Robinson Company Expansion Sale 235-237-239 So. Broadway

An Increase of Over 10,000 Square Feet on the Ground Floor

In a very few days we begin breaking through the walls into the Blanchard Building, gaining 21 feet more frontage on Broadway. And by the time we get the windows changed to conform with our others we will be given possession of the ground floor of the Blanchard Hall addition on Hill Street, giving us 10,437 additional square feet of space on the ground floor.

This allows an expansion in all departments.

The entire second floor will be given over to the Suit Department and the Millinery—all other stocks heretofore shown there being allotted increased space on the ground floor of the Annex.

Several thousand dollars will be spent in refurnishing the second floor—mahogany wall cases, leather upholstery, great numbers of big mirrors, rich carpets, etc.—so when completed it will be the most elegantly equipped sales-room in the southwest.

Two new elevators are being made for us and will be installed at the earliest possible moment, thereby doubling our elevator facilities.

Reductions of a Quarter, Third, Half Or More on Hundreds of Desirable Articles

It isn't in human wisdom or foresight to have all stocks "come out even" at the end of a season—having enough necessarily means having more than enough.

So everything of which we have too much or too little; all the "broken lines," everything that is nearing the close of its wearing season; everything that for one reason or another hasn't sold as readily as we expected—in short, everything that we wouldn't be proud to show in our new quarters—has been marked at prices that will insure a quick change of ownership.

With two or three exceptions, every department in the whole store will be represented in this sale. There are many groups of little things that would scarcely do to advertise at all because there are not enough of any size or kind. All such will be priced absurdly low—the smaller the quantity the greater the reduction, as a rule. So come expecting the greatest number of real bargains Los Angeles ever had together in a single sale.
