

FINAL GAMES FOR SERAPHIC SQUAD LOCAL TEAM TAKES DOUBLE HEADER FROM OAKS

"RUSTY" HALL IN ACTION

Final Games of First Half of Season in Los Angeles Played in Record Time—Goodwin on Mound

Los Angeles, 3; Oakland, 1. Los Angeles, 5; Oakland, 4. Those who were on hand at Chutes park yesterday afternoon will certainly never squeal over "thirty-five-cent ball." A double victory for the Seraphs, two nine-inning games in an hour and forty minutes, one of them in the record time of 47 1/2 minutes and the reappearance of "Rusty" Hall combined to make the day long remembered in local baseball annals.

The first session between the Seraphs and the Athenians was an errorless affair, both contingents of sphere chasers putting up a gilt-edge interpretation of the national game.

"Rusty" Hall again went into the box for the natives, after a rest of about seven weeks, and showed that he had lost nothing by his extended sista. The big lad had his usual assortment and but for two timely singles in the seventh would have locked the door on the visitors.

Los Angeles clinched the game in the fourth inning, bringing two men to the terminal, and while they secured another completed amble in the eighth, they really didn't need it and rapped it out just for meanness.

Commander Dillon opened the fourth for the local men and dropped the sphere in right for a clean single. Brashear followed with a single rap to left and both men were advanced a notch on Ross' infield out. Cravath lit on the ball for a hard wallop to the center fence and Dillon and Brashear were cleared off the bags.

The third arrived in the eighth, Bernard lifting a single to right and stole the next two bags, while the Greeks were saying unkind things to one another. Oscar Graham, the mound artist for the visitors, became so "het up" over Bernard's progress around the sacks that he threw the ball away and Bernard romped home. The teams went at a two minute clip and when the ninth inning was ended they had been in action just forty-seven and one-half minutes, the game having been called at 1:30.

The northerners brought their lone completed amble around the sacks in the seventh. Kruger tore off a single to left and went to second on "Bobby" Eager's passed ball. Bill Devoreaux came along with the timely clout and Kruger put a dent in the rubber.

There was no rest for the weary between the first and second games, Goodwin doing the twirling for Los Angeles and Busher Pierce for Oakland. The locals brought their first two over in the second. Brashear singled to right and Ross followed with a double to the same pasture, and both men scored on Cravath's hard drive to center. In the fifth after Goodwin's strike-out, Bernard and Flood singled to left and both scored on Smith's hard double to the scoreboard. Smith made it five, riding in on Dillon's double to center.

Two hits and a walk let two Athenians score in the third. Kelly doubled but was forced at second on Stanley's rap to short. Pierce was ticketed and both men came to the terminal on Dunleavy's double to center. In the sixth Dunleavy and Kruger singled and were cleared off the bags on Hogan's double to left.

YACHTS RACE ON SAN DIEGO BAY. FIRST REGATTA UNDER THE NEW RULES.

BOATS MAKE FAIR TIME. Contest Between Twenty Footers Results in Closet Brush Ever.

Held on the Bay—The Winners. West Wind—Start, 1:45:15; finish, 3:49:06; time allowance, 88'; corrected time, 1:54:22.

Special to The Herald. SAN DIEGO, July 30—Members of the San Diego Yacht club had a delightful afternoon yesterday on the bay, the occasion being the first regatta over the official course under the new racing rules.

The twenty-footers furnished one of the prettiest contests ever seen on the bay. The Junior, owned by J. H. Hawley, and the Idle Hour, owned by J. H. Williams, raced neck-and-neck over almost the entire course, both, however, had to be disqualified as they made the mistake of rounding buoy No. 12 at the southern end of the course, instead of the stakeboat near it.

Two hits and a walk let two Athenians score in the third. Kelly doubled but was forced at second on Stanley's rap to short. Pierce was ticketed and both men came to the terminal on Dunleavy's double to center. In the sixth Dunleavy and Kruger singled and were cleared off the bags on Hogan's double to left.

Fabulous Gold Wealth. After making a fortune in the gold fields at Dawson and sinking the money in a steamboat venture in the Yukon river, Nels Peterson went to Nome last fall without a cent and secured a lay on the Portland bench claim, four miles back of Nome, on the tundra, and as a result of his winter's work landed in Seattle two Sundays ago with \$125,000.

