

# THE HOME OF PE-RU-NA, THE GREATEST MEDICINE PLANT IN THE WORLD.

**THIS GREAT CATARRH REMEDY WAS DISCOVERED BY DR. HARTMAN, THE FAMOUS CATARRH SPECIALIST.**

**PE-RU-NA HAS BECOME THE WORLD'S CATARRH REMEDY BECAUSE IT CURES, AND CONTAINS NO NARCOTICS AND NO WHISKEY.**

**Buildings Cover a Floor Space of Seven Acres.**

**Pe-ru-na is an American Product Used in Millions of Homes the World Over.**

**A Great Manufactory**

A representative of this paper had the pleasure of viewing the greatest medicine plant in the world and presents the following interesting facts:

The plant of The Peruna Drug Manufacturing Company is the largest proprietary medicine manufactory in the world. Its buildings are of the most modern and expensive kind, including within them pharmaceutical apparatus equal to any establishment of the kind in the world.

The plant covers a large area in the thriving city of Columbus, and many of the buildings in the point of architecture and material are the finest structures in the state of Ohio. No expense or pains have been spared to make Peruna one of the most scientific and pharmaceutical products the world has ever known.

The rapid growth of the Peruna Drug Manufacturing Company is as phenomenal in the business world as the universal popularity of their famous remedy, Peruna.

The accompanying cut gives a glimpse of the home of Peruna as it stands today. A visit to its busy laboratories, bottling and shipping rooms constitutes one of the sights of the city.

**Hundreds of Visitors**

Hundreds of visitors are conducted through the establishment every month, where everything concerning the manufacture of Peruna that can be comprehended by the non-professional visitor is fully explained.

Although Peruna is a proprietary medicine, the details of its compounding are no secret, and nothing gives Dr. Hartman greater pleasure than to show the many friends of Peruna all the essential processes by which Peruna is made.

**A Doctor's Prescription**

Before Peruna was manufactured as a proprietary medicine, it had been prescribed by Dr. Hartman for many years. The Doctor used to practice medicine in Pennsylvania and was probably one of the largest practitioners in that state. Every day he found himself writing his favorite prescription for catarrh and catarrhal ailments.

**Prescribed for Years**

With very little change this prescription was used year after year. So frequently did he have occasion to write the formula for Peruna that he could do it in the dark with his eyes shut.

People would take the prescription to the drug stores, where they would procure the medicine. Unfortunately, one druggist would put up the prescription a little differently than another druggist. The color would not be the same, or possibly the taste would be a little different.

One druggist would fix Peruna so that there would be a little sediment in it, while another would compound it in such a way as to maintain it perfectly clear.

For years Dr. Hartman used Peruna in his private practice as a regular prescription, and had no thought of manufacturing and advertising it as a proprietary medicine.

**Forty Thousand Patients**

Dr. Hartman estimates that he must have prescribed Peruna for over forty thousand patients before it was advertised as a proprietary medicine. In fact, circumstances forced Dr. Hartman to manufacture the remedy himself in order to insure a standard purity and a uniform appearance.

Peruna needed no advertising in the

section where the Doctor practiced medicine. Already thousands of people knew of its good qualities. This is exactly what has happened in every other locality where Peruna has been used.

It is not like so many other remedies that pass away as soon as the first two bottles are used. The longer Peruna is used in any community, the more popular it becomes.

**Pe-ru-na Actually Cures**

The reason why Peruna has become a standard catarrh remedy the world over is simply because it cures catarrh. There is no other possible explanation of it. It is simply idle talk for any one to pretend that advertising can create a popularity for a medicine equal to that of Peruna.

If Peruna did not cure catarrh, people would soon find it out. Perhaps a well-worded advertisement might sell a bottle of Peruna, even though Peruna were no good.

But, after a person has bought one bottle of a useless medicine, no advertisement can induce him to buy the second bottle. If, on the other hand, he finds the medicine to be what it is recommended, then he requires no further argument or inducement.

**Pe-ru-na's Popularity**

This exactly explains why Peruna has become so popular. It cures catarrh. This is an amply sufficient reason why it should become popular. Catarrh is almost universal. Catarrh is difficult to cure. The doctors do not care to treat cases of catarrh at all. It therefore follows that when a remedy is devised that can be used by anyone in the home at a moderate cost, such a remedy should inevitably become popular.

