is treating France war would be a question only of hours.

WASHINGTON ALARMED

Officials Consider Situation in Europe Decidedly Critical

WASHINGTON, June 16.—There are indications that Roosevelt deeply interested himself in the Moroccan question, although this government has not been formally approached through the channels leading to the state department.

It is certain Roosevelt has repeatedly discussed the condition of affairs with a diplomatic representative of France, Germany and Great Britain, the three powers most interested in the crisis.

Last night Sir Mortimer Durand was with the president over an hour. The British ambassador is thoroughly cognizant of the view his government takes of the trouble between the kaiser and the French government, and there is no doubt he told the president what he could of the situation.

The frequency of Jussarand's visits and those of Baron von Sternberg, the German ambassador, are regarded as specially significant in the crisis which exists.

The kaiser is on terms of friendship with the president that verge on intimacy. It follows that the situation now existing exceeds in importance to Germany any question affecting Russia and Japan.

The German emperor would confer to some extent, at least, with President Roosevelt. If it is Germany's intention to go to war with a desire, as has been suggested, to acquire Denmark and Holland and the control of their colonial possessions the United States government will become vitally interested, as it would bring Germany to the very doors of the United States by the acquisition of the Danish and Dutch colonies in the West Indies.

BONDHOLDERS COME TO AN AGREEMENT

General Meeting Called to Settle System of Venezuela Payments to German Gessellschaft

LONDON, June 16.—A general meeting of the holders of the Venezuelan bonds has been called for June 21 to ratify the contract for the settlement of the outstanding obligations of Venezuela, signed June 7 by the representatives of Venezuela and the Disconto-Gesellschaft, representing the German bondholders and the council of foreign bondholders, representing the British bondholders.

The contract provides for the issue of 3 per cent bonds to the amount of 132,049,290 bolivars gold, redeemable within forty-seven years.

The contract provides that payments for the service of the debt shall be made to the German and British ministers to Venezuela for transmission to the Disconto-Gesellschaft and the council of foreign bondholders respectively. So apparently the British objections to this clause have been overcome.

SOUTHERN PACIFIC WILL TUNNEL THE SIERRAS

RENO, Nev., June 16.—The announcement is made that a contract for the construction of the tunnels through the Sierra Nevada mountains has been let by the Southern Pacific company, and that work on them will begin within a month.

There are to be five tunnels in all and the main one will be five miles long. The first tunnel will start a short distance north of Donner lake and the series will end at the foot of Blue canyon, on the American river.

The contract calls for an expenditure of over \$25,000,000.

OHIO BANKER GETS SEVEN YEARS' SENTENCE

TOLEDO, Ohio, June 16.—Oras M. Burns, the Montpelier, Ohio, banker indicted by the federal grand jury for embezzlement, misapplication of bank funds, false entries and perjury, voluntarily entered a plea of guilty today on one count and was sentenced to seven years in the Ohio penitentiary.

We Are Compelled To Vacate by July 1st

We will give 20 per cent discount on every TRUNK, GRIP and SUIT CASE in the store. Come in before July 1 and let us supply your needs. This is a bonafide sale, no marked-up prices, but an actual 20 per cent discount on all goods.

J. C. Cunningham 222 So. Main St. Los Angeles, Cal.

TWO HOLD-UPS REPORTED TO POLICE IN AN HOUR

HIGHWAYMEN SECURE \$42 AND A GOLD WATCH

One of the Bandits Displayed Policeman's Star and Guarded Victim While Other Searched His Clothing for Valuables

Two hold-ups were reported to the police shortly after midnight this morning and the highwaymen are said to have secured an aggregate of \$42 and a gold watch from their victims.

Walter Nicholson, a landscape gardener of 802 Sunset Boulevard, reported that he was stopped within a block of his home by two men, one of whom displayed a policeman's star and said he was an officer. The man who is said to have displayed the star demanded to know where he was going, and as he was about to reply the second man attacked him from behind and held his arms while his pockets were searched.

The robbers are said to have secured \$15 and a knife from him, but in their haste overlooked a number of checks which he had in his coat pocket. Nicholson says he struggled while the men were going through his pockets and succeeded in striking one of his assailants in the face as they turned and ran down the street with his money.

