

STRIKE NOT OFF, BUT WILL SPREAD

ALL PEACE NEGOTIATIONS ARE ABANDONED

SHERIFF WILL ASK TROOPS

More Men Will Join in the Walkout, and Officials Declare They Cannot Preserve Order Without Military

By Associated Press. CHICAGO, May 20.—The strike of the teamsters, instead of being declared off, will be spread to greater proportions. This was decided tonight by the members of the teamsters' joint council, which was in session until midnight.

The council met at 8 o'clock to hear the report of the negotiations that had been in progress with the employers throughout the day. They agreed to all the stipulations of the employers with the exception of that which declared that the drivers of the express companies should not be taken back. This was the rock upon which the peace program was wrecked, and after several hours of debate it was decided that the teamsters' union could not leave the express drivers to make a lone fight, but must stand by them. It was decided to call off all the negotiations and prepare for a further fight.

The sense of the meeting was expressed in the following statement, which was given out as defining the position of the teamsters:

Attitude of Strikers

"It is due to the public and members of the teamsters' organization that a statement be issued relative to our position in refusing to accept the proposition submitted by the Employers' association. The Employers' association offered a proposition which might have received favorable consideration from the strikers and their committee, providing that it carried with it no proviso that would act as a detriment to any part of our organization. "Their proposition, however, carried with it the condition that the strike against the railway express companies be declared off without those companies agreeing to the proposition made by the employers or any other proposition, they having made the statement that they held a meeting and decided that no strikers would ever again be re-employed as workmen for the railway express companies—in fact, to establish a blacklist against all of their former employes. This the teamsters' organization or its officials could not accept.

"We believe that the railway express companies are not justified in their refusal to restate any of their former employes, and believe that the best interests of all would be served had they agreed to the same proposition, or a somewhat similar one, to that which the Employers' association suggested. Under these conditions it is incumbent upon the members of the teamsters' organization to continue the strike until such time as the express companies will agree to the same conditions, as those offered by the Employers' association."

The methods of the unions will not differ from those which they have pursued thus far in the strike. They will continue the boycott against the houses where the strikes have been held during the last month and if any of their members are discharged for refusing to make deliveries all of the drivers employed by that house will be called out on strike at once. The effect of the spread of the strike will be in the building trades and trouble is looked for in this direction on Monday. The Lumbermen's association has declared that it will make deliveries to boycotted firms and will insist upon its drivers taking goods where they are ordered to take them. This means a strike of all the union men employed by the Lumbermen's association, numbering about 2000.

Sheriff Barrett said tonight, after being informed of the action of the teamsters' joint council:

"It simply means that the troops will have to be called out. We have found it difficult to maintain the peace with the force of police and deputies we have had out, and now that there is a prospect of a much greater body of men being on strike, with all the chance of rioting that it entails, it will be out of the question for us to handle the trouble without aid from the military. As soon as the strike spreads I will be compelled to ask the governor for aid. I have done all that I am able to do, and the prospect now is that the thing will get away beyond the powers of my office."

Seeking to avenge the murder of Enoch Carlson, the 8-year-old boy who was shot and killed last Tuesday night by a negro, scores of men armed with revolvers went forth tonight, determined to drive the non-union teamsters from the district. Negroes leaving the branch yards of the Peabody Coal company at Twenty-sixth and Canal streets were followed and assaulted, and as a result two riots occurred, in which E. Engstrand, a union machinist, was shot and probably fatally wounded, many others were hurt and six were arrested.

KILLS HIS MOTHER; COMMITS SUICIDE

Insane Man Liberated From Stockton Asylum Becomes Violent at Sacramento Home

By Associated Press. SACRAMENTO, May 20.—In a fit of homicidal fury Chris Christianson, released on parole from the Stockton insane asylum last Thursday, killed his mother, Mrs. Mary Christianson, at 1409 D street this morning and a few minutes later committed suicide.

