NEW YORK, May 10.—Thirty-seven carloads of oranges and one of lemons were sold. Several cars were on the road a long time, delayed by the Santa Fe washout, but nevertheless the oranges were in good condition and despite the heavy offerings the market was steady to firm. The demand for prime stock is active and the outlook is very favorable. The brands realizing the best averages per box were:

CHICAGO GRAIN MARKET Heavy Selling of July Wheat by a Bull

Trader—Oats Firm

By Associated Press.

CHICAGO, May 10.—The feature of trading in the wheat pit was the selling of a line of July estimated at nearly 1,000,000 bushels by a leading built trader. The offerings were taken mainly by shorts at a decidedly depressing effect on traders in general, as it had been believed that the builteader who sold today was accumulating a line of July preparatory to a possible "equeeze" in that option.

Outside of the trading mentioned, business was of comparatively small volume, owing to a desire on the part of many traders to await the government crop re-

traders to await the government crop report.

Cables were steady, and wet weather was nevidence throughout the greater part of the United States.

At the opening July was ½c lower to ½c At the opening July was ½c lower to ½c Barber of the United States.

At the opening July was ½c lower to ½c Barber of the July was ½c lower to ½c Barber of the July was ½c lower to ½c Barber of the July was a result of the selling of long wheat. Later the markot recovered part of the loss, but the close was weak, with July at 83 ½c.

Wet weather, which is delaying planting operations, had a strengthening effect on the corn market early in the session. Latter that receipts would soon show a substantial Increase. Weakness of wheat also has considerable influence. July opened a shade higher at 46 ½c, sold oft to 48 ½c, and closed at 46 ½c dead of the dead

94c.
Provisions were in better demand on a cerease in receipts in native logs. At the loss May pork was 10@10½c higher, lard as up 2½@5c, and ribs were 5c higher.
