

HORSEMEN FORM AN ORGANIZATION

PASADENA ASSOCIATION TO BE PERMANENT

TO HAVE LARGE MEMBERSHIP

Valuable Automobiles Are Damaged by Fire in the Braley Garage.

C. A. Carlton Hurt in a Runaway

PASADENA, April 14.—At a banquet following the recent horse show in this city John S. Craven, one of the leading horsemen of California, was appointed by the Tournament of Roses association to investigate the chances of a permanent horse show association in this city.

Tonight twenty of the leading horsemen from Los Angeles, Coronado, Santa Barbara and Pasadena met at the Hotel Maryland and organized the Southern California Horse Show association of Pasadena, appointing forty-five directors. These men will investigate the horse shows in New York, Chicago and Louisville. The association plans to have a large membership from all over Southern California, with small dues, and make the show a leading feature of the winter season in California. The association starts with \$2000 in the treasury.

Autos Damaged by Fire

Soon after 7:30 o'clock this evening Henry Stewart, an employe of the Braley garage, stepped on a match near a gasoline machine, which had a leak. Instantly the room was in flames, and before the valuable autos could be removed several were more or less damaged by the fire. The first estimate of the damage is \$1500, but it may amount to considerably more than that, since one of the big racers belonging to W. H. Scudder of Los Angeles is injured at least \$700. Other automobiles injured are those belonging to Adolphus Busch and Dr. King. The fire was quickly extinguished by the department. As the garage is in the center of the city, in the rear of 81 South Raymond avenue, some anxiety was felt for the surrounding warehouses and stores.

A second fire followed closely, an exploding lamp causing the fire in the house owned and occupied by H. J. McCormack on North Marengo avenue, corner of the Santa Fe track. The damage was about \$100.

Hurt in Runaway

While driving a heavy teaming wagon about 2 o'clock this afternoon C. A. Carlton was run into by a California street car, dragged some distance and quite severely injured. Immediately after the accident Elmer L. Moody, who happened to be passing, took the man to the hospital, where he was cared for. Dr. F. E. Rowland, who examined him there, reports that he is not dangerously hurt, but is badly bruised and shaken up generally.

New Humane Society Superintendent

E. E. Gray was this morning appointed general superintendent of the Humane society. The position assumed by Mr. Gray will entail many duties of an executive order. He will at once reorganize the work and devote all of his time to the new duties. The Pasadena society has grown rapidly in the past year, and its work is much more heavy than at first. Dr. L. H. De Biron will continue to act as field agent. Mr. Gray will have direct charge of gathering testimony, running down reported cases and will be at once appointed deputy sheriff so that he will be able to make arrests when necessary.

The maid of honor, Miss Mary Smith, wore cream voile and carried Maman Cochet roses. Twelve flower girls, dressed in white, bearing immense bouquets of Duchesse roses, were also of the bridal party. A reception was held in the parlors of the club house and a wedding supper served in the hall.

MEN OF WAR AT SANTA BARBARA

FLAGSHIP CHICAGO LEADS SQUADRON

SOCIAL FUNCTIONS PLANNED

Buggy Accident at Montecito Nearly Results in Tragedy, Horse Becoming Frightened at Approaching Automobile

SANTA BARBARA, April 14.—The Pacific squadron, under the command of Admiral Goodrich, arrived here this afternoon, the flagship Chicago leading. Orders from Washington designate a stay of two weeks, but it is possible that this may be cut short as the officers desire to reach San Francisco. Numerous social functions have been planned here in honor of the officers, the most brilliant of which will be, doubtless, the ball at the Potter hotel.

An accident yesterday at Montecito was nearly a tragedy. A horse attached to a two-seated surrey became frightened at an approaching automobile and threw the vehicle directly in front of the machine. The occupants of the buggy, Miss Tomlinson and Mrs. Clark of Montecito were thrown clear of the surrey into the ditch at the side of the road. The automobile was stopped within two feet of the buggy. The automobilists rendered all assistance possible, and took the injured ladies to the Strong residence, where medical aid was summoned. Miss Campbell was later removed to the cottage hospital where it was found that she had sustained a fracture of the shoulder. The others being only cut and bruised.