The claim on which the immense clean-up was made is owned by the Pioneer Mining company. Mr. Peterson and two associates, Johnson and Anderson, secured the lay for the winter with the privilege of working eight men, including themselves and the cook. When the rich strike was made the eight men cleaned up \$420,000 in exactly sixty days, and the balance during the remainder of the winter. The lay was secured on the regular basis of sixty per cent to the miners and the remaining forty per cent to the owners of the mine.

Allan Kinkaid of the Kinkaid Mill in Virginia City says that the Kinkaid mill is being used at present solely for working ore from the Ophir mine. From \$30,000 to \$50,000 per month is the average output of this mine at present. The ore averages about \$50 per ton. All of the higher ores are shipped to the Selby smelting works. The values of the higher ores average about \$150 to the ton. The mining companies are engaged at present not in taking out all the ore that is capable of production but just enough to pay the expenses of working the mine and of fitting new devices for pumping the water.

Gold Mine Found. Nannie Brown, a colored girl employed on the ranch of Con Conklin, near Homestake, Mont., accidentally discovered a blind lead to a very promising gold mine. Miss Brown is about twenty years of age, and known as the "Queen of Homestake." Last month she was looking for a stray cow, when she noticed a peculiar colored rock close to a gopher hole. She picked it up and returned to the house with it. It was broken open and found to contain a large quantity of gold. The sample was sent to an assayer and was found to run \$1000 to the ton. The claim was immediately located by Con Conklin, S. W. Brown, brother of the discoverer, John Stevens and Miss Nannie Brown. Several samples were also sent to Butte to be assayed, and the assayer reported that the rock carried \$1000 in gold and four ounces in silver to the ton. The locators immediately started working the claim, and have uncovered two distinct veins. One is down about thirty-two feet and the other thirty feet. The veins are improving with depth, and the mine promises to develop into a big producer. On each side of the veins which are about two hundred feet apart, much placer mining has been done, and it is supposed that these beds were fed from the gold deposits now uncovered.

New Gold Field. The Gold Belt Exploration company of Salt Lake City, Utah, has bought all the mining locations in the Providence mountain region in San Bernardino county. The Gold Belt Exploration company is composed of wealthy Utah men, who propose to install mining machinery on the group of claims included in the transfer, having been encouraged to believe that the properties will develop into paying mines. Assays of quartz from several shafts sunk on the ledge along which these claims are located have showed good values in gold, silver and copper.

New Nevada Camp. A story of another promising mining camp comes from southern Nevada. The name of the new region of promise is Atwood, situated about thirty miles north of Sodaville in the Peavine range in Nye county. No rush of men has gone to this little camp as yet and its fame has not yet been sufficient to warrant it a place in the history of mines. It promises, however, to equal either Goldfield or Tonopah in the production of gold and its facilities for water are far above either of these two places. At the present time there are over 100 men in the camp and every day brings a larger number. Stories of wealth from authentic sources come from this new camp. The deepest shaft in the place is only thirty feet and is owned by Sears & Griggs. The streak averages \$300 in silver and \$3000 in gold. The Davis & Workman strike was bonded for \$100,000 to C. A. Norcross & Co. of Reno. The strike was made six months ago.

Bullfrog Gold Mine. Probably one of the richest strikes recorded in the gold mining history of the world is reported to have been made on the property of the Original Bullfrog in the Bullfrog district. The ore uncovered, being half gold, is valued at \$200,000 a ton. The news of the phenomenal find, together with that of a rich strike on the property of the Bullfrog National Bank Mining company has been received in Goldfield. The great strike was made in a drift from the 65-foot level of a shaft that is being sunk on the property. In this same drift less than two weeks ago an immense ore body was encountered which gave values of between \$4000 and \$5000 per ton. The work was pushed more vigorously in the drift, with the result that recently the fabulously rich ore was uncovered. These immense values were taken from two of several streaks found in a vein measuring four and a half feet in width. The two streaks are more than half gold. The average value across the entire vein runs between \$6000 and \$10,000 per ton. The find is in every respect the most sensational and remarkable that has ever been known to the mining world, and if the streaks prove of only short duration the output will startle the universe.
