

CORNER STONE IS LAID BY MASONS

BOYLE HEIGHTS LODGE TO BUILD TEMPLE

CEREMONIES ARE IMPRESSIVE

Los Angeles Members Assist Grand Officers in Ritualistic Services, Marching 200 Strong to Site of New Building

Impressive ceremonies were held yesterday afternoon at the laying of the corner stone of Hollenbeck Masonic temple, 1934-64 East First street, Boyle Heights. About 200 Masons of Los Angeles met at Hollenbeck hall, corner First and Chicago streets, formed in line and marched to the site of the new temple.

The following program was rendered: Music, "Onward Christian Soldiers," band; prayer, Grand Chaplain Burke; "Hall Masonry Divine," choir; presentation of trowel to Grand Master Flint by L. V. Youngworth, master of Hollenbeck lodge, requesting the grand master to commence ceremonies; address, Grand Master Flint; music, band; song, "Place We Now the Corner Stone," choir; ceremony of laying corner stone; song, "Corn, Wine and Oil," choir; oration, C. L. Logan; song, "Old Hundred," choir; "Doxology"; benediction, Grand Chaplain Burke; "America."

Twenty articles, including photographs of prominent members of the order and the Los Angeles daily newspapers, were placed in the corner stone. The temple will be a two-story brick structure, 120 feet by 60 feet in size. The ground floor will contain store rooms and the second floor will contain lodge, reception and ante rooms. The second floor will be finished in white enamel woodwork and will be elegantly furnished. It is expected the furnishings will cost about \$5000. When completed it will be one of the finest Masonic temples in the state. The money has been raised by subscription by Hollenbeck lodge. The property cost \$20,000.

VENICE ASSEMBLY TO GIVE MUSICAL FESTIVAL

Prominent Artists of Los Angeles Expected to Take Part in Program

Monday evening the Venice assembly will be the scene of an attractive musical festival that promises to eclipse anything of the kind offered at Venice this season. Scenes from grand opera in costume will be presented by artists well known to the musical circles of Los Angeles. Mme. Geneva Johnstone-Bishop will head the program and render the "Jewel Song" from the opera "Faust." Johann Haas Zinck, the well-known Danish tenor, will be heard in the beautiful aria from the garden scene of "Faust" and in an aria from the Egyptian opera "Joseph in Egypt." Mr. Zinck sings his selections in the Danish tongue. Another popular singer, Miss Florence Johnson, is to sing an aria from the opera "Barber of Seville."

Then will come something that will appeal to the children as well as to the older music lovers. Forty young people from the Dobinson School of Expression will produce a clever one-act operetta, "The Land of Nod." This operetta was given in Los Angeles some time ago and met with such a decided success that the Dobinson school have listened to the continued requests for another performance. "Five Little Steep Heads," from Miss Corella's children's class at Venice, will be borrowed to fully complete the cast of the operetta. The music and costume are unusually attractive.

WEATHER CONDITIONS FOR 28 YEARS ARE PUBLISHED

High and Low Averages for August Since 1877 Is Shown in Report

Data relating to weather conditions for the month of August, covering a period of twenty-eight years, have just been compiled in a report issued by the local weather bureau and show the following average conditions to have prevailed:

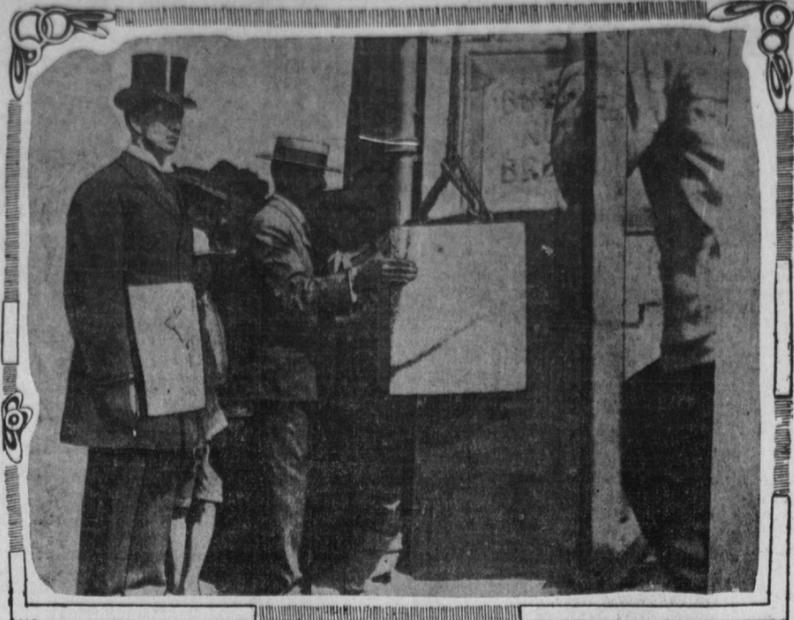

During the period the mean or normal temperature has hovered around 72 degrees. The warmest month was in 1885, which showed an average temperature of 75 degrees. The coldest month was in 1900, when the average temperature was 68 degrees. The warmest day was on August 19, 1885, when the temperature reached 106 degrees. The coldest day was August 30, 1901, with a temperature of 49 degrees.

