Associated Press Special Wire.

GUTHRIE, O. T., March 30.—A report is received here that twenty lives were lost this evening in a cyclone that swept over Chandler, a town of 1500 inhabitants fifty miles east of here. It is reported that only two buildings were left stand-ing—the Mitchell hotel and the Grand Island grocery store. In addition to the twenty persons reported killed, rumor has it that fully 150 were badly wounded.

The following names are given among the killed: J. W. Woodard and wife, Mrs. Mitchell, Mrs. Thomas Smith and John Dawson, a lawyer.

The following are reported among the injured: John McCarter, brother-in-law of United States Marshal Nagle; F. N. Niblack and father, John Foster, Mrs. Emma Foster, two daughters of County Treasurer Uiam, Samuel Winthrop, George McHenry.

The cyclone struck at 5 o'clock this evening. The courthouse, in which Chief Justice Dale was holding court, was taken off its foundation. All com-munication with Chandler is now cut off. The telephone office was destroyed and the only information received here was from a telephone connection that a mile and a half out of Chandler, and that has since been lost.

At 1 o'clock this morning twenty-one dead bodies have been taken from the ruins at Chandler. Seventy-five to a hundred persons are badly injured and a dozen or more of these are reported dying. In addition to those dead, in-jured at least a score or more of dead buried beneath the wreck and buildings. Several of the wrecked buildings have taken fire and the debris is burning fiercely.

Many of the injured have been buried to death while pinned fast under the debris.

In one building it is reported that five persons were burned to death and at another place the incinerated bodies of three unknown children have been taken out. All the physicians of the town save one have met death in the storm. Nearly all the physicians of Guthrie have gone to the scene of the disaster.

The following is a list of the dead so far as known at 1 o'clock: Mr. and Mrs. Woodman, Mrs. Henry Mitchell, Mrs. Tom Smith, Attorney John Dawson, F. Demoff, Emma Dressinger, D. C. Johnson and wife, Mrs. Philip Johnson and child, Mrs. Dr. Lee, M. W. Keller and wife, unknown woman and baby, five unknown children.

Among the fatally injured are: Arthur Jewett, Peggy Johnson, Mrs. Frank McCall, C. C. Gooding, Maggie Reeves, Andrew Asher and wife, Mrs. Cullum, Jennie Woodworth.

MEMBER DETAILS.

KANSAS CITY, Mo., March 30.—A special to the Journal from Guthrie, O. T., says: At 6 o'clock this evening a terrific tornado, followed by hail and flood, swept through the town of Chan-dler, 40 miles east of here, completely devastating the town. Three-fourths of the residences and business houses of the town were totally wrecked or badly damaged, scores of people injured and many killed.

Darkness at once came on and the work of rescue is carried on under the great-est difficulties.

The telephone office was carried away and at 10 p. m. a telephone was con-nected with the wire two miles this way and a message sent here for assistance. Up to that time Mr. and Mrs. John Woodman, Mrs. Henry Mitchell, Mrs. Tom Smith, Attorney John Dawson and two unknown persons had been found dead, and fully 150 people were known to be badly injured.

Chandler was a town of 1500 people, built on a hill in thick timber, and the mass of torn trees and wrecked houses make it impossible to reach near all of the people in the dark. On every side can be heard groans and cries for help, and the scene is indescribable.

A large number of physicians and other citizens have left here for the scene with surgical instruments, drugs and other supplies.

A later message states that a large number of people known to have been in business buildings are missing and it is feared they are buried under the ruins. The true state of affairs cannot be learned until daylight.

KANSAS STRUCK.

KANSAS CITY, Mo., March 30.—Re-ports received here indicate that the cy-clone which destroyed the town of Chan-dler, O. T., tonight also passed across

the state of Kansas, though with less de-structive force.

Florence, Ark., reports a severe wind-storm between 5 and 6 o'clock, that un-dermined a portion of the Santa Fe round-house, blew down several wooden build-ings and blew cars from the tracks.

Great Bend reports a very heavy wind, accompanied by hail and rain.

Wichita reports the heaviest rain ever experienced there, accompanied by wind and hail.

At Haven boxcars were blown from the railroad tracks.

