

REPUBLICAN PRIMARIES

ELECTRIC ROAD EMPLOYEES MARCH TO VOTE

A STRIKING OBJECT LESSON

That Will Lend Strength to the Non-Partisan Movement—Another Mysterious Assault

PASADENA, March 1.—(Office of The Herald, 58 E. Colorado street.) If there were any lingering doubts in the minds of the people of Pasadena as to what constitutes the real issue in the present municipal campaign, all such doubts were most effectually dispelled by the conduct of those most interested in the result of the Republican primaries held today. Superintendent Jones of the Pasadena and Los Angeles Electric railway demonstrated that his accomplishments as a superintendent of elections quite transcended his well-known abilities as superintendent of traffic for the road; and the way he marshaled the small army of employees and guided and directed them in the way they should go was a lesson in "practical politics" not soon to be forgotten by the citizens of this long-suffering community. Some "Doubting Thomases" were loth to believe, before today's "object lesson," that the electric road monopoly had anything to do with this election, but as they stood and gazed upon the spectacle of men being marched to the voting places in squads at intervals throughout the day, and observed that they were the employees of the electric road, headed by the indefatigable and truly efficient superintendent of traffic of the said corporation, their minds were very soon made up in regard to the matter. This, in addition to the further fact that well-known henchmen of the corporation were some of the chief workers at the polls, made votes by the score for the citizens' movement. In fact if the spectacle had been arranged with the end in view of securing votes by the citizens "not non-partisan movement," it could not have been more effectual and certain in its results. Ben Hahn had already got in his words at the caucuses, hence was not so conspicuous today. In spite of the claims made that there were no "slates" at the caucuses, a well-known and highly respected citizen tells The Herald that a certain young friend came to him with typewritten lists of names to be voted for at the caucuses, said lists having been handed him by the same friend as a man aforesaid, with the same advice that "these were proper men to vote for." The electric road corporation evidently decided early in the fight that they couldn't depend upon Dr. G. Roscoe Thomas and accordingly proceeded to "knife" him. But the amusing part of the whole business was when the doughty superintendent came late in the evening when the votes were being counted, to look at the results of his arduous day's work, and found that it hadn't influenced the result at all, for all the delegates were elected, Dr. Thomas as well as the rest, though the latter fell about sixty votes behind the rest of the ticket.

Today's primary election of the Republicans witnessed the first marshaling of employees to vote a certain ticket that has ever occurred in Pasadena, according to an old citizen who has watched the progress of elections here for many years, but one thing is certain and that is that this action on the part of the corporation will make more votes against them and the party that favors them than anything else that could have been done.

The total vote polled in precincts 1, 2 and 3 (voting place, recorder's court room) was 155. In precincts 4, 5 and 6 (voting place, West Green street) 197. Some scratching was done, but not enough to effect the result.

THAT MYSTERIOUS ASSAILANT

Elliott Morris, a young man who works for C. B. Scoville, was attacked by an unknown man tonight at about 10 o'clock near the corner of Main and Colorado streets. Morris was riding his wheel when a man stepped out and knocked him off with a blow at the head, which rendered him unconscious for some time. There is no clue as to who the assailant is. Morris was picked up and carried to Dr. Green's, where an ugly gash was attended to. It is possible that the assailant is the same man who attacked Buton Orr and Miss Annie Basore on Lincoln avenue a week or two ago. The occurrence tonight also gives credence to the story of a man who held up on Catalina avenue a night or two ago. Robbery is not the motive of the club-swinging.

SOCIAL EVENTS

The Ladies of the Macabees entertained the Sir Knights and their families last night with a musicale. The numbers were rendered by the Primrose Mandolin and guitar club and by Mrs. Severance and Miss Weller of Los Angeles. A comedy was played, and the evening was closed with refreshments.

Mrs. B. H. Finney entertained the Reading club this afternoon at her home on North Marzocco avenue. Instructive papers on traveling in Europe were read by Mrs. W. N. Van Nuy and Mrs. J. T. Parker.

Miss Leah A. Why and William Boorman were married yesterday evening at the home of the groom on East Colorado street. Rev. McCormack of the Episcopal church officiating. In the presence of intimate friends and relatives only.