**Pe-ru-na Contains No Narcotics**

There are a great many catarrh cures in the world. The most of them are local applications. Few of them are to be used internally.

Unfortunately, a large number of these catarrh remedies, especially the ones prescribed by the doctors, contain narcotics of some sort. Cocaine, opium, whiskey and other narcotics are used. These remedies give temporary relief. The patient thinks he is better right away. In a few weeks, however, he discovers his mistake. Not only is his catarrh no better, but he has acquired the habit of using some narcotic.

This happens in a multitude of cases. Such remedies cannot succeed. People find them out very quickly.

**A Safe Home Remedy**

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

**Used for Twenty-five Years**

Peruna has been before the public as a catarrh cure for about twenty-five years. Previous to that time it was the private prescription of Dr. Hartman. For twenty-five years Peruna has stood the test of every opposition.

Made in large quantities to supply the immense demand for it, it requires the utmost vigilance to maintain the purity and excellence of every single bottle. Sent as it is to the cold, wintry climate of the north, or the hot, torrid climate of the south, Peruna must be so prepared that neither cold nor heat can change its composition or alter its appearance.

**In All Directions**

North, South, East and West, carloads of Peruna are being rapidly conveyed to their destination by hundreds of railroads.

Not a single bottle of this vast amount contains a speck of impurity or the slightest difference in composition. The contents of every bottle are exactly alike. All these difficulties have been overcome and Peruna is furnished to over two millions of homes, each bottle in spotless purity and pharmaceutical integrity.

**Endorsed by Prominent People**

No medicine that the world has ever produced has received the unqualified endorsement of so many prominent people as Peruna.

All classes praise Peruna. People of national prominence, who are busy with professional and official affairs, do not usually take time to write letters of commendation. Such people are generally very cautious about allowing their names or photos to be used in public print, especially to recommend a remedy, even though they believe the remedy to be a good one.

But Peruna arouses such enthusiastic approval as to break down all precedents in this particular. It is no wonder when one stops to think of it. Catarrh is an insidious disease. While it does not often make one actually sick, it is a very annoying ail-

ment. It hangs on, year after year. It yields neither winter nor summer. It becomes a drag and a drain from the vitality, a disfigurement as well as an annoyance.

To be rid of such a disease after repeated failures to cure it, is sure to awaken feelings of unrestrained gratitude.

**A Grateful Public**

This is why so many prominent people give public endorsements of Peruna. They have received a cure, have been liberated from a thralldom that may have imprisoned them for years. No wonder they are willing to praise such a remedy.

No other inducement would have secured the consent of senators, governors, congressmen, consuls, bishops, prominent physicians and clergymen of all creeds. No inducement but genuine gratitude could have procured such testimonials.

**Congressmen Recommend Pe-ru-na**

Hon. F. Y. Fitzpatrick, congressman from Kentucky, says: "I can cheerfully recommend your remedy to any one suffering with catarrh or who needs a good tonic."

Ex-Congressman Phil A. Thompson from Kentucky says: "I take pleasure in testifying to the merits of your medicine."

Hon. H. F. Bartine, ex-member of congress from Nevada, says the following: "Your Peruna is a great remedy for catarrh and all its incidentals."

Congressman J. A. Barham of Santa Rosa, Cal., says: "I can cheerfully recommend Peruna as an excellent remedy for all catarrhal troubles."

Hon. Geo. C. Hazelton, ex-member of congress from Wisconsin, writes as follows: "I can cordially recommend your Peruna to anyone suffering with catarrh."

**Governors Praise Pe-ru-na**

Hon. W. M. Lord, governor of Oregon, writes as follows: "I have had occasion to use Peruna in my family for colds and it proved to be an excellent remedy."

Hon. R. Howell Gleaves, governor of South Carolina, says: "I am glad to speak my best possible words for Peruna as a remedy and as a tonic."

**Prominent Army Generals**

Gen. Wm. Cooper Talley of Washington, D. C., in writing of Peruna, says: "Your Peruna has been used by me and my friends as a relief for catarrhal troubles with the most beneficial results."

