MAYOR DISLIKES PROPOSED SITE FOR GARBAGE PLANT Mayor McAleer has refused to put his official approval upon the council's act of purchasing a strip of land near the river bed upon which to build the new \$70,000 garbage crematory. Cuban Diarrhoea U. S. soldiers who served in Cuba during the Spanish war know what this disease is and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon, as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by all leading druggists.

GERMAN WOMAN TELLS OF ABUSES

SEEKS DIVORCE FROM HER HUSBAND

MAKES CHARGES OF CRUELTY

Alleges He Would Come Home Drunk and Pinch and Beat Her When She Remonstrated With Him

"Well, you see, judge, it was just dese way. Mein husband, he come home at 1 o'clock in der night and he bring home his drunk friends an' dey all raise a racket and keep me up and I was very nervous. Dat man he often pinch mein arms so dey iss black and blue," testified Mrs. Mary Shoekel before Judge Traak yesterday afternoon in asking for a divorce from her husband, Adolph Shoekel of Allegheny, Pa.

Mrs. Shoekel has been a resident of Los Angeles for the past seven years and lives on East Fifty-seventh street with her daughter.

The plaintiff was the first witness upon the stand and, although she spoke with a slightly German accent, she was able to make the court understand clearly the nature of her grievance. According to the story told by the woman, her husband was a baker in Allegheny and Pittsburgh. He made good wages, but spent the most of his money in purchasing whisky for himself and his friends. When he was in an intoxicated condition, which, according to the allegation of Mrs. Shoekel, was most of the time, he became abusive and beat his wife.

On several occasions he is alleged to have seized his wife by the throat and choked her and, according to her statements, he would come home at midnight and bring a bunch of his intoxicated friends with him. They would proceed to enjoy themselves by smashing bric-a-brac and in other harmless enjoyments. One favorite pastime of Shoekel's was the administration of sundry pinches upon his wife's arms and shoulders, she says.

For this conduct she claimed to have had him arrested twice and on both occasions she relented and secured his release from the jails. She finally decided to see if absence would not make the heart grow fonder and came to Los Angeles. She later wrote to her husband, but received no answer, and the only money sent from the east was \$1 which the father sent as a remembrance to his daughter.

Some technicality as to the printing of the default notice arose and, after the taking of the testimony, the case was submitted.

SUIT INVOLVES MOST OF LAND AROUND EL MONTE

Title Trust and Insurance Company Begins Action Against "Lucky" Baldwin and Others

A suit involving the majority of the land in and around the city of El Monte was instituted yesterday by the Title Trust and Insurance company against E. J. Baldwin and about fifty others.

The action is to quiet titles, which, in El Monte ever since its founding, have been lax. According to the evidence brought out yesterday, the town of Lexington, which is now known as El Monte, was founded by Samuel King, who, after holding the titles to the majority of property in that section for many years, transferred them to his heirs and from that time on the titles were scattered about until some dispute arose between the present owners and Baldwin. A verdict is expected today.

ST. VINCENT STUDENTS RENDER ANNUAL DRAMA

The last event of commencement week at St. Vincent's college was the annual college drama given last evening in the Father Meyer Memorial hall of the college, "The Bells" being the play produced. The play, which is in three acts, is founded on "The Polish Jew." The principal role, that of Mathias, was taken by Edward McCurdy, the winner of the Father Meyer gold medal at the recent senior elocution contest. He sustained his part well throughout the performance, depicting the old man of remorse with naturalness.

The first scene is in the village inn, and introduces the village characters. Rev. F. X. McCabe, C. M., vice president of the college, had charge of the production.

Following is the cast of characters: Mathias, the Burgomaster, Edward McCurdy; Christian, a young officer, Edmund Booth; Wilhelm, brother to Mathias, John Phelps; Hans and Father Walter, farmers, Murray Brannen and George Samples; Franz, servant to Mathias, August Bernard; Doctor Zimmer, August Guercio; president of the court, Charles Reedy; notary, Walter Holleran; mesmerist, Marshall Winne; judges, barristers, guests, etc.

The play was witnessed by Bishop Conaty, who occupied a box with Very Rev. Dr. Glass, C. M., president of the college, several of the clergy and a large and appreciative audience.