No "killing" frosts occurred during the autumn months in the twenty-eight years. The average date of "killing" frost in the spring was April 8.

Average precipitation for the month is .03 inch. The greatest precipitation during the month was .61 inch, which occurred in 1889. In various years there has been no precipitation. On August 21, 1889, .61 inch of rain was recorded, the greatest rainfall in any twenty-four hours during the period. During that period there has been no snow-fall.

Fourteen clear days, sixteen partly cloudy days and one cloudy day is the average sunshine calendar for the month.

SCENE AT LAYING OF CORNER STONE FOR NEW MASONIC TEMPLE ON BOYLE HEIGHTS

TRAIN CREWS TO USE TELEPHONE

NEW DEVICE INSTALLED BY SOUTHERN PACIFIC

METHOD INSURES SAFETY

Local Division Will Be Equipped With Invention Which May Be Extended Throughout the Entire System

Telephones, the new instruments which make it possible to use telegraph wires for communication by telephone, have been supplied to all the passenger crews of the Los Angeles division of the Southern Pacific and the railroad company now is prepared to give the invention its first practical test in California.

By means of the telegraphone the conductor or engineer of any train may be placed in direct communication with the dispatcher at the end of the division within two minutes after the train has been brought to a stop. The instrument is hung to the side walls of one of the cars and the connecting wires are brought in contact with the telegraph wire by an extension rod resembling a fishing pole.

It is claimed for the telegraphone that it is of inestimable value in case of wrecks, washouts or other accidents.

Should officials of this division find the invention to come up to their expectations it is the ultimate intention of the Southern Pacific management to similarly equip the entire system.

RAILWAY OFFICIALS GO TO ATTEND CONFERENCE

Differences Between Salt Lake and Southern Pacific Are to Be Discussed Monday

General Freight and Passenger Agent E. W. Gillett and J. Ross Clark of the Salt Lake road left Los Angeles yesterday for San Francisco to attend Monday's conference which is to decide whether or not the Clark property shall be given terminal and switching privileges by the Southern Pacific.

William Sproule, freight traffic manager of the Southern Pacific, will be the representative of his road at the conference and although the question has a large local significance, Assistant General Freight and Passenger Agent Parkyns will not be present.

J. Ross Clark said yesterday that it was his belief that the dispute would be settled satisfactorily to all parties concerned. Railroad officials, who admit they are not on the inside, express themselves as doubtful of the outcome. They say that if the Salt Lake is permitted to use the switching tracks of the Southern Pacific the privilege will be gained only by paying a large sum of money.

Should the conference bring no results it is probable that the Salt Lake will be forced to build its own spurs to get into the warehouse and manufacturing district.

Buy It Now
Now is the time to buy Chamberlain's Colic, Cholera, and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by all leading druggists.

Weddings
A picture is the most appropriate wedding gift—it tells the story in its own way. Our pictures in the home suggest refinement. You will see the beautiful in the art here. We have a large assortment of the most beautiful pictures. Sabin, Vall & Co., 357 S. Broadway.

Counterfeiters at Work
N. K. Kaplan, 937 Temple street, reported to the police yesterday that two young men attempted to pass counterfeit \$5 gold pieces at his store Friday. In the transaction they short changed him of a small amount.

A cigar that you can smoke—Las Palmas.

BROADWAY SWELL POSES AS MASHER

FORCES HIS ATTENTIONS ON FAIR SEX

POLICE ARE WATCHING HIM

Fashionably Attired Young Man and His Smart Equipage Cause Many Complaints, and Women Ask for Protection

Beware of the Broadway "masher." For the past several weeks complaints have been made to the police of a young man who nightly parades Broadway, making eyes at women and girls who have occasion to be on that thoroughfare at a late hour of the evening.

The young man was first noticed about three weeks ago. He rented a horse and ranabout and slowly drove along the west curbing, watching the women as they passed up and down before the windows of the large department stores.

