote of 42 to 20, and passed in the house by a vote of 185 to 68. Tom Reed, then congressman, knew that the bonds were made payable in silver, for he was one of the eighty-nine goldbugs who voted against it."

"One of the men who voted with the 153 has since fallen down before the golden calf. In 1878 William McKinley, then a congressman, voted in favor of the resolution which provided that the bonds were payable in silver dollars. Now McKinley says the bonds are payable in gold, and John Sherman says so too."

"Why did Reed say the bonds are payable in gold? Because he is helping to fulfill the pledge of his party that the bonds will be so paid if McKinley is elected, and that means profit for the bondholders. In 1878 this government borrowed \$64,000,000 from Rothschilds, Belmont and Morgan. They knew what the bonds are payable in, for the third time. The resolution that the 4 per cent bonds could be at the option of the government, be changed to 3 per cent. The bankers agreed to take a smaller rate of interest if the principal was made payable in gold. Before 7 o'clock in congress to substitute 3 per cent gold bonds for the 4 per cent silver bonds."