L. Brenier of 930 East Eleventh street and A. Gloom of 802 Clanton street declare they were held up by two men at the corner of Twelfth street and Stanford avenue about 1 o'clock this morning.

Brenier and Gloom say they were sitting on the curbstone at the street corner when two men approached and asked the time. As Brenier took out his watch one of the men is said to have drawn a revolver and demanded that they throw up their hands.

One of the hold-up men held guard over the two victims with a revolver his partner went through their clothes. A gold watch and \$16 was taken from Brenier and \$11 was taken from Gloom. After searching the two men the highwaymen ordered them to walk down the street two blocks. They complied and the robbers disappeared.

TO ARREST MORE PHILADELPHIANS

CAVEN'S DISCLOSURES MAKE A SENSATION

WEAVER AND ROOT CONFER

Former Secretary of War Arrives From New York and Consults With Mayor and His Advisers

PHILADELPHIA, June 16.—Additional arrests are expected as a result of the startling disclosures made yesterday at the hearing in the case of Select Councilman Frank H. Caven, who is under \$2500 bail on charges of being unlawfully interested in city contracts.

Until an early hour today Mayor Weaver was in conference with two of his legal advisers, former Judge Gordon and Joseph A. Auerbach of New York, representing the committee of seventy in the city reform organization.

Persistent rumors are in circulation to the effect that the men whose arrest is being considered, if it has not already been decided upon, are State Insurance Commissioner I. W. Durham, State Senator McNichol, former Director of Public Works Peter E. Costello and John W. Hill, whose resignation as chief of the filtration bureau was accepted yesterday by Mayor Weaver immediately after the revelations at the Caven hearing, and one or two men who were employed as inspectors in various portions of the filtration works.

Former Secretary of War Root, of counsel for Mayor Weaver, arrived here this afternoon from New York and went immediately to the city hall, where he went into conference with the mayor and the advisory board of fourteen citizens.

Oscar Noll, assistant commissioner of highways, tendered his resignation today and it was accepted by the mayor. Noll has been under suspension since the beginning of the gas lease fight.

The mayor's advisory board was in session in the executive office when Mr. Root arrived. Wayne MacVeagh was admitted to the conference shortly after Mr. Root's arrival.

After the conference had been in progress for about an hour the mayor, accompanied by Messrs. Root and MacVeagh, emerged from his office. They positively declined to answer questions in regard to the meeting.

Director Potter today issued an order to the police which compels them to appear before the assessors, and have stricken from the lists of voters any names which in their judgment should not be in such lists.

INVESTIGATING LAND FRAUDS IN CALIFORNIA

WASHINGTON, June 16.—The secretary of the interior and the commissioner of the general land office are investigating the charge of fraud in the entrance of mineral lands as non-mineral in northern California, as outlined in dispatches from San Francisco. The advice to the department indicate that H. H. Yard and others have made location on large areas of land but the lands have not been patented and will not be until the investigation is completed.

COMMANDERS TO SIGN ARMISTICE

LINEVITCH AND OYAMA WILL MEET IN MANCHURIA

THIS IN LIEU OF PROTOCOL

Russian Mission Will Be Headed by Nelikoff and Maquis Its Will Probably Lead That of Japan

(Continued from Page One.) cates that the rainy season is beginning sooner than usual. Already heavy storms have occurred and if the downpours continue the military operations necessarily will come to a standstill without an armistice, a state of affairs which will last long enough for the plenipotentiaries to meet.

There is some talk that Foreign Minister Lamdorff himself may be one of the plenipotentiaries.

JAPAN REPLIES BRIEFLY

Desires to Negotiate Directly and Exclusively With Russia

WASHINGTON, June 16.—The following is the text of the Japanese reply to President Roosevelt's identical note to Japan and Russia on the subject of negotiations for peace:

"The imperial government has given to the suggestions of the president of the United States, embodied in the note handed to the minister for foreign affairs by the United States minister on June 9, the very serious consideration to which, because of its source and its import, it is justly entitled. Desiring, in the interests of the world, as well as in the interests of Japan, the re-establishment of peace with Russia on terms and conditions that will fully guarantee its stability, the imperial government will, in response to the suggestions of the president, appoint plenipotentiaries of Japan to meet the plenipotentiaries of Russia at such time and place as may be found to be mutually agreeable and convenient for the purpose of negotiating and concluding terms of peace directly and exclusively between the two belligerent powers."

