

MRS. FRED DUBOIS SERIOUSLY HURT

THROWN FROM HER CARRIAGE WHILE IN MANILA

BALL FOR MISS ROOSEVELT

Prospects Are Good for Reduction of Tariff on Tobacco and Sugar

By Associated Press

MANILA, Aug. 12 (morning).—Mrs. Dubois, wife of Senator Fred T. Dubois of Idaho, one of the party now visiting the Philippines with Secretary Taft, was thrown from her carriage during a runaway and was taken to the hospital in an ambulance, where she lay for three hours unconscious.

Mrs. Dubois, who was the guest of Dr. and Mrs. Stafford, was out driving with the Staffords, their 1-year-old baby and its governess. When the runaway occurred she seized the baby and saved its life at the peril of her own.

On the railway trip north of Manila the party will meet with an ovation at every place where a stop is made.

Now that the party has been in the islands for over a week, a consensus of opinion of the majority of its members on the free admission of Philippine island products into the markets of the United States has been obtained, and it can be stated without fear of contradiction that the attitude of the leaders of the opposition to the policy of a reduction of the Dingley tariff on sugar and tobacco has materially changed since their arrival here.

Representative E. J. Hill of Connecticut, one of the leaders in the house of the opposition to the further reduction of the tariff on tobacco, declares himself in favor of the free admission of cigars and tobacco from the islands into the United States.

Will Favor Free Trade

Representative Swager Shirley of Kentucky, an American tobacco growing district, says he will favor the free admission of island tobacco, being convinced that the cigars from there will not compete to any appreciable extent with those manufactured in America.

It can be stated, upon no less authority than Representative C. H. Grosvenor of Ohio, that the Cooper bill, which was favorably reported upon by the house committee at the last session of congress, will now be amended, providing for free trade, instead of the proposed reduction of 25 per cent on the prevailing Dingley rates.

Representative Grosvenor says: "An amendment will be offered by Representative S. E. Payne of New York, chairman of the committee on ways and means, providing for the free admission of Philippine products, and the outlook for its passage is very favorable."

Secretary Taft's speech, definitely defining the political status of the islands and the possibility that their independence will be deferred for a generation at least, and probably longer, has strengthened the administration on all hands, and local American merchants are highly gratified at the attitude taken by the administration in respect to the present and future government of the islands.

A grand ball was given tonight in the Marble hall of the government house in honor of Miss Alice Roosevelt by the citizens of Manila. It was the most brilliant and elaborate function in the history of the city.

Miss Roosevelt wore a vice regal native gown, which was presented to her by several Filipino ladies who were occupied for three months in making it. Thousands of people attended the ball, many of the foreign and American ladies wearing native costumes.

LOSES \$3000 FROM SAFETY DEPOSIT BOX

Chicago Widow Accuses Bosom Friend Whom She Entrusted With Key of Being Thief

By Associated Press

CHICAGO, Aug. 12.—Mrs. Mary Genders, a widow, 21 years old, has lost \$3000 from her safety deposit box in the Illinois Trust and Savings bank, and yesterday she swore to a warrant charging Charles C. Hammit with the theft. The money was paid her by a life insurance company after the death of her husband.

Hammit, who had been friendly with the Genders, advised Mrs. Genders to put her money in the safety deposit vault until a good opportunity for investment was offered, and told her that he had better keep one of the keys as she might lose the one she had. When

Mrs. Genders went to the safety deposit vault yesterday her money was gone.

"He is the last man in the world I would think would do such a thing," said Mrs. Genders last night. "Why, he actually knelt down and prayed at my husband's coffin."

The police have traced Hammit to Cincinnati.

