**SCOURING YOUR SCALP**

Will Remove the Loose Dandruff Scales, but It Won't Cure Dandruff

If your hair is brittle and thinning, you have dandruff. The mere scouring of the scalp of the loose scales won't cure dandruff, because dandruff is nothing but scales of scalp being thrown up by a pestiferous little germ in burrowing its way to the root of the hair, where it saps the vitality, causing falling hair and, in time, baldness. Now, you can't stop dandruff nor falling hair, nor prevent baldness, unless you destroy that germ; and the only preparation that can do so is the new scientific discovery, Newbro's Herpicide. In fact, no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp, soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ, sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

**ABSURDITIES OF NO-SALOON LAW**

**PERSONAL LIBERTY WOULD BE ABOLISHED**

**RIDICULOUS RESTRICTIONS**

An Effort to Control Personal Conduct in the Home and Club as to Character of Drink

There is a disinclination among the thousands of people who are against the prohibition ordinance to be voted on next month to be quoted as opposing the program of Dr. Chapman and his forces. One of the leading members of the Los Angeles bar and a power in the Republican party yesterday discussed the ordinance which is to be submitted.

"The strongest argument that should be used against the prohibition ordinance is the ordinance itself," he said. "I do not question its constitutionality. If the ordinance carries it will be law, and we shall all have to submit unless we are law breakers. Such legislation comes plainly within the meaning of the words 'police regulations,' which city councils are empowered by the constitution to frame and enforce. But I am quite certain that the ordinance will be an incentive to law breaking and as such it is to be deplored.

**No Individual Liberty**

"The scope of the ordinance is much wider than most people have any idea of, and to my mind the most important part is the closing of the saloons. That is bad enough, for it simply means taking the liquor traffic out of the daylight into the dark. But the provisions of the ordinance are so drastic that the liberty of the individual will be seriously interfered with.

"Section 2 is about as comprehensive as it possibly could be made. It reads: 'It shall be unlawful for any person, firm, corporation or association to sell, keep for sale, offer for sale, furnish, divide, deliver, or give away within the city of Los Angeles any spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks.

"The first exception to this drastic provision is the 'serving of liquors to any person by himself, his family or his guests at his own private table in his own home and without consideration.' It might even be contended that a man has to own his own home before he can serve liquor therein. Certainly this would prevent residences of boarding houses from using liquor, except under the provisions of another section, 'upon the written prescription of a physician.' Imagine the sensations of a tourist who is informed that he cannot have a bottle of claret or beer with his dinner in a private boarding house, unless he can produce a doctor's certificate.

**Futile and Foolish**

"But, as it seems to me, the most futile and foolish provision of the proposed ordinance is contained in section 4, which prohibits the use of liquor in bona fide restaurants, hotels or clubs, except in the main dining rooms. It will be lawful to serve liquor in the main dining rooms of these establishments, but unlawful in a private dining room or any other part of a hotel except the main dining room. This surely is so ridiculous a regulation that it needs little comment. It will make it illegal to give a private dinner at which wines are served, except in the main dining room. Some restaurants, most hotels and clubs have two or more dining rooms, but they will be allowed to serve liquors in only one of these; the hotel owners and the club men will have to decide which is their 'main' dining room.

**All Clubs Restricted**

"The proposed ordinance will revolutionize the idea that a man has the same personal liberty in his club as in his home. I doubt if many club men have realized that this same section four puts the clubs in precisely the same category as the restaurants and the hotels, except that the term 'general public' in the latter is modified to 'members and their guests' in the clubs. Under the ordinance no liquors can be served in a club except in the main dining room with or as a part of a bona fide meal. The meal, by the way must be 'hot.' If a man wants a slice of cold beef and a bottle of beer, he cannot legally have it. The framers of the ordinance seem to have been at considerable pains to define bona fide restaurants, hotels and clubs: 'Such places must be fully equipped with modern appliances for cooking and preparing 'warm' meals and must be a place where bona fide 'hot' meals are served at least three times a day and six days in the week.' This seems a curious illogical distinction between 'warm' and 'hot.'

**No Annual Banquets**

"As a sample of the absurdities that this ordinance would beget, think of the chamber of commerce's annual banquet! This function is so large that no main dining room of any hotel or restaurant can accommodate the banqueters. Therefore it is held each year in some public hall. No liquor could be served at this banquet. If any one at the board desired a bottle of wine he would have to take his bottle with him. Furthermore it would be a violation of Section two of the ordinance if he filled his neighbor's glass. The picture of blue coated officers of the law arresting banqueters who passed their bottles to their neighbors, seems startling, but would be made possible by this ordinance.

"It is of great importance that voters understand that this ordinance affects other people than the saloon keepers. The saloon feature, I understand, is the only feature that will appear on the ballots to be voted on June 2. The

ballots are to read: 'Shall the ordinance prohibiting the maintenance of saloons be made law?' The ordinance proposes not only to close the saloons, but to enforce ridiculous restrictions upon the liberty of the individual, and to impose regulations that are in themselves temptations to lawbreaking.

