

INDEX TO SOUTHERN CALIFORNIA NEWS

- Even South Pasadena contributes a Klondyker. Ventura county enjoys a boom in prices of beans. Electrical development in the upper Santa Ana canyon. The coal oil stove gets away with a dwelling at Pomona. Santa Ana thinks a real railroad boom has struck the town. Riverside will celebrate the cent a pound citrus rate today. Large attendance at the missionary convention at Santa Monica. Anaheim citizens selling out to raise funds for Alaskan exploration. A Dawson City man writes to friends in Covina telling of his big strike. A Pasadena laundry failure throws thirty people out of employment. A Duarte-Glendon elopement ends in a high-sea marriage of Long Beach. The Chino sugar factory has already sliced up about eight thousand tons of beets. The San Diego Land and Town company organized under promising circumstances.

SUMMER RESORTS

LONG BEACH, Aug. 2.—(Regular Correspondence.) Last evening Mr. Thompson, his family and some of the neighbors sat on the front porch of his ranch home in Duarte chatting pleasantly. About 8:30 Miss Jennie, Mr. Thompson's 17-year-old daughter, rose quietly from her chair, passed through the house out to the rear of the orchard and stepped into a buggy that was standing there waiting for her. Jennie and the lovers had not met for a month. But "love laughs at locksmiths" just as defiantly over the two and a half century as it did several centuries ago when the words were written. Through the offices of the obliging third person the young people had arranged an elopement, and they made a very clever and complete job of it. They drove down to Long Beach as fast as horsefeet could carry them, and arrived here about 3 o'clock this morning. They avoided the police, and the sloop J. Willey and engaged him to take them out beyond the three-mile limit for a deep sea wedding. The tug Hirondele steamed up and towed the party out, and just as the "loves silvered off" and the sun crept up over the eastern hills Capt. Pierson performed the ceremony that made Miss Jennie Thompson and Homer Norman husband and wife. Mr. Pierson, who was captain of the sloop J. Willey, which the groom and his friends had taken the forethought to provide. About 6 o'clock the party reached the Long Beach pier, and the young man was met by his father, who had been waiting for him. The bride and groom will remain for a few days. Mr. Thompson in the meantime had been telephoning around in every direction for his daughter, and finally looked her up. He was the first marriage ceremony Capt. Pierson had ever performed, and when the groom learned that his bride father-in-law had learned of his elopement, he hurried off to the captain to be reassured that the nuptial had been held beyond any possibility of its being disclosed. Mr. Norman is a highly spoken-up and well-to-do man, and has a home of his own to which to take her. The principal objection to the marriage was the youth of the young woman. As "the world loves a lover," the young people have the sympathy of strangers and congratulations of friends.

Journal of Los Angeles, has taken a cottage and will bring his family down this week. Miss Mary Barton of San Bernardino is visiting Miss Bessie Bailey. D. B. Schenck and family of Downey are here for a few days. Mr. Bingham and family of Pomona are occupying rooms at the corner of Second and Locust streets. Mrs. E. M. Scherbo of Los Angeles is here for a few days. B. W. Lee of the firm of Works & Lee of Los Angeles has taken the Hanson cottage on Ocean avenue for a month. The F. Willey family of Los Angeles are chartered to take out parties this evening on a moonlight sail around the bay. The pleasure float anchored here took out 100 passengers from the pier in the last sixteen days of July.

SANTA MONICA

SANTA MONICA, Aug. 2.—(Regular Correspondence.) The monthly report of the book circulation, home issue, to be 2003 volumes for the month of July, as against 1822 for July of last year, a gain of 651. Messrs. Carpenter and Dexter's brick kiln, containing 600,000 brick, was fired on Saturday, with the probabilities of being "out" by Saturday of this week, by which time 100 cords of wood will have been consumed. Herman and Roy Sulliger leave on Wednesday for Berkeley by steamer. The monthly report of the Los Angeles presbytery were represented in an all-day meeting in the Presbyterian church today. Representatives from Santa Monica, Redlands, Azusa, Pasadena, El Monte and other Southern California towns were present, with an attendance of fifty-two in the morning and seventy-five in the afternoon. An enjoyable luncheon was served by the ladies of the local auxiliary. The advance guard of the N. G. C., composed of Mrs. J. W. Wells and family, reported at Camp Santa Monica this morning for duty. Mrs. M. A. Forney of Boyle Heights visited friends here today. Rev. S. H. Cobb and family of Los Angeles have taken the Munroe cottage on Nevada avenue for the rest of the summer. They came down on Saturday. Mrs. S. H. Cobb and family of Los Angeles have taken rooms in the Gray cottage on Sixth street for the month of August. Miss Elsie Holton of Los Angeles is here for a few days. Miss Della Sweetser left today for Altadena. She is the guest for a week of Mrs. H. Livingston. Mrs. J. Cobb and family of Los Angeles have taken the Munroe cottage on Nevada avenue for the rest of the summer. They came down on Saturday. Mrs. S. H. Cobb and family of Los Angeles have taken rooms in the Gray cottage on Sixth street for the month of August. Miss Elsie Holton of Los Angeles is here for a few days. Miss Della Sweetser left today for Altadena. She is the guest for a week of Mrs. H. Livingston.

