

EAST PASADENA MAY BE ANNEXED

RESIDENTS' PETITION BEING LARGELY SIGNED

Incorporation of Altadena to Be Speedily Voted on, and New Solution of Difficulty is Proposed

PASADENA, March 9.—Residents on the east side have been quietly circulating a petition for annexation, which is being generally signed. Today similar petitions were started in the city asking that the district from Wilson to Hill avenues be annexed.

One solution to the troubles between the incorporationists and the anti-incorporationists is the plan to annex all the territory about Mountain View cemetery. The matter of the incorporation of Altadena will probably be settled next Monday.

School Grounds and Arbor Day At the regular monthly meeting of the Pasadena board of education held this afternoon F. A. Allen of Altadena offered on behalf of the Altadena Improvement society to improve the large school grounds. The offer was accepted; the board will expend \$250 in preparing the lots, and the association will put as much into trees and plants.

On the seventh of this month the Shakespeare club of this city will plant some thirty trees about the grounds of the McKinley school. A large pine will be planted in memory of President McKinley by Mrs. Ellen B. Farr, whose late husband was a close friend of McKinley during the civil war. The school children will take part in the ceremonies.

A petition was read at the meeting of the board of education this afternoon, signed by some of the lower primary teachers, asking that one ungraded room be arranged for each school building in which pupils who are behind in their studies may have individual attention. No action was taken upon the petition, although it will probably be considered later.

McKelvey-Hall Case The somewhat sensational McKelvey-Hall battery case was tried before Judge Congdon today, and after being out for some hours, the jury brought in a verdict of guilty against McKelvey. Sentence will be pronounced Monday morning at ten o'clock. As Hall is the president of the Merchants' association, and a prominent man in social and religious circles, the case has been of unusual interest. Four witnesses testified to the exactness of Mr. Hall's account of the fracas, in which McKelvey attacked him, the defendant's plea being that Hall made a move as if for a revolver, and therefore his action was in self-defense.

Bits of News The registration books closed last night and show 88 new registrations and 72 transfers, a total of 160. This makes the total registration up to date 4020, which is by far the largest on record.

Orange packing in this vicinity is at a standstill because of the scarcity of cars. The strike of the job printers has been settled in most of the shops, the Morris-Thurston plant being the only one where the men are still out. A settlement is looked for there by tomorrow.

The Pasadena Orange Growers' association is voicing a vigorous protest against the common practice of the local fruit men and grocers in selling oranges not grown here.

Miss Lillian Shuttler of Chicago was thrown from her horse yesterday and injured by being kicked in the face and arm. Miss Shuttler is a niece of Adolphus Busch.

George E. Marzoff, aged 29 years, died yesterday at his home on Elm street. He had resided here the past two months. His sister, Miss Lilla

OLD AGE

Not a Time of Life, or Length of Years, but a Condition of Bodily Tissues.

said a celebrated London physician, and just so long as the bodily tissues can be kept from wasting and built up, just so long can old age be kept at bay, and people will be alert, alive, active and young. The Owl Drug Co. say: "Our cod liver oil preparation, Vinol, is the greatest tissue builder and invigorator in the world for old people. There is nothing else known to medicine that can equal it, because Vinol contains in a concentrated form all of the body-building, life-giving principles of cod liver oil actually taken from fresh cod livers, and is not a stimulant which produces bad after effects. We have letter upon letter from grateful old people whom Vinol has strengthened and blessed with robust health. Vinol invigorates the stomach first of all, enabling it to separate from the food the elements needed for rich red blood, healthy body material and sound, steady nerves. In this way it repairs worn tissues, checks the natural decline, and replaces weakness with strength."

Mr. A. J. Barker of Evansville, Indiana, says there is no other medicine in the world equal to Vinol for old people. He would not take a thousand dollars for the good it has done him. The grand-niece of Alexander Hamilton, Mrs. Sarah J. Windrom, says: "Vinol is a godsend to old people." She is seventy-six years old, and is active and well, thanks to the vitalizing effects of Vinol.

