Ball Basters of St. Vincents Add Another Diamond Scalp to Their Belts—Play Consistent Ball

St. Vincent, 5; U. S. C., 2.

The sphere chasers from the University of Southern California betook themselves to the St. Vincent's college diamond yesterday afternoon to meet Gargery's crack ball tossers, who unluckily enough showed up in fine form and proved that they were still in the game.

The athletic instructor of the Catholic legion trotted out his best bunch and put them through a series of winning turns.

In the third inning the U. S. C. lads rejected the offerings of Mounier and clouted the ball quite frequently. A good-natured chap, yclept Darby, pasted the ball far out in the pastures, bringing in Niles and Bridwell.

In the fourth inning Jessup sent one out to the left garden and on Lamer's error gained the third sack, but only to expire.

In the fifth inning Olhasso hammered two around to the rubber and it seemed for a time that he would score. At this juncture there were numerous errors made by U. S. C. For some unknown reason the ball would not adhere to their mitts and slipped away like a cake of soap.

In the eighth inning Darby, again having anchored safely at second, endeavored to puncture the rubber on McCann's error, but couldn't make fast enough connections. A run in the ninth formed the rear guard of the Catholic procession. Wild throwing and lack of step-ladders and stills was the cause of it. The insignificant bunts also added much to the discomfiture of the Methodists.

Bobbie's Essay on Lawyers

lawyers is men wich git foaks in trubbel & then charge the saim whether they git them out or not, lawyers is of 2 kinds.

1. good lawyers, the cheap lawyers cost you more than the good lawyers, the only trubbel is that you never know the good lawyers til you try them and then maybe they aint vary good after all.

lawyers is made in 2 ways. One kind goes to college and plays foot ball & the other kind works for a lawyer & studies law books at nite. Mister Lincoln was the last kind and the first kind is easy to find anywhere, you can git them to try a case & lose it for you any day. Sum of them is good, tho, but not a grate many.

lawyers git mad at each other when they are trying a case, but after the case is over they call each other Old Chap and say Lets go in & have a drink. Then they stare thil they have 8 moar drinks and then they call each other "dere old chum." Milwaukee Sentinel.

NEW ANECDOTES ARE COMING TO LIGHT about the western contingent of the Rough Riders which decended on Washington for the inauguration. Here is one that has not found its way into print before: One of the members of Roosevelt's old command, now a lawyer in New England, came down with his wife and established himself rather luxuriously at the best hotel in Washington. He made his apartments a sort of entertainment headquarters for his old companions, and as fast as he could round them up in various parts of the town would bring them to his rooms for a drink and a smoke.

Late Saturday afternoon one of the men in the room was a young Arizona cowman who had been a sergeant in "my regiment." Sitting on the edge of a bed looking at his host's evening things, which were spread out, he espied an opera hat compressed into itself, and picking it up began to regard it curiously from different angles. While poking it the hat sprung open. Young Arizona regarded his handiwork with amusement and delight. "A hat!" he commented admiringly, "a self-cooking hat! Now, don't that beat hell!" Washington Correspondence New York Evening Post.

TRYING TO LOCATE DESERT GUIDEPOSTS

Nathaniel Ellery, state commissioner of highways, and Lewis E. Aubury, state mineralogist, are in Los Angeles for a short time, having just attended the convention of supervisors in San Diego. They are endeavoring to get the supervisors of the various Southern California counties, having desert sections, to erect the desert guide posts which are to be furnished them by the state, according to a law passed by the recent legislature.

This measure appropriates \$5000 for the construction of guide posts of galvanized iron with metal arm into which the letters are to be cut indicating the distance to water and to the various prominent points and landmarks.

All the county supervisors have to do is to plant the poles at the proper points. The two officials who are interested in this work report that without exception the county officers so far approached on the subject have declared themselves highly pleased with the scheme and expressed their determination to go ahead with the erecting of the posts as fast as possible.

A great many prospectors are going into the desert at the present time, 1200 claims being registered in Inyo county alone during March. Since the opening of the Salt Lake road it is expected that a rush to the sections of the desert thus made available will soon begin.

The law providing for the sign posts also provides a penalty of fine and imprisonment for tearing down or defacing the posts.