No blame attaches to the driver of the automobile as his machine was completely under control. Eduard de la Cuesta, former supervisor and prominent in political and business life of the central portion of the county, is spending a day or two here, having attended the meeting of the executive committee of the Cattleman's association. He reports the range men and farmers generally in his part of the county as much satisfied with the present season. They have had more rain than in any single season since 1862, according to the records.

MUSICIANS AT LONG BEACH TURN CARPENTERS

Members of Marine Band Laying a Dancing Floor in the Sun Parlor

LONG BEACH, April 14.—The members of the Long Beach Marine band have turned carpenters to lay a new dancing floor in the "sun parlor" at the end of the pier. The pavilion is used for dancing and the money secured from dancers is the only means of support the band has. When the pavilion was opened the only floor it had was the upper pier deck and the dancers found that unsatisfactory and the dances were not successful. This week the musicians, unable to get a new floor from the city, took the matter into their own hands, bought lumber and set to work laying the floor. They have worked night and day since Wednesday and expect to have the floor ready for dancing tomorrow night.

The warships Chicago and Bennington left Long Beach yesterday for Santa Barbara. Yesterday the Chicago came near wrecking the Nellie, the largest of the fleet of launches, that had been carrying passengers to her. The Nellie was under one of the warship's eight-inch guns when the big ship suddenly listed and the gun came down the launch's pilot house. A gunner happened to see what was coming and elevated the gun in the nick of time so that it hardly more than touched the little vessel.

YOUTHFUL ANANIAS IS FOUND AT OCEAN PARK

Runaway Boy Tells Picturesque Tale of His Adventures in Traveling

OCEAN PARK, April 14.—A youth possessing a dirty face, an awful appetite and an aptitude for fibbing, was picked up last evening by a resident of India street to whom he confided a thrilling story of adventure on land and sea. The lad said that he had stowed himself away at Chicago on a "big ship" and had arrived at Port Los Angeles several days ago. He was "going to Japan to write an account of the war." Upon cross examination, however, he admitted his yarn was a stretch of the imagination and then gave a true account of himself, which was to the effect that his name was Joe Connelly, that he was 12 years old and had run away from his home at 1214 East First street, Los Angeles. Today Rev. J. Fred Jenkins, pastor of the local Baptist church, returned Joey to his parents.

The Village Improvement society will meet at Kinney hall on Monday afternoon for the transaction of important business. A drinking fountain for animals, the subject of beautifying unsightly bulkheads and other

matters of impending moment will be discussed. A large attendance is requested.

Mrs. R. W. Armstrong entertained the members of the Thursday Afternoon club at its last meeting. Hearts was played by the ladies and prizes were awarded to Mrs. Charles Stillson and Mrs. A. R. Fraser.

ELECTRIC LINE FOR ARROWHEAD

SURVEYORS NOW AT WORK ON THE SCHEME

MAGNIFICENT SCENIC ROUTE

Trouble Between San Bernardino City Trustees and Fire Department Adjusted by Promotion of Assistant Chief

SAN BERNARDINO, April 14.—Developments indicate that the Arrowhead electric railway will be built in the near future. Promoters of the line have made application to the Santa Fe for a crossing on the loop line near Arrowhead station, the crossing being on an extension of B street north from the city. Surveyors are now at work near the crest of the mountain range on the final survey, several preliminary surveys having been already made. The line will pass close to the Arrowhead hotel, which is now under construction, and when completed will be one of the finest scenic lines in the world. The same interests that are building the big Arrowhead dam and the Arrowhead hot springs hotel are behind the scheme. The greatest immediate value of the road will be for the carrying of cement and other building material to the site of the dam the construction of which will require three years' work.

The trouble between the city trustees and the fire department has been temporarily adjusted, and H. Noel Graham, the assistant chief, will act as chief for the present. It was found that the election of J. L. Cathcart as chief by the trustees was illegal, and he has consented to retire. The highest price recorded for oranges this season is for a car of fruit from the West Highlands Citrus association, which sold Monday for \$1314. Coroner Pittman has returned from Needles, where he was called by the death of Charles P. Van Ebers, a Santa Fe air inspector, who was killed by a locomotive. The engineer did not know the man was working under the engine and started it, crushing the man beneath the fire box.