Gen. J. G. Bigelow of Washington says: "I am happy to say I have succeeded in curing what threatened to be a serious affliction by taking Peruna."

Gen. Robert Smalls, Beaufort, S. C., in a recent letter, says: "I find Peruna beneficial and to be all that it promises."

Gen. J. D. McBride writes from Washington as follows: "I have no hesitation in recommending Peruna to all persons." Gen. John Middleton says: "I feel it a duty to recommend Peruna's usefulness to my fellow citizens."

Gen. S. S. Yoder writes from Washington: "I have found Peruna to be a wonderful remedy."

Gen. L. L. Lumax, Washington, D. C., says the following: "I can cheerfully recommend your remedy as a permanent and effective cure for catarrh." Gen. Ira C. Abbott says: "I am fully convinced that your remedy, Peruna, is an excellent tonic."

**Write to Dr. Hartman**

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

## PASADENANS VOTE FOR THE RECALL

### CITY PRINTING MUST BE DONE AT HOME

### Proposed Increase of Municipal Officials' Salary Turned Down.

### Vote of the Socialists Heavy

Pasadena Agency, 114 East Colorado Street.

PASADENA, Feb. 4.—General apathy characterized the charter amendment election held today, less than a quarter of the voting force turning out to vote upon the ten proposed amendments. While the recall amendment carried, the fourth, sixth and eighth did not carry. The fourth would have allowed the city printing to be done outside the city in any reputable daily paper published in the county.

The sixth proposed amendment provided for an increase of salary for the city clerk and city treasurer.

The eighth was known as the "amusement amendment," since it provided for the expenditure of a sum not exceeding \$2500 for the benefit of the city, according to the judgment of the city council.

It is supposed that the Socialist vote was cast to a man, and at the last general election the party cast 400 votes here.

At the monthly meeting of the Shakespeare club this afternoon Mrs. Towne, a member of a Minneapolis club, spoke upon the effective work done in that state by club women for delinquent children. Emphasis was laid on the separation of the sexes, the institutions being apart. Mrs. Towne has visited Whittier and urges the club women to work for separation of the boys and girls.

The president and secretary of the Audubon society were present by invitation, giving an address and report on the aim of the organization and the work accomplished by the local society. Dr. Garrett Newkirk, president of the society, delivered the address and W. Scott Way then gave some of the results of the society's work during the ten months since its organization. Three hundred and fifty members are now enrolled on the membership list, thirty birds have been protected by county law through the efforts of the society, over 7000 leaflets have been distributed, more than 100,000 acres of land have been placed under "no shooting" signs, thirty farmers' clubs approached upon the protection of birds with good results, many newspaper articles provided and other work accomplished, and all with an expenditure of less than \$100.

Announcement was made of the state federation meeting next Tuesday, Wednesday and Thursday, in the Simpson auditorium, Los Angeles, and of the

Parafal recital by Miss Alice Coleman in Woodman hall. The postponed Spanish dances were announced to be given as a matinee performance on February 22. Reports from the Burton Holmes lecture committee showed proceeds of \$70 to be turned over to the fund for building the new club house.

### Washington Street Collision

The Altadena car going north on Fair Oaks avenue at 6:30 tonight ran into the North Pasadena car which was switching at Washington street, and the front windows and steps on both cars were more or less smashed. The Altadena car was taken off the track by the force of the collision. No one was seriously hurt, although several were shaken and bruised. Traffic was delayed for some time.

### Water Report Committee

D. W. Herlihy, president of the board of trade, has announced the three men appointed to study the water question for the purpose of submitting a report. They are Harry Goehagan, chairman; J. P. Baumgartner and H. R. Hertel. Mr. Hertel was reluctant to accept the appointment. All the data, engineer's reports and other information in the hands of the city will be placed at the disposal of the committee.

### Bits of News

Rev. Henry T. Statts, pastor of the North Congregational church, has given the Methodists the use of that church for their services, their own building having been destroyed by fire yesterday. Sunday school will be held at 2 p. m., and at 3 o'clock preaching service will be held.

Workmen have been clearing the Pacific Electric tracks in Altadena of the mud and tomorrow it is expected that the cars will run as usual.

