**Boys'**  
Sweaters..... 38c  
Windsor Ties..... 19c  
Black Hose..... 9c  
Percale Waists..... 1.35c

#### FAVOR THE FRANCHISE

##### SOUTH PASADENANS WILL WELCOME THE TUXEDO LINE

Terminal Railway Also Contemplating an Extension—Delegates Declared Elected

PASADENA, March 4.—(Office of The Herald, 38 East Colorado street.) At the meeting of the South Pasadena city council last night, J. W. Thompson's application for a franchise for the Tuxedo Electric Railway company came up for discussion. Engineer Jewett and Attorney Simpson were present in the interest of the franchise seekers. A week ago the board referred the subject to a committee consisting of Trustees Langley and Rust, with instructions to report last night. This committee reported in effect that they had interviewed property owners along the proposed route and found the sentiment in favor of the granting of the franchise. They regarded the establishment of the road as in the interest of the city, and recommended the granting of a franchise under proper terms and conditions along Monterey road from Lincoln Park station eastwardly. While a few personally preferred that the franchise be granted should be along the southerly line of the right of way of the Santa Fe railroad from Lincoln Park station to Orange Grove avenue, thence to Monterey road and thence along Monterey road easterly, the committee believes that the granting of the franchise along that route would not be well. It was recommended that the petitioner should be granted the franchise at his own cost should widen Pasadena avenue and Monterey road to eighty feet, and grade the street for a certain distance. The committee also fixed the distance between the double tracks striking out the section relating to a third rail and prohibiting the running of more than one baggage car with each train.

The company declined to make promises as to fares and sprinkling the streets. The company also declined to widen the streets, though agreeing to grade them. The company's representatives expressed themselves as of the opinion that the property owners desired too much. An adjournment was made until the company and property owners can come to some terms.

##### THE TERMINAL, TOO

It is said that T. E. Gibbon, vice president of the Terminal company, has stated his company's intention to apply for a franchise very soon. It is probable that the Terminal will first try to secure a franchise in this city and, if successful, apply for one with the South Pasadena council. Should these applications be successful, the company proposes to build to Alhambra, leaving the present line where it intersects Fair Oaks avenue, going to the Mission road or to the Monterey road, extending eastward to Garfield avenue and thence to Alhambra.

##### REPUBLICAN DELEGATES

The city council held a special meeting this morning and canvassed the votes of the Republican primaries held March 1st, according to the new election law. Everything was found to be regular and a ninety-six delegates were declared elected, a resolution to that effect being adopted. A resolution was also passed instructing each official to file his official report as soon as possible.

##### BREVITIES

The regular lecture at Throop was delivered in the biological laboratory rooms this afternoon by Prof. Ernest B. Hoag, instructor, who took for his subject "The Greatest Naturalist in the World." Agassiz was the man the lecturer so entitled. Comparing him to Darwin, Prof. Hoag said that Darwin made discoveries for himself in particular while Agassiz's work benefited the world. A good sized audience heard the lecture.

partisans held a meeting this evening to make final arrangements for the mass meeting to be held next Tuesday evening. A band will be in attendance and all indications point toward an enthusiastic meeting which will be of great interest to all citizens interested in the movement. The Pasadena High School Glee club gave a concert tonight in the M. E. tabernacle. An admission fee of 10 cents was charged and as there was a goodly attendance a neat sum was made for the high school library.

##### SOCIAL EVENTS

The members of the tabernacle quartet, Mrs. W. B. Clapp, Mrs. James McLachlan, Charles A. Smith and Dr. J. T. Parker, entertained the official board of the church last evening, at the home of Mr. and Mrs. Isaac Bailey on East Colorado street.

The Terepichorean club recently organized for instruction in dancing, gave a dance last evening in Kramer's hall. The club is composed of young married people and meets once a week.

##### PERSONAL

Dr. C. N. Thompson and wife of Boston are the guests of R. H. Pinney of South Marquette avenue.

Mr. and Mrs. J. C. Dement of Astoria, Or., arrived here today to spend the winter. Mr. Dement is a brother of Mrs. J. P. Church of Center street.

