An admission fee was charged, and the affair was for the benefit of Hank Griffin of Los Angeles. Marshall Lacey was informed of the matches and visited the place to see that no blood was shed. The fights were all good-natured, and there were no knock-outs. Some lively boxing was done, notwithstanding the audience went away satisfied. The program included a four-round go between Calvin Shaw of Duarte and George McLain of Pasadena, a four-round go between Marshall well of Pasadena and John Holmes of Pasadena and four rounds between Joe Crossen and Hank Griffin of Los Angeles. Several songs were sung during the evening by the Golden Star quartet.

STRANGE FATALITY

That Pursues Santa Barbara Officials. Mr. Oglesby's Death.

SANTA BARBARA, Feb. 26.—The strange fatality that has pursued the officers of Santa Barbara county during the present term was again demonstrated in the death of District Attorney A. A. Oglesby, which occurred this week in Los Angeles. The funeral took place here this morning from the Presbyterian church, and was largely attended. The pall bearers consisted of the judiciary and other members of the bar of the county. Mr. Oglesby is the fourth county officer of the present administration who has died in office. The first of this unfortunate quartet of officials to answer the call of his Maker was Sheriff R. J. Broughton, who died shortly after his inauguration; his death was traced to blood poisoning from a wound received in the discharge of his duties. The next whose office was vacated by death was County Clerk Fred Bradley. A few months ago Supervisor E. St. John of Santa Ynez died from the effects of a cold contracted while attending La Fleeta in Los Angeles.

In addition to these changes in the administration, another vacancy was caused by the resignation of Superior Judge W. B. Cope, who is now practicing law in San Francisco, a junior member of one of the oldest firms in the state.

There will be, accordingly, when a successor to District Attorney Oglesby shall have been appointed, five county officials who are serving under appointment, three by the board of supervisors and two by the governor, the latter being Superior Judge W. S. Day and Supervisor Edw. de la Cuesta. These changes remove many of the old contestants in past political campaigns of the county, and will make the

affairs of the approaching election more complicated, and the result more uncertain.

C. E. County Convention

WHITTIER, Feb. 26.—The County Christian Endeavor convention being here opened with a fine program last evening. The auditorium of the college building was packed to its full capacity, many delegates being present. An orchestra of ten pieces and a chorus of twelve voices furnished very appropriate and pleasing music for the occasion. Rev. George Willis of the Congregational church delivered the address of welcome, and Miss Curtis of Pasadena responded on the part of the visiting delegates. These addresses were especially earnest and highly interesting.

Dr. Walker of the Immanuel Presbyterian church of Los Angeles delivered the address of the evening. His subject was "The Contributions of the Christian Era to the Twentieth Century," and placed in three sections: Enthusiasm, equilibrium and enterprise. These sections were presented in the donor's forceful manner and with an unusual degree of earnestness.

The business session of the convention occurred at 3:30 this morning. The afternoon and evening will be for the "roundment" order, a good program having been prepared. The state president is expected today. Prof. J. J. Jessup, county president, is presiding, which he has not had such a gathering of enthusiastic Christian workers for many months.

FELL OVERBOARD TO DEATH

THE FATAL ACCIDENT TO HENRY WALKER AT HUENEME

A Gallant Attempt at Rescue by a Sailor—The Body Not Recovered

HUENEME, Feb. 25.—Henry Hiram Walker, an old resident of this place, was knocked off the wharf this morning by a guy rope of a hoisting derrick. He fell with terrific force, head downward, and striking the side of a vessel lying at the wharf. It is supposed his skull was badly crushed.

One of the sailors of the schooner Premier, now unloading lumber here, immediately jumped overboard to his rescue, and grasping Walker, who was floating face downward, by the coat tried to keep him up, but finding it impossible, grasped at a hawser attached to the vessel, still holding to Mr. Walker's coat, but the vessel just then sheered off and tightening the hawser, it was torn violently from his grasp, and he was compelled to let go of Walker to save himself. It was seen during the exciting moments that Walker had suffered a severe injury, as his head was bleeding profusely. The sailor had a narrow escape from death in his efforts to aid the victim of the accident, but was finally drawn under the vessel. Walker immediately sank, and the body has not yet been recovered.

Henry Walker was a native of Massachusetts, and aged about 40 years. He leaves a widow and six children. Efforts were made to grapple the body, but owing to lack of proper apparatus were unsuccessful.

The mate of the steamer Westport also had a narrow escape shortly after the above accident by falling from a pile of lumber on the vessel's deck. He struck the rail, but was saved by some of the crew. He suffered a painful injury to his head.

Another Association

SANTA ANA, Feb. 25.—At a meeting of prominent fruit growers yesterday the Santa Ana Deciduous Fruit Growers' association was organized, with a capital stock of \$200 subscribed. The object of the association is to secure better prices for fruit put on the market, as well as a uniform standard of quality. A. R. Sprague, general organizer, gave an interesting talk and outlined the work of the association.

It was decided to fix the capital stock at \$10,000, composed of 200 shares at \$50 each. The officers were not elected, but will be at their next meeting, Saturday, March 6th.