TWELVE HUNDRED SUITS AGAINST WESTERN ROADS

Law Providing for Humane Shipment of Cattle is to Be Enforced

By Associated Press

SAN FRANCISCO, Aug. 12.—Twelve hundred suits involving a penalty of from \$100 to \$500 in each case, or a total maximum of fines of \$600,000, are to be brought against the Southern Pacific, Santa Fe, Union Pacific and other western roads for violations of the so-called twenty-eight hour law providing for the humane shipment of cattle. It is at the instance of the secretary of agriculture that this litigation has been taken up by the attorney general, and the suits will soon be commenced by the various United States district attorneys.

The law under which this wholesale suit is to be done has been on the statute books since 1873, but the railroads have never given it much thought and still less observance. It requires railroad companies transporting cattle from one state to another to unload the animals after they have been in the cars for twenty-eight hours, feed and water them and give them a rest for at least five hours.

DROUIN'S DEATH BRINGS CURIOUS REVELATIONS

Wife Spent Hours Daily Warning People of Coming Extermination by Means of Electric Fluid

By Associated Press

PEORIA, Ill., Aug. 12.—There were unusual developments at the inquest over the death of Edward Drouin. Mrs. Drouin is incarcerated in the county jail, seemingly deranged. The interior of her home is filled with furniture of the strangest character, and the walls are covered with facsimile reproductions of the "coat of arms" adopted by Drouin and his wife as "Empress of the Universe." With an energy almost inconceivable, Mrs. Drouin spent hours of each day writing letters to prominent people in this city, warning them of attempts upon their lives and asserting that a band of people were threatening the extermination of the populace by turning on the "electric fluid."

Their apartments were found to contain vast quantities of mineral and medicinal waters, designed to destroy the efforts of the people with the electric fluid.

CRACK AUTOMOBILIST INJURED WHILE RACING

Earl Kiser Loses Control of His Machine and Is Thrown Violently, Striking on a Post

By Associated Press

CLEVELAND, Aug. 12.—In warming up for today's races Earl Kiser, one of the most famous auto racers in the country, ran into the fence. He was hurled from his machine, striking on a post. His left leg was reduced to pulp and will have to be amputated. He was otherwise bruised and cut. The car took fire and was partially destroyed.

This accident spoiled the free-for-all races. Kiser was Webb Jay's chief rival. He had just completed a mile in one minute and three seconds, and was trying to pocket another car when he lost control of his machine and it dashed into the fence.

STRUCK ON PIKE'S PEAK

Woman and Children Complete Ascent, Though Knocked Unconscious

By Associated Press

COLORADO SPRINGS, Colo., Aug. 12.—Mrs. L. M. Cadwall and two sons, Roy and Ray, aged 15 and 10 years, of Des Moines, Iowa, went through the thrilling experience of being struck by lightning on the side of Pike's Peak and living to complete the trip to the summit and back.

They started to walk to the summit and at Windy they were overtaken by an electric storm. A sudden flash of lightning sent them to the ground unconscious. They were found by a man walking down the cog road and taken to a near-by house, where they remained for the night.

The woman was burned about the lower limbs but was able to complete the walk to the summit and returned here by train.

SEARCH FOR DIAMONDS IN DEBRIS OF FIRE

NEW YORK, Aug. 12.—A diamond hunt is going on in the ruins of the Lackawanna railroad terminal at Hoboken. There was a vast quantity of baggage in the building at the time of the fire and none of it was saved.

Among other things consumed was a trunk, said to have contained \$15,000 worth of diamonds owned by a wealthy New York woman. Private detectives are watching the laborers engaged in clearing away the debris, but no trace of the diamonds has yet been discovered and the railway officials refuse to confirm the story of their loss.

PROMINENT LAWYER KILLS HIMSELF AT McCLLOUD

REDDING, Aug. 12.—Walter Ferral, a prominent lawyer and brother of Robert Ferral, assistant district attorney of San Francisco, committed suicide at McCloud last night. He was found this morning in a vacant lot with a bottle that had contained carbolic acid in his hand. He died soon afterward. Despondency was the cause,

JAPAN'S FIRST DEMAND ARGUED

DISCUSSION ON MAIN ISSUES IS POSTPONED

WITTE OBJECTS TO SECRECY

Says Russian Plenipotentiaries Stand Ready to Publish Full Proceedings, Which, in Reality, Concern the Whole World

Continued From Page One

It is asserted that Mr. Witte would never have consented to the discussion of the terms had he not been prepared to yield on the question of Sakhalin.

