

SOCIETY WEDDING
BRILLIANT AFFAIR

MISS LILA FAIRCHILD BRIDE
OF JOHN G. MOTT

Prominent Attorney Marries One of
the Most Popular Daughters of
Los Angeles—Ceremony at
Woman's Club House

The woman's club house was the scene last night of the most brilliant wedding ever celebrated within its walls when Miss Lila Fairchild, daughter of Mr. and Mrs. John A. Fairchild of 837 South Burlington avenue, was married to John G. Mott, a prominent attorney of Los Angeles. Rev. P. Harnett, vicar general of the Catholic diocese, officiated.

The ceremony was performed in the auditorium of the club house which had been converted into a bower of ferns and choice blossoms. A canopy of asparagus plumosus and white satin ribbon extended over the entire room and at the end where the bridal party stood a flock of nine doves was suspended. The platform was a bank of ferns and greenery and an unusual and artistic touch was given by two almond trees in full bloom placed at each end of the platform.

The wedding party approached the altar to the strains of the wedding march from "Lohengrin," played by an orchestra. The bride, who was gowned in a robe of duchess lace cut en train and made over white accordion pleated chiffon, was attended by her sister, Mrs. Nathaniel W. Myrick, as matron of honor. A long wedding veil was fastened in place by a wreath of lilies and a white basket shaped like a shepherd's hat and filled with the same flowers was carried by the bride.

Mrs. Myrick's gown was of pink pan velvet embossed with roses and garnished with duchess lace. A similar basket was carried by her filled with pink bridesmaid roses. The bridesmaids were Misses Lina Johnson, Vera Jevne, Kathleen Spence, Chonita and Viola Van der Leek, and they wore dainty white gowns of mousseline de sole over pink silk. The gowns were beautifully trimmed with valencines lace and crush girdles of pink silk finished them at the waist. The idea which was suggested in the bride's flower basket was carried out by the bridesmaids who carried in addition to their bouquet of pink roses, shepherd's crooks tied with bows of pink chiffon.

The bride, who was preceded by Masters Hallock Van der Leek and Jack Myrick in suits of white velvet, came down the aisle leaning on the arm of her father. Mrs. Fairchild wore a gown of pear gray crepe de chine. Mrs. Mott was attired in a costume of the same material in black, while Mrs. Van der Leek, the sister of the bridegroom, was dressed in black velvet.

In the reception rooms where the receiving party stood, festoons of smilax with pink stock was used and throughout the club house the lights were shaded in pink. In the dining room the same colors were used. Pink and white hyacinths, pink sweet peas and maidenhair ferns were combined to form a centerpiece for the bridal table and the places of the twenty-one who were seated here were marked with white satin ribbon favors. Pink primroses growing in pots were used on the other tables.

Receiving with Mr. and Mrs. Fairchild and the bridal couple were Mrs. T. D. Mott, Mr. and Mrs. Henry Van der Leek, Mr. and Mrs. Nathaniel W. Myrick, Miss Sepulveda, Ygnacio Mott, Stephen Mott and those who assisted included Mesdames E. F. Spence, G. G. Johnson, Hans Jevne, Willard Stinson, John T. Jones, John H. Norton, Arthur Braly, Jefferson Paul Chandler, Howard G. Bundrem, Frank Kelsey, William Doran, Albert L. Cheney, E. W. Gilmore, Charles Dick, J. A. Jevne, W. A. Barker, Frederick T. Griffith, Miss Sada Johnson and Miss Spence.

A large number of guests witnessed the ceremony and remained for the dancing which followed.

The popularity of both bride and bridegroom made the affair of unusual social interest. Mr. Mott is prominent in political affairs and in professional life.

Mr. and Mrs. Mott will be at a home at 837 South Burlington after a wedding tour.

Paper Resumes Publication

Volume 1, No. 6, of the Monthly Review of South Los Angeles appears after a suspension of the paper for several months. It is a bright, three-column, eight-page paper, full of local news and advertisements. It is published by a stock company composed of A. C. Winter, president; H. Desser, vice president; C. A. Cary, secretary and treasurer; J. W. Gilbreath, managing editor; B. M. Garrell, editor.

Green Carnations

The H. G. Whitley company of 345 South Broadway is exhibiting two specimens of flower life which are curiosities. Two green carnations which appear to be in every way perfect blossoms are to be seen in the window at the Whitley store and they are attracting considerable attention.

