NO CHANCES BEING TAKEN ON SAN PEDRO

HAWAIIAN BILL FEATURES

The Polynesian Phrase "White Man" Is Expansive—Multiple Votes or "Plumping" to Be Allowed

WASHINGTON, Dec. 7.—(Special Correspondence to The Herald.) Letters and reports from government officials in California to the chief of engineers here announce that the San Pedro work is progressing rapidly and favorably.

There will be comparatively little difficulty in procuring another appropriation this year, as the project is now undoubtedly to be classed as a continuing contract which must be provided for under the sundry civil bill.

The California members, however, are taking nothing for granted and are already making efforts to insure a plentiful supply of money.

It is probable that a part of the present appropriation will not be expended this year and will have to be reapportioned for next year.

The long delay of Secretary Alger in letting the contract and his attempts to turn it down resulted in so much delay that there will hardly be time to expend the present year's supply altogether.

RESTRICTING IMMIGRATION The senate is making fresh efforts to consider and pass an act restricting immigration still further, principally on the ground that we are about to annex outlying territory and that we may in consequence be flooded with its inhabitants.

There seems little reason to really fear this, however. The people of Cuba and Porto Rico have always enjoyed free movement in and out of the United States.

These of Hawaii are limited by the scheme of government presented by the Hawaiian commissioners, while the inhabitants of the Philippines will undoubtedly be restricted by the same right that duties will be levied against their products.

THE HAWAIIAN BILL Considerable attention was excited, by the way, by the peculiar phraseology of the Hawaiian act introduced yesterday which declared that all "white persons, including those of Portuguese and African descent * * * shall be citizens."

This probably arose from the peculiarity of the South sea dialect, which classifies a negro as a "white" man. Probably the Polynesian word really means foreigner or something of the sort, but it is always translated white man.

The reasons for the express inclusion of the Portuguese is not clear.

There are other special features of interest in the Hawaiian bill. Perhaps the most radical departure from our own system consists in giving multiple votes for members of the lower branch of the legislature. It is as if one of our states elected all its congressmen at large and as if the voters had the right to cast, say, five votes, for any one man, instead of one vote each for each of the five members to be chosen.

Such a system will surely drive the political prophets out of their senses with attempts to figure out the results of the election.

A somewhat similar system was in vogue in Great Britain years ago, when a man could "plump" that is, cast both his votes for the same candidate or could divide them between two.

CRITTENDEN MARRIOTT. PASADENA BUDGET Stevens Let Down Lightly—Protest Against the City Attorney

PASADENA, Dec. 12.—(Office of The Herald, 16 West Colorado street, telephone 675.) Mitchell Stevens was sentenced 850 on fifty days in jail for stealing a watch from J. P. McNally at the Los Angeles home last month.

clerk-elect is a lawyer, and previously practiced this profession in the state of Illinois. By Mr. Trowbridge's appointment Mr. Eaton follows the precedent established by Mayor Snyder in selecting a newspaper man for the position.

The only fear that Mr. Trowbridge's friends entertain for him in the new position that he has accepted is that he will not be able to entirely fill the chair previously occupied by Walter F. X. Parker and Robert A. Todd, unless he begins at once to annex adipose tissue.

The position, however, which is worth \$125 a month and perquisites, has hitherto had a fattening tendency. "George's" many friends hope that he will in due season develop as wholesome a corporation as his predecessors.

GAVILAN'S RICH ORE

A FINE LEDGE IN SIGHT WITH SPLENDID SPECIMENS

The Extent of Last Week's Rain—A Peacemaker, a Pitchfork and a Melee

RIVERSIDE, Dec. 12.—Word reached this city today that a very rich strike was made in the Gavilan mine Saturday. A fifty-pound piece of ore was taken out of the mine which was said to be thoroughly threaded with gold, and a fine ledge of the ore is in sight.

The strike has caused a great deal of excitement among the miners of this city, as well as in the Pomona district. This is the second strike of rich ore made in the Gavilan mines in the past few weeks.

Some years ago a Riverside company opened a mine near that in which the present strike has been made, but they, like all the old miners, believed that there was no gold deep down on the Gavilan ledges, and when the water level was reached threw up in disgust. The present rich ore is being taken from levels below 400 feet.

RIVERSIDE BREVITIES While the rain of last Friday amounted to a quarter of an inch in this city it was heavier out in the country.

MINISTERS' MEETING Spirited Discussion on Congressman Roberts of Utah

The Methodist Ministers' association held its regular weekly meeting yesterday evening, in the Broadway A. E. church. Rev. R. L. Bruce read an article from the December number of the Methodist Review on the Spanish-American war that was discussed at some length.

The most spirited discussion of the morning, however, was called out by a communication read by secretary, Rev. F. D. Mather, on the election of Brigham H. Roberts, congressman from Utah, who is said to have three wives.

An appeal was made to the Christian men and women of the country to protest against his being seated.

Rev. Will A. Knighten made an earnest speech on the subject, and stated that Mormon missionaries are seeking to spread their doctrines in this city and are winning converts. He thought measures should be taken to suppress this teaching, which is against the laws of the state.

Rev. E. P. Dundy, Presiding Elder of the district, spoke warmly on the subject. On motion of Rev. W. A. Knighten a committee consisting of Revs. F. D. Mather, B. E. Newton and George W. Bovard was appointed to draft suitable resolutions expressing the sentiment of the association, to be presented for action at the next meeting. The resolutions will be forwarded to Congressman Waters with the request that he use his influence against the admission of the Utah polygamist.

On motion, Rev. G. T. Cochran, D. D., was requested to prepare a paper to present at some future meeting on the "Recent Phases of Higher Criticism in Germany." The association will meet next week with the ministerial union in the Y. M. C. A. parlors.