We wish every man or woman in Los Angeles who "feels old," whether they are 50 or 70 years of age, would try Vinol on our guarantee to return their money if they are not satisfied after using it. The Owl Drug Co., 220 S. Spring St.

Marzoff, will accompany the body to Chicago, starting this evening.

Charles Singer of Waterloo, Iowa, 88 years old and the oldest man in the United States mail service, is visiting here. He is on his vacation and will go back to work in April. He has been in the mail service for 34 years.

Two policemen and a stubborn chauffeur had a pretty race on East Colorado street yesterday in the center of town, the auto driver being unwilling to stop when told to do so. In the end he not only stopped but also paid into the city treasury \$25.

Residents of the beautiful Jennings ranch southeast of the city threaten to sue the city for damages from the storm water flood of a month ago. The place was badly damaged, as were many others in various sections.

The last of the series of three lecture recitals upon Shakespeare was given by Dr. Edwin E. Abbott of Boston this morning at the home of Mrs. George Barker of Grand avenue. About two hundred leading women of club and society life were gathered in the large music room. Dr. Abbott will arrange to spend at least four months of each winter in this section. "Hotel del Coronado" is the society resort.

OLD RIVERSIDE RESIDENT DEAD

GEORGE W. GARCELON PASSES AWAY AT HIS HOME

Deceased Was a Cousin of Senator Frye, and Was a Large Property Holder—Eagles Pay Visit to the City

RIVERSIDE, March 9.—George W. Garcelon, one of the oldest residents of Riverside and one of the men who in her pioneer days helped to lay the foundations of the municipality and has held many positions of trust since, passed away this morning at 4 o'clock at his residence on Mulberry street. Mr. Garcelon was a native of Maine, a cousin of Senator Frye and a brother of ex-Governor Garcelon. He came to Riverside with his family in 1875 and has been a large property owner ever since. For a number of years he held the position of city trustee and was a member of the first board of supervisors elected by Riverside county. At the time of his death he was president of the Riverside Heights Fruit company and had been identified with the horticultural interests of the valley more or less prominently for thirty years. He was 74 years of age. The funeral will take place at 2:30 p. m. Saturday from his late residence. He leaves a widow and one adopted daughter, Mrs. Gertrude O'Brien.

Eagles Visit Riverside A special Salt Lake train brought seventy-five members of the Order of Eagles from San Bernardino and Colton. They are the guests of the local aerle. The visitors performed the rites of initiation. Later in the evening they attended a banquet in Armory hall. They were met at the depot on arrival and escorted to the hall by the Riverside Military band and a committee of local Eagles.

Riverside Notes Over 250 employees of the Conservative Life Insurance company were banqueted by Frank A. Miller today at the Glenwood.

The realty board of the chamber of commerce is working up the scheme which was proposed a few days ago, namely, to have a man in Los Angeles to distribute Riverside literature and possibly fruit, and keep tourists informed as to the charms of Riverside. A committee has been appointed, consisting of Messrs. Bettner, Wilson, Moorman and Paddock, to look the matter up and see what can be done. Pacific squadron now at Coronado.

VENTURA BOND ELECTION

Different Opinions as to Application of Sum Raised

VENTURA, March 9.—As the time for the bond election—April 22—draws near the interest regarding it deepens. There seems to be no doubt that the proposition of voting \$135,000 bonds will carry, but the important question now before the people of Ventura is how shall the money be used—to purchase the old plant of the present company or to establish an independent system? Trout fishing this season bids fair to surpass all previous seasons. The streams are all running high and the Ventura river in the Matilija canyon was stocked with 250,000 fish last season. The demand for carpenters here is on the increase, according to the testimony of all contractors. Make no mistake but go to Coronado.