SOUTHERN CALIFORNIA NOTES

Shipments from Hueneeme last week have been large, over 700 tons of barley going out.

The committee in charge of the Ocean-side wharf benefit ball reports the receipts for the occasion \$110.

Messrs. Sutton, Radcliff and Nelson of Burbank went through Fernando Tuesday, bound for the Klondike.

The rainfall for the season at Pomona so far amounts to 7.36 inches, compared with 5.22 inches the season before.

The barkentine W. R. Hume is due to load at Hueneeme this week. She takes about 1000 tons of lumber.

J. H. Johnson, manager of the San Luis Rey creamery, says that the milk supply at present is from 2500 to 3000 pounds per day.

A number of 10-inch wells are to be bored at the Hueneeme sugar factory grounds. These wells are the largest attempted in the county.

The continued dry weather at Pomona is responsible for an additional advance in the price of good hay, the quotations now being \$15 per ton.

The funeral of the late Miss Woodmansee, who died Friday at Santa Pasadena, took place yesterday at 10 o'clock from the Methodist church.

Efforts are being made to establish a creamery at Pomona, with cream separators at Lordsburg and Spadra. The canvass for the project reports considerable interest in the matter.

The first regular train over the new railroad at Ojai started from Ventura yesterday at 3 o'clock. About fifty passengers purchased tickets at 50 cents per head. Capt. Cross and other officials of the road accompanied the excursion.

Two men and a boy, named Castro, are under arrest at Santa Barbara for cattle stealing. The boy made a confession implicating the two others in the theft of three cows from Goleta farmers. The cattle were sold by them to butchers.

The vacancy on the Riverside board of supervisors, caused by the death of Mr. Edmonston, is to be filled by much heartburning. It is understood that Governor Budd will name the new man. The voters of the Second district will meet tomorrow night to recommend a candidate.

The second rainstorm amounted to half an inch at Santa Barbara, but will result in much good notwithstanding its lightness. Hay and grain that now stand from two to four inches high will be able to make a good growth for the next two or three weeks, and if more showers come during March all will be well. The weather is still promising.

The Orange County Teachers' association met yesterday morning in the Santa Ana high school building. It proved to be the largest in attendance as well as in interest for some time. Miss Grace Deming of Los Angeles gave an excellent talk on "The Science and Art of Criticism," which was instructive. Miss Anorah Phillips also spoke on the Polard system of teaching reading.

A new feature in the Pomona high school has been inaugurated. Scholars in that department have been formed into a literary society, which is directly under the charge of the principal and teachers of the high school, and is made a part of the regular work. The first program was rendered on Friday afternoon, in the presence of patrons of the schools. Prof. A. J. Cutler, the principal, was congratulated upon his new departure in the school work. These programs will be rendered every two weeks in the presence of friends of the schools.

THE ORANGE MARKET

Over 610,000 Boxes From Riverside. Dealers in Illicit Fruit

RIVERSIDE, Feb. 25.—Yesterday's shipments of oranges from this city were about the lightest that have been made for several days. The total was 610,000 boxes, which is about a quarter of what the shipments were on the corresponding day of last week. Shippers are not making any chances on the eastern market at the present time. The prices are not satisfactory, and more than one order have been turned down in the past few days by firms which have edged out of the market. Shipments for the season up to date are 610,779 boxes. This is still a greater shipment than was sent out up to the same date last season.

At the present time there is considerable stir in lemon shipping. One or two of the local packing houses are packing lemons, and it is expected that they are quite well satisfied with their orders for this kind of fruit. The continuance of cool weather is in favor of the fruit, especially in the case of the Valencia variety of fruit is in good shape to stand for

Consumption Cured

A UNIQUE BARGAIN Price Reduced From Fifty Dollars to Ten Dollars

All Persons Afflicted With Consumption, Poor and Rich Alike, Interested in the Remarkable Reduction in Cost of Treatment at the Koch Medical Institute

How often is heard the exclamation from those who are unfortunate enough to be afflicted with consumption: "I would give all I possess if I could only be cured of this terrible disease." In the past this longing for relief from the then assured fatal results of the disease has been a question of hopeless desire. There was no known cure, and death alone ended the painful struggle when nature could no longer sustain the individual.

Now, however, is not a safe criterion to judge the present by. Patient investigation, scientific research, practical application and personal skill have changed all the beliefs that consumption was incurable into the positive certainty that there is a method, which will not only relieve, but absolutely cure, tuberculosis, and its method is now in daily operation at the Koch Medical Institute, this city, and hundreds of grateful people stand ready to give their unqualified testimony to the actual cure of consumption.

some time yet, or until orders and prices are more satisfactory than at present.

A report has reached this city to the effect that some unprincipled orange peddlers have been in the habit of visiting the dumps where the orange packing houses cast their ejected fruit, and there loading up their wagons, and then selling it to the merchants out at five cent a bushel in the county where none of the fruit is grown. The rumor is to be investigated, and, if found to be true, some of the scoundrels will find their little trick will not get them something to get out of. The fruit which these men find on the dumps in question consists of culls and decayed fruit, which is not only worthless but poisonous.