A BALD NEWSPAPER MAN

Getting a New Crop of Hair, and Has No More Dandruff. Everybody in the northwest knows Col. Daniel Beards, the veteran journalist and publisher of Butte. January 10, 1905, the colonel writes: "I used a couple of bottles of New's Herpicide with marvelous results. The dandruff disappeared; a new crop of hair has taken root, and the bald spot is rapidly being covered." Herpicide is the only hair preparation that kills the dandruff that digs up the scalp in scales as it burrows its way to the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out. Get the dandruff germ with Herpicide. Sold by leading druggists. Send five cent stamps for sample to The Herpicide Co., Detroit, Mich.

MISS LILA FAIRCHILD AND JOHN G. MOTT, WHO WERE MARRIED LAST EVENING

CORNELL STUDENTS MEET

Former Ithacians Organize Mutual Acquaintance Club

With a purpose of "fostering Cornell spirit" among its members, the Cornell University club of Southern California held its first meeting last night. The membership will include every matriculate of Cornell university now living in this section, of which there is a considerable number. The meeting was largely attended and the club was launched with a great deal of enthusiasm.

The officers elected are: William Niles '74, president; T. B. Comstock '70, vice president; Charles L. Chandler '01, secretary-treasurer; with Dr. F. R. Percival '86 and John C. Morgan Jr. '98 on the executive committee. As part of the organized effort to keep local Cornellians in touch with each other, regular monthly club dinners are included in the plans of the club and prominent non-resident Cornellians will be entertained informally, but after the most approved Cornell

DEATHS OF THE DAY

Mrs. M. P. Westphal, San Jose

SAN JOSE, Cal., Feb. 23.—Mrs. Mary Percy Westphal, a well known local pioneer and mother of Attorney John E. Richards and Judge T. Wallace, died this morning after an illness of two years.

Roger B. Friend, Oakland

OAKLAND, Feb. 22.—Roger B. Friend, an insurance man well known on the Pacific coast, died unexpectedly today. He had been ill only two weeks.

NEGRO BURNED TO DEATH

SAN FRANCISCO, Feb. 23.—Mrs. V. L. Hunter, colored, has been burned to death in flames that destroyed her home in this city. She accidentally overturned a kerosene lamp which started the fire.

BITS OF PHILOSOPHY

There's many a true word spoken in mistake. —Cincinnati Commercial Tribune. Wisdom don't die wid any man, an you may well say; it don't live wid 'em long. —Atlanta Constitution.

URGES NEUTRALIZATION OF WAYS OF COMMERCE

Action Is Taken by Arbitration Committee of the Massachusetts Board of Trade

BOSTON, Feb. 23.—Following out a resolution adopted at a recent meeting of the Massachusetts board of trade, favoring the establishment by treaty of "neutral zones from the ports of North America to the ports of Great Britain and Ireland and the continent of Europe, within which zones steamships and sailing vessels in the conduct of lawful commerce shall be free to pass without seizure or interruption," the committee on international arbitration of the state board has prepared a memorial bearing on the subject, which has been sent to all the state boards of trade, chambers of commerce and other commercial organizations in the United States and to some of the leading bodies of a similar nature abroad.

The circular gives the resolution adopted by the Massachusetts state board which it says will be presented to the president, to the secretary of state and to the senate, and suggests that similar action be taken by the other commercial bodies in this country and in Europe. The circular calls attention to the existing neutral zones and continues:

"It is believed that the time has come to extend neutralization to what may be called the ferry ways of great commerce passing over the Atlantic. These ways of commerce can be benefited by treaties among the states which have become independent for foods, fibres and fabrics of every kind. They may be neutralized by states bordering upon the Atlantic and those that can be reached from the ocean."

CHINAMAN ROBBED BY FELLOW CHINESE

SAN FRANCISCO, Feb. 23.—Two Chinese highbinders dressed in American clothes entered the residence of a Chinese physician and robbed the premises. The doctor's wife, who was alone in the house, was made to surrender jewelry of considerable value at the point of a revolver.

NEGRO BURNED TO DEATH

SAN FRANCISCO, Feb. 23.—Mrs. V. L. Hunter, colored, has been burned to death in flames that destroyed her home in this city. She accidentally overturned a kerosene lamp which started the fire.