"In my opinion Los Angeles could hardly make a graver mistake than to pass such an ordinance. The whole system of law and order is menaced by any measure that in itself invites violation. Los Angeles is far too big a community to tamper with its prosperity by any such experiment. Such an ordinance would inevitably cause keen resentment in thousands of citizens, and would drive away and keep away thousands of tourists who would naturally object to such restrictions being placed upon their personal liberty."

**CONVICT ALLEGED FAKE DOCTOR**

State Board of Medical Examiners Conducted Prosecution, the Jury Returning a Verdict Within Ten Minutes

A most remarkable case was tried before Judge Brayton at Long Beach yesterday afternoon, resulting in the conviction of Robert L. Norfleet upon the charge of practicing medicine without a license.

The case grew out of a transaction between Norfleet and P. H. Reimer, a citizen of Nebraska, who is spending a few months in Long Beach for the benefit of his health.

Reimer, who is past 70 years of age, is the father of Miss Maggie Reimer, aged 40 years, who has been an invalid for some time. One day, a few months ago, Reimer met Norfleet while walking on the pier at Long Beach.

Norfleet claimed to be a native of Nebraska and succeeded in getting into the confidence of Reimer. He is said to have professed to be a physician of wonderful powers to heal the sick and maimed and exhibited letters testifying to his magical prowess in restoring the afflicted to health.

Reimer consulted him regarding the case of his daughter, who was very ill with a malady which baffled the skill of all other physicians.

Reimer testified that Norfleet had guaranteed to restore the daughter to health after he had secured a \$10 fee for making an examination. His terms and conditions of treatment were accepted by Reimer, and the daughter was placed in the care of Norfleet.

**Methods Peculiar**

His methods were peculiar and, he claimed, a secret known only to himself, and in order to guard the secret of his powers he insisted upon taking the daughter away from home for three months and keeping her sequestered from her friends and relatives. This latter condition was so bitterly opposed by Reimer that a compromise was effected whereby Norfleet was allowed to take her to the home of her sister, a Mrs. Swinton, at Alameda.

Shortly after their arrival at the Swinton home the methods of Norfleet in treating his patient aroused the curiosity of Swinton and one day he decided to watch the performance.

The patient was sent into a room alone with Norfleet. The window shades were tightly drawn and the room darkened. The patient was told to get upon a bed and go through a performance of high stepping, while Norfleet gesticulated wildly and used strange words, whose connection with the treatment of the sick seemed to be out of place.

After watching the "treatment" until it was finished, Swinton forced Norfleet to leave the place, but when he left he loaded his patient into a wagon and disappeared.

Nothing was heard from him or the sick woman for several weeks, when Reimer received a letter dated at "200 miles from Nowhere, March 28," in which he stated that Miss Reimer was very ill, but was improving under his wonderful treatment, and they expected to arrive at Long Beach, with her health fully restored, within three weeks.

**Failed to Show Up**

The three weeks rolled around, but neither Norfleet nor Miss Reimer returned, nor did they come the next week. Becoming suspicious of the doctor, Reimer placed the case in the hands of Constable Lynn of Long Beach, who sent descriptions of Norfleet and the patient all over the state.

Yesterday the trial was had and the jury, after being out for less than ten minutes, returned a verdict of guilty, and Norfleet will be sentenced on Thursday.

The testimony showed that the treatment of Miss Reimer had cost her father \$400 and Miss Reimer had paid \$100 out of her private funds, as a payment upon the doctor's fee.

"Norfleet, it is said, professed being very much in love with Miss Reimer and that he intended marrying her after she had been restored to health.

It was shown upon the trial that Norfleet had informed Reimer that his daughter was suffering with neurasthenia. Dr. Shelton, who made an examination of Miss Reimer after her return, testified that she was suffering from cancer of the stomach, and the only relief possible was through an operation, which the patient was not physically able to withstand, owing to the effects of alleged mistreatment while on the trip with Norfleet.

The case was brought to the attention of the state board of medical examiners and the prosecution was conducted by their counsel, Wallace W. Wideman of Los Angeles.

**FINE PROGRAM IS INNES' OFFERING**

**SECOND DAY'S FESTIVAL IS A DISTINCT SUCCESS**

**CHORUS DOES GOOD WORK**

Noted Conductor Sways His Band at Will, Bringing Out Many Excellent Points in Training

At the second evening concert of the May Musical Festival there was an attendance all too small in proportion to the big attraction—Innes and his band, several much advertised soloists and the chorus of 600 voices. Perhaps the oratorio program was not attractive to the general public, which somehow associates oratorios with Sunday schools. But although the audience lacked in numbers there was as much applause as if a tremendous crowd had produced it.

The soloists, of course, attracted chief attention after Innes had been duly praised.

"What a beautiful voice," said the woman behind. "Yes, and he's so young," replied her companion. "A baritone is my favorite," sighed the third woman dreamily.

F. Archambault is a rotund young man with a rotund baritone of quality and power. His singing of "Dio Possente," from "Faust," aroused more enthusiasm in the audience than any other number on the program. Although his breathing was faulty and his phrasing incorrect, the beauty of his voice overshadowed these deficiencies and he was called back several times, finally responding with Faure's hackneyed song "The Palms."