SOLDIERS' HOME NOTES

Youngster of Ninety-Five Has Jolly Birthday Celebration Special to The Herald. SOLDIERS' HOME, March 9.—Capt. Edwin Bailey of Company H of the Pacific branch, a naval veteran who did gallant service in the '60s at Mobile and many other points, had a pleasant birthday visit yesterday, when he was 95 years of age, from his daughter and granddaughter, Mrs. Emma F. Havens and Miss Alpha Havens. He is a native of Bath, England, but came to this country in 1822 and to California in 1871. He is spry as a boy in his teens and seems good for the century mark.

Thomas Richards, late of Company L, Ninth New York cavalry, was given a military funeral at 9 a. m. today. Robert J. Burdette will lecture in Ward Memorial hall next Saturday afternoon. Flagship "Chicago" is at Coronado.

BAD ACCIDENT IN CAJON PASS

SANTA FE OFFICIALS THROWN FROM MOTOR CAR

Track Superintendent Hitchcock and Roadmaster Parris Injured and Narrowly Escape Death

SANTA BERNARDINO, March 9.—As the result of their motor car jumping the track Division Superintendent J. H. Hitchcock of the Santa Fe was this afternoon badly and Roadmaster Walter Parris very seriously injured. The officials were returning from Barstow, where they had been on an inspection trip, and were coming down the Cajon pass grade. They were running nearly 30 miles per hour when, just south of Verdmont, the car struck a small board that was on the rail. The car was thrown from the track and turned completely around, both officials being thrown fully sixty feet.

Parris was unconscious for some time, but Hitchcock secured help from a nearby rancher who brought the injured men to the city where they were given medical attendance. How both men escaped without being instantly killed is a mystery. Superintendent Hitchcock's injuries consist of very severe bruises.

The fierce "norther" of the past two days has caused the Southern Pacific much trouble in the vicinity of Cucamonga by drifting sand. The inside track flyer was delayed over two hours, and other trains were greatly interfered with.

Doyle's Will Still Missing

The will of the late John N. Doyle is now engaging the attention of the officials. The mysterious manner in which the document disappeared has not yet been explained, but a copy has been filed for probate, leaving all the estate to Martin F. Thomas, who recently committed suicide. Thomas' heirs state, however, that they do not expect to lay any claim to the property.

County Coroner H. Pittman is leading a strenuous life these days, having had six calls in three days. In the list have been sudden deaths from tuberculosis at Ontario and Hesperia, the suicide of Martin F. Thomas, the sudden death of Chester L. Smith, the Philadelphia capitalist, at Redlands, the death of Sam Blake, a miner, at Lavic, and the finding of a body near Death Valley, the remains being so decomposed that identification was impossible.

Denman in Control

A. C. Denman, Jr., who carried out the coup on the Fisher interests, has in his control not less than 55 per cent of the stock, and will on Tuesday elect himself both president and general manager of the lines. The directors in informal meeting adopted a resolution to take no part in the San Bernardino municipal campaign. An agreement between the Denman and Fisher interests will give Denman six directors the coming year, while the Fisher interests will name three.

The will of the late Dr. G. A. Rene has been set aside by the superior court on the ground that the decedent was of unsound mind. It was proven to the satisfaction of the court that Dr. Rene was the victim of the drug habit for some years before his death.

F. L. Huld, who stole the motor car from Roadmaster Walter Parris of the Santa Fe, has been returned here for prosecution, having been recaptured in Sacramento. He was first captured in Santa Margarita, but escaped from the officer by jumping from a rapidly moving train while being taken to the county seat.

Murder Trial

The trial of F. C. Wilson, who is charged with the murder of Louie Deputy, a bartender at Barstow, is now on. Wilson, on December 20, entered the saloon, took several drinks, and went to sleep. Deputy for a joke placed some handcuffs and shackles on him. A short time later he returned with a pistol and shot Deputy through the head.

Arrowhead Parlor No. 110, Native Sons of the Golden West, has elected as delegates to the grand parlor meeting in Monterey, George W. Seldner, I. S. Jackson and N. G. Hale. As alternates, J. E. Rich, Edward Wall and A. E. Reitz.