BREVITIES

W. B. Park died yesterday of consumption at his home on the corner of Pepper street and Kirkwood avenue.

President C. C. Braden of Lassell college, Mass., has purchased a handsome residence site on Grand avenue, just south of Bishop Johnson's new residence. The situation is a beautiful one, being in the midst of a group of some of the finest places in town and having a wide view of the arroyo. Prof. Braden will erect for himself a handsome home in the Mission style. The tract upon which the house will be built contains five and a half acres and has a frontage of 131 feet.

The Pasadena Hospital association has completed arrangements for the free use of three beds in Dr. Hodge's hospital. These will be devoted to the use of worthy invalids who cannot afford to pay for them. Drs. Fenner, Chubbourn and Mohr have been chosen a committee of arrangements, and a visiting committee has been chosen in the persons of Mrs. R. J. Dobbins, Mrs. Mary A. Dwyer and Mrs. Caroline Walker.

Work upon the foundation of the new Shakespeare clubhouse was begun today on the corner of Lincoln and Fair Oaks avenues. Haver & Shaw have the contract for the masonry and Clark & Coe the carpentering. The work is being superintended by Architect Buchanan, who drew the plans. The building will cost about \$500.

RANDBURG MINES

A Rich Find in the Rustler—Water and Electric Light

RANDBURG, Feb. 28.—One of the richest discoveries made in the camp for a long time was made Thursday in the Rustler claim by its owners, Jerry O'Leary and Pete Hansen. The Rustler is the first west extension of the Rand group, and some of the many ledges that run through and which have made the Rand famous, pass through the Rustler. The recent find in the latter is near the apex of the hill and where it is opened shows a well defined ledge over three feet wide. The quartz is of a porphyritic character and the matrix is fairly blazes with the yellow metal. To put it conservatively, the ore will easily mill \$20 to the ton.

The iron pipe for the Randburg water and the system was ordered last week from

the east. The trenches have already been excavated for its reception. It is understood, though not verified, that the citizens' committee have made arrangements with the Johannesburg Water company whereby the latter will furnish all the water necessary. The pay roll of the Yellow Aster company is now put at \$500 per day, or \$12,000 per month. The supervisors of Kern county are expected here on Thursday from Bakersfield. Their purpose in visiting the desert section of the county is to look thoroughly into the water and road question. Negotiations have been completed between Randburg and Los Angeles people by which an electric light plant will be erected in Randburg as soon as a water supply reaches here.

FARMERS' INSTITUTE

Very Profitable Session at Claremont. Valuable Papers

CLAREMONT, March 1.—The farmers' institute, held here under the auspices of the University of California, was a marked success in all respects. The attendance was over three hundred present. The college chapel was beautifully decorated and the music supplied by the students of Pomona college. The work of the institute was very enjoyable. A noonday lunch, given by the Claremont Horticultural club, was a very pleasant feature, as it gave a fine opportunity for social greetings and the exchange of views. The fruits, etc., on exhibition were all correctly labeled and spoke for themselves. "Green Manure," a paper by J. W. Mills of the experiment station at Chico, illustrated by many specimens of legumes grown this season; "Enriching Our Soils," by Dr. E. E. Hilgard, illustrated by charts giving recent analyses of our Southern California soils; and "The Principle Underlying Cultivation," expounded by Prof. A. R. Sprague, held the attention of all during the forenoon. In the afternoon Prof. Sprague spoke for the exchange. A. B. Smith of Glendora discussed "The Lemon, from Orchard to Table." Mrs. James Gray, of the university on olives completed a very valuable and entertaining meeting. The question box was a marked feature of the institute. The next sessions will be held at Westminster March 31, Escondido April 1 and 2, Compton April 4 and Chico April 5.

JOHANNESBURG'S RESERVOIR

Bids Opened and Work Soon to Commence—The Alameda

JOHANNESBURG, Feb. 28.—Bids for excavation for the proposed reservoir, together with the trenches leading thereto from the wells, for the Squaw Springs Water company, have been opened. As soon as the work is made ready will begin and will be pushed towards Randburg as fast as men and means can do it. The completion of this work will insure two water systems for the above-named town. The gasoline engine recently ordered to take the place of the one destroyed last week at the Johannesburg mill, will arrive here in a day or two and will be put into operation at once. Work was begun yesterday on the dry concentrator plant on the Alameda mine. The old crusher, which proved valueless, is being taken down and will be replaced by one recently purchased in Denver by F. W. Wood and which is expected to arrive here tomorrow night. K. Hamford, on behalf of the heaviest stockholders of the Alameda Gold Mining company, this week took up the bond on the mine and paid the former owners, Ashford Bros. & Hall, the balance due on the bond, something like \$3000.

