

WAR ADVOCATES GAINING GROUND

LINEVITCH'S ARMY STEADILY REINFORCED

TRANSBAIKAL LINE FINISHED

Japanese Terms, as Indicated by Sato, Instantly Awakens Chorus of Hostile Criticism in Russia

By Associated Press. ST. PETERSBURG, July 29.—The intimation of Mr. Sato, Baron Komura's secretary, that Japan will claim full indemnification for the cost of the war, in addition to the island of Sakhalin, has gained recruits for the war party from among the class which had hoped Russia would be able to offer the railroads to Port Arthur and Dalny, the island of Sakhalin and other valuable considerations in lieu of a cash indemnity.

The war office is not slackening preparations for continuing the war in case the peace negotiations are unsuccessful. The gap in Gen. Linevitch's army caused by the losses at Mukden has been filled, and the railroad is working to its full capacity carrying reinforcements to form fresh corps.

A dispatch from Irkutsk announces the completion of work on the Transbaikalian line. In order to relieve the traffic on the railroad Prince Hilko, minister of railroad communications, has sent three steamers loaded with rails and a flotilla of river steamers by way of the Arctic ocean to the mouth of the Yenisei river, whence they will be transported up that river to Krasnoyarsk, which is within 400 miles of Lake Baikal.

PRESS GROWS WARLIKE

Even the Liberal Russ Considers Reported Terms Ungenerous. ST. PETERSBURG, July 29.—The tone of the Russian press grows more warlike as the peace conference draws nigh, and the government on all sides is urged to resist humiliating demands, even at the cost of continuing the war.

"Peace terms, as outlined by Mr. Sato," says the Russ, which is the first paper to comment seriously on the Sato interview, "can only be an armistice." The Russ, which has a very large liberal following, calls the Japanese terms far from generous, and says that the chances for the conference ending satisfactorily are not good if Mr. Sato has correctly stated the Japanese position. It appears to believe, however, that Baron Komura's spokesman is acting on "his responsibility," or scents a possible bluff to pave the way for the acceptance of actual and more moderate terms by Japan.

EVEN CHINA WAKING UP

Prominent Diplomat Says She Will Assert Her Claims With Energy. BERLIN, July 30.—The Lokal Anzeiger prints an interview with a prominent Chinese diplomatist, evidently the Chinese minister at Berlin, who says that the dowager empress and the emperor have sent a circular letter to all viceroys and governors and to Chinese ministers abroad asking them to state fully their views as to what attitude China should take in the settlement of the Manchurian question.

The diplomatist further states that China, in determining what indemnity to demand from Russia, will include not only the reduction in public revenues during the war but a sum sufficient to cover damages suffered through years of illegal occupation of that country. He assumes that Japan will keep her word and hand over Manchuria to China, but thinks it will be impossible for China to install the old form of government there since the improvements the Russians and Japanese have introduced make a modern system of administration necessary. The diplomatist concludes: "China will no longer play the role of a mere spectator, but will assert her claims with energy in the Portsmouth negotiations, and interesting developments will certainly follow."

SATO DENIES REPORT

Says He Does Not Know and Is Not Official Spokesman. By Associated Press.

NEW YORK, July 29.—Almar Sato of the Japanese peace delegation has made a statement to the Associated Press in which he denies that he has ever in any interview given the outline of the terms on which Japan will negotiate peace, or that he has announced that Japan will make any demands whatever. Mr. Sato said: "I wish it to be understood that I have never given out anything that could be construed as a demand of the Japanese peace commission, or anything that could be taken as a condition upon which Japan would enter into negotiations for peace. I wish also to deny that I am the spokesman for Baron Komura. Sensational articles have been published which are fabrications, and in which I have been misquoted. I do not know upon what terms peace may be negotiated. I do not know what the Japanese envoys

will consider as peace terms. I know of no humiliating or other demands."

Credentials Are Complete. By Associated Press. ST. PETERSBURG, July 29.—The foreign office today was shown Mr. Sato's reference to the possible delay in the Chino-Japanese negotiations because of faulty credentials and reiterated that there can be absolutely no doubt of the completeness and adequacy of the credentials of the Russian plenipotentiaries. One official said: "Mr. Sato seems to forget that Russia is a civilized nation."