EXPECTS MODERATE TERMS

But English Press Anticipates Another Battle in Manchuria

LONDON, June 16.—The acceptance of Washington as the place for the conduct of peace negotiations is regarded by the London morning newspapers as a great compliment to President Roosevelt's diplomacy and as a further proof of the growing influence of the United States in international politics.

Moreover, it is felt that Japan would not have proceeded thus far unless convinced that there was a reasonable prospect of the negotiations bearing fruit. It is therefore concluded that she has resolved to propose moderate and reasonable terms. Altogether the situation is regarded as much more hopeful than it was twenty-four hours ago, and, as the Daily News remarks in commenting on "one of the most momentous diplomatic actions of modern history, humanity waits for the treaty of Washington."

The Daily Telegraph similarly refers to "the novel part played by the president" and expresses satisfaction at the selection of diplomatists instead of soldiers to conduct the negotiations, because there will be less chance of wrangling over military positions. The Daily Telegraph further says there is reason to believe that the Japanese demands will astonish the world by their moderation.

In view of the Daily Telegraph's position as a mouthpiece of the government this latter statement is important. Little attention is paid here to the sensational stories of European complications, especially concerning France and Germany.

The question of an armistice excites keen interest and the practical cessation of all news from the Manchurian battlefield is being considered the harbinger of another tremendous struggle.

Did Not Protest Against Peace

ST. PETERSBURG, June 17.—An official denial has been issued of reports that Lieutenant General Linevitch and other generals have sent an appeal to the emperor against concluding peace.

BATTLE IMMINENT

Japanese Have Succeeded in Completely Surrounding Linevitch

LONDON, June 17.—According to the Daily Telegraph's Tientsin correspondent a Japanese forward movement has already commenced, in spite of the rainy season.

The Daily Telegraph's Tokio correspondent gives an interesting idea of the situation from a correspondent who is said to be in a good position to know the actual facts. This correspondent says that the principal Russian depot is at Ganshu pass, whence many light railways are being constructed northward to facilitate retreat.

of the Morning Post says the Russian evacuation of Omoro shows that General Kawamura's "army of the Yalu," despite the difficulties met with in traversing a mountainous country, has arrived in time to synchronize with the movement of the Japanese armies and, the correspondent adds, stirring events are imminent.

KAISER ADVISES PEACE

Questions Ability of Russian Officers to Win Victory

BERLIN, June 16.—A writer in Die Grenzboten, who, as the correspondent of the Associated Press happens to know, is in a position to use official sources of information, reproduces the tenor of a letter which the emperor of Germany wrote to the emperor of Russia counseling peace.

According to the writer, Emperor William, in an autograph letter, advised Emperor Nicholas to consider the question whether his officers, quite apart from the willingness of the soldiery to die for him, were able to guarantee him victory. If this were not the case, then Emperor Nicholas would perhaps take into consideration whether the internal problems of Russia warranted a continuance of the war and a further heavy sacrifice of life.

Far from wishing to force advice upon his friendly neighbor, Russia, which would be possible only for a man having full information regarding the country's political and internal affairs, Emperor William offered his friendly service in case Emperor Nicholas considered that the moment had arrived for availing himself thereof.

The writer in Die Grenzboten then turns to a discussion of the probabilities of peace. Evidently giving the German official view, he says the negotiations can only be crowned with success in proportion as Japan's demands approach the minimum rather than the maximum. He commends to Japan Germany's moderation in 1821 in delivering the fortress of Belfort to France.

SECURITIES RECOVERED

Booby Taken From Canadian Pacific Train Located

BELLINGHAM, Wash., June 16.—Through the agency of Jake Terry, who once was a cell-mate with "Bill" Miner in the penitentiary at San Quentin, Cal., securities having a face value of \$84,000 that were taken from a safe of the Dominion Express company in the robbery of the Canadian Pacific train at Mission Junction last September, have been recovered. Miner, who is now at large, is said to have given the information which made the recovery possible at a meeting with Terry near Olympia, Wash.

Terry is authority for the statement that Miner will not be arrested, though the arrest of other persons for complicity in the robbery is probable. Among other things he said: "I knew that the Canadian Pacific train was to be robbed before the robbery took place."

DEATHS OF THE DAY

Mrs. S. A. Gillette, Kenosha, Wis. By Associated Press.