There were no witnesses to the tragedy, but some of the neighbors heard the aged woman's screams and saw her run from the house with blood welling from a cut in her throat, splashing and staining the sidewalk as she ran. Despite the mortal wound the woman traversed a considerable distance and fell in front of a neighbor's house and soon expired without uttering a word as to the circumstances leading to her death.

Twenty minutes later a shot was heard in the house, where Christianson had barricaded himself, and when the officers entered Christianson was lying dead upon the floor.

The passenger grappled with the man in an effort to take the revolver from him, when he turned and shot the passenger, then jumped from the car and disappeared in the darkness. A posse has been formed and a lynching is feared if the negro is apprehended.

NEW YORK, May 20.—The World will say tomorrow:

"The stone was found at Jaagersfontein, South Africa, in 1893, and in the rough weighed 974 carats. It was the largest diamond that has ever been cut up and the total value of the ten stones taken from it was \$500,000. Five of the diamonds were sold to New York customers last Christmas. Of the remaining five the company now has only two."

"The robbery was committed in the workshop on the fifth floor of the Tiffany building in Union square, on the afternoon of Thursday, May 4."

LADY WARWICK AND 'RITA' MEET

COUNTESS SEES WRITER WHO SCORES HER

FACE TO FACE AT A DINNER

Mrs. Desmond Humphreys Taking Notes in Hyde Park on Ways Women Have of Making Up

Special Cable to The Herald. LONDON, May 20.—There was a dramatic moment the other night at the New Vagabonds' dinner when Lady Warwick came face to face with "Rita," the novelist, who outdoes even Marie Corelli in her denunciations of society's foibles and vices.

In her last book "Rita" has given a daring, very slightly veiled portrait of the beautiful countess.

Whether or not the cap fits, the countess evidently bears no malice, for after a close scrutiny of the face of the lady writer, who sat almost immediately opposite her, she asked the hostess of the evening to present "Rita," and with the radiant smile and charm for which she is noted expressed the pleasure it gave her to meet so distinguished a writer.

Vagabonds Are Amused

The Vagabonds who had read "Rita's" latest, in which all the secrets of the art of the masseuse are given away, including the terrible skinning process which a certain Lady Ripley is said to have undergone, looked on in amused astonishment, but only smiles and compliments were exchanged. The noted beauty, whatever process her complexion may have undergone, looked her loveliest, all in her favorite white, with a huge spray of diamonds flashing across the corsage of her white satin gown, a boa of fluffy white feathers around her shoulders and a Juliet net of gold on her fair hair.

"Rita," who is petite and dark, with bright, clever eyes and brown hair, was all in red chiffon with touches of black velvet.

"Rita" Enjoying Her Visit

Quite undismayed by adverse criticism, in some quarters, of her latest novel, "Rita," who is known in private life as Mrs. Desmond Humphreys, is apparently thoroughly enjoying her visit to town. With her daughter, a pretty dark-eyed school girl, she is stopping at the Lyceum club, in Piccadilly, to which so many American women belong. She retains a room at the club as her permanent London headquarters and often runs up to town from her quiet seaside home at Parkstone, near Bournemouth. She is sometimes to be seen in Rotten Row, possibly taking notes for some future denunciation of the foibles of society, and certainly some of the faces to be seen there this season suggest that in writing of the art of makeup in "Queer Lady Judas," "Rita" has taken her facts from life, and for more than one time was a perfect Scot but has now adopted Italy as her fatherland, she is proud of the fact and betrays her nationality by a slight Scottish accent.

GERMANS PLAN GREAT WEDDING CELEBRATION

By Associated Press. BERLIN, May 20.—The entertainments in celebration of the wedding of Crown Prince Frederick and the young Duchess Cecilia of Mecklenburg-Schwerin will last four days, beginning Saturday, June 3, the day the bride and her family arrive here from Schwerin and take up their residence in the Bellevue palace.