Barton reports a very heavy wind, which wrecked several small buildings and blew cars from the tracks.

Telegraph service throughout the state is badly crippled.

A WYOMING BILIZARD.

DENVER, Col., March 30.—A special to the News from Cheyenne, Wyo., says: A bilizard has been raging here all day, and tonight there is no abate-ment. Snow on the line of the Union Pacific between Cheyenne and Laramie is between four and five feet deep. All trains have been delayed, though not seriously. The Cheyenne Northern is blocked. The snow is in the worst ex-perience in the vicinity in years, and ranchmen are much alarmed for the safety of their stock on the range.

OVERDUE VESSELS

Probably Lost With All Hands on Board

SAN FRANCISCO, March 30.—Lloyd's agents have received word that the fine four-masted British ship Lord Dufferin and British bark Bankholme are miss-ing. All hope for the Lord Dufferin is abandoned. There is still some hope for the Bankholme, but very little. The combined crews of the ships numbered 67 men, all of whom are supposed to have perished. Both vessels were in the vicinity of Montevideo on the same dates, and one of the theories advanced is that the ships were in collision and went down with all on board before the boats could be lowered.

ALL HANDS LOST.

NEW YORK, March 30.—The schooner Charley Hastings is believed to have foundered in Long Island sound, and her crew, consisting of six men, is thought to have been drowned. She left Newton creek last Wednesday with a cargo of phosphate, and should have arrived at Orient on Friday, but thus far nothing has been heard from her. Terry Brothers, to whom she was consigned, think all hands are lost.

A STEAMER COLLISION.

SAN FRANCISCO, March 30.—The river steamer Mary Garratt and the steamship Coos Bay were in collision to-day. No serious results occurred, though the Coos Bay lost a considerable portion of her rail, while the other craft was damaged about the bows.

The Garratt was at the dock on the sea wall and had just started to back out when the Coos Bay, also leaving the pier, was caught by the tide and crashed into the Garratt. Fortunately neither of the steamers had gained much head-way.

BOLD BURGLARS

Tackle Half a Dozen Illinois Banks

GALESBURG, Ill., March 30.—The Oneda, Ill., State bank was robbed last night. Entrance was made through the front door. The safe was wrecked with nitro-glycerine. The amount taken is between \$3000 and \$5000. The robbers es-caped on a hand car. It was evidently the work of professionals. John Shevlin and George Schoyahan, of Chicago, have been arrested here on suspicion. The bank was insured against loss.

It now develops that a series of bank robberies was attempted in this vicinity last night. Besides the Oneda affair, the bank at Briggsville was robbed of \$400. Banks at Kewanee and Altona were also visited, but no money ob-tained. Galesburg officials have ar-rested four men, presumably from Chi-cago, and have them in jail.

Called It a Draw

NEW YORK, March 30.—After twenty rounds of hard fighting between Jack Everhardt of New Orleans and "Kid" McPartland of this city, at the Broad-way Athletic club tonight, the referee decided the bout a draw. The men weighed 136 pounds and were in fair condition. Each of them had met LaVigne, and it was said that if either won tonight he would be matched with the world's light-weight champion. Everhardt kept up a continuous run of chopping blows on McPartland's neck, but failed to land a great many blows on the head, owing to McPartland's clever ducking. On the other hand, McPartland landed several good lefts on the head, face and stomach and on two occasions Everhardt claimed foul for being hit too low.

Duty on Currants

FRESNO, March 30.—A special to the Republican from Washington tonight regarding the action of the ways and means committee relative to the duty on Zante currants, says at the last mo-ment tonight the committee gave a two-cent duty on Zante currants. This news will be received with great rejoicing in Fresno, especially as telegrams re-ceived earlier in the day indicated that the committee sent from Fresno had been unable to convince the committee that an increased duty was desirable.

A Serious Issue

LIMA, Peru, March 30.—The issue raised between Peru and the United States with regard to the imprisonment of Ramsey, the American sailor, is be-coming a serious matter. The Peruvian government refuses to accede to the demand of United States Minister McKensie to set Ramsey at liberty im-mediately.

