**THE INCIDENT CLOSED**

WASHINGTON, Feb. 11.—The personal incident growing out of the publication of Senor De Lome's letter to Senor Canalejas may be regarded as settled. This has been brought about by the short cablegram sent by Minister Woodford from Madrid, in which he states that the minister had resigned and his resignation had been accepted before he (Mr. Woodford) presented the request of the United States that he be recalled. The officials here feel an interest in learning the details of happenings in Madrid yesterday, and are waiting for Mr. Woodford's promised full report. But, unless this should contain some statement that is not expected, there is no disposition on the part of the government, to protract the closing of this unpleasant incident, and it is not expected that anything in the nature of a demand for an apology will be made. If a graceful disclaimer should come, that will be taken in the spirit in which it is made; otherwise the matter will be dropped and the relations between the state department and the Spanish legation will run smoothly, once again.