CHANGE IN BILL IS DISAPPOINTING

"LOHENGRIN" IS SUBSTITUTED FOR "TOSCA"

Illness of Joseph F. Sheehan Makes Repetition of Opera Necessary. The Company Refunds Money

Much to the disappointment of a large audience, which expected to hear "Tosca" sung with Joseph F. Sheehan in the cast, "Lohengrin" was substituted last evening for the much advertised work of Puccini. When the curtain failed to rise on time it was evident something had gone wrong. At 8:30 o'clock it was announced that Mr. Sheehan was still suffering from the cold which has disabled him since his arrival in Los Angeles and the management of the Savage English Grand Opera company offered to refund the money of all ticket holders who might be dissatisfied on account of the necessary change of bill.

Notwithstanding the explanation and the promise to make good tickets that might be considered financial losses, there were persons sitting in the parquette who hissed repeatedly, but adherents of the Wagner school of music soon drowned the unpleasant noise with handclappings.

Less than 200 persons left the Mason opera house, most of whom held coupons for the \$2 seats. They formed in line before the ticket window and in less than half an hour between \$400 and \$500 had been returned.

The overture to "Lohengrin" was played at 9 o'clock. At this time all who had bought standing room had obtained seats and there was only one vacant row on the first floor.

The title role was sung by Henri Barron, who had but brief notice that he would be required to take the place of the much overworked Mr. Wegener. It was Mr. Barron's first appearance as Lohengrin and he made a fine impression. In the first act he showed signs of nervousness, but he soon gained poise and confidence. In face and form he was a less heroic Lohengrin than Mr. Wegener, but he was a knight of good presence.

Mr. Barron has a pure tenor voice of beautiful quality and his method of using it is good, for it gives the impression that its natural range has not been spoiled by bad training. The chance that gave him a leading part revealed the fact that he is a tenor of splendid possibilities.

Harrison W. Bennett again sang the part of the king. Winfred Goff assumed the role of Telramund in which Arthur Deane was heard on Monday, and he was most acceptable vocally as well as dramatically. Miss Rennyson as Elsa and Miss Newman as Ortrud repeated their first night success.

It is not likely that "Tosca" will be heard this week as the entire house is sold for the "Lohengrin" matinee on Saturday.

Folsom Escape Gets Long Term

SACRAMENTO, Feb. 23.—James Roberts, one of the thirteen convicts who escaped from the state prison at Folsom on July 27, 1903, and who was the first of the escaped convicts to be captured, was this morning sentenced to a term of forty-five years' imprisonment. Roberts was recently tried on a charge of complicity in the murder of Guard Cotter, who was killed at the time of the break, and convicted of murder in the second degree.

McCarty Elected Superintendent

SAN FRANCISCO, Feb. 23.—The supreme court decided today that T. E. McCarty received more votes than S. B. Wilson for the office of superintendent of schools of Eldorado county at the election of 1902. Wilson was declared elected by the canvassing board and McCarty contested. The lower court decided in favor of Wilson, but the supreme court reverses that judgment.

BURSTING MAIN FLOODS STREET

WATER POURS IN TORRENTS OVER TRACKS

Cars of Several Lines Tied Up by Washouts, and Damage Done to Asphalt Pavements

The twelve-inch water main running down Main street broke last night at a point midway between Second and Third and before the water could be shut off and diverted the street had been undermined for a distance of seventy feet, the hole or gulch dug by the force of the water reaching entirely across the street in places.

The break occurred just before midnight and at a point where a lateral pipe running to a two way fire plug is connected into the main.

It was more than an hour and a half before the water was finally cut off and by that time a great deal of damage had been done. Fire Chief Strohm was early on the scene and directed a force of fifty men which had been hurried to the point by the water department.

Strohm had the water cut off above and below the break and then conveyed around the break by means of the mains in the other down town streets. The fire department captains were all notified of the change and directed where to couple should a fire break out in the business district.

Water Appears Along Tracks

At the point where the break occurred the water dug a hole 20 feet square and 15 feet deep, while the foundation of the entire street is washed away for some distance on both sides. The pavement will have to be removed and the tremendous hole which is more than 70 feet long filled in. Whether the foundations of the buildings adjoining the street at this point were affected has not as yet been determined.