Conditions Discussed Seriatim All this appears yet to be largely surmise and deduction, but certainly the curtain of mystery which has now been rung down might easily conceal important maneuvering from the public gaze. The Russian reply with its non-possessum as to indemnity and Sakhalin had been presented in the morning. Yet, in spite of this fact, at 3 o'clock the plenipotentiaries met and, after agreeing to discuss the conditions seriatim, entered upon the consideration of the first of the Japanese terms.

The first condition was of minor importance, one of those which Russia had passed upon as conditionally acceptable as a basis of discussion, yet little progress was made. Four hours were spent in debating it, but no conclusion was reached. As there are twelve conditions and this one is of small importance, the outlook is still gloomy. The plenipotentiaries at 1 o'clock adjourned until tomorrow afternoon at 3 o'clock. The Japanese wanted to hold a session in the morning, but M. Witte would not agree to this, as it was Sunday.

Both of today's sessions are described as "friendly," but no details are divulged. M. Witte, however, makes no concealment of the fact that the rigid secrecy which the Japanese insisted upon imposing upon the proceedings is distasteful to him. With much earnestness he spoke tonight to the Associated Press correspondent upon the subject. At the time he was laboring under considerable excitement because of the published assertion which had been called to his attention that he had pleaded for an armistice. For the dignity of Russia and the pride of his country he asked that an absolute denial be given to the report.

Recurring to the question of the secrecy of the proceedings he said he did not understand the Japanese desire to conceal what was taking place, nor could he appreciate the logic of the arguments adduced in support of their position.

"We desire," said he, "that everything pertaining to the conference should be done in the daylight. Russia is ready to be judged by the whole world. We have nothing to conceal and nothing to fear. Before the conference began all sorts of reports and misstatements emanated from the other side. Now that the world needs enlightenment, now that the moment has come to face the supreme tribunal of public opinion, we are not permitted to place before the world the evidence in our possession from which a just verdict could be returned as to the issue between the belligerents. The Russian plenipotentiaries stand ready to publish the text of the Japanese conditions, the full reply of Russia presented this morning, the diplomatic notes that have been exchanged and the minutes of the sitting. The issue now being tried at Portsmouth is not only a question of peace or war between Russia and Japan but one which might produce a general conflagration involving the shedding of blood in many countries."

Russia is Not Vanquished

Upon the two points—indemnity and cession of Sakhalin—the Russian reply declines to admit discussion. Others it accepts and still others it accepts conditionally. It is long, taking up the conditions seriatim and setting forth the reasons and arguments for the decision reached in each case. The argument against the payment of an indemnity or the cession of territory is based upon the general theory that Russia is not responsible for the war and that Russia is still prepared to continue the struggle and has sought this meeting, not as a vanquished country begging for terms but because she sincerely desires peace if honorable peace is possible. Therefore she could neither agree to foot Japan's bill for expenses nor cede territory. The argument can be fairly stated as follows:

Russia is not vanquished. She has suffered reverses, but she is not obliged to accept peace at any cost. She desires peace now as she always has, even before Japan opened hostilities.

That Russia did not court or want war is stated as being evident from the fact that she was not prepared for it either in a military, naval or administrative sense. Russia could possibly be properly accused of only one thing—of having given the occasion which Japan was seeking and for which Japan had been preparing for ten years, to make war upon her. The responsibility for the war, therefore, falls upon Japan, not upon Russia.

COMPLAIN OF TREATMENT

Hotel Restrictions Prove Annoying to the Foreign Envoys

PORTSMOUTH, N. H., Aug. 12.—Conditions here, so far as the arrangements for the comfort of the plenipotentiaries go, are far from satisfactory and in any accurate reflection of events here it is impossible not to take notice of the complaints heard on all sides.