A Directory Case

SAN BERNARDINO, March 1.—There has been quite a little free advertising given a county directory gotten out by A. M. Bushnell through the courts. An attorney, acting for the Los Angeles house which printed the books, held ninety-five of them as security for what the compiler owed the firm, and also for \$100 which he had loaned the impecunious directory man, and from whom he had obtained a bill of sale of the books when the latter was somewhat the worse for liquor. The trial of the case before Justice Soule resulted in a verdict for the directory man, with all the books returned to him, and the representative of the Los Angeles house has not only to pay the costs, but also to pay the lawyer of his opponent. He talks of making an appeal to the superior court, and was given five days in which to do so.

The Bruner Alley

SANTA ANA, March 1.—At a meeting of the city trustees last night the attorneys H. Bruner were present to enter a vigorous protest against opening the alley from Main to Bush street. They stated that the amount of damages which the commissioners had estimated would not nearly cover the losses sustained by Mr. Bruner if the alleyway was opened. Both the attorneys and the trustees became ruffled and excited. A vote was taken by the council and resulted in the acceptance of the report, plat and assessment of the commissioners. Mr. Bruner was not present, having left a few days ago for Alaska, but Mr. Nilsson, who holds a mortgage on the property, was present and emphatically stated his objection to the new alley.

Short on Water

SANTA ANA, March 1.—The city water supply of Santa Ana is running low and the city trustees have begun to make plans for an increase. The flow from the artesian wells which furnish water to the city is becoming less, and measures will at once have to be taken to secure more water supply. The trustees have under consideration a plan to lay pipes from the Cole well on First street about a mile from town and bring the water, which is now going to waste, into the city. A meeting will shortly be held by the trustees, when the matter will be acted upon. In the meantime water consumers are requested to use no more water than absolutely necessary until the present situation can be relieved.

A Bogus Detective

SANTA ANA, Feb. 28.—J. W. Conlin, the alleged detective of Los Angeles, who figured conspicuously here a few months ago in the Wright case and who evaded a board bill at Mrs. Larbig's lodging house, was released this morning from the superior court and the issue against him dismissed.

A Golden Wedding

SANTA MONICA, Feb. 28.—A very happy event, which is vouchsafed to but few in this life, occurred Saturday evening. It was the golden wedding of Judge and Mrs. I. A. Willis, and the solemnity of the occasion was a complete surprise to the recipients. The judge and his wife were inveigled from home during the day, and when they returned in the evening it was to find the house filled with smiling happy friends and relatives, the rooms being handsomely decorated with smilax, poppies and roses. The judge and his wife were the recipients of many presents, and a most delightful evening was spent by all.

John T. Gaffey and family, who have been living in a tenage on Ocean avenue, removed to Los Angeles today.

Prof. Burton of the Pasadena high school visited Mr. and Mrs. Barber at the forestry station on Sunday.

Mrs. A. D. Jones and children of Fresno are visiting the parents of the former, Judge and Mrs. I. A. Willis.

High mass will be celebrated at the Catholic church next Wednesday at 9 a. m., for the repose of the soul of the late Mrs. J. J. Carrillo. All friends are invited.

REAL ESTATE TROUBLES

Bedlands Has Another Land Deal With Larbig

SAN BERNARDINO, Feb. 28.—Papers have been filed to quiet an estate that has never been before the courts, in which the owner has been dead over twenty years and the heirs to the estate died nearly as long ago. It was the case of Grief Embers, who took over a home on San Bernardino, comprising lots 2, 3 and 4 of block 27, of the city plat, on October 15, 1867, and died with his wife for ten years, when he died on December 1, 1877, and a week later his widow sold the

RIPIARIAN RIGHTS

Southern Pacific Railway Barred From Using Water

SAN BERNARDINO, March 1.—The possession of some large tracts of land in the foothills of the Mill Creek canyon by the Southern Pacific company gave that corporation a chance for a fight for riparian rights for the water flowing through their lands to the city of San Bern. In this they used Mrs. Hannah Skinner, who purchased 160 acres of her land, as the basis of a case against the other settlers, and after continuing the fight in the superior court for a couple of years, the decision has been handed down by which the railroad company is entirely barred from utilizing any of the water, and the pseudo claimant, Mrs. Skinner, who has been using from 25 to 30 inches, is cut down to two inches, or enough to irrigate 110 apple trees.