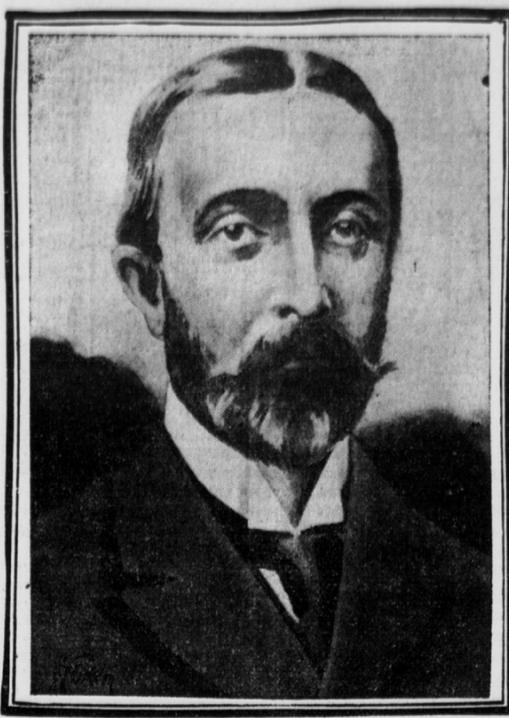

The duchess will be received at the Brandenburg gate by the chief burgomaster and the city fathers and by 100 young women of well known families who have been drawn by lot from several hundred candidates and who will present flowers to their future empress.

MEMBER'S DOUBLE DUPES THE HOUSE OF COMMONS

Special Cable to The Herald. LONDON, May 20.—The mystery of the house of commons, which has caused widespread comment, is explained by a morning paper as the result of a bet which was brought about during the discussion of the possibility of a leading incident in a certain novel and play.

The bet was whether a member's double could enter and sit in the house of commons without being found out. The question was settled in the affirmative by some one made up to represent Sir Carne Basch gaining access to a seat in the house, and incidentally causing Sir Gilbert Park-er's now famous ghost story.

BARON DE ROSEN

SPEAK HIGHLY OF BARON DE ROSEN

ALL NATIONS PLEASED WITH HIS APPOINTMENT

AN INFLUENCE FOR PEACE

London, Paris and Tokio All Express Satisfaction With Russia's Selection for Ambassador to America

Special to The Herald.

LONDON, May 20.—In London, Paris and Tokio the appointment of Baron de Rosen as Russian ambassador to the United States is regarded as one of the most reassuring symptoms of the international situation. Even the Russian press expresses satisfaction that "one who understands the American character," and who thus far has been a "faithful interpreter of the Japanese to the white races" is to have charge of Russia's interests in Washington.

Baron de Rosen's avowed connection with the anti-war party is regarded by Paris as giving him special prestige with the Washington government.

British opinion is that Mr. Hay's European sojourn will result in political consequences of the first importance, that Rosen is a diplomat particularly acceptable to him and that he will not retire from office until the crowning work of his cabinet career—the opening of Asia to the traders of all nations—is secured on the basis of the terms pledged by both belligerents.

Wanatah Papers Secretly Organize to Discourage Race Suicide—President Roosevelt Asked to Donate a Motto

Special to The Herald. INDIANAPOLIS, May 20.—With a stork for their emblem and "Race Suicide—Never" for its slogan, the "Croakers' club" of Winatah, Ind., has suddenly leaped into national fame. Its reputation has traveled afar. From communications being received daily by officials it is apparent that the history of the organization has become known all over the country. The club came into existence a year ago last October. It was born in secrecy.

The members declined to discuss its objects or to divulge the exact nature of the organization, but soon the purpose of the club leaked out. At first it was spoken of in whispers. Finally gossippers became brave and talked freely. Now the members of the club admit that their object is to popularize President Roosevelt's idea concerning race suicide.

The membership of the unique club embraces the best people of La Porte county and Postmaster Yarger is one of the prominent workers. The educational interests are represented by Prof. Farnam, but the membership is not confined to the male population, married women being included but girls and single women are barred. Public attention was first directed to the club by a remarkable increase in births in the families of members. President Roosevelt has been asked for a motto.