"Hotel del Coronado" is the society resort.

WHY DONKEYS DO NOT SHY

The ancestors of the horse were accustomed to roam over the plains, where every tuft of grass or bush might conceal an enemy waiting to spring upon them. Under these circumstances they must often have saved their lives by starting quickly back or jumping to one side when they came without warning upon some strange object. This is a habit which has not left the animal even after long years of domestication.

On the other hand, the donkey is descended from animals which lived among the hills, where there were precipices and dangerous declivities, and from these conditions resulted his slowness and sure-footedness. His ancestors were not so liable to sudden attacks from wild beasts and snakes. Besides, sudden and wild starts would have been positively dangerous to them. Consequently they learned to avoid the very trick which has been so useful to the horse. The habit of eating thistles, which is peculiar alone to the donkey, is also descended from these ancestors. In the dry, barren localities which they inhabited there was often little food; hence they learned to eat hard, dry and even prickly plants when there was nothing else.

POMONA PUTS UP CITIZENS' TICKET

"SQUARE DEAL" FOR PEOPLE AND CORPORATIONS

Anti-Saloon, Good Roads, Pacific Electric Railway Franchise and Municipalization of Utilities Planks Adopted

POMONA, March 9.—All factions and parties got together at the city convention held this morning at Armory hall, and from present indications the ticket nominated by the citizens' convention will be the only one in the field at the municipal election, April 10. If so, it will be the first time in many years that there has not been a squabble over city officials.

The convention met at 10 a. m. and was called to order by C. B. Roberts, J. Albert Dale was chosen as temporary chairman and Arthur Crabb as temporary secretary, this organization being later made permanent by approval of the report of the committee on order of business.

The convention was harmonious throughout, and was composed of fifty delegates, ten from each of the five wards. The report of the nominating committee was unanimously accepted, placing in nomination J. F. Ulery of the fifth ward and Lee Mathews of the third ward for city trustees, and Charles Walker of the fifth ward and W. B. Stewart of the fourth ward for members of the board of education.

The platform favors a "square deal" for both corporations, who have invested largely in the city and for the people, who grant franchises; declares against the licensing of saloons; for good roads; in favor of granting a franchise to the Pacific Electric Railway company, and the municipalization of utilities whenever found to be for the best interests of the city.

"Hotel del Coronado" always leads them all.

DIVER INJURED IN LONG BEACH SWIMMING POOL

L. J. Olmstead of San Bernardino Strikes Cement Bottom and Sustains Scalp Wound

LONG BEACH, March 9.—L. J. Olmstead, a visitor from San Bernardino, nearly scalped himself by diving too far in the swimming pool here yesterday. He leaped from the highest springboard but miscalculated the distance and struck his forehead on the cement bottom and tore his scalp loose at the edge of the hair, several stitches being necessary.

The stockholders of the Ebel club house association yesterday elected the following directors: Mrs. Adelaide Tichenor, Mrs. Harry Barnard, Mrs. Jennie Reeve, Mrs. Richard Oakford, Mrs. Samuel Denholm, Mrs. Harriet Johnson, Mrs. P. E. Hatch.

Long Beach temperance people were shocked today by the distribution of a circular in the city announcing that wine dinners would be served at an inn outside the city limits in the neighborhood of Alamitos. The circular gave minute details of how to reach the place. Rev. Dr. Chapman of Los Angeles was communicated with on the subject and thought it was a case for the district attorney. The district attorney, however, said he was helpless because the place had been licensed by the board of supervisors.

REDLANDS BOND ELECTION

High School to Produce the "Merchant of Venice"

REDLANDS, March 9.—The bond election for better fire protection will be held March 14. It is thought that the trustees were very economical in their plans for new fire department and that the bonds will be voted.

The Nitrate of Potash Mining company was organized here yesterday by a number of local capitalists. The mines are located near Briggs, Arizona, and are said to be very rich in nitrate.