Skinner claimed to be the owner of 30 inches of the Mountain Home creek, a tributary of Mill creek, and also of 20 inches of water flowing from a cienega on her land in the same canyon. In the former case the proof was positive that the waters of Mountain Home creek are a portion of the flow of Mill creek, which since 1853, a period of 45 years, which is irrigating 8000 acres of land in the valley. In the case of the cienega, the water of which flows from the same Skiner, it was proved that although it was located 25 feet above the stream of highest water in Snow creek, it was fed entirely by the waters of Snow creek, percolating through and coming to the surface at that point from the underflow higher up the canyon. The waters of the cienega are therefore held to be simply a portion of the flow of the creek from the same source. The flow of Mill creek, upon which the filing is for 300 inches.

The plaintiffs had interrupted the flow of water of the creek several times from her use, but they had not interfered with the flow of the cienega, and as Mrs. Skinner had enjoyed the use of about two inches of water from the same source for five years, she had acquired riparian rights to that amount, and it was granted her in the decree.

The fight over this matter has been a close and bitter one, as there was so much at stake, for with an adverse decision from the one given this water right, the oldest one in the valley, which has been traced back to the time of the settlement of the city of Redlands obtains a portion of its supply, and the orchards take up the entire flow of the stream, there would be almost no limit to the damage to the settlers.

PURDY'S FAILURE

The Result of Slow Collections—Miss Newell Receives Her Salary

SAN BERNARDINO, Feb. 28.—J. S. Purdy is a petitioner in insolvency proceedings, and although he is a resident of Los Angeles, his indebtedness to only \$75,379.70, due him on his books, yet he finds it impossible to realize enough to clear himself, owing to some of the creditors pushing him beyond his ability to pay. The assets include real estate valued at \$10,750; personal property, \$2224; homestead, \$3500; bills due, \$2,253.49; with incumbrances on homestead of \$1200 and on other property of \$3000. His creditors are mostly here at home, and when the estate is settled there will be no one to lose anything, and probably there will be quite a little left over for the petitioner. Mr. Purdy has been one of the largest wholesale and retail butchers in Southern California, and closing up his business here some weeks since he moved to Los Angeles, where he is engaged in a city improvement club to work for the best interests of the town. Officers will be elected and organization perfected.

At a regular meeting of Company M of Riverside, held Monday evening, a vote of the members of the company was taken to determine how the boys stood on the question of coming out if called upon in case of war with Spain, and the result was that every one of the boys voted to come out. The board of trade at Santa Barbara is making an effort to revive interest in the charter proposition, and the common council will be asked to name freeholders to the line of a new company to come in and franchise a new charter. The charter submitted a year or so ago by a board of freeholders was overwhelmingly defeated.

Of course, it "just happens" to be at this time that the Santa Barbara (Sixth) division of the naval reserve, N. G. C., will be given some practical instruction and drill every day. The Plinta, bound from San Francisco to San Diego, will stop at Santa Barbara and take the company there aboard for practice. Epsilon Delaney will accompany the Plinta from San Francisco to San Diego.

An operation which will make the people of San Bernardino hot in more senses than one is the ice combine, by which the price of the cooling article has been doubled for the coming season. This has been accomplished by the old company's buying off the opposition. This leaves an excellent chance for a new company to come in and make money. When it costs only 25 cents per ton to manufacture ice, and it sells at \$20 per ton, there is a possibility of profit, even at a slight drop in price. The shipments of produce from the Orange depot of the Santa Fe have been: Oranges, 1,241,624 pounds; raisins, 47,240 pounds; dried fruits, 10,300 pounds; peaches, 280 pounds; walnuts, 1160 pounds; lemons, 790 pounds; peanuts, 1080 pounds; olives, 910 pounds; benzophenone, 185 pounds; honey, 100 pounds; unclassified freight, 11,985 pounds. There were 29 cases of eggs shipped by freight alone, to say nothing of those shipped by express or hauled to Los Angeles by team.