JAPANESE CONCENTRATING

Heat Said to Be Affecting Health of Russian Troops. By Associated Press. KHERSUX, Manchuria, July 29.—Japanese are apparently concentrating in considerable force far to the eastward, with the aim of operating against Kirin and Ningute and getting in between Vladivostok and the Russian Manchurian army.

It is reported that the Japanese have landed at several places in the Siberian littoral between Nicholaisk and Deakastria and that the telegraph line to Nicholaisk has been cut. These landings, however, are reported to have been made by small forces.

The rains are moderating and the roads are passable. The wet weather and the great heat are affecting the health of the army, and intestinal troubles among the troops is increasing. Some cases of typhus have been reported, but the disease is not epidemic.

SEVEN DIE OF YELLOW FEVER

(Continued from Page One.) ters, have been posted in the ticket offices and depots announcing that all tickets bought for any point out of New Orleans are purchased at the purchaser's risk and subject to the restrictions of quarantine. Local representatives of lines which run through Mississippi were advised by telegram today that no person from New Orleans would be permitted to travel on a train through that state without a health certificate. This affects through passengers bound north, east and west. Before they had received these orders ticket offices here had sold large numbers of tickets to people who were to leave tomorrow and Monday, and they are now busy trying to locate these ticket holders in order to save them from being taken from New Orleans and thrown into detention camps in adjoining states.

The increase in the number of deaths and cases of yellow fever today is not causing any anxiety. All but one of the dead are Italians or Austrians who hailed from the original focus of infection. Of the new cases there is only one point of infection among the best element of the population, and that has been traced to the original infection.

HISTORY OF LAMBERTON CASE

The history of the case of yellow fever reported at Lambertton, Miss., the first in that state, has not yet been traced but it is considered improbable that the victim is one of the many Italians who fled from the French market district here. Very probably cases will develop at other points though the danger is constantly lessening because the cordon drawn around New Orleans is now so tight at the east, so far as the emergence of Italians is concerned, that it is doubtful if any more will be able to leave the city.

Dr. Waadin of the Marine hospital service is in charge of the Lambertton case, which has been screened and isolated and is being scientifically treated. It is not considered probable that there will be any spread there. The cleaning continues to be carried on with great energy and every cart to be had in the city has been requisitioned by the public health authorities and citizens' commission. Several hundred barrels of lime are being used in the effort to purify streets, gutters and back yards.

The Era club, one of the chief women's organizations of the city, has volunteered its services to Dr. Beverly Warner, proposing to hold meetings daily in order that the women of the city may be instructed in the crusade against the mosquito and the best methods of ridding the city of them.

SUMMER VISITORS SCARCE

The depopulation of the Mississippi gulf towns of summer visitors from New Orleans continues owing to Governor Vardeman's determination that these towns shall have no communication with New Orleans. The governor said that, leaving out the cost of human life, an epidemic of the fever on the coast would mean \$20,000,000 in depreciation of real estate alone.

Much sympathy is felt here for Memphis, which has been compelled to quarantine against New Orleans against her will. On the first report of the fever that city sent a representative here who put himself in close touch with the situation and saw no necessity for quarantine, and the health authorities would doubtless have kept their promise not to bar New Orleans refugees if the imposition of quarantine by other cities against Memphis had not forced Memphis to act in self-defense. The quarantines have greatly disarranged railroad service. All the roads have had to take off local trains. All the weekly and semi-weekly excursions to near-by resorts have been abandoned. Through trains are carrying large numbers of passengers bound for the north and eastern resorts, but travel south has naturally fallen off, though the hotel registers daily show arrivals of people from the north coming here on business. Mayor Martin Behrman today gave

out the following signed statement to the newspapers:

Mayor Behrman's Statement. "New Orleans is suffering more from the rigid quarantines than from yellow fever, of which the citizens have the fullest control. The mosquito theory is accepted by all our physicians, and there is nothing more remaining to be done but to fight the mosquitoes, which is being done by oiling the gutters and screening and oiling the cisterns. The number of new cases was less yesterday by five than on the preceding day. We have the situation so thoroughly in hand that we believe we will shortly convince the world that by working on the mosquito theory yellow fever will be entirely robbed of its terrors, and shotgun quarantines are senseless as a method of fighting yellow fever, as such methods cannot prevent the spread of the mosquitoes. This is a fight wholly against the stegomyia fasciata mosquito.