The audience appeared to be more interested in the Wagner, Gounod and Liszt numbers that formed the first part than in Mendelssohn's "Hymn of Praise," a number of persons leaving, though the hour was early, before it was over.

Prof. Jahn's well-trained chorus was handicapped by having to sing from the rear of the notoriously badly arranged stage of the auditorium. At first the voices seemed to fade away in the files before they reached the audience over the instruments between. By subduing the brasses and by dint of coaxing more tone from the chorus, Mr. Innes soon smoothed out the inequality between the two bodies, bringing them into perfect unison for the remainder of the oratorio.

This work of Mendelssohn's, which has never before been heard in Los Angeles was given an interpretation that left nothing to be desired from the band and chorus. Especially good was the adagio religioso of the first movement, which was given by the woodwinds and brasses with a subdued sweetness and organlike volume and richness. It is in these exquisite refinements of tone that Innes shows his mastery. He gets results that the "March King" has never shown himself able to produce. He is less tumultuous than Sousa, but a better artist.

Mrs. Partridge, in a pretty pink gown, sang her solos rather prettily. Fritz N. Hutton, the tenor, leaves much to be desired—almost everything. His voice is suppressed and throaty with volume quite insufficient for oratorio work.

The Liszt-Rubinstein program for this afternoon promises much. There will, most assuredly be a delightful surprise for the lovers of the classic who attend. Paul England will be the baritone soloist and Mrs. Partridge the soprano. The program follows:

Part I. Liszt—Second Hungarian Rhapsody, Polonaise No. 2, "Les Preludes" (symphonic poem), First Hungarian Rhapsody. Part II, Rubinstein—Overture, "Triumphal"; Paraphrase on melody in F, Aria for soprano, ballet music from "Feramors"; dance of the Bayaderes, torch dance of the brides of Kashmir.

For tonight one of the best programs of the week has been arranged. It is the Wagnerian "Parsifal" night with Partridge, Huttman, Archambault and Krayl as soloists, supported by the Los Angeles May Festival chorus. The opening half of the program is in the lighter vein, closing with the second and third act of "Parsifal."

The program by numbers is as follows:

Part I—Overture, "Merry Wives of Windsor" (Nicola); a, "Traumerlied" (Schumann); b, "Pizzicati, concert polka (Strauss); "Carnival of Venice," fantasy for cornet (Arban-Hartmann.) Part II—"Parsifal."

Exceptional interest is being taken in the Friday afternoon symphonic program and in the Wagnerfest Friday night.

bers were of a character that brought out the many strong points of the great conductor. There is not in the concert field any band leader who has so pleasant a personality as Frederick Neil Innes. Quite devoid of self-consciousness, quick to notice what pleases his audiences and inexhaustible in his good nature, this favorite leader has a firm hold upon the public. He exercises a magic control over his players and he is always sincere in his work, even when the number happens to be some time-worn popular composition, which is scorned by those who make the effort to uplift the public's musical ideals.

Fritz N. Huttman, the tenor, was heard for the first time at the matinee, when he sang Denza's "A May Morning" in a manner that brought out long continued applause. Of course he was obliging about encores and he made himself a close rival of Krayl in the favor of Los Angeles music lovers. And Krayl repeated his triumphs. First he played Levy's "Du and Du" fantasy. He was twice recalled and each time he delighted the audience by familiar airs played with delicacy and feeling. His marvelous low notes astonished his hearers, who would have demanded more of his playing if he had not shaken his big head with its shock of hair cut in the most approved Dutch fashion.

Mrs. Partridge sang the "Jewel Song" from "Faust," and she made a fairly good impression. She sang an encore. The concert closed with Liszt's sixth Hungarian Rhapsody, which was splendidly played by the big band.

**MRS. GURNEY INTERRED IN ROSEDALE CEMETERY**

Haunted by the thought that the one whom he loved better than his own life lay dead in Pierce Bros', undertaking parlors, beyond reach of a loving touch and beyond the sound of his voice, Charles H. Gurney, the young newspaper man whose bride was shot to death by her former lover, whose overmastering jealousy had driven him to the deed, collapsed yesterday morning and was taken under the care of a heart specialist.

Gurney's condition is critical. His sorrow is so great that he can scarcely sleep. Early yesterday morning he made final preparations for his wife's funeral and then went to his room. The incessant sorrow that was tugging at his heart and would not be denied finally overcame him, and when a physician reached him a short time later, found his patient in a critical condition. The young man was forbidden to attend the funeral services of his wife, which were held yesterday afternoon, and he was sent out into the country for a short rest and recuperation.

Rev. Benjamin Fay Mills conducted the services over the remains of Mrs. Gurney at the Pierce chapel yesterday afternoon. A throng of sorrowing friends and sympathizers was present, and the great floral offerings attested the popularity of the fair young victim.

Interment was at Rosedale cemetery, with Attorney Yeager, Arthur MacKay, M. Kingsland and R. M. Yost, Jr., acting as pallbearers.
