TIVERTON WINS AT KENILWORTH

BEATS SWEET MARIE IN A MATCH RACE

THE MARE TAKES ONE HEAT

Gelding Victorious in First Two Miles and Captures Long End of Purse—Talent is Hit Hard

By Associated Press. BUFFALO, N. Y., Aug. 10.—Sweet Marie, 2:04 3/4, the McKinney mare which took measure of Tiverton in their match race in Readville, had the tables turned here today in the free-for-all trot, the feature event of the Grand circuit at Kenilworth park, when the Gallie Rex stallion took down first money in the two first heats in 2:05 1-2 and 2:06, the mare getting the third in 2:06 1-4, but after the result of the race had been settled according to the three-heat plan in operation here.

This blow was one of the worst the talent has suffered at the meeting, although Tiverton was supported handsomely.

In the first race today, the 2:14 pace, Kruger was the favorite and he won three straights handily. There was little pooling in the 2:18 pace, Maud Keswick taking three straight heats. The last race of the day was a big upset. It was the 2:15 trot and Thorne Boy stepped out and took three heats easily. Another large crowd enjoyed the sport.

The meeting will be concluded tomorrow. Summary:

First race, 2:14 pace, purse \$1000, three-heat plan—Kruger won three straight heats in 2:08, 2:08, 2:09 1-4. Queen of Spades second, High Seven third. Webster and Bedford Boy also started. Roland Reed was distanced.

HUENEME-SANTA MONICA ROAD BEING BUILT

OPENS UP BEET COUNTRY

Much Land Being Purchased North of Santa Monica by Real Estate Men Who Have Heard of Plans

Largest and most far-reaching of the electric railway enterprises to be undertaken by H. E. Huntington is the building of a coast line between Santa Monica and Huememe, a distance of sixty-seven miles, the completion of which, it is stated on reliable authority, will be accomplished within the next eighteen months.

It is stated that the road will be of standard gauge and will open up a large territory for beet sugar and bean growing, which has hitherto been left untouched by agriculturists because of its inaccessibility and lack of transportation facilities. A number of places along the right of way on the coast offer abundant facilities for the making of beach resorts.