HOT ON TRAIL OF OIL TRUST FORCES

GOVERNMENT INVESTIGATING LOCAL AFFAIR

Angelenos Who Hitherto Feared to Make Known Evidence in Their Possession Now Free to Tell What They Know

Quietly and without ostentation the government is pushing its investigation of the conditions of the oil industry in Los Angeles and surrounding fields.

Commissioner Garfield was in Los Angeles a month ago and, following his departure, his assistants, Messrs. Conant and Earl of Washington, D. C., took up the work and have since been actively engaged in collecting evidence likely to give an exposition of the true conditions. Their work will not be completed for several weeks yet, after which the evidence they have collected will be placed before the proper authorities in Washington.

All their findings are held in confidence, and cognizant of this fact a number of Angelenos who have hitherto feared to make known to the government any evidence they may possess, have been free to tell what they know. The commissioners say they have met with the most courteous treatment and nothing has been done to block their investigations.

BROKERS REFUSE TO CERTIFY BONDS

SCHOOL ISSUE OF \$730,000 HELD UP

INJUNCTION IS CONSIDERED

Contention of Irregularity Urged by New York Firm Which May Result in Entire Transaction Going Into Court

Dillon & Hubbard, the New York firm of municipal bond autocrats, have declined to certify to bonds to the extent of \$730,000 issued by the Los Angeles school district.

City Attorney Mathews said yesterday: "In their opinion they bring up many fine points of law which the supreme court of this state has not as yet passed upon specifically.

"One instance is as to the legality of the school district issuing bonds for the building of schools for which the city is taxed for the support. There would be no difficulty here if it were not for the fact that the school district includes a portion of the county not in the city limits. Children in this district would then be able to freely attend the city schools at the expense of the citizens of the municipality. "Just what action the board will take on the subject has not as yet been determined. An injunction suit, instituted merely for the purpose of obtaining an opinion, would have to go through the lower courts, but a mandamus could be considered at first by the supreme court."

PSYCHIC SCIENTISTS HAVE BUSINESS MEETING

The Psychic Science alliance had a business meeting last evening at the McIvor-Tyndall Institute of Psychic Science, 1801 South Grand avenue. Dr. McIvor-Tyndall and others made addresses, and a social as well as an educational time was passed.

The membership of the alliance is increasing rapidly, very many thinking people finding in the exercise of the principles of psychic science the breadth of ideas and the freedom of thought which is the distinguishing feature of the twentieth century.

The president of the society, Dr. Alexander McIvor-Tyndall, has the reputation of being the ablest exponent of practical scientific psychism in the world. Dr. McIvor-Tyndall not only theorizes but demonstrates and proves the applicability of the psychic faculties, soul culture, to everyday life. In this he has interested some of the most educated minds in the city, and an alliance for the purpose of continuing the work was formed about a year ago, and has been steadily increasing in membership ever since.

The alliance will meet again on the last Tuesday evening in this month, Sunday night at Blanchard hall Dr. McIvor-Tyndall will lecture on the engaging topic, "Who Are the Black Magicians?" Music and entertaining psychic phenomena will be features of the evening.

The "Size Between" In Russet Regals IT'S no wonder the Regal quarter-size system has proved such an immediate and immense success. The only wonder is that it wasn't introduced years ago. But under the ordinary manufacturing methods, quarter sizes could never have been provided in a \$3.50 shoe, nor even in a \$6 shoe, without skipping the cost somewhere in the leather or the labor. The Regal "tannery-to-consumer" short-cut has eliminated all the wasteful "extras" that make a part of the price you pay for other shoes—and you get the advantage in better leather, better styles and more of them, better workmanship, better choice of sizes, better shoes—six-dollar shoes at the wholesale price—and nothing else. Regal Quarter Sizes in Women's shoes give you a range of 232 fittings to select from—and it's only necessary to find the one that was designed for you; it's there as sure as you are. And the chances are that your true fit is a quarter size smaller than you have been wearing. Under the ordinary half-size system, by which the fitting of all other shoes is limited, the usual plan is to make sure to fit a shoe big enough; and a half size interval often makes all the difference between too small and too large. \$3.50 "LATONA" Dressy Russet Oxfords with well-worn leather and Cuban heels are correct for street wear throughout the entire season—and this "Latona" model is not only one of the most approved styles but one of the most popular.