THE CITY LAUNDRY By the suspension of the Crown steam laundry twenty-eight people were thrown out of employment, their wages aggregated \$75 per week. It is to be hoped that the institution will be resumed business again before long, but it is difficult to tell as to that until a further examination of the accounts is made. The business was turned over to T. H. Elliott of Los Angeles, who is the holder of a mortgage on it for \$1500. Some of the creditors hearing of it levied attachments on Saturday and on Saturday evening the plant was closed by Sheriff D. B. Palmer of Pasadena own the stock of the company. The claims were bulked together under three names, as follows: Berwick, \$25; Carlisle, \$10; and Mrs. Elsie Haynes, \$1.50. There is in addition about \$15 due employees not included in these demands. The attachment was made by Sheriff D. B. Palmer, who served by Deputy Constable Wallis, who secured all the books of the company. Then Constable Yonkin came in with a claim for Los Angeles city water, \$100, and, notwithstanding that the business was now run under the name of Mr. Elliott, he took possession. The liabilities of the company are approximately as follows: Mortgage, \$1500; note due First National bank of Pasadena, \$400; due employees, \$800; outstanding accounts, \$300; total, \$3200. The assets that are given with accuracy, but there are said to be a large number of outstanding accounts, and the plant is said to be worth \$4000, though of course it would not be liquidated. Dr. C. H. Whitman of Los Angeles and Dr. B. Palmer of Pasadena own the stock of the company.

NORWALK

NORWALK, Aug. 2.—(Regular Correspondence.) The monthly report of the Congregational church last night, beginning with a union of the Christian Endeavor and Epworth League societies. Rev. G. A. Oatis, a former pastor of the M. E. church in Norwalk, California, and now in San Bernardino, preached an excellent sermon. A large congregation attended. Mr. and Mrs. Ira Smith of Los Angeles, Mr. and Mrs. Charles DeKay of Los Angeles, and Miss Mary Wood of Whitehall, Ill., were guests on Friday and Saturday of Harvey Smith. Charles Hubbard of Westminster and Miss May Wilbur of Artesia were married last evening at the home of the bride's parents at Artesia. Rev. Claude Thompson performed the ceremony. The young couple will reside in Los Angeles. James M. Brennan and Miss Edith Wicks were united in marriage at high noon yesterday at the residence of the bride's parents near Norwalk. Rev. George H. DeKay performed the ceremony. Miss Wicks is one of Norwalk's best known and liked young ladies. She has been teacher of music in the University of Southern California. Her father, Mr. Wicks, is in charge of the firm of Wilkinson & Co. of Rivera. The young couple took the train to Rivera last evening, where they will at once begin their married life.

A BOLD HOLDUP Sayre Groesbeck had a rather unpleasant experience with a footpad about 10:30 Friday night in the vicinity of the city. He was relieved of about \$3 in money and a ring which he valued as a keepsake. He was walking with a young lady up Raymond avenue, and the footpad, who was an hour mentioned when a man suddenly confronted him and poked a revolver at his breast. Groesbeck submitted gracefully, and the footpad, who was wearing a dark coat and a hat, then Groesbeck showed fight, but the fellow had the best of him and hit him over the head with a brick. Just then a car approached and Groesbeck jumped into it, the young lady having got out of the way early in the performance. Although there were a number of men on the car, they would not get out of the car, and he made good his escape. He looked like a tramp and had the lower part of his face covered with a handkerchief.

BREVITIES

The following order has been issued by C. W. Smith, chief of police: "The road: 'Mr. E. P. Clark having resigned the general management of the Pasadena and Los Angeles Electric railway, I will assume the duties of that office, taking effect this date. The following appointments are hereby made, which also take effect as of this date: Mr. W. H. Smith, assistant general manager and general passenger agent; Mr. W. H. Smith, superintendent of transportation." President Smith says the extensions will be pushed with all possible dispatch. John Puschel, Constable Sam Wallis, but he will not be likely to turn up at once, and the offense is not such as to justify turning things upside down to get him. He secured a horse and buggy to take him to Redlands Saturday morning, and would return in three hours. Failing to show up, he was found later at the San Gabriel saloon with bad whisky. On the way back Puschel asked to get out at a friend's house to get the money to pay for the rig, and to return. Company I will go to camp at Santa Monica next Wednesday. The advance detail went down this morning to get things ready. The detail consisted of Corporal Heath and Private Stone. Captain Lippincott also went down. The company, about forty-five members strong, will leave for camp on Wednesday's night, and will be on duty on the day of instruction and will continue for ten days.

PERSONAL

John Adams and family came over from Catalina Saturday evening, after a month spent there, and are at home again on North Madison avenue. Mr. J. P. Marquardt and wife of Glendon and Mr. J. C. Marquardt of Tiffin, O., made a visit with their old time friend, E. T. Sams, Saturday. Mr. and Mrs. William Stanton and daughter leave Wednesday morning for Squirrel Inn, San Bernardino mountains, where they will spend about six weeks. I. J. Reynolds leaves for Long Beach tomorrow, where he is on the program for Sunday School. The Young People's assembly of the M. E. church will be held at the home of Mrs. E. T. Sams, Monday, the 28th. S. H. Washburn has left for Strawberry mountain to continue assessment work on mining claims he holds there. Miss Edith Lusk returned this morning from Portland, Or., to be in attendance at the wedding Wednesday of her sister, Miss Anna Brush, to R. N. Carter of Los Angeles.