The senior class of the high school is making plans to give "The Merchant of Venice" in the opera house shortly, the proceeds to go to the school.

UNION'S CHARTER REVOKED

San Pedro Organization Receives Wire From President Gompers

SAN PEDRO, March 9.—B. W. Hughes, secretary of local union 541, I. T. L. M. & A., has received the following telegram: "Received wire last night from President Gompers saying Federal Labor union charter 8921, San Pedro, was revoked March 6. (Signed) 'DANIEL K. O'KEEFE'."

Fire destroyed the Henderson grocery and the postoffice adjoining at Terminal island tonight. The house of the South Coast Yacht club narrowly escaped destruction. The loss is estimated at \$2500.

Receptions—Golf—Every pleasure daily at Coronado.

RAILROAD TO SANTA ANA

SANTA ANA, March 9.—Much interest was aroused here yesterday over the visit of Manager Schindler, Chief Engineer Pillsbury and Assistant Bell of the Pacific Electric railroad, who made an inspection of the local conditions and of the line over which the road from Los Angeles to Santa Ana

is to be built. Mr. Pillsbury stated that work would be prosecuted more vigorously hereafter. Right-of-way complications have delayed matters.

An interesting session of the Southern California Jersey Breeders' association is anticipated in the annual gathering to be held at Orange on March 14. Addresses will be given by local breeders and by representatives of the state university.

"Hotel del Coronado" always pleases.

CITIZENS OF HOLLYWOOD CONSIDER GAS QUESTION

May Erect Municipal Plant Unless They Can Secure Certain Concessions

HOLLYWOOD, March 9.—Residents of Hollywood held a mass meeting at the city hall last night to consider the propositions to establish a gas plant in Hollywood. It was reported by the committee from the board of trade that by April first the mains of the Los Angeles Gas and Electric company will reach Hollywood and that consumers will be served by August first. The committee was requested to secure certain concessions from the gas company if possible, and if it cannot, to consider propositions for the erection of a municipal plant.

Saturday, March 18, has been designated by the board of trade as "Hollywood Day" at the Ocean Park carnival. Special cars will be run from Hollywood to the beach.

Coal Washing in Great Britain It is impossible to deny that English colliery owners are indebted to German manufacturers for the best systems of coal washing. It is well known that the coal of the Westphalian and Prussian coal fields is greatly inferior to our own, being got from a greatly disturbed area and thus they are not only many bands of dirt, stone, etc., running through them, but with the highly inclined seams there is a greater likelihood of shale and other foreign matter becoming intermixed during excavating and filling. Hence arises the necessity for careful washing, and the perfection of mechanical appliances for doing it. On the other hand, a large proportion of British coal comes up large and clean from the mine, requiring very little picking before being sent to the wagons. The small coal in many cases does not contain any serious amount of dirt and so, for many years, coal washing, which has been a necessity in some countries, has not been looked upon in this light here.

But recently a change has taken place and the utility of washing coal has been recognized. This is not because the good seams of coal referred to are becoming exhausted, nor because there is more dirt in the slack than formerly; it is simply because colliery owners are finding that thinner and inferior seams can be worked to advantage if good arrangements are made for mechanically preparing the coal for sale. At the same time it is admitted that coal is now being washed which formerly was considered good enough for sale immediately after screening; but this is due to the fact that even fairly clean slack is improved in price with washing.—Mines and Minerals.

Women often worry themselves old trying to look young.

MELLIN'S For the Baby FOOD

The quantity of the food taken is not the measure of its nourishment. The quality is what counts. Many babies take large quantities of food and get a small amount of nourishment. Mellin's Food babies take a small quantity of food and get a large amount of nourishment. Send for our book "Mellin's Food Babies."

Mellin's Food is the ONLY Infant's Food, which received the Grand Prize, the highest award of the Louisiana Purchase Exposition, St. Louis, 1904. Higher than a gold medal.