The fact that foreigners do not live as Americans do has not been taken into account by the hotel management and little effort has been made to provide for their personal comfort. For instance, the Russians, who are in the habit of drinking tea at odd times, cannot obtain their customary beverage except during the regular hours.

A group of foreigners was sitting on the veranda last night indulging in cooling drinks, when one of the hotel employes appeared and without the slightest warning turned out all the lights. An immediate protest was made, but the only reply was "Lights must be out at 12:30." It was one minute past that hour. Indignant at this treatment one of the party after some difficulty found the key and turned on the lights.

If one of the envoys, after working in his rooms until midnight, wishes something to eat it is impossible to get it. The Russian mission was forced to leave the dining room because Mr. Witte could not smoke while drinking his coffee. They are now crowded into a small room on the second floor, where two tables are arranged close together. The Japanese preferred to forfeit the luxury of a cigarette with their coffee rather than sweeter in a warm room.

One of the most important members of the Russian mission has been forced to occupy a room without a bath, and he is not hesitating to let his dissatisfaction be known. Mr. Takahira, the Japanese minister, has been far from well and Mr. Witte suffers from the heat and the mosquitoes. Great welts were noticed on the forehead of one of the envoys yesterday, the bite of mosquitoes having poisoned him.

One Solitary Vessel Returns

KIEL, Aug. 12.—The Russian transport Anadyr, which escaped capture by the Japanese after the battle of the Sea of Japan, has passed the Great Belt (one of the straits of the Baltic sea) on its home voyage to Libau. This is the only vessel of Admiral Rojestvensky's fleet that has returned.

C. M. SCHWAB TO STUDY SHIPBUILDING IN EUROPE

By Associated Press

NEW YORK, Aug. 12.—Charles M. Schwab is preparing to go to Europe for a three months' study of continental shipbuilding industries with a view on his return to America of putting into operation a system of shipbuilding plants along the entire Atlantic coast. Each plant is to have such an identical mechanical equipment so that a vessel built in any one of the yards and in need of repairs to regular type of machinery can put in at the nearest yard and there be refitted as promptly as would be possible at the yard which built the vessel. Mr. Schwab's study will be made in the interests of the Bethlehem Steel company.

ST. PETERSBURG, Aug. 12.—The first anniversary of the birth of the Grand Duke Alexis, heir to the Russian throne, was celebrated in a festive manner throughout Russia today. Banners are flying in all the streets and the capital is brilliantly illuminated tonight. All the government offices with the exception of the foreign office were closed today and the ministers of state, the heads of departments and all persons whose rank entitles them to admission to the court went to Peterhof to offer their felicitations to the emperor and empress and to participate in a special national mass.

A statement is published in the Official Messenger today announcing that the project for a national assembly had been laid before the emperor for signature. The statement outlines the province of the new body, quoting the words of the project that "Delegates of the people shall be summoned to participate in the preliminary study and discussion of progressive preparations which go up through the council of the empire to the supreme autocratic authority."

The committee has been engaged in elaborating the manifesto, of which Constantine Petrovich Pobiedonostzeff, chief procurator of the holy synod, is chairman, approved the draft at this afternoon's session. It may be published tonight, but this has not been determined.

TRANSPORT'S STORES ARE UNFIT FOR FOOD

By Associated Press

SAN FRANCISCO, Aug. 12.—The naval transport Sloane arrived today from Manila via the Orient and island ports. In her cabins were 105 passengers, nearly all of whom were naval officers who have been relieved from duty with the ships of the Asiatic fleet. In the steerage were nearly 600 blue-jackets and marines whose terms of enlistment have expired or are soon to expire. Soon after leaving the Orient a large part of the provisions on board were found to be unfit for food and until Honolulu was reached the men in the steerage were on short rations.