ELECTION OFFICERS

Santa Monica's Trustees Transact Routine Business

SANTA MONICA, Feb. 28.—At the meeting of the board of trustees this afternoon the election officers for the coming city election were appointed, as follows: Precinct 1: Inspectors—D. K. Shumek, W. P. Louthan; judges—E. Higuera, M. L. Hostetter; clerks—S. W. Miller, J. G. Holborow; ballot clerks—F. Klare, A. N. Archer. The voting place will be on the Southern Pacific passenger depot, in the frame building at one time occupied by the Elite saloon. Precinct 2: Inspectors—N. Bandy, S. G. Monrohouse; judges—A. Willis, John Huncke; clerks—Fred McComas, A. Mooser; ballot clerks—O. G. Tullis, J. B. Procter. The voting place will be at the engine house on Ocean street. The number of bills was paid and the petition of citizens for an electric light at the corner of Nevada avenue and Fifth street was referred to the finance committee. The emergency fund was approved and the sanitary committee will now see that it is properly fitted up. The city engineer's quarters being too small to accommodate the increased business of his office, it was ordered that he be furnished increased facilities. A resolution of intention was passed by the board, reciting the necessity of laying sewers in the alleys between Ocean avenue and Second street and between Second and Third streets.

A Golden Wedding

SANTA MONICA, Feb. 28.—A very happy event, which is vouchsafed to but few in this life, occurred Saturday evening. It was the golden wedding of Judge and Mrs. I. A. Willis, and the solemnity of the occasion was a complete surprise to the recipients. The judge and his wife were inveigled from home during the day, and when they returned in the evening it was to find the house filled with smiling happy friends and relatives, the rooms being handsomely decorated with smilax, poppies and roses. The judge and his wife were the recipients of many presents, and a most delightful evening was spent by all.

John T. Gaffey and family, who have been living in a tenage on Ocean avenue, removed to Los Angeles today.

Prof. Burton of the Pasadena high school visited Mr. and Mrs. Barber at the forestry station on Sunday.

Mrs. A. D. Jones and children of Fresno are visiting the parents of the former, Judge and Mrs. I. A. Willis.

High mass will be celebrated at the Catholic church next Wednesday at 9 a. m., for the repose of the soul of the late Mrs. J. J. Carrillo. All friends are invited.

REAL ESTATE TROUBLES

Bedlands Has Another Land Deal With Larbig

SAN BERNARDINO, Feb. 28.—Papers have been filed to quiet an estate that has never been before the courts, in which the owner has been dead over twenty years and the heirs to the estate died nearly as long ago. It was the case of Grief Embers, who took over a home on San Bernardino, comprising lots 2, 3 and 4 of block 27, of the city plat, on October 15, 1867, and died with his wife for ten years, when he died on December 1, 1877, and a week later his widow sold the

stead to John E. Ward, and the latter has been the reputed owner of the property since that date. In looking up the title, he finds that the estate of Grief Embers was never administered upon, and the petition is filed to bring the matter before the court and secure a clear title to the estate. The hearing has been set for Saturday, March 5, before Judge Campbell. Redlands has just come out of a lawsuit with a citizen one B. Larbig, in which the city was ordered to pay the said Larbig a sum of money for a right of way, which was bitterly contested by the owner of the land, who claimed a large sum in fact, the whole value of the two lots touched by the improvements. Larbig has now filed papers in a new suit over the same property, but from a different point of view, and the whole matter will be gone over again in the superior court.

Broaching Cars

RIVERSIDE, March 1.—Sheriff Johnson received word from Deputy Sheriff Jenkins today to the effect that a bonded car on the Southern Pacific road was broken open here and a quantity of goods taken. The persons who did the stealing are known, and the sheriff sent instructions to the officer there to arrest them and bring them to this city. There is another man now in the county jail serving a term for vagrancy, who broke open a freight car at Indio a few days ago, and it is the intention of the railroad company to prosecute this man for the very same offense with a view to discouraging the practice of broaching cars.

SOUTHERN CALIFORNIA NOTES

Summerland shipped sixty carloads of oil last month.

Superior Judge B. T. Williams of Ventura announced in Santa Barbara yesterday that he had been nominated for a place on the supreme court bench.

The San Gabriel Electric company is putting up its poles at Alhambra. All the stores and several residences will be supplied with the electric power.

The Santa Ana board of supervisors yesterday adopted a motion that a road poll tax be levied on all male persons over 21 and under 55 years of age, as provided by law.

Mrs. Edmund Blaine, daughter-in-law of the late James G. Blaine, is visiting her mother, Mrs. Cyrus McCormick, at the latter's home in Montecito, near Santa Barbara.