Regularly at 9:30 o'clock each evening the man made his appearance until he came under the notice of an officer on that beat. The officer followed and the result was interesting.

Mr. Masher slowly drove along the curb until he espied a fair young woman coming toward him. Then he leaned out his runabout and said, "Excuse me, you have dropped your handkerchief." The girl turned and saw no handkerchief, but the "masher" had been right in his speculation and he and his new friend were soon driving away together.

Masher Is Mashed

Several nights ago the "masher" met his match. He reached a position about midway between Second and Third streets on Broadway when he espied a coy young woman standing at the curb with her back to the street. Here was the opportunity of a lifetime and while the woman's face could not be seen because of the shadow and because of a heavy veil, the "masher" considered the fine apparel and the pretty figure and resolved to make a "catch."

"Want to take a ride, little girl?" The "little girl" turned and stepped into the runabout before the astonished young man had a chance to assist her, and as the couple drove away the pedestrians chuckled.

Further down the street the young woman nestled over to her friend and, raising her veil, said: "Wha' youah goin' honey?" The "masher" gasped as he saw the ebony features of his "catch" and tried to persuade her to leave, but it took several hours of moonlight driving before she decided to take her departure.

SYNDICATE LEASES PARK; PLANS BIG IMPROVEMENTS

Chutes park has changed hands and the new proprietors, a syndicate headed by Sol Davis of the Golden State Realty company, are preparing to transform it into an amusement place on a scale of grandeur not approached by any similar resort in the west.

Plans are well under way for converting the park into an all-the-year-round resort with the present attractions on an enlarged and remodeled scale, with the additions of features not unlike those which make Coney Island famous the world over. These plans will be matured and put into execution at once, it being expected that the resort will be completed and open for visitors early in the winter.

According to the terms of the lease secured by the syndicate from the Los Angeles County Improvement company, which extends over a long period of years, every feature now included in the fourteen-acre tract becomes the property of Mr. Davis and his associates. The lake will be enlarged and a lagoon for boating will be added.

HANCOCK FAMILY FEARS THE FEVER

MILLIONAIRE'S BODY WILL NOT BE REMOVED UNTIL FALL

DAUGHTER IS RECOVERING

Danger From Disease in the South and Hot Weather Compel Widow to Remain in Los Angeles

Fearful of the ravages of yellow fever, now prevalent in the south, Mrs. Milton T. Hancock, widow of the millionaire inventor who lost his life in an automobile accident ten days ago, will not take the body of her husband to Shreveport for interment until some time next fall.

It was the first intention of Mrs. Hancock and family to leave Los Angeles for Shreveport some time during the coming week, as the fourteen-year-old daughter Eugenia, who sustained injuries in the automobile collision, is now able to travel. The fever epidemic now raging and the heat are features of the southland, however, which the family does not care to meet at the present time.

The body of Mr. Hancock will be left in the vault at Rosedale until the family is ready to accompany it south the later part of September or the first of October. Following the arrival in Shreveport, the body will be placed in the mausoleum, which was erected eight years ago by the late capitalist.

In the interim, the family will remain quietly at their home on South Park avenue.

Mrs. J. C. D. McNatt, a daughter of the deceased, whose residence is in Parkton, S. C., was expected to arrive in Los Angeles yesterday, but up until last night no word had been received from her and it is feared that she may be detained by the fever quarantine now in effect in many of the cities of the gulf states.

Mrs. Hancock's stay in Los Angeles will give her opportunity to settle questions of business, which were before Mr. Hancock at the time of his death, and also to appear in the damage suit which John Saul, the injured milkman, has started against the estate.

WOMAN LOSES HANDBAG CONTAINING JEWELRY

Mrs. H. Kohlmoos, 716 East Twelfth street, lost a handbag at Chutes park Friday which contained a diamond ring, a cluster ring set with diamonds and rubies, an amethyst ring, a chatelaine pin, a chain and locket and \$35. She laid the bag on a seat while she rested and a few minutes later walked away without it. When she discovered her loss the bag had been removed.

Fined for Removing Corpse
J. J. Mattell, employed by a local undertaker, was fined \$5 in police court yesterday for failing to secure a permit for removing the body of a person who died of a contagious disease. Mr. Gloria, who was arrested for burying the corpse without a permit, also was fined \$5, but the penalty was remitted later.

Veteran is Arrested
Robert S. Wright, 87 years old and a veteran of the Civil war, was arrested on the plaza yesterday afternoon on a charge of drunkenness. He fell into the gutter and while lying asleep several boys threw missiles at him. Pedestrians notified the police.