COVINA

COVINA, Aug. 2.—(Regular Correspondence.) G. W. Judge of Azusa has received a letter from his son-in-law in Alaska, A. S. Holloway, dated Dawson City, June 26th. Mr. Holloway left Los Angeles early in April for the Alaskan gold fields with a companion named Maynard. They took the Juneau route and drew their provisions and tools, which weighed 3000 pounds, on a hand sled, and they made the head-

SANTA ANA

SANTA ANA, Aug. 2.—(Regular Correspondence.) The many railroad rumors which have agitated the people of this section, and there are many rumors, have at last been supplanted by facts, and with a week or so a real railroad boom will have struck the town. James McFadden, president of the Santa Ana and Newport, and president of the authority for the announcement that within a time his company will begin the construction of a branch line to tap the rich peak of the Santa Ana mountains. The new road will connect with the Newport railway at the big wharf and from that place will run west five miles almost parallel with the Newport railway, and then north five miles to Westminister. It will be of standard gauge and will be operated in connection with the Newport and Santa Fe railways, thus giving the farmers of that section a continuous transportation line over which they can ship their produce to all the markets of the country. Hereafter all the freight, including the immense output of celery, has been hauled by wagon to this city over heavy roads, and at great expense by reason of the extra handling. The survey for the road has been completed, grade stakes have been driven, and everything is said to be in readiness for the work of construction. Several Los Angeles parties are said to be interested in the new road. In connection with this information from railroad circles comes a well authenticated statement that the Southern Pacific company will also figure in the railroad boom, and that it proposes to show the people that it is in a position to do business in this county. For several weeks past the chamber of commerce has been in correspondence with Vice President Huntington and that gentleman has been driven to the city by the road into the past. The Southern Pacific's scheme, it is understood, contemplates the building of a spur from Benedict station, on the Alamos line, to a point somewhere near Westminister, and possibly into this city from that place.

The funeral of Miss Lulu Emma Padgham took place at 1 o'clock this afternoon Sunday at Newport. The deceased was 25 years of age. She was the daughter of Mrs. B. D. B. Harris and Mrs. Kate Bryer, Ida Allen, Nellie Rose, Ida Dawes and Eva Ploock acted as pall bearers.

REDLANDS

REDLANDS, Aug. 2.—(Regular Correspondence.) The upper Santa Ana canyon promises to be the seat of operations of the greatest electrical enterprises in the United States. The Southern California Power company have already begun on the construction work of their great enterprise, and by January 1st this company will be furnishing power for Los Angeles.

SAN BERNARDINO

SAN BERNARDINO, Aug. 2.—(Regular Correspondence.) An additional force of 100 men will be put to work this week on the works of the Southern California Power company. Although Cobb made the remark that he would never bring his team to this city again, it is quite probable that he will meet Bakerfield on Sunday next. His team is the only one in Southern California that has not lost a game. Walter Atkins, who has been with the team for some time, has resigned his position to accept one with the Los Angeles insurance firm. Major B. E. Harris and J. E. Kiplinger were buried today respectively at 2 and 4 o'clock. In both instances the funerals were well attended. James P. Gordon, who was committed from this city several months ago to the asylum at Highland, died at that institution this morning. Gordon came from St. Paul, where he leaves a wife and ten children. The new addition to J. V. Seaman's mill is rapidly nearing completion, and adds much to the appearance of the main building. While the new company will be almost directly in competition with the Southern California Power company, they propose to open a new field to the north and east, it being their intention to transmit electricity to Holcomb town in Southern California. An electric road to Bluff lake and Bear Valley is also talked of, as operated by their power would make a saving in the transfer of their own supplies that would nearly compensate them for the cost of the line. Besides the large amount of travel to these resorts in the summer, the men at the head of the new company are men of experience in electrical schemes, they having put in the plant at Folsom, and been in charge of the plant at Folsom, but that the plant will be put in. A large sum of money has already been expended making the canyon, above the head works of the Southern California Power company's plant, has been considered almost impenetrable. In a few years the Southern California will be traversed by electricity in the summer. The men at the head of the new company are men of experience in electrical schemes, they having put in the plant at Folsom, and been in charge of the plant at Folsom, but that the plant will be put in. In a few years the Southern California will be traversed by electricity in the summer. The men at the head of the new company are men of experience in electrical schemes, they having put in the plant at Folsom, and been in charge of the plant at Folsom, but that the plant will be put in. A large sum of money has already been expended making the canyon, above the head works of the Southern California Power company's plant, has been considered almost impenetrable. In a few years the Southern California will be traversed by electricity in the summer. The men at the head of the new company are men of experience in electrical schemes, they having put in the plant at Folsom, and been in charge of the plant at Folsom, but that the plant will be put in.