KENOSHA, Wis., June 16.—Susan Atwater Gillette, widow of Judge Gurdin Gillette, and an original daughter of the Revolution, is dead at her home, aged 95 years, due to old age. She was a daughter of John Atwater, an aid of General Washington, who did service as a bearer of dispatches between Washington and Lafayette. She recently was given a medal of honor by the state and national chapters.

Dolphes Brice Hannah, Tacoma By Associated Press.

TACOMA, Wash., June 17.—Dolphes Brice Hannah, a pioneer of Oregon, Washington and California, is dead here aged 83 years. He crossed the plains in 1845, was in the Oregon legislature in 1858, and was appointed U. S. marshal by President Buchanan on the admission of Oregon into the Union and took the census of Oregon in 1860.

Sir J. A. Willox, Liverpool, England By Associated Press.

LIVERPOOL, June 16.—Sir John Archibald Willox, proprietor of the Liverpool Courier, and largely interested in the tobacco trade as a manufacturer in Liverpool and London, died today. He was born in 1842.

Capt. A. C. Freese, San Francisco By Associated Press.

SAN FRANCISCO, June 16.—Captain A. C. Freese, a well known shipmaster and ship owner of this city, who has been connected with the coast trade since 1852, is dead. He was a native of Denmark.

David P. Burr, San Francisco By Associated Press.

SAN FRANCISCO, June 16.—David P. Burr, the well known ranch owner of the San Joaquin valley, is dead. He was a native of Delaware, 63 years of age.

GERMAN BANKERS SUBSCRIBE FUNDS FOR ARMY OFFICERS

BERLIN, June 16.—Prince Guido Huenkel von Donnersmark has undertaken, with Herr Koch, president of the Imperial bank, and the heads of other leading German banks, to raise by private subscription the sum of \$2,500,000, which will be invested and the interest on that amount placed at the disposal of Emperor William for allowances of deserving officers whose incomes are now hardly enough to enable them to remain in the army.

PRESIDENT WILL STOP THE LEAKS

WANTS MORE ECONOMY IN PUBLIC SERVICE

COMMITTEE TO INVESTIGATE

Intends to Have Public Affairs Conducted According to the Most Improved Business Methods

WASHINGTON, June 16.—The president has appointed a committee of five to report to him on improved methods of doing the public business in the various bureaus and departments.

In a letter addressed to Charles H. Keep, assistant secretary of the treasury, President Roosevelt says: "You are hereby designated as chairman of a committee to consist in addition to yourself of the following four gentlemen: Frank H. Hitchcock, first assistant postmaster general; Lawrence O. Murray, assistant secretary of commerce and labor; James Garfield, commissioner of corporations, and Gifford Pinchot, forester, department of agriculture, who are to investigate and find out what changes are needed to place the conduct of the executive business of the government in all its branches on the most economical and effective basis in the light of the best modern business practice."

"Salaries should be commensurate with the character and market value of the service performed and uniform for similar service in all departments. 'The existence of any method, standard, custom or practice is no reason for its existence when a better is offered. 'There should be systematic departmental operation with expert and technical knowledge. The different departments should be substantially uniform. The adoption of methods and the performance of work every step of which is not clearly indispensable should be eliminated. 'A resolute effort should be made to secure brevity on correspondence and the elimination of useless letter-writing. There is a type of bureaucrat who believes that his entire work and that the entire work of the government should be the collecting of papers in reference to a case, commenting with eager minuteness on each and corresponding with other officials in reference thereto. These people really care nothing for the case, but only the documents in the case. In all branches of the government there is a tendency greatly to increase unnecessary and largely perfunctory letter writing. In the army and navy the increase of paper work is a serious menace to the efficiency of fighting officers, who are often required by bureaucrats to spend time in making reports which they should spend in increasing the efficiency of the battalions or regiments under them. As regards this matter, you will please confer with the assistant secretaries of the war department and navy department, and request them to submit to me a scheme for doing away with the evils referred to. In the civil department the abuse of letter writing amounts not merely to the waste of time of the government servant responsible for it but also to the impeding of public business. 'Please consider also the matter of enforcing accountability for property.' It is officially pointed out that the committee's work is not to discover irregularities of business of any officer but to examine the business methods as outlined.