##### Republican Convention

RIVERSIDE, March 4.—Municipal politics are warming up as the time for holding the Republican convention draws near. This event will take place tomorrow and the leaders of the party are "doing the very lively can," as usual, to run the machine just as they want it to go. The city central committee made one bad mistake, however, in the call for the convention when the delegation was fixed. For the bosses are finding it quite difficult to surround the bunch. At the present time it looks as though there was going to be a very lively convention and that the state will have a hard time of it to get through the fight in a whole condition.

##### Better Lost

RIVERSIDE, March 4.—The sheriff has received a letter from a man signing himself J. M. White, who resides at Morgan, Tex., in which inquiry is made as to the whereabouts of T. M. White, who the writer states was a resident of this county when last heard from. The writer of the letter also adds that he is the father of the missing White. Sheriff Johnson will have no difficulty in telling the old father where he can find his son, for that official took T. M. White to San Quentin a few weeks ago to serve a term of six years for embezzlement committed in this county.

#### E. J. CLARK'S FATAL FALL

##### ACCIDENT TO A WELL-KNOWN SANTA MONICA CITIZEN

Fell Thirty Feet From the Roof of the W. C. T. U. Building and Died in Five Minutes

SANTA MONICA, March 4.—E. J. Clark, well-known in cycling circles and proprietor of the Third-street cycleery, fell from the roof of the W. C. T. U. building this afternoon at 3:30 o'clock, receiving injuries from which he died in five minutes. Mr. Clark was working on some wires which are strung, about 14 inches apart, to the cornice on the front part of the building. One of these wires furnishes Dr. Walte's dentistry apparatus with power, and Mr. Clark was engaged in the line of a local telegraph system, in which Mr. Clark was deeply interested, and which is a grounded wire. The general opinion is that Mr. Clark reached across the cornice, entangling both wires with his arm and forming a circuit, thereby receiving a shock sufficient to cause him to lose his balance. In falling, he struck the top of a billboard, where he received the fatal blow which caused his death.

His father, J. H. Clark, was in the cycleery, just across the street, at the time and heard the fall. With others, he rushed to the other side of the high billboard and found his son half-reclining on a pile of lumber. He was carried to the cycleery and Mrs. Place and Hamilton arrived immediately, but nothing could be done, and he died in a few moments without regaining consciousness. His neck was broken, and, in addition, a fracture was received at the base of the brain which was sufficient to have caused death.

Mr. Clark belonged to one of the most prominent families of Santa Monica and was a genius in electrical matters. He leaves, besides a father and mother, a widow and a young son, who have the sincere sympathy of the entire community in their sudden bereavement.

The coroner was notified and an inquest will be held in the morning.

#### WATER IS SCARCE

##### Without Rain in Quantity the Situation Will Be Critical

SAN BERNARDINO, March 4.—Without a heavy fall of rain this spring, not only will the loss be great to non-irrigable lands, but the question of irrigation will be a perplexing problem before the summer is over. The mountain reservoirs and catchments, both natural and artificial, are very low, with but slight prospect of filling this spring. Bear Valley reservoir was never at so low a stage as it is at present. The mountain streams that usually give a full flow of water at this period are as dry now as in midsummer. The Redlands Electric Light company, that expects to run by water power during the entire winter and spring, has already at least three months ahead of the usual time been compelled to turn from water to steam to obtain power to run its dynamo, as the stream is at present as dry as it usually is in August.

All the mountain streams are in the same predicament, with but little hope of better flow this spring. At Ontario the water famine is already beginning to be felt, as the flow down San Antonio canyon is now at its summer stage, and the prospects are that in the colony irrigation will be either impossible during the coming summer or will be on the very shortest rations.

#### TO WATER THE DESERT

##### Another Plan to Rescue the Mojave Wilderness

SAN BERNARDINO, March 4.—Another attempt is to be made to utilize the waters of the Mojave river, both above and below ground, for the purpose of irrigating the desert. The plan materialized in the brain of J. W. Lansing, who has filed on 12,000 inches of the flow from the bed and underflow of the Mojave river, with the avowed purpose of using the water for irrigation, mining, mechanical and all other kinds of power purposes and domestic use. The water is to be taken out from the river by the point of view from Starvation and half a mile south of the Atlantic and Pacific railroad, on the northwesterly side of the bank of the river.

