LOS ANGELES COUNTY

PASADENA

PASADENA, Feb. 4.—(Regular Correspondence.) The city Republican central committee met this evening in the city council chamber, that is, as many of the members as could be got together, for their ranks were somewhat depleted by resignation. Benjamin Hahn was elected to fill the place of L. P. Crawford was the choice of the committee to fill the other vacancy. The members of the committee present were Charles A. Gardner, J. S. Mills, G. A. Gibbs, G. C. Horton, John McDonald, Ed Lockett, James Clark. The report of Attorney W. B. Wright on the primary law was received and discussed, and after appointing James Clark and G. C. Horton as a committee to see about securing G. A. R. hall, if possible, for the convention of the party, it was decided that there should be ninety-six delegates, sixteen from each of the six precincts, and as divided at the last city election. The notices giving the list of officers of the primaries to be voted for must be published not later than Monday, February 7th, and the primaries are to be held March 1st. This is specified in the law, so was considered that it would be advisable to hold the caucus of the party a few days before the latter date. The committee of the non-partisan citizens' movement also held a meeting, but it was in the nature of a consultation, nothing being given out for publication. The non-partisan movement is very much alive, however, and it will be in running order in a few days, when something may be expected to happen. Public meetings will be held and the whole question discussed in all its bearings. The movement for a good, businesslike city government, and the non-partisan movement in Pasadena, and a clean, businesslike administration of city affairs without regard to anybody's "politics," maintaining that national affairs have nothing more to do with the government of the city than has the president of the United States.

RIVERSIDE COUNTY

RIVERSIDE, Feb. 4.—(Regular Correspondence.) There seems to be a lull in orders for oranges, and as a consequence some of the packers have been laying off extra hands. Just what the reason for this state of affairs is cannot be positively said, but it is probable that the cold snap which the far east is experiencing at the present time may have much to do with it. The new packing house which Frank Kincaid will use for the season has been completed, and he will occupy it the first week in March. Mr. Kincaid will be largely, but will aim to put up nothing but gilt-edged goods. Supervisor Thompson of the Fourth district, against whom the district attorney has begun suit to collect mileage, is in the city today on business connected with the suit.

SAN DIEGO'S NORMAL SCHOOL AS IT WILL LOOK WHEN IT IS COMPLETED

This drawing shows the front design of the proposed state normal school to be erected on the university grounds at San Diego. The plans are being prepared by Hebard & Gill, the architects. As soon as Governor Budd, Secretary of State Brown and State Treasurer Hackliffe approve these plans work will be commenced on the building. It will cost \$150,000, but as there is only a fund of \$35,000 available, only one wing will be erected until an additional appropriation is made by the next legislature. Sandstone and bricks will be the principal materials used in the construction. Of the appropriation of \$50,000 made by the last legislature, \$15,000 will be used for interior furnishings and the employment of teachers.