A baby is to be given away at the Salvation tent tomorrow afternoon at 4 o'clock. The farewell for Captain Oliver is to take place in the evening.

The funeral of the late Rev. A. Moss Merwin is to be held at 3 o'clock tomorrow afternoon at the First Presbyterian church. It is expected to be a large one. Addresses are to be made by Rev. Malcolm J. McLeod, pastor and intimate friend of Mr. Merwin; by Rev. Robert J. Burdette and by some of the Spanish pastors whom he has trained. Music will be by the church choir.

The Spanish dances, which were postponed on account of yesterday's storm, are to be given on the afternoon of February 22 at the Lowe opera house. All tickets for yesterday will be honored.

The Northeast Improvement association will hold a meeting Monday evening at the residence of Capt. Waterhouse at the corner of Lake and Villa streets.

The case of Rammish & Marsh, the contractors, who are charged with cruelty to horses used in grading at Dolgeville, was continued in Justice Klamroth's court this morning till next Saturday. The continuance was at the request of the Humane society.

Frank Culver Johnson, a former Pasadena man, died yesterday morning at Camden, Ark. He was a son of the late Tyler Johnson.

Mrs. Alice M. Kemp, aged 42, wife of William Kemp, died last night. She was a native of England and for nine years had been a resident of Pasadena. The committee of entertainment, com-

posed of Mrs. John S. Cravens, Mrs. H. Page Warren, Mrs. Clarence Burton Scoville and Mrs. H. J. Macomber, has announced the list of patronesses for the charity ball to be held at Hotel Green on the night of February 16.

### SAN PEDRO RESIDENT IS BEATEN AND ROBBED

H. A. Cole Knocked Down and His Pockets Picked of \$11.50

Special to The Herald.

SAN PEDRO, Feb. 4.—H. A. Cole, an elderly man, was held up and robbed at the corner of Thirteenth and Beacon streets tonight about 9 o'clock.

Mr. Cole had just left his apartments in the vicinity. He was approached by two men, one tall, the other short, beaten over the head and knocked down. The highwaymen rifled his pockets of \$11.50 and escaped.

Dr. J. S. Gwaltney found the victim lying unconscious on the sidewalk and cared for him. Mr. Cole is in a precarious condition.

Officers are searching for the thugs, but as yet have found no clue.

### ORNITHOLOGIST LECTURES

W. L. Finley Speaks Before Young Men's League in Redlands

Special to The Herald.

REDLANDS, Feb. 4.—William L. Finley, who makes a specialty of bird study, gave a stereopticon lecture last evening under the auspices of the Young Men's league in the Congregational church. A good audience greeted the speaker.

One of the most astonishing freak flowers ever exhibited is now at the board of trade rooms. Two distinct varieties of marigolds are found on one stalk. In one of these varieties two pods had gone to seed and the seed sprouted from the pods. One produced six blossoms and the other nine.

The postoffice receipts at the Redlands office for the month of January amounted to \$2,854.52, which exceeds the San Bernardino office by \$385.16.

A ten-acre orange grove in the outskirts of this city sold yesterday for about \$1000 per acre. The purchaser was A. G. Simonds, a prominent member of the Redlands Fruit association.

### Corona Resident Dies

Special to The Herald.

CORONA, Feb. 4.—At 10 o'clock this morning death relieved the sufferings of Joseph Emery Merchant, aged 46 years, a prominent horticulturist, and one of Corona's most popular citizens. The immediate cause of death was inflammation of the brain, superinduced by nervous prostration from which disease he had suffered since last June. He leaves a widow. The funeral will take place Monday morning from the family residence on Orange Heights and will be in charge of the local lodge of Masons of this city of which order the deceased was a member. In accordance with an expressed wish of the decedent the remains will be shipped to Los Angeles for cremation.

**Present Your Photograph Coupons Before February 7**

All readers of the Los Angeles Herald holding photograph coupons are requested to present them at Marceau's Studio, 227 South Spring street, before February 7, as the coupons will

## DISS AND HAYS ARE DISCHARGED

### INDICTMENT AGAINST THEM IS QUASHED

Judge Taggart Declares That There is No Question of the Disqualification of Some of the Jurymen

Special to The Herald.