"MARTIN BEHRMAN, Mayor." Report was made today of two cases of fever on the Willwood plantation near Waggaman, in Jefferson parish. The patients are convalescent. They admitted that they had entered the parish after traveling the French market district here. Both cases have been screened and isolated and no further infection is apprehended.

NEW YORK WAITING

Can't Tell Yet Whether Suspects Have the Fever. By Associated Press.

NEW YORK, July 29.—With twenty-five cases of possible yellow fever detained under observation on the quarantine islands, Dr. A. H. Doty, health officer of the port, said tonight that twenty-four hours must elapse before it could be absolutely determined by bacteriological tests whether any of the suspects were infected with the dread plague.

Two sailors, both apparently seriously ill, were taken today from the steamer Segurana, which arrived from Colon, and isolated in the pest house on Swinburne island. Eight more of the crew, who had been ill during the voyage but were convalescing, and seven passengers, two from the cabin, all of which showed increased temperatures, were taken to Hoffman island for detention until the results of blood examinations are known. In addition to these, two suspects were taken to Hoffman island today from the steamer Eldorado from New Orleans, and there remain on the island six cases from the steamer Avon, which recently arrived from Colon.

All the suspects held yesterday from the steamer Alamo from Galveston were released today. None of the patients now under detention is regarded as being dangerously ill, but there is apprehension that there may exist among them cases of a dangerous form of yellow fever.

The health officials tonight are making the most thorough tests for this type of yellow fever among the ten members of the Segurana's crew, because four of this crew were taken off at Colon, actually suffering with "yellow jack."

Health Officer Doty believes that within twenty-four hours his tests will show that the remaining sick from the Segurana are merely suffering from an epidemic of low fever.

CHICAGO GAMBLERS ARE CORRALLED BY POLICE

James O'Leary's House the Latest Victim Captured After Two-Hour Desperate Siege. By Associated Press.

CHICAGO, July 29.—After a day of activity against handbooks and poker rooms, Chief of Police Collins' men last night attacked the poolroom and gambling house of James O'Leary at 4187-4189 Halsted street. Telephones, a big telephone switchboard and five poker tables were smashed and confiscated.

Entrance to the place was effected after almost two hours' work by the policemen, who battered down five heavy oak doors and a dozen trapdoors with sledgehammers and rams. Before the police reached the room betting sheets and other paraphernalia were destroyed. The persons in the place when the police made their attack escaped, it is thought, down a shaft three feet wide which extended from the fourth floor to the basement. Trapdoors and other secret exits also were found. One trapdoor led to an exit to an adjoining building.

Earlier in the day gambling raids under Chief Collins' direction resulted in the arrest of forty men, keepers of poker rooms, handbook men and the inmates of the resorts.

Seventeen keepers of gambling resorts and thirty-five inmates of the places were fined in the Harrison street police court.

The flowering evergreen, camellia, was brought from Japan by a Spanish Jesuit named Kamel; hence the name.

KOMURA PREFERS HIGHBALLS TO SAKI

Special to The Herald. NEW YORK, July 29.—Baron Komura and most of those in his entourage have declared in favor of American drinks in preference to the Japanese national beverage, saki. "We have decided the American highball is just about the best drink there is," said Sato, peace envoy's spokesman. "And next to it comes the Manhattan cocktail. Mint juleps are not at all bad, either, and some of our party have no hesitancy in ranking gin rickys even ahead of highballs."

DEPEW RETURNS TO FACE MUSIC

CANNOT FIGHT BATTLE AWAY FROM HOME

HAS FAITH IN EQUITABLE

Says He Will Give Out Full Statement to the Public Showing All His Transactions With the Company. By Associated Press.

NEW YORK, July 29.—United States Senator C. M. Depew arrived tonight from Southampton on the steamer St. Paul. He was met down the bay by a party in a tugboat.

Senator Depew freely admitted that his pleasure trip had been cut short. "I have come back to the storm center," he said. "A man cannot fight his battles three thousand miles from home, and as charges reflecting upon me have been made, I have come back to state my side of the case. Tonight I have nothing to say about the Equitable, or the loan made to the Depew Improvement company, or as to my resignation. As soon as I can get over the papers in these various matters, and get the official news as to what actually transpired in my absence, I will give out a statement that will cover all these matters fully. At the proper time I shall give to the public all the information I have, so that they may know as much as I did about the Equitable and transactions in which I was interested."