##### RIALTO BOND WAR

Every Inch of Legal Ground Strenuously Contested

SAN BERNARDINO, March 4.—It is seldom such a fight is made on a mere demurrer in a suit as that now going on in the superior court before Judge Campbell, where for three days the attorneys have been at work with arguments on the support or overruling of a demurrer made by the plaintiff, M. C. Butterfield, to the second amended complaint of Eugene Weston, collector of the Rialto Irrigation district. The demurrer is opposed by the intervenors, who comprise the holders of nearly \$200,000 in the bonds of the district, which it is proposed by this action to have declared null and void. The second amended complaint to which the plaintiff demurs covers the entire ground, and its defeat by the sustaining of the demurrer settles the entire question, and it bonds are worthless and the district has no legal existence.

##### In Bad Company

VENTURA, March 4.—An aged man by the name of George A. Smith was knocked down last night and robbed of \$10. Smith had been in company with a number of objectionable characters in the afternoon and toward evening started to go to the hospital, when he was attacked and robbed.

#### A LARGE REWARD OFFERED

##### FOR THE RECOVERY OF ALBERT ROBINSON'S BODY

Jumped From a Pullman Car Crossing the Mojave Desert—His Father's Fruitless Search

CHINO, March 4.—No trace has yet been found of Albert Robinson, who, while delirious, jumped from a Pullman car window over two months ago, while crossing the Mojave desert. His father, Daniel Robinson, a wealthy resident of Joliet, Ill., has spent \$10,000 in a fruitless search for his son, and still offers a reward of \$5000 for the recovery of his body.

##### The Riverside Mystery

RIVERSIDE, March 4.—Sheriff Johnson is having a lot of circulars printed giving a description of the man whose body was found in the river bottom near the city last December, with a view to supplying all the peace officers in the state with copies, in the hope that the unfortunate may be identified and possibly the mystery of his death cleared up. Some time ago Gov. Budd offered a reward of \$300 for information which would identify the man and lead to the capture of his murderers, and to this sum Sheriff Johnson has added \$100. A picture of the dead man will be printed on the circulars. The claim by some that the dead body was that of W. F. Schrode of Escondido is not credited by the officers, for it is believed by them that Schrode is alive and well, and further, that he is residing in Ventura county now. Mrs. Schrode still maintains her belief that the body is that of her absent husband.

##### Prices Rising

RIVERSIDE, March 4.—The continued dry weather is having the effect of keeping the price of hay and grain on the upward slide. Barley is now selling at \$1.25, and the farmer who has any stock on hand is not in any hurry to dispose of it. Wheat is not being offered very freely, and that which is sold is bringing all the way from \$1.35 to \$1.50 per hundred. Good grain hay is quoted at \$16 a ton and alfalfa hay at \$14.

##### The Dog Poisoner

POMONA, March 4.—Some one is at work again poisoning dogs. This morning one of the finest bred dogs in the city was found dead. There is no objection made to the destruction of worthless curs, but there is danger when poison is placed around promiscuously that valuable animals or even children may get hold of the deadly morsel.

##### Holmes' Assault

SANTA ANA, March 4.—The case of C. M. Holmes, superintendent of the Santa Ana Gas and Electric company, who is charged with assault with a deadly weapon, was called today in the superior court. A motion was made to set aside the information against the defendant, which was taken under advisement.

##### SOUTHERN CALIFORNIA NOTES

The Delhi creamery, just south of Santa Ana, is making about 200 pounds of butter daily.

Redondo tent, No. 7, Knights of the Macabees, initiated nine new members last Tuesday.

There are rumors that Pomona is soon to have a daily paper. Canvasers are now soliciting for patronage.

The new management of the Redondo hotel, under H. R. Warner, is making many new and important changes.

The Redondo Breeze will today publish

the water rate ordinance. The rates are practically the same as before.