RIVERSIDE, Feb. 4.—The indictment proceedings against H. T. Hays and J. W. F. Diss came to a sudden termination at 2:30 o'clock this afternoon, when Judge Taggart of Santa Barbara granted the motion to quash the indictments. In giving his decision in the matter Judge Taggart said that there was no question of the disqualification of a number of the jurymen, including A. P. Johnson, E. P. Clarke, because of their bias; of E. W. Holmes and D. P. Chapman because they were stockholders in the wrecked Orange Growers' National bank; G. W. Dickson because he had acted as agent and prosecutor for the Salt Lake, which was seeking to indict the alleged defaulters.

E. P. Clarke, editor of the Riverside Daily Press, and a member of the grand jury, was the star witness last evening. Three editorials of which he admitted the authorship were read by Attorney Rogers in open court. They roasted Hays to a fine brown finish because of his alleged embezzling operations. Two or three other members of the grand jury were examined, but gave no material testimony.

G. W. Dickson was the first witness called this morning. He proved to be an easy mark for Rogers and his insidious system of interrogations. Dickson was formerly deputy sheriff and city marshal, and is now a real estate man. He told on examination of going to Stockton to get affidavits from one D. Albar for the Salt Lake attorney who wanted them to use in the prosecution of Hays and Diss. He also did a few other little detective jobs for the railroad in 1903. Then as a member of the grand jury he aided in the investigation of the matters in which he acted as the railroad's agent.

Bradford Morse, secretary of the grand jury, proved a valuable witness for Hays and Diss. He testified that a committee composed of A. P. Johnson, D. E. Myers and James Mills had gone to Los Angeles to secure special counsel to aid the district attorney in the prosecution of the case. This committee was appointed by the foreman of the grand jury.

Two or three jurors were examined, but little of value was elicited.

### ALAMITOS REJOICING

### Safety of Crops Is Well Assured and Everybody Busy

Special to The Herald.

LOS ALAMITOS, Feb. 4.—The record here for this storm is 2.15 inches, making a total of 6.32 for the season, nearly all of which has come since January 1. The precipitation has been in showers so far apart that the soil has absorbed it all, and the benefits are incalculable. Crops are now assured on upland and in valley; hay, grain and beet crops are a certainty, and the dairyman who did not sell out is the fortunate one. The demand for beet land is greater than the supply and it is safe to say that every available acre will be planted as soon as practicable.

Since the close of last season's run a force of men has been constantly at work upon repairs in and about the sugar factory, and this will continue until everything is in first class condition to receive the beets.

For several months past shipments have been made of one of the by-products of sugar-making—lime-cake, it being applied in large quantities to walnut and orange orchards. Where lime is lacking in the soil, as is generally the case, the benefits are most pronounced.

**Sheriff After Ensenada Suspects**

By Associated Press.

SAN DIEGO, Feb. 4.—Sheriff Norman of Amador county is here en route to Ensenada, armed with extra

### SAN BERNARDINO FAVORS REGULATION OF RATES

### Citizens Urge Congress to Pass Interstate Commerce Commission Bill

Special to The Herald.

SAN BERNARDINO, Feb. 4.—At a joint meeting of the board of trade and merchants' association last night a resolution was adopted directed to congress urging the passage of the bill before congress to give the inter-state commerce commission, power to fix freight rates, the same to go into effect at once and be reviewed by the courts later.

William Harris, charged with burglary of the pumping plant of the Colton City Water works, and almost ruining a portion of the pumping machinery by carrying off a portion of the brass parts, has been sentenced to five years at Folsom by Judge Bledsoe of the superior court. Harris has refused to talk throughout the time he has been under arrest, and no motive for the act has ever been uncovered. Nothing is known as to who Harris is or where he came from.

A movement is on to add about a mile of territory on the east of Colton to the municipality. The strip of country is quite thickly settled and would add about 600 to the population of the city. The people in the district it is proposed to include in the city, want the benefit of the city water and lights.

Peter Quigley, the man who is alleged to have tried to kill J. H. Sloans, a Daggett saloonkeeper, because the latter refused him a drink, has been held to the superior court for trial.