Regarding the Depew Improvement company Senator Depew said: "I am only a minor stockholder. This company was started five years before I was connected with it. They used my name at first without getting my consent. Later I came into the company with small holdings. When told of the election of Paul Morton to the presidency of the Equitable the senator said the choice was admirable and that it pleased him highly. Regarding the Equitable and its future he said: "In a year's time the Equitable will be stronger than ever and doing even a larger business than before. The Equitable is all right financially and after this disturbance blows over it will be the same as before, the strongest and best insurance in this country."

Senator Depew frankly discussed "Fads and Fancies." He said that he was a subscriber and had been so for about four years. "I subscribed for the book," he said, "because I liked the work. It was one of the most beautiful works I have ever seen. It cost me for my subscription somewhere around \$1500."

He denied that he had been threatened with the publication of any scandalous or undesirable stories about him if he did not subscribe.

When asked if the work had been re-

represented as "something to help the boys along," he replied: "It might have been. Really I cannot remember that I cost me \$1000 a year to help the boys along. I find it hard to refuse my friends at all times, and that is why I have to speak at so many dinners."

The senator was accompanied by Mrs. Depew and Chauncey Depew, Jr. He will remain in town the rest of the season, save when he makes short runs to some of the near-by summer resorts.

ITALIANS BADLY HURT IN SANTA FE ACCIDENT

California Express Is Ditched Thirty Miles From Chicago and Five Deaths Are Probable. Special to The Herald. CHICAGO, July 29.—The California express on the Atchison, Topeka and Santa Fe railroad, which left this city at 10 o'clock, went into the ditch tonight at Lamont, a village thirty miles southwest of here. Five people, all of them Italians, were taken from the wreck badly mangled, and although none of them was killed outright, it is not thought that they can survive. The passengers in the sleeping cars were not injured.

A relief train was hastily improvised at Joliet, fifteen miles from Lamont, and sent to the scene of the disaster. All of the injured were taken to the hospital in that city. BRYAN STARTING OUT ON TOUR OF WORLD. By Associated Press. MADISON, Wis., July 29.—After a banquet given him by the Democrats of Wisconsin last night Col. W. J. Bryan told a few intimate friends that he would soon start for a trip around the world. The trip will last from one to two years. He will join Mrs. Bryan in Japan, for which country she has started. It is expected he will travel east.

Bank Stock for Sale

At Only \$5 Per Share. Plan to Secure 1000 Stockholders. No One Allowed to Purchase More Than \$500 of Stock. The people of Los Angeles can now buy bank stock at only \$5 per share. No one will be allowed to purchase more than \$500 of stock. Capital is to be increased to \$500,000, making a bank of a thousand small stockholders, thereby becoming the people's bank of Los Angeles. The Consolidated Bank of Los Angeles has decided to place its stock with the people, believing that in securing a thousand stockholders it will secure a thousand depositors at the same time. Investors can purchase such stock with absolute safety as to perfect security, and realize a handsome profit therefrom, as has been done by the owners of stock in the various other banks of Los Angeles. This is the only opportunity ever offered the general public to buy stock in a Los Angeles bank at \$5 per share. We would rather have 5000 stockholders of \$100 each than 1000 of \$500 each. We want the greatest number of stockholders, as the more stockholders there are the stronger the bank. All stock fully paid up at Five Dollars per share. Purchasers can buy from 1 to 100 shares at \$5 per share, but no one can buy more than \$500 of stock. Subscription books just opened. Purchasers can subscribe for 100 shares and pay for the same in weekly payments of Five Dollars, and receive one share of paid-up stock as each \$5 payment is made. We want the people to become the stockholders in the people's bank of Los Angeles. Officers: William H. Carlton (ex-mayor of the city of San Diego), president; J. G. Estudillo (ex-state treasurer of California), first vice president; F. H. Dixon (estate broker and commissioner of California), second vice president; A. W. Carver, cashier. Call or write for further information. Pamphlets, etc., mailed free on application. CONSOLIDATED BANK, 124 South Broadway (ground floor Chamber of Commerce building), Los Angeles, Cal.