The Santa Ana Standard, one of the oldest papers in Orange county, has been sold by D. M. Baker to Messrs. R. A. Dargue of Santa Paula and Frank Honeywell, late of Wichita, Kan.

The fees of the recorder's office of Riverside county for the month of February amounted to \$463.65, as against \$411.30 in the previous month. In December the receipts of the office were \$412.

City Marshal Wilson of Riverside yesterday sold the property upon which the taxes of the past year were not paid. The whole amount was small and most of the property was bid in by owners or agents.

At a regular meeting of the Riverside city trustees, held Monday, it was voted to at once improve Ninth street with a curbing and cement sidewalks, from the city park to the line of the Santa Fe road, a distance of nine blocks.

A mass meeting of the citizens of Orange will be held in Music hall on Saturday evening, March 3rd, at 7:30 o'clock, for the purpose of organizing a city improvement club to work for the best interests of the town. Officers will be elected and organization perfected.

At a regular meeting of Company M of Riverside, held Monday evening, a vote of the members of the company was taken to determine how the boys stood on the question of coming out if called upon in case of war with Spain, and the result was that every one of the boys voted to come out.

The board of trade at Santa Barbara is making an effort to revive interest in the charter proposition, and the common council will be asked to name freeholders to the line of a new company to come in and franchise a new charter. The charter submitted a year or so ago by a board of freeholders was overwhelmingly defeated.

Of course, it "just happens" to be at this time that the Santa Barbara (Sixth) division of the naval reserve, N. G. C., will be given some practical instruction and drill every day. The Plinta, bound from San Francisco to San Diego, will stop at Santa Barbara and take the company there aboard for practice. Epsilon Delaney will accompany the Plinta from San Francisco to San Diego.

An operation which will make the people of San Bernardino hot in more senses than one is the ice combine, by which the price of the cooling article has been doubled for the coming season. This has been accomplished by the old company's buying off the opposition. This leaves an excellent chance for a new company to come in and make money. There were 29 cases of eggs shipped by freight alone, to say nothing of those shipped by express or hauled to Los Angeles by team.

The Great Renewer of Youth

The Dr. Janss Electric Belt

The Dr. Janss Electric Belt stands without a parallel in the history of electricity or medicine. Dr. Janss' Electric Belt gives energy, strength, vigor, hope, vitality and life! It will place failing and incompetent men in their former perfect condition. It will make the weak and debilitated strong and able. It gives new courage and confidence to the discouraged. It creates within you new powers and ambition. It renews youth in the old. It brings flesh to the emaciated. It gives true and lasting manhood to the sick and puny.

One Month on Trial, Free of Charge

To show that Dr. Janss has confidence in his newly completed Belt, he will let each person who applies within one week take a Belt on trial, free of cost, for one month. If the Belt does not give satisfaction it can be returned at the end of that time. Dr. Janss examines every person who calls for a belt and selects one suitable to the physical condition of the applicant.

Prices Range From \$2.00 to \$5.00

If you pay more than \$5.00 you are wasting money. It is utterly impossible to put more value than this amount into any Electric Belt.

A full line of Electric and Magnetic appliances at prices several hundred per cent lower than elsewhere. Mail and express orders receive prompt and special attention. Correspondence solicited. Call or address

Grey Hair

Is often a handicap upon business, upon pleasure and love. The merchant does not like to employ grey haired salesmen or women. He can get equally good people who look younger. He thinks they are more likely to get sick and fire and they are not likely to be so active. Grey haired people are at a disadvantage in all occupations in society as well. Only the rich can afford to have grey hairs. Mrs. Nettie Harrison's 4-Day Hair Restorer Restores the Natural Color to the hair. You can apply it yourself, and no one need know you are using it. It has an agreeable odor; does not make the hair sticky; does not stain the hands or clothes; it is clear liquid and contains no sediment. Guaranteed harmless. It requires about four days to restore the hair to its natural color. Get your druggist to order it for you. If you have any trouble with your hair or scalp, write to Mrs. Nettie Harrison. Who treats ladies for all blemishes or defects of face or figure. Ladies can be treated at home by mail. TRIAL POT Ladies out of town sending this ad with 10c in stamps will receive a box of Mrs. Nettie Harrison's EXQUISITE FACE POWDER, FREE.
