FOR SALE—THE WAY TO MAKE MONEY is to buy when other people want to sell and to sell when other people want to buy. A one-acre tract, equipped with one mile west of the Van Nuys hotel, being "hard up" and a non-resident, is very anxious to sell and will accept almost any price that is offered; the lots are well situated and easily salable if pushed a little, but they would be still better to hold for say a year, as they are in a district that is just beginning to attract particular attention, and which in a short time will contain some of the finest residences in Los Angeles. They can be bought today, in a body, for about 50 cents each. They are well equipped with water, sewer, gas, and electric lines. More than one-third of the money here paid down, if that is any inducement. An absolutely safe and at the same time profitable investment. There is no better thing in Los Angeles. If you care to look at the property address C. Box 17, Herald office. 12