Shortly before midnight water began to bubble up out of the groove beside the car tracks, the stone casing of the tracks going entirely through the asphalt paving and thus forming an avenue of escape for the water that had risen from the break in the pipe.

The force beneath the pavement grew greater every moment and the asphalt sheeting began to puff up or swell in spots. These spots gradually spread until for many yards the asphalt had been forced up a foot or more, the pavement at the gutter being in several places raised to a level with the sidewalk.

After about half an hour there was a slight cracking sound and a section of the asphalt some ten feet long next the car track was broken off. Through the hole thus created the water poured like a mill sluice.

For a hundred feet on both sides of the original break the water poured through every crack in the pavement and spouted up between the curb and sidewalk. In some places small holes in the sidewalks formed the craters of miniature geysers. The distance some of these springs or artesian wells were from the place where the water first showed indicated that the entire street had been undermined for some distance.

The late cars on several of the lines were tied up for some time and some of them were forced to turn back and use the tracks on other streets to get around the washout.

The amount of damage which was wrought by the water cannot be estimated and will not be known until the pavement is taken up and a thorough investigation made.

The various electric companies had men at work in an effort to protect their conduits.

CITY HALL NOTES

For Cleaner Streets
The outdoor section of the Civic federation through its officers, Mrs. W. Loughby Rodman and Miss Bessie Stoddard, has asked the council to assist in

A Genuine Clearance Sale

OF Underwear Shirts, Etc.

Great Reductions EAGLESON & CO.

112 S. Spring St.

SOUTH GATE LODGE, NO. 330, F. and A. M., will confer the second degree this (Friday) evening. F. H. WHITE, Secretary.

the campaign for cleaner city streets. The suggestion, which is in the form of a letter filed in the office of the city clerk, is that receptacles be placed along the streets at convenient distances, to be used as depositories for rubbish. The suggestion for the use of these receptacles applies to both the business and residence sections of the city.

Park Commission

A committee consisting of Park Commissioners Lamb and Humphreys was appointed yesterday to arrange for the transfer to the city of a fund of \$500, now in the hands of citizens, which was collected for the purpose of building a fountain in Terrace park. The commission agreed to supply 100 palms to be used in connection with this city's exhibit at the exposition at Portland, Ore. Plants will also be supplied to the chamber of commerce exhibit rooms for exhibition purposes. Next Thursday the commission will visit Griffith park.

DEMAND OPEN SHOP IN SAN JOAQUIN VALLEY

Fresno Contractors, Plumbers and Material Men Issue a Declaration

By Associated Press. FRESNO, Feb. 23.—The biggest labor war ever begun in this section of the San Joaquin valley was sounded tonight when an open shop declaration signed by practically every contractor, material man and master plumber in the city was issued.

This statement affects all building operations here. The Building Trades council has not yet held a meeting to decide upon a course of action but the stand taken by the council during three weeks of trouble between the master plumbers and union plumbers signals a bitter fight.

The first action was taken three weeks ago when the Master Plumbers' association declared it would proceed on an open shop basis. Since then all plumbing work has been by the masters themselves until today when a co-operative labor union shop was opened. The troubles of the plumbers were thought to be at an end when tonight the open shop declaration was sprung.

The declaration pledges its signers to pay good wages and work their employes short hours, but declares that men will be hired regardless of union affiliations.

Nearly 1,300,000 new cases were brought before the county courts of England, the so-called "poor man's court," last year.

We Offer \$1,000

For a Disease Germ That Liquezone Can't Kill

On every bottle of Liquezone we offer \$1000 for a disease germ that it cannot kill. We do this to assure you that Liquezone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquezone its worth to humanity; a worth so great that after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights.

We have spent over one million dollars in one year to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen

Liquezone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has for more than 20 years been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vege-

tables; and Liquezone—like an excess of oxygen—is deadly to vegetal matter.

Liquezone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquezone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquezone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

50c Bottle Free

If you need Liquezone and have never tried it please send us this coupon. We will then mail you an order on a local druggist for a full-sized bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it today, for it places you under no obligation whatever. Liquezone costs 50c and \$1.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to the Liquezone Co., 43-64 Wabash Ave., Chicago. My disease is..... I have never tried Liquezone, but if you will supply me a 50c. bottle free I will take it.

747 Give full address—write plainly.

Any physician or hospital not yet using Liquezone will be gladly supplied for a test.