Mitchell Combs to Life

LONDON, March 30.—The Olympic club has offered a purse of \$15,000 for a fight between Charley Mitchell and Fitz-simmons, to take place within three months. Mitchell agrees to fight for \$10,000 side bet besides the purse, the winner to take all.

FRONTIER FIGHTING

The Greek Forces Glad to Retire

TURKEY IS WELL PREPARED

TO RESIST INCURSION BY RAW RECRUITS

Warlike Enthusiasm Can Scarcely Preval Against Big Battalions. Cavalry and Heavy Artillery

Associated Press Special Wire.

CONSTANTINOPLE, March 30.—Re-ports from Turkish headquarters at Elassona say the Greek leader, Alexis Tahi, brother of the famous chief, crossed the frontier into Macedonia on Sunday, accompanied by about 2500 fol-lowers, near Grevena.

The Greeks engaged the advanced post of the Turkish troops, commanded by a German officer. The Turks lost twelve men killed and had twenty wounded, in-cluding the German officer. The loss of the insurgents is not known. They sub-sequently returned across the border into Greek territory.

The Greeks, it is believed, greatly un-derestimate the strength of the Turkish forces in Macedonia and Epirus. Edhem Pasha, the Turkish commander-in-chief, now has at his disposal about 150,000 fighting men and 300 Krupp guns. He also has an ample supply of am-munition, a fair commissary, and his medical staff and hospital corps are in a satisfactory condition. All of the strategic points on the frontier are oc-cupied, defended by newly thrown up earthworks and other defenses and are supplied with powerful batteries of ar-tillery. To attack this line of defense, it is understood, the Greeks cannot muster more than 50,000 men, mostly irregu-lar, although some estimates have it here that the Greeks may be able to muster 80,000 men in all, counting the hastily armed peasantry and the raw re-cruits and rough reserves, which they have been pushing forward to the frontier for a month past. This force is known to be weak in cavalry and espe-cially so in artillery, in which arms the Turks are overwhelmingly strong. It is true that the Greeks are animated with a war-like spirit and a degree of enthu-siasm rarely before witnessed, but war-like enthusiasm cannot prevail against big battalions and heavy and numerous batteries of artillery. Thus it is that the Turkish officials are calmly awaiting the outbreak of war, if war is to come, confident that every step possible has been taken to meet the emergency.

As to the Cretan situation proper, it is understood that the admirals in com-mand of the foreign fleets in Cretan waters are of the opinion that, now that Greece has virtually completed her war preparations on the frontier of Thessaly, a blockade of the principal Greek ports would be useless, thus bearing out the forecasts that the refusal of Great Britain to take active part in the blockade of Greece might lead to the collapse of that scheme to prevent an outbreak of hos-tilities. Under these circumstances all the efforts of the ambassadors of the powers here are now being directed toward prevailing upon the Turkish government to advise the sultan to with-draw the Turkish troops from Crete, as another sop to Greece and as another at-tempt to prevent war, and in addition the ambassadors are endeavoring to pre-vail upon Greece and Turkey to agree to the establishment of a neutral zone be-tween the opposing Turks and Greeks on the frontiers. The ambassadors have made strong representations to the porte in favor of permitting the immediate departure of those of the Mussulmans in Crete who have expressed a desire to emigrate, and this will probably be a good time, but as to the withdrawal of Turkish troops, the sultan has not yet shown any disposition to submit to that demand.

The Austrian government, upon the representations of the porte, has pro-hibited the exportation from Trieste of seven millions of cartridges, which were to be shipped to Greece. The representa-tives of Greece have protested against this action upon the part of the Austrian government, claiming it is illegal and arbitrary, as no state of war exists. It is not likely that the protest will have any effect. The work of pre-paring for the defense of Salonika is now said to have been completed and all danger of an attack upon this Turkish base of supplies is believed to have pas-sed.

FORCES FOR CRETE.

LONDON, March 30.—The following semi-official announcement was made this evening: "In consequence of the request of the admirals it has been de-cided that a further battalion of 600 men be forthwith sent to Crete by each pow-er. The Welsh Fusiliers at Malta have been ordered to be ready to sail imme-diate. Otherwise the