Dr. Doty of Santa Monica has bought out the interest of O. C. Hinman of the drug firm of Hinman & Dial at Redondo. Indications point to the fact that Riverside will have open air evening band concerts throughout the summer season.

G. E. Stuart, the Redondo grocer, has moved into the premises in the English block formerly occupied by the Co-operative store.

The Ladies' Aid Society of Etiwanda has undertaken to raise the balance of the money still needed to build a new Congregational church.

The last trip of the George Loomis from San Francisco to Ventura and return was made in sixty-three hours. She carried up 617 barrels of oil.

A new well has just been completed north of Pomona, close to the foothills. The well is 225 feet deep and has ninety feet of water standing in it.

About fifty members of Ramona Rebeah lodge, I. O. O. F., of Riverside, will go to Corona this evening for the purpose of instituting a new lodge of the order at that place.

In the superior court of Orange county yesterday Matthew Potter was granted a divorce from Sarah A. Potter, and Mrs. Cora Erlman of Anaheim was granted a divorce from F. C. Erdman.

The Epworth leagues of Orange county held a convention yesterday in the First Methodist church of Santa Ana. It was the first convention of the kind to be held in that county and was well attended.

The Ventura city trustees, after six secret sessions, have arrived at the conclusion that the water rates must be cut and as a basis took the figures of the water company when it offered to sell to the town, which were \$100,000. The decrease is \$300.

City Engineer Leslie of Santa Ana is busily engaged in laying out Birch park according to the plans and designs prepared by Gardner Hoss. It will only be a short time now before the city has a public park of which it will not be ashamed.

Riverside Thursday evening, his subject being the "Saloon." It has been a long time since the saloon and its keepers got such a scolding in Riverside as was given them by the reverend speaker. The address was given under the auspices of the churches, which are to band together for the purpose of making a determined fight against the saloon of anyone to the office of trustee for the city in the coming election who is not a Prohibitionist and who will not pledge himself to keep out the saloon.

##### KICKED HIM HARD

J. M. Taylor Convicted of Battering E. F. Vail's Anatomy

J. M. Taylor, the well-known real estate dealer, was found guilty of a charge of battery in Justice Owens' court yesterday afternoon, and will be sentenced today. He was arrested on complaint of E. F. Vail, a member of a firm engaged in a special advertising business. The ad was entered into a contract with Vail's firm for a write-up and had signed a contract with the firm. He claimed yesterday that a condition of the contract was that the firm was to buy a house from him before March 16 or else the contract would be considered void. The house was not purchased up to the time of the assault. Vail went to Taylor's office, on Third street, between Spring street and Broadway, on the 1st inst. to secure the "copy" for his "ad," and also to collect \$25 alleged to be due. Taylor demanded to see the contract, and when it was handed him he discovered that the alleged condition had been eradicated from it. He wrote the word, "canceled," across the face of the paper and would have kept it had not Vail snatched it from his hands and started for the door. Taylor pursued him and at the head of the stairs landed a heavy kick "at the base of the spine," as Vail expressed it in court, resulting in the latter's hasty exit into the street. Taylor's defense was that he had been provoked by the action of the collector in taking the contract from him.

##### AT THE THEATER

LOS ANGELES THEATER.—Janet Waldorf appeared for the second time in this city last night in the character of Julia in "The Hunchback," and confirmed the good impression made by her acting the night before, when she played the part of Fathima in "Ingomar." The success of the performance was also due in a marked degree to the acting of William McVay as Master Walter.

The audiences that have greeted Miss Waldorf have not been large, owing to the fact, no doubt, that she has arrived here unheralded and consequently unknown. The work that she is doing, however, entitled her to warm recognition, which no doubt she will receive in due time. At the matinee today "The Hunchback" will be repeated and "Ingomar" will be given for the last time tonight.

### Time's Verdict.

Popularity comes not by chance to the remedy that grows in favor for fifty years.

## TARRANT'S EFFERVESCENT SELTZER APERIENT

is popular because it is the ONE PERFECT remedy for sick headache, biliousness, constipation and digestive disorders. It's grateful to the taste. All druggists. 50c. and \$1.00.

TARRANT & CO., CHEMISTS, NEW YORK
